

THE *Henry Field* ROSE

We introduced this beautiful new rose in the spring of 1950 as a memorial to Henry Field. Of course, we had grown and tested it several years before that, and Henry had seen it, and he liked it so much that he was happy that we were going to name it after him.

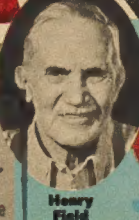

The "Henry Field" is one of the new red strains of Brownell hybrid tea roses. It is extra hardy—stands heat and drouth and cold down to 20 below zero. The flowers are big and rich red and beautiful. The foliage is bright green, and the plants make a broad, vigorous growth and bear an abundance of large 60-petal blossoms.

We want all Henry Field's friends to have one of these roses so are propagating them as fast as possible. But up to now the demand has exceeded supply, so please order early. No. A1008, 2.00 each, postpaid.

Plant Patent No. 841

Henry Field CATALOG FOR 1952

HENRY FIELD SEED and NURSERY CO. SHENANDOAH, IOWA

Henry Field

"Front Cover" STRAWBERRIES

For this "Front Cover" Strawberry offer we chose for you two of the most reliable and popular varieties of strawberries—ones that will do well almost anywhere and be most sure to give you plenty of good berries through the strawberry season. If you want to play safe, order this collection: **50 SENECA DUNLAP**—the standard, best known

June-bearer. **25 MASTODON**—our most popular everbearer, and one of the best. **84216X—ALL 75 PLANTS FOR ONLY 2.49, POSTPAID.** FREE GIFT: 5 plants of the new everbearer, Superfection. If you find you like them, this will be enough to give you a good start.

25 SUPER GLADIOLUS

Guaranteed to Bloom Beautifully This Year

Blooming-size bulbs. Good named varieties in a great assortment of colors.

This is a collection of choice Gladiolus of plain and ruffled petals—all named varieties you will be proud to grow. We'll see that you get every color of the rainbow—red, pink, white, blue, yellow, lavender, orange, and smokies and many combinations and shades of these colors. And every bulb is a good-sized one guaranteed to bloom this year.

GIANT Ruffled CALIFORNIA PETUNIAS

These are not ordinary petunias; they have extra large flowers of brilliant, beautiful colors. The plants have a dwarf growing habit, but they bloom freely and the flowers are huge. Wonderful for porch boxes, hanging baskets, or bedding.
1190—Mixed Colors. Pkt. 35c; 3 for 95c, ppd.
1188—Dark Shades. Lots of deep red and wine shades. 35c; 3 for 95c, ppd.
1179—Light Shades. Pink and lavender. 35c; 3 for 95c, ppd.
2976X—1 each of all three for 89c, ppd.

NEW Wade SNAP BUSH BEAN 1952 All-America Winner

118—This is one of the very few vegetables ever to be awarded a gold medal in the All-America trials. Pods are deep green, 5 1/2 to 6" long, smooth, slender. Seed is reddish brown, round and right, keeping pods well off ground. Grows up and to bean Mosaic and powdery mildew. Quality is tops for canning or freezing. Packet 25c; 1/2 lb. 80c; 1 lb. 75c; 3 lbs. 1.79, ppd.

NEW ZINNIA "PEPPERMINT STICK"

No. 1299—This is something really new in Zinnias. The flowers are striped in many wonderful combinations of red and white, red and yellow, pink and white, orange and yellow, purple and white. One of the best "cut and come again" types; will produce loads of cut flowers until frost if kept picked. Plants medium size. Packet of 50 seeds for 15c, ppd.

The Bronze Medal awarded to Henry Field's "EARLY SURECROP" HYBRID CUCUMBER by the All-America Selections Committee.

HOW TO GROW CUCUMBERS

Cucumbers like rich soil but do fairly well most anywhere. Plant seed liberally because bugs sometimes take some of the seedlings. Don't crowd cucumbers—give them plenty of room. Make the hills at least 4 x 6 feet and more if you have space. Plant when the ground is warm and figure about 36 hills to a packet of seed or 100 hills to the ounce. For late pickles, plant in June.

STRAIGHT EIGHT

Fine Slicer

366—(66 days.) Big, vigorous grower. Cylindrical, uniform, dark green, small seed cavity, thick flesh of fine quality. One of the best. Pkt. 12c; oz. 39c; ¼ lb. 89c; 1 lb. 1.98, postpaid.

SPECIAL CUCUMBER OFFER

- 1 pkt. National Pickle
- 1 pkt. Early Fortune
- 1 pkt. "Giant Imp'd" Long Green

300% All 3 Postpaid for only 25c

CLIMBING CUCUMBER

366—(58 days.) A distinct climbing variety, used to cover trellises and fences. Cucumbers are dark green, very uniform, very attractive. Pkt. 10c; oz. 35c; ¼ lb. 75c, postpaid.

Famous EARLY FORTUNE

Disease Resistant

353—(60 days.) One of the finest of the medium early sorts. Disease resistant, a very vigorous grower. Flesh white, crisp and very tasty. Produces an enormous crop of dark green, high-quality cucumbers. Holds color well and has a small seed cavity. Pkt. 10c; oz. 35c; ¼ lb. 98c; 1 lb. 1.98, postpaid.

DARK GREEN SLICER

364—(60 days.) Is rich dark green and slices remarkably well. Delicious flavor. Straight, rather blunt ended. Early, bears well; doesn't have "nubbins." A favorite of everyone. Pkt. 10c; oz. 33c; ¼ lb. 98c; 1 lb. 1.98, ppd.

"GIANT IMPROVED" LONG GREEN

361—(68 days.) A medium late variety which has a small seed cavity and is ideal for slicing. Vines are vigorous and long-lived. Produces

abundantly. One of the most popular and widely used varieties. Pkt. 12c; oz. 34c; ¼ lb. 90c; 1 lb. 1.95, postpaid.

SEND YOUR ORDER TO

Henry Field Seed & Nursery Co.
SHENANDOAH, IOWA

NATIONAL PICKLE

352—(54 days.) Makes finest of crisp uniform pickles. Bears as long as kept pickled. Ideal shape. Pkt. 10c; oz. 35c; ¼ lb. 73c; 1 lb. 1.98, ppd.

HEINZ PICKLE

356—(56 days.) Wonderful for small pickles. Cylindrical shape. Rust resistant. Heavy bearer. Pkt. 10c; oz. 35c; ¼ lb. 75c; 1 lb. 1.98, ppd.

EVERBEARING PICKLE

357—(52 days.) Heavy bearer of crisp, 5-inch pickle cucumbers. Pkt. 10c; oz. 35c; ¼ lb. 75c; 1 lb. 1.98, ppd.

WHITE WONDER

363—(58 days.) Very popular novelty because white. Heavy producer. Has fine flavor. Well worth trying. Pkt. 10c; oz. 39c; ¼ lb. 99c, postpaid.

WEST INDIA GHERKINS

350—(60 days.) For mixed pickles. A little, oval-shaped prickly pickle. Heavy bearer. Strong grower anywhere. Practically bug an case proof. Pkt. 10c; oz. 35c; ¼ lb. 75c, postpaid.

OHIO 31

354—(55 days.) One of best new pickles in years. Resistant to mosaic. Very early. Strong, vigorous grower. Flesh thick. Seed cavity small. Pkt. 15c; oz. 39c; ¼ lb. 95c; 1 lb. 1.95, postpaid.

Henry Field's Garden PEAS

INOCULATE ALL PEAS

Be sure to inoculate all peas, beans and sweet peas. NITRAGIN inoculation will help you get bigger yields and faster growth. Takes just a minute to treat the seed—no trouble at all. A 15c packet is enough for 5 lbs. of seed. Full directions on packet.

4015—NITRAGIN 15c per packet, postpaid.

Henry Field peas are all northern-grown and carefully selected for disease resistance, type and vigor.

Plant the smooth varieties just as soon as you can get into the ground. Wrinkled varieties a little later. For a fall crop, use early sorts, planting them about the middle of August. One pound of seed to a 50-foot row.

Wrinkled EARLY ALASKA

Tender Tiny Peas

159—(55 days.) The new wilt-resistant Pea. Easiest way to describe it is to say it is a wrinkled Alaska. Comes into bearing in 55 days; vine grows like Alaska. Pods are 2½ to 3 in. long and are fully as hardy as Alaska. Canners plant lots of it. Peas are tiny, tender and sweet. Triple size pkt. (3 oz.) 15c; ½ lb. 27c; 1 lb. 45c; 3 lbs. 1.15, postpaid.

"All Seasons" Pea Collection

For a continuous supply of peas—early, main crop and late. Fine varieties.

½ lb. Extra Early Alaska—Wilt-Resistant.

½ lb. American Wonder—main crop.

½ lb. Alderman—the late one.

155X

All 3 for only 69c, ppd.

◀PREMIUM GEM—The Extra Early One

154—(58 days.) Probably the most popular of the early garden peas. Vines dwarf, about 15 in. in height. Blunt ended pods 2½ in. long with 6 to 7 peas to the pod. Very productive, fine flavor, considered by many to be sweetest of early peas. Triple size pkt. (3 oz.) 12c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 1.10, postpaid.

ALDERMAN (Not Illustrated)

167—(75 days.) The big, prolific, late pea. A vigorous English variety which we class as late. Pods are large and the vines require support. Triple size pkt. (3 oz.) 18c; ½ lb. 25c; 1 lb. 40c, postpaid.

AMERICAN WONDER The Drouth Resister

149—(60 days.) Always comes into bearing ahead of the other wrinkled ones. The dwarf vines grow about 1 ft. tall and are covered with medium size pods. Peas are of good quality, tender and of fine flavor. Especially well liked because of its resistance to drouth. Triple size pkt. (3 oz.) 15c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 98c, postpaid.

EARLY GIANT PEA

(however they'll do better if staked). Pods are large. Filled with 7 to 9 great big sweet peas. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 50c; 3 lbs. for 1.10, postpaid.

The Biggest and Best

166—(62 days.) Vigorous dark green vines that grow 20 to 24 inches but do not need staking

LITTLE MARVEL—Tender, Heavy Yields

152—(62 days.) It will be a long time 'til we find a better one than this. For quality, yield, earliness, or any other point, it's hard to beat. A vigorous grower and a heavy yields. Vines grow about 18 in. high and are loaded with dark green, nearly round, square ended pods about 3 in. long. 7 or

8 large peas to the pod. 3 quarts of pods will often shell out a quart of peas. Tender and sweet, and of finest quality. One of the favorites because it's one of the best. Triple size pkt. (3 oz.) 18c; ½ lb. 30c; 1 lb. 50c; 3 lbs. 1.10, postpaid.

BLACK EYED PEAS (Not Illustrated)

168—Genuine old-fashioned southern kind. Really more of a bean than a pea. Use green in the summer-time and dried for winter. Grows as easily as any other garden peas. Triple size pkt. (3 oz.) 10c; ½ lb. 24c; 1 lb. 38c; 3 lbs. 1.00, postpaid.

FREEZONIAN

Best for Freezing

150—(63 days.) An All-America winner especially recommended for freezing, as skin does not loosen and peel. Peas large and tasty; quality excellent. Vines grow about 30 inches tall, producing dark green blunt pods about 3½ inches long. Resistant to fusarium wilt. Although especially fine for freezing, it is also ideal for canning. An excellent variety for both home and market gardeners. Triple size pkt. (3 oz.) 15c; ½ lb. 30c; 1 lb. 49c; 3 lbs. 1.25, ppd.

EXTRA EARLY ALASKA

Earliest Pea Known

146—(56 days.) One of our biggest sellers. An improved, wilt-resistant strain of an old favorite. Very hardy and a heavy yields. Sure to crop, easy to grow. Medium size, well filled pods. Peas are of excellent quality, and, as they ripen all at once, are easy to gather. If you want a lot of good early peas, plant this one. Triple size pkt. (3 oz.) 12c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 95c, ppd.

EDIBLE PODDED PEAS

160—DWARF GRAY SUGAR. (62 days.) Here is the pea that you can eat just like green beans—pods and all. Not only does this eliminate the shelling, but you'll get more food value this way. And best of all, they are sweet and delicious. Easy to grow, too. Triple size pkt. (3 oz.) 12c; ½ lb. 25c; 1 lb. 40c, postpaid.

LARGE PODDED MARVEL The Little Giant Marvel

153—(65 days.) Like Little Marvel, but pods are larger. Sweet, tender and juicy. Has dwarf vine. Well filled pods always contain plenty of large peas. Triple size pkt. (3 oz.) 18c; ½ lb. 30c; 1 lb. 50c; 3 lbs. 1.25, postpaid.

GREEN BEANS

A pound will plant 2 rows, 50 ft. long. Cover beans about 2 inches. Space rows 20 to 30 inches apart in rich, warm soil. Make first planting when severe frost damage is past.

◀ TOPCROP—Outyields All Others!

112—(51 days.) The 1950 All-America Gold Medal green snapbean developed by the U.S.D.A. Outyields all others! Resistant to mosaic. Pods straight, smooth, 5½ to 6 inches long. In addition, are completely stringless, fiberless and very meaty. Quality unexcelled. Very good flavor. Can't be beat for cooking and excellent for freezing, canning and market. Seeds are round, mottled brown. Triple size pkt. (3 oz.) 15c; ½ lb. 40c; 1 lb. 63c; 3 lbs. 1.45, ppd.

ALL AMERICA BEAN OFFER

Two Prize Winners for only 60c, ppd.

125X
½ Lb. TOPCROP Green Bean
1950 All-America Winner
½ Lb. CHEROKEE Wax Bean
1946 All-America Winner

WADE BUSH BEAN—1952 Gold

Medal Winner

117—(54 days.) This brand new bean, like Topcrop above, has the distinction of being one of the very few vegetables ever to win an All-America Gold Medal. We can't say enough for it! Pods deep green, 5½ to 6 in. long, round and slender. Pods kept off ground, as bush grows upright. Resistant to mosaic and powdery mildew. Tops in quality and flavor. Because of its smoothness and uniformity is ideal for canning and freezing. Also good market variety as is "slow wilting." Triple size pkt. (3 oz.) 25c; ½ lb. 50c; 1 lb. 75c; 3 lbs. 1.75, ppd.

TENDER GREEN

Entirely Stringless, Fiberless

106—(54 days.) An extremely meaty, fine quality, smooth green bean. Pods are plump, long and dark green in color. Completely free from fiber and strings. Plants are of strong, upright growth and bear an enormous crop of beans. One of the best green beans on the market today. A dandy for home cooking, canning and freezing. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 55c; 3 lbs. 1.25, postpaid.

BOUNTIFUL—Famous Canner

144—(50 days.) You folks here in the corn belt ought to grow more of this one. It's a very heavy yielder. We've never had a failure. Its big, green, showy pods, excellent quality and savory flavor make it an excellent variety for canning. Fine for market, too. Bountiful is the right name. Triple size pkt. (3 oz.) 15c; ½ lb. 30c; 1 lb. 50c; 3 lbs. 1.20, postpaid.

STRINGLESS GREEN POD

The Standard of All

107—(51 days.) The ideal family bean and the "measuring stick" to which all varieties are compared. An early dwarf green bean that is a heavy bearer of choice, plump pods. Very meaty, fine flavored and tender. No strings whatever. Besides other good qualities, will stand more drouth than most any other variety. Triple size pkt. (3 oz.) 15c; ½ lb. 33c; 1 lb. 55c; 3 lbs. 1.25, postpaid.

FILLBASKET POLE BEAN

If you want the biggest yield plant this one

121—(66 days.) BLUE LAKES. Really fills your basket in a hurry. Yields enormous; strong grower, vigorous climber. Pods very dark green, brittle, long and slender. Beans, small, white, kidney-shaped. Delicious bean flavor, very meaty and of good quality. Especially fine for home canning and freezing. Makes finest shelled beans in the world. Triple size pkt. (3 oz.) 15c; ½ lb. 25c; 1 lb. 48c; 3 lbs. 1.20, postpaid.

Every family should plant plenty of beans. They are easy to grow and are sure yielders. Too, they are tasty, healthful, and help cut down grocery bills. Fill in your empty garden spaces with beans. Sow about every two weeks for a constant crop. For variety plant all three kinds—bush, pole and lima.

INOCULATE ALL BEANS

Be sure to inoculate all beans, peas and sweet peas with NITRAGIN for bigger yields and faster growth. Inoculation helps the plant take nitrogen from the air and fertilize your soil. Just dust Nitratin on the seed—no trouble at all. Never fails to increase the yield. Pays for itself many times over. A 15c packet enough for 5 lbs. of seed. Full directions on packet. 4015—Nitratin, 15c per pkt., postpaid.

YELLOW BUSH BEANS

Seems like when most folks think of beans they think of green beans and forget the kind that, to our way of thinking, is best of all—the yellow bush beans.

If you have never planted or eaten yellow bush beans don't pass them up this year. They yield equally as much as the green ones, are as tender and just as stringless and, almost without exception, have a better, more pleasing flavor. This year, try several varieties. You will like them we know. They require the same care and culture as green bush beans.

SURE CROP STRINGLESS

Heavy Bearer

120—(51 days.) Has handsome 6 to 6½ in. golden yellow pods, slightly curved and about ½ in. wide. Pods are meaty, tender, brittle and sweet. Completely stringless. Plants are disease and drouth resistant, vigorous, branching and never fail to bear big crop. An especially fine bean for canning, freezing or market. Triple size pkt. (3 oz.) 15c; ½ lb. 30c; 1 lb. 55c; 3 lbs. 1.25, ppd.

HOPÍ INDIAN LIMA

108—(71 days.) Originated with Hopi Indians. Drouth resistant. Does well in corn belt. Yields big; fine flavor. A climber. Does well on trellis, fence or with corn. Triple size pkt. (3 oz.) 12c; ½ lb. 30c; 1 lb. 55c; 3 lbs. 1.25, ppd.

EDIBLE SOYBEANS

143—(90 days.) Special strain. Beans delicious, large, bright green, turn yellow when mature. Fix for table just like lima or dry beans. Let pods stand in boiling water for few minutes for easy shelling. Excellent source of protein. Triple size pkt. (3 oz.) 10c; ½ lb. 24c; 1 lb. 35c; 3 lbs. 90c, ppd.

YARD LONG or Asparagus Bean

129—(70 days.) Unusual novelty. A vigorous growing vine with pods sometimes 4 ft. long. Has an excellent asparagus-like flavor. Plant for the fun of it. Triple size pkt. (3 oz.) 15c, postpaid.

SCARLET RUNNER

138—(64 days.) Grow it for the beautiful scarlet flowers. Vines grow 15 feet or more. Makes nice decoration as well as fine snap beans. Triple size pkt. (3 oz.) 15c; ½ lb. 30c; 1 lb. 50c; 3 lbs. 1.25, postpaid.

BEANS or CLIMBING BEANS

Grow Both Pole and Bush Limas

We have the two kinds of limas—pole and bush—listed together below. Both are good and everybody ought to plant some of each. Years ago only people in the middle or southern states could grow limas, but we have developed new early types which do well away up in Canada.

Don't plant limas until after frost danger is past. Plant bush limas 6 to 8 in. apart in rich soil. Here in our trial grounds we often plant pole limas in hills about 4 ft. apart. Then tie the four poles together at the top and make sort of a tepee. They do well this way.

Regardless of which kind you plant, though, we know you will like them.

LIMA BEANS

KENTUCKY WONDER POLE BEAN

Heavy Yields

134—(65 days.) Many claim this is finest of all pole beans. Without a doubt the most popular and dependable. Early and highly productive. Pods are 7 to 9 in. long, round, wrinkled, crease backed, brittle, meaty and of an extra fine flavor. Seeds are brown. Triple size pkt. (3 oz.) 15c; ½ lb. 30c; 1 lb. 50c; 3 lbs. 1.25, postpaid.

PURPLE POD POLE BEAN

Delicious Flavor

122—(65 days.) A new bean. Grows like Kentucky Wonder, but is larger and better flavored. The seed stock came from some of Henry's neighbors in Missouri. Climbs well; yields abundantly. Meat is thick, of excellent quality and stringless. Pods are beautiful reddish purple but turn light green when cooked. Delicious in flavor. A great favorite in southern Missouri. Triple size pkt. (3 oz.) 25c; ½ lb. 50c, postpaid.

CORNHILL BEAN—Climbs Corn or Vines Alone

130—(74 days.) CUTHORT. Tender cornfield bean. Good climber. Gives good crop of short, fat, fine tasting pods. Triple size pkt. (3 oz.) 15c; ½ lb. 27c; 1 lb. 48c; 3 lbs. 1.20, postpaid.

KENTUCKY WONDER WAX

The Yellow Pole Bean

139—(67 days.) Most popular of all wax pole beans. Beautiful yellow pod. Vigorous grower. Pods large, oval-shaped; seed chocolate brown. Bears until frost. None better for canning—good for green shell beans, too. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 55c; 3 lbs. 1.20, postpaid.

IMPROVED MISSOURI WONDER

Biggest of All

133—(66 days.) We got this in Missouri and it is a dandy. Plant with Stowell's Evergreen sweet corn. Pods come on early; are crease backed and well filled. They are huge in size, light green in color, and are of a fine, "real bean" flavor. Makes fine snap bean. Triple size pkt. (3 oz.) 12c; ½ lb. 30c; 1 lb. 48c; 3 lbs. 1.15, postpaid.

GREEN SEEDED BABY LIMA

114—(67 days.) An improvement over old-fashioned baby limas. Beans are bright green during shelling stage. Fine for canning, good for dry beans, too. An excellent grower, stands hot dry weather. Tremendous yield of good flavored beans. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.37, postpaid.

HENDERSON'S BUSH BABY LIMA

127—(67 days.) Best lima yielder. Small white bean. Great for shell bean, canning or winter drying. Stands dry weather. Dependable. Triple size pkt. (3 oz.) 12c; ½ lb. 30c; 1 lb. 50c; 3 lbs. 1.12, postpaid.

DWARF BABY POTATO LIMA

115—(72 days.) An All-America Silver Medal winner. Seeds small, thick, bright green, good flavored. Prolific yielder. Fine for canning or freezing. Triple size pkt. (3 oz.) 15c; ½ lb. 33c; 1 lb. 53c; 3 lbs. 1.25, ppd.

CLIMBING BABY LIMA

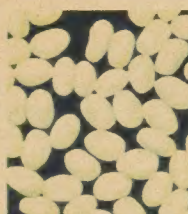

145—(72 days.) Earliest of white limas. Pods look like regular baby limas. One of first to bear—continue until frost. 8 to 10 ft. tall, 3 to 4 seeds per pod. Medium green color. Excellent eating. Triple size pkt. (3 oz.) 15c; ½ lb. 29c; 1 lb. 55c; 3 lbs. 1.15, postpaid.

LIMA BEAN SPECIAL

175X—1 pkt. each of:
Henderson's Baby Lima;
Large Early Bush Lima;
Speckled Calico Pole Lima.

ALL 3 FOR ONLY 27c PPD.

SOUP BEANS—the Old Standbys for Winter Use

WHITE WONDER

Navy or Soup Bean
102—(85 days.) Favorite standard bean. Heavy yielder. Long uniform bean. Pods are carried well off the ground. Never has strings. Triple size pkt. (3 oz.) 10c; ½ lb. 22c; 1 lb. 35c; 3 lbs. 80c, postpaid.

GREAT NORTHERN

Large and Flat
104—(90 days.) Montana White. Larger than Navy bean and tastes even better. Easier to pick over. A good yielder and early. Triple size pkt. (3 oz.) 10c; ½ lb. 22c; 1 lb. 35c; 3 lbs. 80c, postpaid.

RED KIDNEY

Well Known Favorite
128—(90 days.) Good yielder of large, dark red, dry beans. Just the thing for baking or soup. Easy to grow. Triple size pkt. (3 oz.) 12c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 1.12, ppd.

GOLDEN "NO WILT"

123—(49 days.) Improved Rust-Proof Golden Wax type. Finest of its kind. Resists disease and a sure grower. Pods are stringless, meaty, tender and deliciously flavored. Vines are vigorous and covered with pods for long season. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 65c; 3 lbs. 1.25, ppd.

MONEY SAVING BEAN OFFER

The Best 3 Bush Beans

150X
3 oz. Stringless Green
3 oz. Tendergreen
3 oz. Golden "No Wilt"

All 3 for 39c POSTPAID

Rust-Proof GOLDEN WAX

110—(50 days.) Everybody likes this one. It is early and has a heavy flat pod. The vines grow erect, holding beans well off the ground. Never has strings. Heavy yielder and hardy. Good quality. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 58c; 3 lbs. 1.25, postpaid.

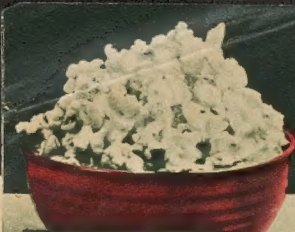

PENCIL POD BLACK WAX

105—(51 days.) One of the best of early wax varieties. Round, slender, stringless, light yellow. Very tender and productive. A vigorous plant that will survive hot, dry summers. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 55c; 3 lbs. 1.40, ppd.

CHEROKEE—All-America Award Winner

119—(50 days.) A new early wax bean developed by the U.S.D.A. Without doubt, one of the very best. Handsome, straight, 6-inch pods are completely stringless. Flesh is tender, crisp, and has an unbeatable flavor. Plants highly productive and heat resistant. Black seeded. Does well everywhere. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.45, postpaid.

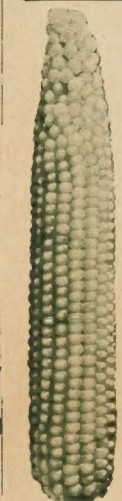

POPPING CORN

Hybrid popping corn is much better than the old-fashioned kind. Guaranteed to pop better and to taste better, too. A leaflet of new popcorn recipes sent with each order. Two fine kinds:

190—Yellow Hybrid. (So. American type.) Big, creamy yellow flakes. 5 lbs. 1.00.

191—Hybrid White Hulled. (Small white kind.) Very tender, no hulls. 4 lbs. 1.00.

We pay postage to zone 4. Beyond, add 20c.

Make Money Growing POPCORN

Culture of popcorn is about the same as field corn. Plant after frost danger is past; first part of May is about right. Put about three or four kernels to the hill and space the hills about 15 in. apart, with width of rows 2 or 2½ ft. apart, depending on how you are going to tend it. If you plant by the acre you will need 5 to 6 pounds per acre.

Henry Field's POPCORN

All popcorn listed on this page is of the hybrid type. We've found hybrids so superior in all respects that we no longer grow the old open pollinated kinds.

Henry Field's Hybrid South American POPCORN

UNITED U-400 194—(107 days.) Our earliest South American Hybrid. Will mature in northern edge of corn belt. Hybrid vigor makes it rugged and big. Yields are terrific. Has large uniform ears. Pops up in large creamy white grains with tremendous volume. Fine flavor, too. Triple size pkt. 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.50; 10 lbs. 4.40, postpaid. 50 lbs. 25.00, F.O.B. Shenandoah; 100 lbs. 38.00, F.O.B. Shenandoah.

UNITED U-500 198—(115 days.) Our newest and best hybrid South American type. A four-way cross. Stands exceptionally well and carries two big ears to the stalk. Has tremendous popping volume; flavor excellent. Triple size pkt. 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.50; 10 lbs. 4.80, postpaid. 50 lbs. 22.50, F.O.B. Shenandoah; 100 lbs. 42.50, F.O.B. Shenandoah.

HYBRID WHITE HULLESS

UNITED U-300 196—(100 days.) A new white rice hybrid. Much larger and better than the old-fashioned Jap type. Stands better, yields enormously, pops with tremendous volume. Most tender and best tasting of all. Triple size pkt. (3 oz.) 20c; ½ lb. 45c; 1 lb. 75c; 3 lbs. 2.10; 10 lbs. 6.00, postpaid. 50 lbs. 26.00, F.O.B. Shenandoah; 100 lbs. 50.00, F.O.B. Shenandoah.

JAP HULLESS HYBRID

Mini. Hybrid 250 192—(95 days.) Originated by Minn. Exp. Station. One of the best whites. Has 10% greater popping volume than ordinary open pollinated Jap Hulled. Can't beat it for flavor and tenderness. Pkt. 15c; ½ lb. 35c; 1 lb. 60c; 3 lbs. 1.65; 10 lbs. 5.40, postpaid. 50 lbs. 25.00; 100 lbs. 50.00, F.O.B.

PEANUTS

Yes, you folks in the Midwest can grow peanuts just as well as not. Plant just like beans, in soft, loose soil, after it gets thoroughly warm in the spring. Thin to a foot apart in the row and keep well hoed.

JUMBO PEANUTS

218—Great big kind, enormously productive. Plant them the same time you plant beans. Not as early as the Early Northern, but you are reasonably sure of a crop with this variety in most sections. They make compact bushes 18 inches high, with heavy erect stalks and large leaves. Do best on light sandy soil. Dig in the fall before frost, and hang them under a shed or in any airy room to cure. ½ lb. 15c; 1 lb. 28c; 1 lb. 50c; 3 lbs. 1.35, postpaid.

EARLY NORTHERN

219—The early peanut for the Midwest. Will ripen anywhere in the corn belt. Nuts are small and of fine flavor. Contains a high percentage of oil. Pods usually contain two kernels with lots of them on the vine. Adhere well to the plant when digging. Raise some for home feeding as well as plenty for the kiddies to roast during the winter. ½ lb. 15c; 1 lb. 28c; 1 lb. 50c; 3 lbs. 1.35, postpaid.

Peppers do well on any soil except that which is too low and too wet. Give them plenty of room. Start in the house or in the hot bed and from then on handle just as you would tomatoes. One ounce will make 1,500 plants. We offer both sweet and hot varieties. See Page 8 for Plants.

PEPPERS

RUBY KING

One of Most Popular 645—(68 days.) A large, sweet, early pepper. Very popular with home and market gardeners. Fruit of ten 6 inches long, three-lobed, slightly tapered. Pkt. 15c; ½ oz. 35c; oz. 62c, postpaid.

WORLD BEATER—The Thick-Fleshed One

641—(75 days.) Early, heavy, sure yielder. As good, if not better, than any of them. One of our heaviest sellers. Flesh thick, mild and sweet. Stands shipping well. Pkt. 15c; ½ oz. 37c; oz. 63c, postpaid.

CALIFORNIA WONDER

Mild and Sweet

642—Large, thick meaty, unusually solid. Fruit four-lobed and very uniform. Color bright crimson. Fruit up to 4 inches in size. Beautiful in salad. Pkt. 10c; ½ oz. 25c, postpaid.

KING OF THE NORTH

Earliest Large Sweet

640—Especially valuable in northern states. Fruits enormous, color brilliant red, size usually 6 in. long and 3 or 4 in. in diameter. Thick flesh, sweet and mild. Pkt. 15c; ½ oz. 35c; oz. 65c, postpaid.

EARLY SWEET

PIMENTO

Red but Mild

639—(73 days.) Flat, tomato-shaped pepper. 2½ to 3 in. across. Fruits are smooth, and brilliant scarlet. Exceptionally mild and sweet. Pkt. 15c; ½ oz. 35c; oz. 69c, postpaid.

LONG RED CAYENNE

The Best Hot Pepper

636—(70 days.) The leading and best hot one for canning, drying or pickling. Grows anywhere and bears with the best of them. Fruits 3 to 4 inches long. Pkt. 12c; ¼ oz. 25c; oz. 40c, postpaid.

HYBRID SWEET CORN

What, When, and How to Plant

Hybrid sweet corn is a great improvement over old open pollinated corn. Our hybrids have uniform maturity, extremely high yields, and disease resistance. Plant almost as soon as you can get them into ground in spring. ½ lb. seed enough for 100 hills. Use 10 to 12 lbs. per acre. Plant every 10 days 'til middle of July for corn all summer.

Our Sweet Corn Now

"Kernel Coated"

This year our sweet corn seed is treated with famous Kernel Coating seed treatment. This special treatment protects seed; stimulates growth of feeder roots; assures better, faster germination, and gives bigger yields. You get all this at no extra cost!

SPECIAL OFFER

Our 3 Best Hybrids

Below are three low priced special offers of the best sweet corns you've ever eaten. You get: **EARLY GIANT GOLDEN BANTAM**, the earliest; **GOLDEN CROSS BANTAM**, standard main crop; **GIANT BANTAM HYBRID**, 2nd early.

HYBRID SWEET CORN MIX

Have Corn All Season

for Only 15c!

173—A blend of our best HYBRID Sweet Corns. Gives you delicious corn coming on each week—ALL SEASON. No need to make several plantings. Earliest corn 60 days. Latest 115 days. 3 oz. pkt. 15c; ½ lb. 30c; 1 lb. 55c; 3 lbs. 1.29, postpaid.

Best OPEN POLLINATED SWEET CORN

COUNTRY GENTLEMAN

189—(93 days.) Long slender grains with ears right size for eating on the cob. Very tender, white and sweet. Heavy producer. Fine for canning. Triple size pkt. (3 oz.) 12c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 1.10, postpaid.

STOWELL'S EVERGREEN

188—(96 days.) Giant white corn. For canning and drying and roasting ears. Always has more corn to the cob than any other variety. Triple size pkt. (3 oz.) 12c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 1.10, postpaid.

GOLDEN BANTAM

177—(80 days.) Recognized as the standard yellow. Grows 4½ to 5 ft. tall, very productive, early, sweet, tender. A favorite. Triple size pkt. (3 oz.) 10c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 1.12, postpaid.

TRUCKER'S FAVORITE

187—(85 days.) Southern Sweet Corn. A good white garden corn, though actually not a sweet corn. Grows anywhere. Ears large—7 to 9 in. long. 12 to 16 rows of kernels. Triple size pkt. (3 oz.) 10c; ½ lb. 20c; 1 lb. 30c; 3 lbs. 75c, postpaid.

EARLY SUNSHINE

174—(76 days.) Full week earlier than Golden Bantam, with larger ear. Has 10 to 12 rows of creamy, yellow kernels. Large for an early sort. Triple size pkt. (3 oz.) 12c; ½ lb. 25c; 1 lb. 45c; 3 lbs. 1.12, postpaid.

"MIDWEST'S LEADING SEEDHOUSE,"

★ New HOOSIER GOLD

172—(80 days.) A new introduction by U.S.D.A. and Indiana Ag. Experiment Station. Matures just ahead of Golden Cross. Big to 8-inch ears with 12 rows of medium deep, bright golden yellow kernels. Five to six-foot stalks bear two big ears. A wonderful eating quality as corn is of unusually fine flavor. Triple size pkt. (3 oz.) 25c; ½ lb. 40c; 1 lb. 75c; 2 lbs. 1.25, postpaid.

IOCHIEF—An All-America

185—(87 days.) A Gold Medal Winner. Has large, deep, golden yellow kernels that are sweet and tender. Ears 16 rowed, are as large as Golden Cross Bantam, but mature 2 days later and resist edging. Plants tall and sturdy. An excellent variety for freezing and canning. Triple size pkt. (3 oz.) 15c; ½ lb. 40c; 1 lb. 65c; 3 lbs. 1.65, postpaid.

Y-81—Most Tender

180—(81 days.) We've tried most all sweet corns and this hybrid is about tops in every way. Extremely fine quality. Has distinct nutty flavor all its own. Outstanding for freezing or canning. Best of all, a vigorous grower made to withstand hot midwest summers. A main crop variety. (Not much seed this year.) Triple size pkt. (3 oz.) 15c; ½ lb. 40c; 1 lb. 75c; 2 lbs. 1.24, postpaid.

EARLY GIANT GOLDEN BANTAM

178—(65 days.) Comes in the 4th of July. Earliest variety in our trials. Ten days earlier than the ordinary Golden Bantam. Grows short stalks, 4 to 5 ft. so can be planted close. Stalks heavy, vigorous growers, stand up well. Ears 6 to 7 in. long, rich yellow color, 2 ears to stalk. Kernels long and plump. 15 row variety. Triple size pkt. (3 oz.) 15c; ½ lb. 36c; 1 lb. 60c; 3 lbs. 1.35, postpaid.

GIANT BANTAM HYBRID

175—(75 days.) A second early variety. Was developed especially for the market garden trade. About 4 days earlier than the Golden Bantam coming on. Plants almost 100% to 12 to 16 rows to the ear. Ears 7 inches long, very uniform, resistant to smut and to root disease. Sweet flavor; good canning variety. Triple size pkt. (3 oz.) 15c; ½ lb. 34c; 1 lb. 60c; 3 lbs. 1.35, postpaid.

GOLDEN CROSS BANTAM HYBRID

171—(85 days.) The standard by which all Hybrid Sweet Corn is judged. A big Golden Bantam. Has 12 to 14 rows of kernels, quality exceptionally fine, noted for uniformity. Strong grower, resistant to smut, ears 8 in. long. About 5 days later than regular Golden Bantam. Best for freezing. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 55c; 3 lbs. 1.37, postpaid.

HYBRID GOLDEN EVERGREEN

182—(90 days.) The biggest and best of all the Golden Hybrid Sweet Corn. Ears 8 in. long. 12 to 16 rowed, big, deep kernels. Delicious, sweet flavor and excellent quality. Stalks are 7½ to 8 ft. tall and have a strong root system. For 3 years it has led in yields in our trial grounds. Triple size pkt. (3 oz.) 20c; ½ lb. 38c; 1 lb. 65c; 3 lbs. 1.40, postpaid.

HYBRID STOWELL'S EVERGREEN

184—(97 days.) A deep kernel hybrid. High quality and hardy. One of the heaviest yielders. Stalks 7½ to 9 ft. tall; ears 14 to 18 rows, about 8 in. long. Outyields ordinary Stowell's Evergreen and better in quality. Unexcelled for canning. Commercial canners like it, too. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 63c; 3 lbs. 1.65, postpaid.

IOANA—Drouth-Resistant

176—(87 days.) An All-America bronze model winner, developed by Ia. State College. Resists drouth and wilt. Ideal for market gardening or canning. Marvelous for freezing. Deep yellow variety but not as dark as Golden Cross. Tall sturdy stalks with many leaves. Ears 8 in. long. 12 to 14 rows, medium kernels. Triple size pkt. (3 oz.) 15c; ½ lb. 35c; 1 lb. 55c; 3 lbs. 1.25, postpaid.

Henry Field Seed & Nursery Co.,

"FREEZE BOX" SWEET CORN OFFER

2 Best Kinds for Freezing
Y-81—Distinct nut-like flavor. Best of all.

IOANA—Tender, sweet, sure yielder.
180X—½ lb. each, 69c, pdd.
185X—1 lb. each, 1.09, pdd.

CARROTS

Healthful, Delicious, Easy to Grow

Carrots grow most anywhere. Sow most early in the spring for mid-summer use, and later on so more to put in the basement for winter. Cover seed ½ in. deep in rows 18 to 24 in. apart. Thin to 2 to 4 in. between plants. One ounce of seed will sow 100 ft. row. Most commercial growers control weeds by spraying with dry cleaning solution. Write your state college about it.

The CHANTENAY CARROTS

Sweetest of All

633—RED CORED CHANTENAY—(70 days.) Tender, crisp and sweet. Orange-scarlet all the way through. Has excellent taste and fine texture. Carrots 6 inches long, 2½ inches thick at shoulders. Tops are tall and strong. Blunt ended, smooth, and easy to pull. Free from side roots. Excellent for storing or canning. A good shipper. May be grown as spring, summer or fall crop. Best, most delicious of all. Pkt. 15c; oz. 50c; ¼ lb. 1.25, pdd.

626—STANDARD CHANTENAY—(70 days.) Recognized as the standard carrot. This is highly recommended for putting into winter storage. Good color, crisp and tender, with fine flavor, and exceptionally smooth. Pkt. 10c; oz. 40c; ¼ lb. 1.14, postpaid.

IMPERATOR, Tender and Sweet

632—(75 days.) Beautiful carrot, rich orange-red both inside and out. Long and smooth with slightly sloping shoulders, free from side roots and almost cylindrical in shape. Small tops, excellent table quality and very attractive. Ideal for bunching. Pkt. 12c; oz. 45c; ¼ lb. 1.45, postpaid.

DANVERETTE

The Last Word in Carrots

628—(74 days.) A new, greatly improved strain of Danvers Half Long. Is smaller than Danvers H.L., remarkably uniform, free from side roots and has a deep orange color. None better for freezing or canning. Ideal for home garden. Pkt. 15c; oz. 50c; ¼ lb. 1.50, postpaid.

DANVERS HALF LONG

Preferred for Home or Market

627—(75 days.) A half long sort. Is a very heavy yielder and usually outweighs all others. Popular with both home and market gardener. Wonderful for canning or storing. Excellent quality. Bright orange flesh. Crisp and flavorful. Pkt. 10c; oz. 38c; ¼ lb. 1.00, postpaid.

SPECIAL CARROT OFFER

3 of Our Best Sellers
1 Pkt. Emperor
1 Pkt. Red Cored Chantenay
1 Pkt. Oxheart
250X—All for 24c, postpaid.

OXHEART .. Giant Short Variety

629—(74 days.) Heaviest yielder of table carrots. Short, broad, heart-shaped carrots, about 5 in. in length and diameter. Best variety for growing on heavy soil. Easy to harvest. Fine quality. Pkt. 10c; oz. 35c; ¼ lb. 1.05, postpaid.

STOCK CARROTS

631—(82 days.) Large White Mastodon. Finest of feeding carrots. Roots large and thick; ideal for poultry or livestock. Use 4 lbs. of seed to acre. Oz. 25c; ¼ lb. 65c; 1 lb. 1.80, postpaid.

Henry Field's POTATO SEED SETS

Cherokee

You get ready-to-plant seed sets like this.

NO CUTTING OR TREATING REQUIRED

Our seed sets come from the finest basic seed stock in America. Each set has just the right amount of meat with the eye to insure best germination. The sets are treated to eliminate surface fungus, to protect them against soil-borne organisms, and to enable you to plant when ground is still cold. They are easier to plant, germinate quicker, produce more and better potatoes. Therefore, they cost you less in the long run.

From Finest Basic Stock in North America

Red Pontiac

263—CHEROKEE. Brand new. A little later than White Cobbler. Resistant to blight and scab. Of excellent table quality. Supply limited. Box of 100 sets1.98

See Tomato Plants Below Left

We've tried out a lot of different varieties and discarded all but the best. Our seed stocks are extra select, pure and uniform. Plant both early and main crop sorts so you will have plenty all season.

SPECIAL TOMATO OFFER

450X
1 pkt. RED HEAD, favorite.
1 pkt. EARLIANA, real early.
1 pkt. MARGLOBE, for canning and slicing. 29c
All 3 for ppd.

CLIMBING TOMATO

430—A tomato the neighbors will want to look at. Grows 10 to 18 ft. tall and often yields 2 to 3 bushels of tomatoes per vine. The tomatoes are good, too. Big, meaty and have a small seed cavity. Fine for slicing. Pkt. 25c, postpaid.

GRAPE TOMATO

425—(73 days.) A perfect tasting, heavy bearing, vigorous tomato. We've never seen a rotten one, or a vine that wasn't loaded full. Fruit size of grapes. Borne in big clusters. Bears when others fail. Good eating but especially good for canning, preserves and sauce. Pkt. 15c, postpaid.

Big Yellow "GROUND CHERRY"

Easy to Grow

230—Fruits resemble large yellow berries and are enclosed in loose papery husks. Grows close to the ground but does not spread much. Delicious preserved, or in combination with lemons and oranges. Pkt. 10c; 1/2 oz. 40c, postpaid.

GARLIC

240—California White Garlic. (110 days.) The best variety. Divide the bulbs into "cloves," plant and tend just like onion sets. Store like onions. Or, since garlic is hardy, may be left in garden over winter. 5c per single bulb; 1/2 lb. 35c; 1 lb. 65c, postpaid.

LEEK

231—(130 days.) Member of onion family; somewhat sweeter than onions. Nicely flavored stems for soups, stews, or creamed. Pkt. 10c, ppd.

Plant Henry Field's Vegetable PLANTS

Vigorous, Outdoor-Grown, State Inspected Plants

Our vegetable plants are outdoor-grown, state inspected, thrifty, clean and vigorous. Order plants at the same time you order seeds, nursery stock and baby chicks. We ship them at proper planting time. Safe delivery guaranteed. All prices post-

paid. Cabbage and onion plants don't mind frost. Sweet Potato, Pepper and Tomatoes should not be set out until frost dangers are past. All plant orders shipped separately. Write for special quantity prices on larger lots than listed here.

"BACKYARD GARDEN" PLANT OFFER

100 White Bermuda Onion
100 Yellow Sweet Spanish Onion

TOMATOES

Field's EARLY RED HEAD

Heavy Yielding—Doesn't Crack

481—(76 days.) Red Head was introduced a good many years ago but since then we have been working on it constantly to make it better. We will put it up against any other variety. It is heavy yielding, bears over a long time. The tomatoes are round and smooth, ripen evenly, and seldom crack. The firm flesh makes it a fine canning sort. Pkt. 15c; ½ oz. 35c; oz. 60c; ¼ lb. 1.50, postpaid.

MARGLOBE—Perfect Canner

405—(115 days.) Another dependable, wilt-resistant main crop. Vigorous grower, medium large, nearly globe-shaped, smooth and solid. The quality is extra fine, and it is an outstanding tomato for canning. Deep scarlet. Pkt. 10c; ½ oz. 27c; oz. 45c; ¼ lb. 1.15, postpaid.

RUTGERS—The Old Favorite

417—(110 days.) The old favorite that deserves a place in every garden. Flesh is firm and of fine quality. Doesn't have a hard core, and is outstanding for its uniform, deep red coloring. Excellent for canning. Pkt. 11c; ½ oz. 29c; oz. 50c; ¼ lb. 1.25, ppd.

Field's RED BIRD

A Fine Early

421—(70 days.) Next to Red Head, we claim this is the finest early tomato. Another one of our own introductions. Grows to a medium size, round, very smooth and seldom cracks. Color is beautiful bright red. Pkt. 10c; ½ oz. 22c; oz. 35c; ¼ lb. 1.00, postpaid.

OXHEART

Mild Flavored

400—(90 days.) Large heart-shaped, pink-skinned variety. The flesh is thick but very tender. It has few seeds. Has a distinct, appealing, mild flavor. Pkt. 15c; ½ oz. 45c; oz. 80c; ¼ lb. 2.00, postpaid.

SNOWBALL

Almost No Acid

403—(75 days.) An ivory-white tomato with flesh almost white. Almost as big as Ponderosa. Has few seeds and practically no acid. Lots of folks who were unable to eat tomatoes before enjoy this one. Pkt. 15c, postpaid.

EARLY EARLIANA

Very Vigorous

411—(66 days.) One of the best of the early red tomatoes. Vigorous, spreading vines, bearing bright scarlet, medium size, nearly globe-shaped fruit in clusters. Fine quality, meaty fruit. Pkt. 10c; ½ oz. 29c; oz. 54c; ¼ lb. 1.45, postpaid.

SILVERSKIN—Best Flat Keeper

311—WHITE PORTUGAL—(100 days.) Mild, pleasant flavor. A medium-sized globe, somewhat flattened. A good keeper, very attractive. Well liked. Pkt. 15c; oz. 69c; ¼ lb. 1.97, ppd.

UTAH SWEET SPANISH—Best Yellow Riverside Variety

303—(110 days.) A mammoth yellow globe. Very heavy producer and early. Light straw colored skin with pure white flesh. A good keeper. Pkt. 15c; oz. 75c; ¼ lb. 2.20, postpaid.

Yellow Ebenezer ONION SETS

The Famous Hazelnut Size

317—For fine tender green onions or early fully matured ones. These hazelnut-size small sets go farther than the large ones and will give you just as big onions at lower cost per acre. They cost us more but we sell at the same price as uncreased sets. Beautiful solid sets. Qt. 35c; 2 qts. 65c; 4 qts. 1.19; pk. 2.10, postpaid.

2 Heavy Yielding HYBRIDS ▶

Field's RED KNIGHT HYBRID

427—(60 days.) The extra early Hybrid tomato we all have been looking for. Our pick of over 60. Brilliant scarlet color, firm flesh, mild flavor. Packed with hybrid vigor. Resistant to numerous diseases. Doesn't crack open, and, best of all, is a tremendous yielder of uniform, medium size fruit. Pkt. (30 seeds) 25c; extra large pkt. (150 seeds) 1.00, postpaid.

Field's RED RIVAL HYBRID

428—(75 days.) A main crop Hybrid with fruit weighing 10 ounces or better. Fruit perfectly smooth with scarlet red flesh, thick walled, wonderful flavor. Vigorous grower with plenty of foliage. Was developed in the Midwest for Midwest conditions. Thrives where many others fail. Pkt. (30 seeds) 25c; extra large pkt. (150 seeds) 1.00, postpaid.

HYBRID TOMATO PLANTS

4G9—Henry Field's Early Hybrid—Brilliant Scarlet, firm flesh, mild flavor, resistant to disease. Very heavy yielder. 20 plants for 1.00, ppd.

GOLDEN SUNRAY

Best of the Yellows

404—(72 days.) A new, highly productive, golden orange tomato. Resistant to fusarium wilt. Has a mild but rich flavor. Primarily a home garden tomato but sells well at local markets and roadside stands. Makes delicious juice. By far the finest of the yellows. Pkt. 15c; ½ oz. 75c, ppd.

SUPER SIOUX

Drooth-Resistant

416—(68 days.) A cross between two leading varieties, having the good qualities of both, plus hybrid vigor. Almost globe-shaped, medium size, medium early. Fruit solid deep red, thick walled, and small seeded. Fine for market or home use. Pkt. 15c; ½ oz. 50c; oz. 85c, postpaid.

PEAR TOMATOES

For Your Preserves

The old-fashioned, pear-shaped, preserving tomatoes. Fruit is borne in clusters. A novelty but well worth planting for delicious preserves. 419—YELLOW PEAR (75 days.) 406—RED PEAR (90 days.) Pkt. 15c; ½ oz. 30c; oz. 50c; ¼ lb. 1.35, postpaid.

PRITCHARD

Wilt-Resistant

423—(112 days.) A wilt-resistant variety. The fruits are solid, heavy, smooth, globe-shaped, deep scarlet and mild flavored. Best main crop tomato. Can be planted close together. Pkt. 15c; ½ oz. 25c; oz. 39c; ¼ lb. 98c, postpaid.

PONDEROSA

Largest of All

418—(86 days.) It is too tender and doesn't hold up well enough for market but for home use there's nothing like it! The fruit is huge, but very tender and meaty. Slices beautifully with few seeds. Vigorous grower. Pkt. 15c; ½ oz. 49c; oz. 89c, postpaid.

ORANGE and SCARLET SLICER

Perfect for Table or Canning

You all know about Scarlet Slicer Tomato—the one that took the Midwest by storm when it was introduced a few years ago. And that was followed by Orange Slicer, identical to the Scarlet Slicer except the fruit is a golden orange.

These two tomatoes will succeed most anywhere. They have heavy foliage which protects fruits from the sun and hot winds, their deep roots protect them against dry weather and they are sure yielders. But, best of all, they are big, smooth, round, juicy and meaty to the core. They are also disease-resistant.

410—SCARLET SLICER—(72 days.)

Pkt. 15c; ½ oz. 25c; 1 oz. 45c, postpaid.

413—ORANGE SLICER—(78 days.)

Pkt. 15c; ½ oz. 50c; 1 oz. 90c, postpaid.

SPECIAL OFFER

1 pkt. each Scarlet Slicer and Orange Slicer for 25c.
475X—Postpaid

ONIONS

See onion seed early—just as soon as you can get it in the ground. One ounce to 100 feet of row. See page 8 for onion plants.

WHITE SWEET SPANISH

Sweet, Early Table Onion

313—(110 days.) Large, mild and sweet. Pure white. Better keeper than Bermuda. Does better in north. A fine early table onion. Pkt. 15c; oz. 76c; ¼ lb. 2.15, ppd.

LARGE RED GLOBE

The Round Red

305—(120 days.) Probably most popular of all onions. Flesh fine grained. Deep, rich red, good keeper, fine for either fall or winter market. Pkt. 15c; oz. 64c; ¼ lb. 1.82, ppd.

White BUNCHING ONIONS

315—A fine variety for bunching or early green onions. Onions are of good quality—sweet and tender. Sow seed in early spring or fall for bunching onions. Pkt. 12c; oz. 65c; ¼ lb. 1.95, postpaid.

AUTUMN STAR HYBRID

Vigorous, Heavy Yielder

307—(100 days.) Large deep bulbs. Bright straw color. Uniform, hard, creamy white flesh. A vigorous heavy yielder adaptable over wide area. Uniform maturity. A dandy for market growers. Pkt. 20c; ½ oz. 65c; oz. 1.00; ¼ lb. 3.00; 1 lb. 10.00, ppd.

Good onion sets are scarce. We have no Red or White sets. Yellow ones are much better anyway. Write for special prices on larger lots.

PUMPKINS

Pumpkin seed makes about 50 hills to the ounce. Plant and care for like squash.

WINTER LUXURY PIE

One of Sweetest

767—(100 days.) Looks a lot like the small sugar Pumpkin. A little larger in size. Color is orange, covered by a fine grained netting. Flesh is of high quality and very sweet. Makes the finest pies. Pkt. 10c; oz. 22c; ¼ lb. 39c; 1 lb. 85c, postpaid.

PRIZE PUMPKIN MIXTURE

770—A grand mixture of all the different kinds of pumpkins shown here and some trial ground sorts too. You can buy just this one packet and get a lot of variety. Pkt. Large Pkt. 10c; oz. 15c; ¼ lb. 30c; 1 lb. 60c, ppd.

10c

SMALL OR RED SUGAR

766 — (118 days.) One of the best for pies. If you don't grow any other variety, plant a few of these. You will appreciate the quality, smoothness and sweetness. Orange-yellow inside and out. Prolific yielder. Doesn't grow very large. Pkt. 10c; oz. 22c; ¼ lb. 45c; 1 lb. 1.10, postpaid.

preciate the quality, smoothness and sweetness. Orange-yellow inside and out. Prolific yielder. Doesn't grow very large. Pkt. 10c; oz. 22c; ¼ lb. 45c; 1 lb. 1.10, postpaid.

BUSH PUMPKIN

765—A back yard, garden size, bush plant 3 to 4 ft. across. A heavy bearer of orange colored, sugar pie pumpkins. Deep golden flesh. Pkt. 15c; oz. 25c; ¼ lb. 45c; 1 lb. 1.10, postpaid.

PARSNIPS

Sow the seed early as it starts slowly. We always sow radish seed with it as radishes come up early and mark the rows so cultivation can be started. Leave parsnips in the ground over the next winter. One ounce of seed will sow 200 feet of row. 203—ALL-AMERICAN. (95 days.) Without doubt, the finest of all. White skin, flesh fine grained, very tender, with wonderfully sweet flavor. Roots are slender and smooth, medium-long, and broad shouldered. Pkt. 10c; oz. 25c; ¼ lb. 69c; 1 lb. 1.95, postpaid.

SALSIFY (Vegetable Oyster)

205 — MAMMOTH SANDWICH ISLAND. One of the best vegetables for soup. Also delicious baked or creamed. Has flavor like oysters. Flesh is white, very tender and sweet. Plant early in spring, cultivate, harvest and store like parsnips, or may be left in the ground until spring. Pkt. 10c; oz. 45c; ¼ lb. 1.20, ppd.

MUSHROOM SPAWN

241—Grow your own delicious mushrooms. Easy and inexpensive to do. Easy to grow in cellars, caves, barns or out-buildings. Full cultural directions with every order. One brick plants 10 to 12 sq. ft. Brick 39c; 3 bricks 1.10, postpaid.

EGGPLANT—Tender, Delicious

Eggplant should be better known. Tend them just as you would peppers.

656—(83 days.) BLACK BEAUTY. Grows 5 to 6 "eggs" to the plant. Average almost as big as a quart cup. The color is a rich, purple-black. Flavor unusually fine. Pkt. 15c; ¼ oz. 25c; oz. 48c, postpaid.

DES MOINES TABLE QUEEN

Best Table Size—Very Early

752—(80 days.) Sometimes called Accorn. If you like squash pie, use this variety. Also fine for baking. Just right size to serve two. About 6 inches long. Shell is thin, hard, dark green. Flesh yellow and tender. Pkt. 10c; oz. 20c; ¼ lb. 50c; 1 lb. 1.50, ppd.

Genuine HUBBARD

Leading Winter Squash

745 — (110 days.) One of the finest for Thanksgiving time; in fact, all winter. Often keep until late spring. Large, warty, dark green. Hard shelled. Deep orange-yellow flesh. Pkt. 10c; oz. 20c; ¼ lb. 55c; 1 lb. 1.65, postpaid.

SUMMER SQUASH

747—EARLY WHITE BUSH SCALLOP. (52 days.) A medium white summer squash. Fruit round with scalloped edges. Pkt. 10c; oz. 20c; ¼ lb. 39c; 1 lb. 1.00, ppd.

746—SUMMER BUSH STRAIGHT-NECK. (58 days.) An improvement over old Crook-neck variety. Golden yellow. Very productive. Pkt. 10c; oz. 20c; ¼ lb. 49c; 1 lb. 1.25, ppd.

Golden DELICIOUS

738—(110 days.) Averages 8 to 10 lbs. Flesh very sweet, of fine texture, and orange-red. Soft shell. Good keeper. Pkt. 10c; oz. 20c; ¼ lb. 60c; 1 lb. 1.65, ppd.

BANANA SQUASH

Good Eating—Vigorous Grower

736—BLUE BANANA. (115 days.) Good all-purpose squash. Stands squash bugs and pests better than other kinds. Color is bluish slate gray, the flesh bright orange and is shaped like a huge banana. Pkt. 10c; 1 oz. 18c; ¼ lb. 50c; 1 lb. 1.30, ppd.

STOCK BEETS

Nutritious, inexpensive livestock and poultry feed. Make 15 to 20 tons of beets to the acre. Sow seed in April and May in rows 2½ to 3 feet apart, at rate of 10 to 12 lbs. per acre. Mature in 90 to 120 days. Harvest before severe frost and store in pits or cellars. Prices on all varieties below: Oz. 24c; ¼ lb. 73c; 1 lb. 1.90; 5 lbs. 9.00.

616—GIANT HALF SUGAR ROSE

(Feeding Sugar). One of the heaviest producers. Its extra sugar content makes it especially desirable as a dairy feed. Fine keeper, oval-shaped.

619—MAMMOTH LONG RED MANGEL. The largest and most productive of all. Often called "Gate Post" because of its size. Usually reaches 24 to 30 inches in length, with individual weight from 25 to 35 lbs. Easily harvested as the root grows half out of the ground

610—POULTRY BEETS.

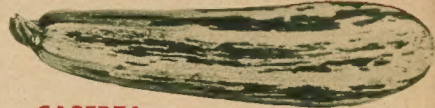

You who have fed mangels to poultry know their value as a winter feed to take the place of green stuff to keep the hens on production. This is a mixture of all kinds. Makes real feed.

612—SUGAR BEET (Klein Wanzleben) — (90 days). Large, smooth, white, wedge-shaped root rich in sugar content. It grows mostly below the surface of the soil. Roots not quite so large as the mangel.

SQUASH

SQUASH MIXTURE

All Kinds—All Seasons 749—Includes all of the varieties named here, and others. You get a few of each kind without buying a packet of each. Pkt. 10c; oz. 15c; ¼ lb. 40c; 1 lb. 90c, postpaid. Postpaid

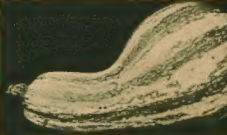

CASERTA

740—(55 days.) A new and better squash. An All-America Gold Medal Winner. Fruits 15 to 18 inches long, 4 to 5 inches in diameter. Light yellow with green stripes. Excellent for pies or baking. Especially fine when about 8 inches long. Pkt. 20c; oz. 35c; ¼ lb. 1.10, postpaid.

STRIPED CUSHAW

Very Fine Grained

739—(115 days.) A large crook-neck pumpkin (though looks, cooks and tastes like squash) of fine quality. The neck is the edible part. Pkt. 10c; oz. 20c; ¼ lb. 49c; 1 lb. 1.30, postpaid.

BUTTERNUT SQUASH

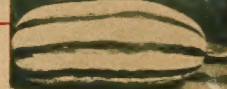

Finest Flavored Squash

763—(85 days.) Fruits 10 to 12 inches long. Bottle-shaped, dark tan color, hard shell. Wonderful for pies, boiled or baked. Flesh is thick, dry, of fine texture, deep orange, fine flavored. Pkt. 15c; oz. 60c; ¼ lb. 1.50, ppd.

DELICATA SQUASH

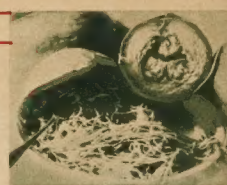

or Sweet Potato

741—(110 days.) Sold under many names. The color is green and yellow. When baked and served with melted butter, it beats them all. Pkt. 10c; oz. 15c; ¼ lb. 45c; 1 lb. 1.20, postpaid.

SPAGHETTI SQUASH

748—(95 days.) Fruits are about 10 inches in length, filled with a spaghetti-like pulp. Cook the whole fruit just as it comes from the garden, for 20 or 30 minutes, cut open and season. Makes fine eating. Pkt. 15c; oz. 20c; ¼ lb. 44c; 1 lb. 1.08, postpaid.

BEET

Lots of time has been spent to get you only the finest kind of beets. On some of the varieties we have even sent to Europe after the seed. We like beets of uniform shape and color, with small tops, small tap root, free from the straggly side roots. One ounce of seed will grow a 100-foot row. Plant as soon as you can get in the ground in the spring and make several sowings throughout the season.

SPECIAL BEET OFFER

A real bargain! 1 Pkt. Improved Detroit Dark Red 1 Pkt. Dark Red Canner 1 Pkt. Early Wonder 200X All 3 Only 25c postpaid

RADISHES

**SPECIAL
RADISH
OFFER**

3 of the Most Popular
1 Pkt. Red Ball
1 Pkt. White Icicle
1 Pkt. Scarlet White Tip
400X
ALL 3 for 25c PPD.

Everyone who has a patch of ground as big as a table top should raise his own radishes. Plant 4 or 5 different kinds. One ounce of seed will make a row 100 feet long and when you figure how many bunches you can get from a 100-foot row, you can easily see what a money maker it is. Make several plantings.

LONG WHITE ICICLE

Crisp, Sweet, Early
445—(27 days.) Most popular and the earliest long white radish on the market. Flesh is perfectly white, clear to the top, and is crisp, juicy, mild, and of a delicious sweet flavor. One of the most tasty ones we have. Tops are small. It grows quickly and doesn't get pithy. Pkt. 10c; oz. 20c; ¼ lb. 43c; 1 lb. 1.29, postpaid.

New CRIMSON GIANT

Huge but Not Pithy

437—(28 days.) Noted for its large size, and because it doesn't get pithy. Gets almost twice as large as most radishes. The flesh is a snowy white, and the color is an attractive deep crimson. A vigorous quick grower that is one of the best for the home garden. Pkt. 12c; oz. 20c; ¼ lb. 48c; 1 lb. 1.19, postpaid.

EARLIEST RED BALL

Improved Scarlet Globe

450—(24 days.) A crispy, sweet little radish, round as a ball, bright scarlet in color. Tender and sweet, the earliest one we have. On good soil, ready to eat in 3 to 4 weeks. Its earliness, fine color, brittle flesh, and sweet, mild flavor make it an unusually nice variety for home gardeners, as well as large growers. Pkt. 15c; oz. 25c; ¼ lb. 74c; 1 lb. 1.50, postpaid.

HAILSTONE

Sweet, Round, White
458—(28 days.) A white skinned, early globe radish that is extremely good. Crisp, sweet, tender. Larger than most round radishes. Pkt. 10c; oz. 22c; ¼ lb. 60c; 1 lb. 1.20, postpaid.

FRENCH BREAKFAST

Attractive 2-Color Radish

442—(25 days.) The radish everyone likes. Is a brilliant scarlet color, with a white bottom. Oblong in shape. Flesh is crisp, juicy, mild and sweet. A quick grower. Popular with both home and market gardeners. If you've never tried French Breakfast, do so this year. You'll like it. Pkt. 10c; oz. 20c; ¼ lb. 59c; 1 lb. 1.39, postpaid.

RADISH MIXTURE

453—Start pulling them early and use as they are ready. New ones coming along all season. All colors, sizes and shapes.

Double Size Pkt.
10c
oz. 18c; ¼ lb. 35c
POSTPAID

TWO FALL RADISHES

WHITE MAMMOTH
Big White One

455—(59 days.) A favorite to all. Long, solid, white flesh. Now in the market. Pkt. 15c; oz. 28c; ¼ lb. 37c; 1 lb. 1.09, postpaid.

CHINESE ROSE
Winter Storage

454—(59 days.) Most popular winter variety. 5 to 6 in. long. Crisp. Stores well. Pkt. 15c; oz. 28c; ¼ lb. 40c; 1 lb. 1.15, postpaid.

TENDERSWEET

Sweetest Eating Radish

439—(24 days.) Here's a radish improved for its taste—not its size. It's early, round and red, like a ball, but more than that—all the tender crispness a radish could have and still be deliciously and unusually sweet has been bred into this new strain. Ready in 3 to 4 weeks. Pkt. 15c; oz. 29c; ¼ lb. 89c, postpaid.

SCARLET WHITE TIP

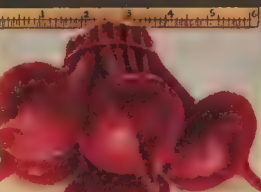

Earliest 2-Color Radish

444—(25 days.) A bright scarlet red with contrasting white tip. Early, round, attractive. Does not get hollow or pithy. Its sweet, crisp flesh stays fresh and crisp a long time after maturing. Pkt. 10c; oz. 20c; ¼ lb. 42c; 1 lb. 1.00, postpaid.

LONG SCARLET—The Red Icicle

451—(26 days.) The short top kind. Standard sort for home gardeners and truckers, too. Smooth and uniform, five to six inches long, crisp white flesh. Pkt. 10c; oz. 20c; ¼ lb. 42c; 1 lb. 1.10, postpaid.

SEED

DETROIT DARK RED

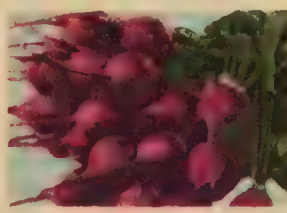

Favorite the World Over

604—(58 days.) Improved variety. There are no white streaks or rings in this one. It is a deep, rich red color, inside and out. Tender, fine grained and sweet. Globe-shaped. Has small tap roots. Excellent for home gardener for freezing and canning. Also a good one for market gardener. Pkt. 10c; oz. 33c; ¼ lb. 39c, postpaid.

PERFECTED CANNER

Won't Fade in Cooking

605—(58 days.) This beet not only has the richest, dark red color, but doesn't lose it in cooking or pickling. It's small, uniform and smooth with practically no tap roots. You can't find a better all-around beet for canning. Pkt. 10c; 1 oz. 35c; ¼ lb. 1.10, postpaid.

DARK RED CANNER

For Canning, Cooking, Pickles

606—(59 days.) Exceptionally fine for pickles. Small and globe-shaped. Very uniform. Quality excellent as is tender and fine grained. Color is a rich, dark red; doesn't fade or wash out during cooking or pickling. Pkt. 12c; oz. 30c; ¼ lb. 95c, postpaid.

EARLY WONDER

Market Gardeners' Favorite

607—(52 days.)

Very early, tender and small.

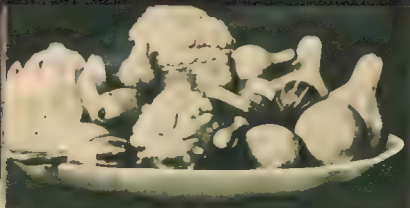

Beautiful in appearance because of its flat, globe-shaped, small collar and tap roots, and color. A favorite with market gardeners. But many home gardeners use it too, particularly for fall planting. Also good for winter use and bunching. Pkt. 10c; oz. 30c; ¼ lb. 95c, postpaid.

PERFECTED DETROIT DARK RED

The Perfect Deep Red Beet

602—(58 days.) A re-selected strain of Detroit Dark Red. In our trial grounds, it has made the best showing of any for color, shape and uniformity. In fact, we don't know how it can be improved. Medium in size and runs as regular and uniform as you could wish. Rich, deep dark red with absolutely no white rings nor streaks. No side roots. Fine quality, sweet, tender flesh. Pkt. 12c; oz. 35c; ¼ lb. \$1.00, postpaid.

ORNAMENTAL GOURDS

A good hobby. Lots of fun. Make pitchers, cups, vases, lamps, animals, etc. They make fine decorations, painted or unpainted.

1106—SMALL-FRUITED MIXTURE. No end of kinds, colors, and varieties in this mixture. Pkt. 10c, postpaid.

1105—LARGE-FRUITED MIXTURE. A dozen or more of the finest large varieties. Pkt. 10c, postpaid.

HERBS

For seasoning, flavoring, medicines, fragrance.

246—SAGE. Perennial. For seasoning meats and for medicinal purposes. Pkt. 15c, postpaid.

251—SWEET MARJORAM. (70 days.) Annual. For seasoning soups, stews, sausage, etc. Pkt. 20c, postpaid.

252—THYME. (85 days.) Perennial. 6 to 12 inches. Aromatic foliage. Good for seasoning. Pkt. 20c, postpaid.

224—BORAGE. (80 days.) Annual. 1½ ft. Young leaves used for salad and in lemonade and other cooling drinks. Pkt. 15c, postpaid.

250—SWEET BASIL. (85 days.) Annual. 1½

to 2 ft. Seasoning for soups, stews, omelets, salads, etc. Pkt. 15c, postpaid.

249—ROSEMARY. (78 days.) Leaves for seasoning, also used for medicine. Pkt. 15c, ppd.

255—CARAWAY. (70 days.) Biennial. 1½ to 2 ft. Seeds are used to flavor bread, cakes, pastries, confections, cheese, sauce, etc. Young leaves and shoots for flavoring salads. Pkt. 15c, postpaid.

235—LAVENDER. (60 days.) Sweet scented. Place dried flowers in linen for fragrance. Pkt. 20c, postpaid.

DILL

245—DILL. Annual. This is the flavoring for making dill pickles. Also good flavoring for soups and sauce. Easy to grow—does well everywhere. Pkt. 10c; oz. 15c, postpaid.

MUSTARD

213—CHINESE CURLED. Wonderful tasty greens. Pkt. 10c; oz. 15c, postpaid.

214—TENDERGREEN. A quick grower. Large, broad, thick leaves. Resistant to cold and heat. Heavy yielder. Pkt. 10c; oz. 20c; ¼ lb. 60c, ppd.

GARDEN LEMON

For Pickles and Preserves

229—Cultivate like muskmelons. Makes fine pickles and preserves. Pkt. 10c; oz. 35c, postpaid.

CELERIAC

244—(120 days.) Turnip-rooted celery. Used for celery-like flavoring in soups and salads. Pkt. 10c; ½ oz. 18c; oz. 30c, postpaid.

NEW GUINEA BEAN

222—Climbing vines 20 to 30 feet long. Pods 15 to 18" long, weigh 15 lbs.! Fry like eggplant. Pkt. 10c; oz. 17c; ¼ lb. 50c, postpaid.

CHIVES

211—(Schnittlauch.) A perennial of the onion family used for seasoning soups, salads, and stews. Easy to start. Grows for years. Pkt. 10c, postpaid.

MAMMOTH SUNFLOWER

239—(80 days.) For chicken feed. You can also parch sunflower seed—it's delicious. Pkt. 10c; oz. 15c; ¼ lb. 29c; 1 lb. 69c, ppd.

6035—Sunflower for Bird Seed. 1 lb. 40c; 3 lbs. 1.05; 5 lbs. 1.50, ppd.

329—(97 days.) A brand new, truly outstanding muskmelon. The contest melon so many of you folks tried last year. One of the sweetest, finest flavored melons we have ever eaten. It's a selection from the old fashioned Perfection strain. Has deep orange flesh of fine quality. Huge in size. Often grows to 14 lbs.! Read more about it on page 18 of this catalog. Pkt. (20 seeds) 20c, postpaid.

GREEN-FLESHED MELONS

THE EARLY ONE

344—STANDARD ROCKY FORD. (84 days.) The old green-fleshed "granddaddy of them all." A selected early strain which will please you. Pkt. 10c; oz. 25c; ¼ lb. 72c; 1 lb. 1.89, postpaid.

THE SWEET ONE

337—HONEY DEW. (112 days.) Late variety. Extremely sweet. Has smooth white rind and green flesh. Honey-like flavor. Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. 1.78, postpaid.

Henry Field's Selected MUSKMELONS

We're proud of our muskmelon seed. We don't believe there are any other seedsmen in the country who spend as much time fussing with the growers, inspecting crops and worrying about melon seeds. Every variety is grown by a specialist in an isolated place where it doesn't get a chance to mix with anything else. Plant seed after ground is warm. Figure about three dozen hills from one packet of seed or 100 hills from an ounce. Give plenty of room, at least 6 to 8 ft. each way.

MUSKMELON SPECIAL OFFER

1 PKT. HEARTS OF GOLD	Three	350X
1 PKT. HALE'S BEST (Mildew-Resistant)	Fine	29c
1 PKT. STANDARD ROCKY FORD (Green Flesh)	Melons	Postaid

GOLDEN HONEY

Finest of Disease-Resistant Kinds

327—(73 days.)

A new, extremely early, mildew-resistant melon of the early Hale's type. Very solid, heavily netted. Quality is outstanding. Ships well. Vigorous vines—a big yielder. The finest of its kind. Pkt. 15c; oz. 50c, postpaid.

HONEY ROCK

The Best Shipper

336—(95 days.) The sweetest melon we know. Solid as a rock. Heavily netted, lightly ribbed. Very productive. A fine shipper. One of the finest all-around melons. Pkt. 10c; oz. 25c; ¼ lb. 75c; 1 lb. 1.89, postpaid.

MELON PATCH COLLECTION

355—If you are going to plant both Watermelons and Muskmelons and don't want much seed, save yourself some money. Buy this special collection. One big packet (over 1 oz.) of Mixed Watermelons and one 1 oz. packet of Mixed Muskmelons—the two for only 25c, postpaid.

Henry Field's Headquarters For

WATERMELONS

These Melons Have Our Guarantee of Satisfaction

Every farm should have a big melon patch. Even the backyard gardener can and should raise a few hills of them. Nothing makes boys happier than a good melon patch of their own. Our seed comes from fields grown especially for seed crops. It's fine, clean, vigorous, heavy-yielding seed.

Melons like warm, loose soil. Give them plenty of room, at least 10 ft. each way. Figure about an ounce of seed for 50 hills, or 3 lbs. to the acre.

Mixed WATERMELONS

All Kinds and Colors

710—A fine mixture for boys, though we sell thousands to folks who haven't been boys for a long time. It's a mixture of 25 kinds so you have all sorts at all times. Find room for at least a ¼ lb. Big packet (over 1 oz.) 9c; ¼ lb. 35c, postpaid.

BLACK DIAMOND

Popular Market Melon

717—(80 days.) The big, round, dark green one you find in all the markets. May be a little late for northern states, but it's a dandy from Iowa south. Flesh is of good quality, crisp, very flavorful and sweet. Pkt. 10c; oz. 30c; ¼ lb. 90c; 1 lb. 2.50, postpaid.

DIXIE QUEEN—A Good Shipper

722—(80 days.) A great shipper and a fine melon for the home garden. Produces an unbelievable number of melons. Flesh is red, sweet, crisp and tender. Has fewer seeds than most varieties. The rind is thin, but tough. The color is striped light and dark green. Pkt. 10c; oz. 30c; ¼ lb. 90c; 1 lb. 1.95, postpaid.

STATE FAIR—Biggest of All Melons

701—(90 days.) This is the big jumbo kind. We used to take them around to the State Fairs and challenge anyone to raise bigger ones. They mature nicely here in this section. Melons often weigh 100 pounds or more! Its bright red flesh is deliciously flavored. Pkt. 10c; oz. 25c, postpaid.

GOLDEN HONEY

Best Yellow-Fleshed Melon

702—(90 days.) Large, oblong shape, weighing around 20 pounds. Rind dark green, with irregular stripes. Flesh tender, crisp, delightfully flavored, bright yellow. Pkt. 10c; oz. 20c; ¼ lb. 40c; 1 lb. 1.25, postpaid.

Wilt-Resistant STONE MOUNTAIN

New Wilt-Resistant Melon

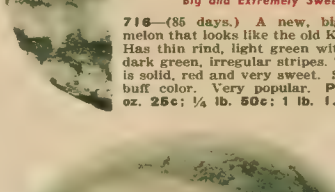

723—Stone Mountain No. 5—(85 days.) A new strain of Georgia Stone Mountain. Has all good qualities of regular strain and, in addition, will grow on wilt infested soil. Flesh red, crisp and sweet. Pkt. 10c; oz. 20c; ¼ lb. 45c; 1 lb. 1.00, ppd.

KANSAS SWEET

Big and Extremely Sweet

718—(85 days.) A new, big, round melon that looks like the old Kolb Gem. Has thin rind, light green with broad, dark green, irregular stripes. The flesh is solid, red and very sweet. Seeds are buff color. Very popular. Pkt. 10c; oz. 25c; ¼ lb. 50c; 1 lb. 1.25, ppd.

CITRON

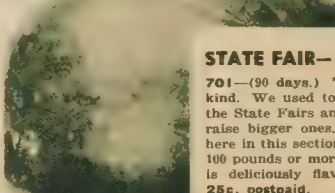

227—(95 days.) Red-seeded. Good for pickles and preserves but don't plant near the watermelons. Pkt. 10c; oz. 15c, postpaid.

COLLARDS

226—Cabbage leaves without heads. Pkt. 10c; oz. 15c, postpaid.

TABACCO

238—White Burley. A fine, standard, all-purpose variety. Does well most everywhere. Pkt. 10c; oz. 35c, postpaid.

GREELEY WONDER

Large and Flavorful

334—(80 days.) The largest one on the list. Has exceptionally fine quality and good sweet flavor. If you want something extra big to take to the Fair, here it is. Pkt. 10c; oz. 30c; ¼ lb. 80c; 1 lb. 1.98, postpaid.

BANANA MELON

Plant this for Variety

326—(96 days.) Looks like a huge banana. Has a delicious banana-like flavor when thoroughly ripe. One of the oldest varieties we grow, and one of the most popular. The boys will like it very much. Pkt. 15c; 1 oz. 35c; ¼ lb. 80c; 1 lb. 1.98, postpaid.

HARD-I-FIELD . . .

For Home Gardener or Shipper
330—(95 days.) A wonderful melon for the home gardener or shipper. Fruit 7½ inches long—about 6½ inches in diameter. Coarsely netted. Flesh thick, medium grain, orange, fine flavor. Has tough rind. Pkt. 15c; oz. 40c; ¼ lb. 95c, postpaid.

HALE'S BEST . . . Mildew-Resistant

328—(80 days.) A carefully selected strain of Hale's Best that won't take mildew. Melons slightly oblong. Small seed cavity. Flesh is sweet, thick and deep orange. Pkt. 10c; oz. 30c; ¼ lb. 80c; 1 lb. 1.95, ppd.

HEARTS OF GOLD

The Sweet Table Melon

345—(95 days.) The name about describes it. Medium size, round and well netted. Flesh orange colored, sweet and extra delicious. A heavy cropper. Excellent for shipping. A very popular melon. Pkt. 15c; oz. 38c; ¼ lb. 90c; 1 lb. 2.25, postpaid.

The Famous FIELD'S DAISY MELON

The Best "All-Around" Melon

332—(76 days.) We don't think you will ever find a sweeter, better, all-around melon. We introduced this years ago and have been working on it ever since, making a careful selection of seed each season. It's easy to grow and a prolific bearer. Medium in size, round, perfect in quality. Thick, smooth, deep orange flesh. Always makes customers come back for more year after year. Be sure to try it this year. We know you will like it. Pkt. 15c; oz. 40c; ¼ lb. 1.00; 1 lb. 2.98, ppd.

MIXED MUSKMELONS

331—Give the boys an ounce of this for their own melon patch. Contains all of the varieties we list, and many more. Pkt. 10c; oz. 20c; ¼ lb. 60c; 1 lb. 1.50, postpaid.

NEW! CONGO

704—(88 days.) Won 'a Bronze Medal at the 1950 All-America Trials. Developed by the U.S.D.A. Resists anthracnose and wilt. A long melon with deep red, sugar-sweet flesh (9.4% sugar by actual tests). Rind is tough. Ideal for market gardeners. Pkt. 15c; oz. 50c; ¼ lb. 1.10, postpaid.

KLECKLEY SWEET

The Will-Resistant One

706—KLECKLEY SWEET No. 6 —(90 days.) Originated by Iowa State College. Has all the good qualities of Kleckley, plus the resistance to wilt, and similar diseases. Flesh is bright red, tender and extremely sweet. Doesn't grow bottle-necked. Stands handling and shipping well. Pkt. 10c; oz. 30c; ¼ lb. 65c; 1 lb. 1.50, postpaid.

DUDE CREEK

An Improved "Battlesnake"

703—(88 days.) An improved Battlesnake type. Probably sweetest, most flavorsome of all. Is long with blunt ends. Flesh bright red, firm, and of fine texture. Melons weigh 35 to 40 lbs. Pkt. 10c; oz. 35c; ¼ lb. 90c; 1 lb. 1.95, ppd.

FIELD'S FOURTH OF JULY

Ripe by July 4th

708—(70 days.) 20,000 of our customers swear by this melon year after year. One of the earliest grown. Average weight 3 to 10 lbs. Rind deep green, marked with lighter stripes and is exceptionally thin (not over ¼ in.). Flesh dark red, tender, fine grained, unusually sweet and rich. Pkt. 12c; oz. 19c; ¼ lb. 50c; 1 lb. 1.50, postpaid.

NEW! Hybrid "DIXIE QUEEN"

726—Probably the sweetest, firmest, most delicious melon you have ever eaten! Fruits are uniform in shape, usually weigh from 35 to 50 lbs. Flesh is rich red, crisp, sugar-sweet and of excellent quality. Withstands dry weather and stays in eating condition longer than the ordinary Dixie Queen. Ripens in mid-August. You must try this one. Pkt. (30 seeds) 25c; ¼ oz. 50c; 1 oz. 1.50, postpaid.

Midget WATERMELON

711—This is an improved ice-box style melon. Fruit is only 7 to 8 inches long—just right for individual serving and easy refrigerator storage. Flesh is delicious. Is sweet, rich red, of fine quality and very crisp. Rind is very thin. An outstanding melon every home gardener should grow. Pkt. 20c; 1 oz. 35c; ¼ lb. 85c, postpaid.

So small you can hold it in your hand.

Henry Field's Famous SUGAR LUMPS

BUY THEM NOW BY COLOR

Red, white or yellow in separate packets. So many of you wanted them that way, here they are. Your choice any below: Pkt. 20c; oz. 40c.

724—YELLOW SUGAR LUMP. Golden yellow, flesh very sweet.

725—WHITE SUGAR LUMP. If you've never tasted a white melon, here's a treat for you.

721—RED SUGAR LUMP. Most folks like best because they've never tasted white or yellow.

500X—1 Pkt. Ea. of All 3, 39c, Postpaid.

SWEET 'AS SUGAR

Sweetest ever. That's why we call them "Sugar Lumps." Flesh not stringy—of excellent quality and flavor. Rind very thin.

VERY EARLY

This new strain is the earliest we've found yet. Some are ripe by June 30. All varieties ripe by July 10. Bear over long period of time.

"ICEBOX" SIZE

All varieties are individual size, about 8 to 9 in. through. Fit in icebox without cutting. No left overs to get tough.

If you haven't tried Sugar Lumps you should, because they are definitely something new and better in watermelons.

MIXED SUGAR LUMPS

719

All above colors in a big mixture.
Pkt. 15c Oz. 25c ¼ lb. 75c Postpaid

SEEDLESS WATERMELON

Sweet, Delicious, Seedless

727—Yea, it's true—we have an honest-to-goodness Seedless Watermelon! Has no seeds, except for a few soft, undeveloped ones, about like those of cucumbers, that you eat without noticing. Seedsmen have finally discovered the way to produce seedless melons. One of the parent plants is treated with a special chemical which upsets structure. The treated plant is crossed with a normal plant and the offspring is seedless.

The melon is of the "icebox" type. About 6 inches in diameter, round, with deep red flesh that is sweet and delicious. Pkt. (10 seeds) 80c, postpaid.

CABBAGE

See Page 8
for Frost-
Proof Plants

SPECIAL CABBAGE SEED OFFER

1 Pkt. Early Jersey Wakefield } 225¢—All
field } 3 for 23¢,
1 Pkt. Copenhagen Market } postpaid.
1 Pkt. Premium Late Flat
Dutch }

NORSEMAN—Our Early Round

527—(68 days.) Very hard and solid. Doesn't crack open. Medium size, round, sweet, tender and juicy. Quality is excellent. Good for late planting as keeps well. Is dependable and a heavy yielder. Pkt. 12¢; ½ oz. 33¢; oz. 58¢; ¼ lb. 1.64, postpaid.

Early Jersey WAKEFIELD

The Early Pointed Cabbage
522—(63 days.) Standard early. Pointed head, very solid, tightly folded, tender and crisp. Excellent for home or market. Heads weigh about 2½ to 3 lbs. May be set close together as grows compactly. Pkt. 10¢; ½ oz. 36¢; oz. 59¢; ¼ lb. 1.65, postpaid.

Early Round WAKEFIELD

Icebox Size

524—(Golden Acre). (64 days.) Crisp, tender and sweet. Forms a small, very solid head that doesn't burst open. Is very uniform. Heads usually weigh 3½ to 4 lbs., just right for the average family or for the icebox. A sure, heavy yielder. Pkt. 12¢; ½ oz. 33¢; oz. 55¢; ¼ lb. 1.70, postpaid.

PREMIUM LATE BUTCH

Good Keeper

535—(105 days.) Everybody knows and likes this one. A sure header and a good keeper. Heads are large, usually growing 12 to 14 lbs., and are round, solid and broad, flat on top. Flesh is crisp, tender, and of fine quality. Grows low. Pkt. 10¢; ½ oz. 30¢; oz. 55¢; ¼ lb. 1.59, postpaid.

MARION MARKET

Dependable Early

523—(75 days.) This is a strain of Copenhagen; has all its good points plus resistance to disease. Heads almost round and weigh 5½ to 7 lbs. each. Quality is very good. A dependable early cabbage that is a favorite of home and market gardeners. Pkt. 15¢; ½ oz. 36¢; 1 oz. 59¢; ¼ lb. 1.77, ppd.

Yellows-Resistant BALLHEAD

The Late One

526—(105 days.) A late cabbage. Heads are solid, round and somewhat flat. Is larger and more leafy than ordinary Hollander. Its quality is good. Flesh is crisp and of fine flavor. An excellent keeper that always does well. Pkt. 15¢; ½ oz. 35¢; oz. 60¢; ¼ lb. 1.40, postpaid.

CHINESE CABBAGE PE TSAI

539—(70 days.) A great salad vegetable. Serve like lettuce or prepare like cabbage. Heads 12 to 14 inches tall, with leaves tightly folded around tender, white heart. Leaves creamy white. Pkt. 10¢; ½ oz. 25¢; oz. 45¢; ¼ lb. 1.30, postpaid.

COPENHAGEN MARKET

A Sure Yielder

519—(68 days.) One you can depend on. An extremely early variety with round, medium size, solid, crisp, white heads. Its quality is excellent. Gives a heavy yield of 8 to 10 lb. heads. Because of its quality, yield and size, it is one of the best and most popular of all. Pkt. 10¢; ½ oz. 35¢; oz. 59¢; ¼ lb. 1.69, postpaid.

EARLY FLAT DUTCH

Solid Flat Heads

521—(80 days.) A large, flat head on short stem. Heads solid with few outside leaves so you can set close. Quality is extremely good. A good keeper. Excellent for home gardens, kraut and market. Pkt. 10¢; ½ oz. 30¢; oz. 55¢; ¼ lb. 1.65, ppd.

SUREHEAD

Always Heads Out

538—(95 days.) If you have trouble getting your late cabbage to head, try this one. It's easy to grow and always does well. Heads large, round and flat, uniform. Crisp and tender. Good keeper. Makes fine kraut. Pkt. 10¢; ½ oz. 25¢; oz. 45¢; ¼ lb. 1.40, postpaid.

JERSEY QUEEN

Early Disease-Resistant

525—(63 days.) Disease-resistant Jersey Wakefield. Standard early, pointed head, smooth, dark green leaves. The tender heads average 2½ to 3 lbs. Does well everywhere. Makes a crop where others fail. Pkt. 15¢; ½ oz. 35¢; oz. 63¢; ¼ lb. 1.70, ppd.

SAVOY CABBAGE

For Pickles, Salads, Cooking

517—(90 days.) For fineness and delicate flavor you'll have to go some to beat this variety. Ideal for salads, pickles and cooking. Leaves are crumpled, giving it a different and attractive appearance. Heads are round and solid. Pkt. 10¢; ½ oz. 38¢; oz. 65¢, postpaid.

RED ROCK

Delicious Red One

533—(100 days.) Heads are very solid and red throughout. For cooking, salads or pickling. Perfectly round and hard as a rock. A sure cropper that should be better known, as is a delicious cabbage. Pkt. 10¢; ½ oz. 35¢; 1 oz. 60¢, ppd.

ENDIVE

234—Broad Leaved Batavian—(90 days.) Make large plant up to 16 inches across. Eat like lettuce, cook like spinach, or use in soups and stews. Easy to grow. Pkt. 10¢; oz. 24¢, ppd.

OKRA . . .

236—Perkins' Mammoth—(55 days.) Plants grow 3 to 4 ft. tall and are very prolific. Pods are pointed, dark green, slender and slightly ribbed. Best used when young and tender. Use in soups, stews, and relishes. Pkt. 10¢; oz. 15¢, postpaid.

CURLED GARDEN CRESS

243—(Pepper Grass)

—(40 days.) Foliage is a deep green, finely curled. Has an agreeable peppery taste. Use for garnishing and with lettuce in salads. Hardy. Pkt. 10¢; ½ oz. 25¢, postpaid.

BRUSSELS SPROUTS

225—(90 days.) Belongs to the cabbage family, but has a milder, more delicate flavor. Dozens of miniature cabbage heads, 1¼ to 1½ in. in diameter, grow alongside the stems. Heavy yielder. Easy to grow and is becoming more and more popular. Pkt. 10¢; oz. 25¢, ppd.

KOHLRABI

The Aristocratic Cabbage

216—WHITE VIENNA—(60 days.) A member of the cabbage family with an edible turnip-like bulb which grows above the ground. Some say it is a cross between turnip and cabbage. We say it is as good or better than either one. Grow as you would cabbage. Use when about 2 in. through. Serve cooked like turnips or eat raw. Pkt. 15¢; ½ oz. 25¢; 1 oz. 45¢, postpaid.

PARSLEY . . .

For Seasoning or For Garnish

217—MOSS CURLED.

Use for garnishing and seasoning. Fine for soups and salads. Rich, curly, dark green. Pkt. 10¢; oz. 25¢; ¼ lb. 79¢, ppd.

221—TURNIP-ROOTED (HAMBURG).

Grows like

carrots. Has the same flavor as regular parsley, but the roots resemble small parsnips in shape and color, and are the edible part of the plant. Use for soups and flavoring. Pkt. 10¢; oz. 27¢; ¼ lb. 75¢, postpaid.

TURNIPS

The Five Best Varieties

Plant some of the early ones in the spring, just as soon as you can get in the ground. The main crop turnips are best sown the latter part of July.

Turnips will keep growing in the ground until it freezes and then may be stored in the cave, basement or crib. One ounce will drill 150-foot row. 2 to 3 lbs. to the acre.

809—SEVEN TOP—(50 days.) Sometimes called foliage turnip. Very popular in the South where it is grown for turnip greens. Pkt. 10¢; oz. 20¢; ¼ lb. 40¢; 1 lb. 1.20, postpaid.

803—EXTRA EARLY MILAN—(40 days.) One of the earliest turnips in cultivation. Fine for home or market. The roots are flat, white with purple top, flesh pure white, very fine grained, sweet and tender. Pkt. 10¢; oz. 20¢; ¼ lb. 45¢; 1 lb. 1.30, postpaid.

807—PURPLE TOP GLOBE—(55 days.) The leading turnip. One of the very best. Yields heavy crops of large, round, purple top turnips. Very tender, crisp and sweet. Flesh pure white, and it stores well for winter use. The flavor is unusually good. Pkt. 10¢; oz. 18¢; ¼ lb. 45¢; 1 lb. 96¢, postpaid.

810—WHITE GLOBE—(75 days.) A large variety which is good for table use or for stock feed. It produces a tremendous turnip. The roots grow 4 to 6 inches in diameter, and are entirely white. Pkt. 10¢; oz. 15¢; ¼ lb. 38¢; 1 lb. 98¢, postpaid.

806—PURPLE TOP STRAP LEAF—(45 days.) Very similar to the Purple Top Globe except that it is flatter in shape. One of the finest garden sorts for either spring or fall planting. Pkt. 10¢; oz. 15¢; ¼ lb. 35¢; 1 lb. 95¢, postpaid.

HOW TO STORE THEM

Turnips and Rutabagas are two of the best vegetables for storing over winter. Build or dig an outdoor cave or simply store in cool, dark cellar. Watch out for poorly ventilated location where mold can develop.

RUTABAGAS Good Keepers—Firm Flesh

808—RUTABAGA AMERICAN PURPLE TOP—(90 days.) Has large, smooth, cabbage-like leaves. The root is large, globe-shaped, with a small crown, yellow in color, with a purple top. The flesh is tender and crisp. Grown extensively in the north-

west sections. Pkt. 10¢; oz. 20¢; ¼ lb. 45¢; 1 lb. 1.35, ppd.

SWISS CHARD

"Spinach-Beet"

220—(60 days.) The finest greens in the world. Really a beet but always used as greens. Bears tender leaves all season, even after light frost. Fine, too, for poultry. Pkt. 10c; oz. 24c; ¼ lb. 70c, postpaid.

How to Cook Chard

Use tender leaves. Wash thoroughly, drain. Put in kettle, but don't add water. Lay strips of bacon on top and add small sliced onion, salt and pepper. Cover. Cook slowly until tender.

CAULIFLOWER

Cauliflower is similar to cabbage. Requires about the same growing conditions and same culture. Plant early and handle as you would cabbage. Makes mighty good eating.

558—EARLY SNOW-BALL. (54 days.) Heads are deep, smooth, compact and snowy white. Very early. Pkt. 15c; ¼ oz. 95c; oz. 2.95, postpaid.

Midget VEGETABLES

Small varieties for a complete garden in the smallest back yard, but good to grow even if you have plenty of room. Every one tops in quality.

140—TINY GREEN BEANS—Seeds small and white. Flavor unbelievably good. Quality fine. Pkt. of 30 seeds, 25c, postpaid.

504—TOM THUMB LETTUCE—Tennis ball size head lettuce just right for individual salads. Pkt. 15c; 2 for 25c, postpaid.

179—MIDGET SWEET CORN—Tender. Flavorful. Sweet. Ears 4 inches long. Stalks 2½ feet tall. Very early. Pkt. 25c; 2 for 40c, postpaid.

428—TINY TIM TOMATO—Plants 15 inches tall, covered with ¾" red tomatoes. Also grow well and look well in porch box or potted. Pkt. 20c; 2 for 35c, postpaid.

360—BABY CUCUMBER—4" long. Vines bushy. Early and productive. For fine uniform pickles. Pkt. 15c; 2 for 25c, postpaid.

712—MIDGET WATER-MELON—7 to 8 inches long. Red, crisp flesh. Wonderful flavor. Pkt. 20c; oz. 35c; ¼ lb. 85c, ppd.

650X—SPECIAL MIDGET OFFER—1 packet each of above 6 varieties for 98c, ppd.

CHICKEN LETTUCE—Poultry Feed

514—A special lot of best varieties for poultry feed. Every chicken raiser ought to make plantings every two weeks throughout the season for lots of good, green, inexpensive chicken feed. Pkt. 10c; oz. 24c; ¼ lb. 69c; 1 lb. 1.10, postpaid.

SPINACH

Spinach makes dandy greens—whole-some, vitamin-packed and delicious when properly prepared. Easy to grow, it always does well.

EARLY CURLED SIMPSON

The Sweetest One

513—(45 days.) Forms a tight cluster of leaves in the center. Very crisp and sweet. Loose leaf or bunching variety. Color light green. Leaves crumpled. Pkt. 10c; oz. 28c; ¼ lb. 72c, postpaid.

BLACK SEEDED SIMPSON

Heaviest Yields

509—

(45 days.) A

nationally known variety of loose leaf or bunching type (does not form a head). Often grows larger than a gallon crock. Light green or creamy leaves, closely folded. Quality is very good. Stands summer heat extremely well. Pkt. 10c; oz. 30c; ¼ lb. 75c, postpaid.

ICEBERG

For Salads

505—(82

days.) A

standard va-

riety for forc-

ing or for gar-

den culture. Has large, compact

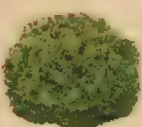

heads, curly leaves and good to

eat at any stage. Tender, sweet

and of excellent quality. Won-

derful for salads. Pkt. 10c; oz.

33c; ¼ lb. 93c, postpaid.

BIG GREEN LEAF

Bears Longer

209—(48 days.) A second early that bears longer than other varieties. Leaves medium large, and somewhat crumpled. Crisp and tender. Pkt. 10c; oz. 20c; ¼ lb. 48c; 1 lb. 1.29, ppd.

NEW ZEALAND SPINACH

210—(70 days.) Not a true spinach, but similar when cooked. Tender, dark green leaves. Pick all summer. The more you pick, the more it grows. Good eating. Pkt. 12c; oz. 30c; ¼ lb. 75c, ppd.

BEST WAY TO COOK SPINACH

Select tender leaves. Wash thoroughly. Place in pan and put slice of ham or bacon on top. Don't add water. Cover, cook slowly until thoroughly wilted. Don't overcook. Serve with butter, salt and pepper.

LEAF LETTUCE

GRAND RAPIDS ...

Easiest to Grow

510—(43 days.) The easiest to grow and the best flavored. Came from Michigan where it made a great name for itself. Crisp, curled, light green leaves that grow erect and do not wilt. Good for growing outdoors in spring, summer and fall, and especially tender and sweet when grown under glass. Early and disease resistant. Pkt. 10c; oz. 30c; ¼ lb. 79c, postpaid.

Bronze Beauty

Tender, Crisp, Nut-Like Flavor

501—This unusual lettuce with the nut-like flavor will be a real thrill for you. Tender, crisp with leaves so different you'll be proud to serve. Colorful in a salad. Different from anything else. Pkt. 15c; oz. 70c, ppd.

PRIZEHEAD

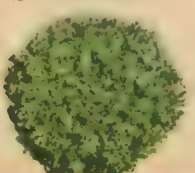

Delicate Pink Edges

511—(45 days.) This is a quick grower, which makes a world of delicious tasting leaves, reddish-brown in color. Edges are delicate pink. Stays tender a long time and lasts well into hot weather. Pkt. 12c; oz. 30c; ¼ lb. 65c, postpaid.

... SALAD BOWL LETTUCE

All-America Winner

502—An All-America Medal Winner. A loose-leaf variety. Well named because one head just fills a salad bowl. Grows fast and large. Leaves are rich green, short, closely set, wavy and notched—very decorative. Holds its tenderness a long time. Pkt. 25c, ppd.

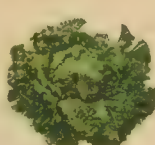

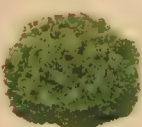

HEAD LETTUCE

... CREAMY HEART

The Heavy Yields

515—A cabbage-head sort with bright green leaves heavily curled. The hearts are a rich golden yellow, very crisp and buttery, lightly folded. Fine producer, sure header. For home use or for market. Our special strain is noted for its fine flavor quality. Pkt. 10c; oz. 30c; ¼ lb. 75c, postpaid.

New York

or Wonderful The Market Type

GREAT LAKES

All-America Prize Winner

508—The All-America prize winner. Does well anywhere but especially good where hot summers come on early. Stands heat and sun. A sure header. Heads medium size, very solid. Of finest quality and flavor. Distinctive dark green color. Pkt. 15c; oz. 60c; ¼ lb. 1.75, postpaid.

FREEZE BOX VEGETABLE COLLECTION

600X—Here are the varieties you've been looking for—the ones that are good for freezing. You get enough seed to grow your whole season's supply of freeze box vegetables!

½ lb. Freezonian Peas. 30c
½ lb. Top Crop Green Beans. 40c
½ lb. Green Seeded Baby Lima Beans 35c
½ lb. Golden Cross Bantam Hybrid Sweet Corn 35c
1 pkt. Dude Creek Watermelon. 10c
1 pkt. Hale's Best Muskmelon. 10c
1 pkt. Imperator (Tender Sweet) Carrot 12c
Regular price... 1.67

OUR SPECIAL COLLECTION
PRICE ONLY 1.19, PPD.

GIANT THICK LEAF

Largest of All

207—(43 days.) Nobel strain. A very heavy yielder with the largest leaf of any of the Spinach varieties. Somewhat crumpled, medium early. Plants large and spreading. Leaves large, thick, broad, arrow-shaped. Crisp and tender. For fresh greens, canning or freezing. Pkt. 10c; oz. 18c; ¼ lb. 40c; 1 lb. 1.20, postpaid.

RE-SELECTED BLOOMSDALE

The Earliest

206—(40 days.) The earliest and probably finest variety of all. Plants grow upright, usually 10 to 12 in. tall with a spread of 12 to 15 in. Leaves a very crumpled and a rich dark green. Pkt. 10c; oz. 18c; ¼ lb. 44c; 1 lb. 1.25, postpaid.

ASPARAGUS PLANTS

Asparagus is easy to grow, takes little care, and produces delicious food year after year

Mary Washington Rust-Proof ASPARAGUS

Mary Washington is more tender, less stringy, and more rust-proof. This is the variety most commercial growers use because it gives them both heavy production and good quality. There are other varieties but Mary Washington is so much better we don't see the need of listing anything else.

How to Plant: Plant 18 in. apart in rows 2 ft. apart and on well enriched soil.

Size to Plant: For quickest returns, plant 3-year Jumbo size. The 1-year plants will give you a nice bed inexpensively.

A1904—1-yr. Select Plants: 25 for 1.10; 50 for 1.89; 100 for 3.59, postpaid.

A1905—2-yr. Extra Heavy: 25 for 1.39; 50 for 2.59; 100 for 4.89, postpaid.

A1906—3-yr. JUMBO. Plant this giant size and you can begin eating some from it the first year. 10 for 98c; 25 for 1.89; 50 for 3.49; 100 for 6.69, ppd.

Special Rhubarb-Asparagus Collection

A2527X—These two plants always seem to go together and you usually plant them in out-of-the-way places around back somewhere. Here we make it easy for you to get a good start of both. 25 MARY WASHINGTON ASPARAGUS 2-yr. No. 1, and 3 Famous Chipman's Canada Red Rhubarb, all for 2.98, postpaid.

RHUBARB PLANTS

CHIPMAN'S
CANADA RED

Famous Chipman's CANADAREDRHUBARB

Best of the New

A1955—When once tried you'll agree this is best of all rhubarbs. The stalks are large and completely red from bottom to top, and even the flesh is red. Cooking does not take away its rich color but makes it more appetizing for pies and sauce, a rich cherry red. Sweetest of all rhubarb so takes less sugar. Extremely productive. You can pull the big stalks all spring and summer and almost till fall. Ordinarily does not seed. Plant early and you can get some rhubarb this year. Large No. 1 roots 98c each; 3 for 2.69, postpaid.

SPECIAL RHUBARB BARGAIN A2520X

10 of our Tenderstalk Rhubarb for 98c, postpaid. (Special grade—good transplanters.)

Our Own Special TENDERSTALK

Our special strain of rhubarb does not get woody. It grows vigorously. It is much juicier, more tender and has a better flavor than the ordinary strains of rhubarb. This is the plant with the pale green stem and unexcelled for eating.

A1961—Select clean plants: 3 for 59c; 6 for 1.05; 12 for 1.68, postpaid. A1962—Extra heavy plants for quick results; 3 for 79c; 6 for 1.32; 12 for 2.15, postpaid.

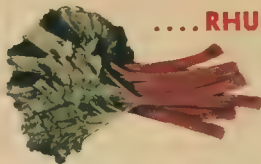

ASPARAGUS SEED . . .

Mary Washington Rust-Resistant

201—Mary Washington is the largest and best of all asparagus. Rust-resistant. Is tender, of excellent flavor and is not stringy. Ten cents worth of

seed will grow you all the plants you need for family use. Easy to raise, and once a bed is established, it will last a lifetime. Seed should be sown as early in the spring as the ground can be worked. Pkt. 10c; oz. 25c; ¼ lb. 62c, ppd.

.... RHUBARB SEED

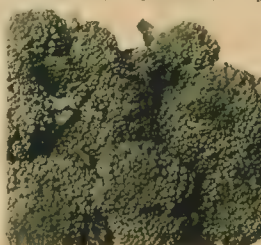

Grow Your Own CELERY... It's Easy! . . .

Fresh, home-grown celery is so much better than the store-bought kind. And it's easy to grow, too. Complete cultural directions come on each seed packet. One packet should make 50 feet of row or 100 bunches.

662—(118 days.) **GOLDEN SELF-BLANCHING.** Choice of all, with thick, heavy ribbed stalk

Blanches evenly to a clear waxy yellow. Crisp, solid, sweet and stringless. Pkt. 10c; ½ oz. 35c; oz. 50c, postpaid.

661—(140 days.) **GIANT PASCAL.** The largest of all. Branches are thick, solid, crisp and stringless. Flavor is nut-like and rich. Pkt. 10c; ½ oz. 35c; oz. 50c, postpaid.

.... BROCCOLI

242—Italian Green Sprouting. (70 days.) Plants are tall, erect and vigorous. The large cauliflower-like heads are 5 to 6 in. across, not solid, but with an abundance of light green, tender sprouts that are delicious creamed or used for greens. Sow the seed early for summer crop and in midsummer for a fall crop. This strain is highly recommended for freezing. Pkt. 15c; ½ oz. 30c; oz. 55c, postpaid.

Henry Field's Improved CURRANTS

Currants are among the most satisfactory of all garden berries. Very popular for jellies, preserves and pies. Perfectly hardy clear to the Arctic Circle!

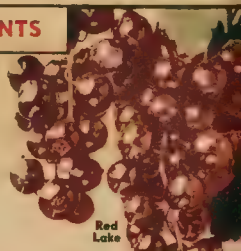

A1923—NEW RED LAKE CURRANT. The bigger, better, heavier bearing red currant. Bushes thrifty, long stemmed. 59c each; 3 for 1.59; 10 for 4.98, postpaid.

A1928—WILDER CURRANT. Exceedingly vig-

orous and productive. Fruit red, firm and juicy, and large. Hangs longer after ripening. 49c each; 3 for 1.29; 10 for 3.39, postpaid.

A1918—IMPROVED PERFECTION. Large berries just cover the plant. Good flavor; very popular. 54c ea.; 3 for 1.39; 10 for 3.89, ppd.

(See Shipping Notice Below.)

CURRENT COLLECTION

1 Wilder Currant } A2505X
1 New Red Lake } All 3 for
1 Improved Perfection } 1.39, ppd.

WHERE WE SHIP CURRANTS AND GOOSEBERRIES

We can ship Gooseberries and Currants to Iowa, Missouri, Kansas, Illinois, Nebraska, Oklahoma, Arkansas, Alabama, Arizona, Colorado, Florida, Indiana, Kentucky, Louisiana, Mississippi, Nevada, New Mexico, North Dakota, South Carolina, South Dakota, Texas, Utah, and Wyoming only.

.... GOOSEBERRIES

Many people think gooseberries are sour and that is because they pick them green. When fully ripe, gooseberries are sweet and delicious.

A1940—PIXWELL. Finest Dark Red. Berries hang away from thorns; easier picking. Can be grown farther north and also farther south. Grow in almost any climate or soil. 89c ea.; 3 for 2.49; 12 for 9.50, ppd. A1939—OREGON CHAMPION. Dependable, regular, heavy bearer of the finest quality. Medium size berries are pale green and creamy yellow when ripe. Thrive in ordinary garden soil. 69c each; 3 for 1.98; 12 for 7.19, postpaid.

SAGE (Not Illustrated)

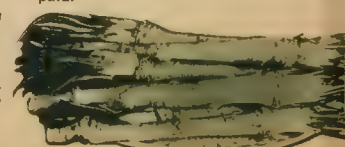

A1970—Sage is so easy to grow there is no reason for not growing your own. It will provide you with all the seasoning you want to flavor dressing, sausage and other meats. A few plants will give you a season's supply even the first year planted. Plants are attractive enough to be grown right in your perennial border. 39c each; 3 for 89c, postpaid.

Horseradish New Bohemian

Larger; whiter; superior quality. We have discarded all other kinds. Hardy anywhere. A1945—Heavy Crowns: 5 for 79c; 10 for 1.39; 25 for 2.98, postpaid. A1946—Cuttings: 12 for 69c; 25 for 1.29, postpaid.

EVERBEARING FIGS

A3706—Fine new fig. None better for preserves or eating fresh. Ripens big, well flavored figs from July until frost. Most hardy of all figs and often bears the first year. Reliably hardy Arkansas and south. 2 to 3 ft. 98c each; 3 for 2.69, postpaid.

Henry Field's SEED SENSE

Shenandoah, Iowa, January, 1952

No. 1

Prescription for Peace of Mind

Every once in a while I meet a man or woman who doesn't know a petunia from a marigold—or who knows no more about peas and beans and cabbages than that you buy them at the grocery store, at a high price.

No, I don't get mad about it, or look down my nose at them. Chances are they know a lot more than we do about some other things, but they just haven't had the time (or think they haven't) or the opportunity to enjoy the great pleasure of growing things for themselves. Maybe they have been too busy selling insurance, or keeping house, or working at a desk, or making things in a factory, to get acquainted with the good earth.

And a lot of you farmers are in the same boat, but for a different reason. Sure, you know all about gardening and orchards and chickens. But you've been awful busy raising the "cash crops" of corn and wheat and cotton, and feeding live stock, etc. And most of you have done all right at it. Glad you have. It's important to have the right clothes for the children, and have a car, and decent furniture, and maybe send the older children to college. I'm all for you on those things.

But my plea to all of you who have been thus occupied is that you join those of us who get so much joy and good from raising our own things.

Sure you can save a lot of money by growing from your own groceries. Particularly since it's so easy now to can and freeze things. But I've always thought that that was one of the lesser reasons for growing your own stuff.

Have you ever noticed that so many wealthy people take up gardening for a hobby? They don't do it to save money. They do it because of the joy of working with growing things. It gives them healthful exercise in good, clean outdoor air. It gives them the peace of mind and quietness of soul that they can't get in an office or factory or at a club house. They're also usually the kind of people who enjoy accomplishment—who enjoy creating something. It's a satisfying thing to plant a seed or small plant and help it grow through to maturity. That's another reason why no vegetable tastes as good as the one you grow yourself—no flower is as beautiful as the one you grew—no fruit more delicious than the one you pick from your own tree.

Henry used to say that growing your own things was good for you financially, physically, mentally, morally, and spiritually. That's saying a lot in one sentence. And it's right, as thousands of us gardeners know for ourselves.

And it doesn't take a lot of ground. You can do a lot with just a few square feet. In fact, one of the most common errors of beginners is that they start too big. In the spring they are all full of enthusiasm and start a big growing project. Then, when the newness wears off, it gets to be less fun and more work and they abandon it. Don't do that. Plant only what it's fun to take care

I never miss a chance to go through the greenhouses where we start our house plants—all the plants look so cheerful and friendly. Here I am in one of our newer greenhouses; shortly after this

picture was taken we built another one. The plant I am holding is a full-grown Double Rose Bud Begonia. Isn't it lovely!

of, even if it's only a piece of ground no bigger than a blanket. Don't make it work—make it fun.

Course if you want to get right down practical about it, you can grow almost everything to eat for your family, and have some to give away and some to sell. Lots of people do that, and enjoy it too. Some even raise berries and fruits and vegetables to make money. I know lots of people who do that.

I was talking with a man just the other day who has a little piece of ground between here and Clarinda, the town just east of us. He raises mostly strawberries and raspberries, and some vegetables and fruits, on a five acre place. He makes more cash money from it than some of his farmer neighbors make out of a quarter section! Sure you can do it.

I didn't know I was going to go off on a talking spree like this. Didn't mean to preach you a sermon. But I wouldn't take back a word I've said, and maybe it has done someone some good.

Write Us a Letter

This is a friendly business and we like to hear from you. And if you have a problem about growing things, for goodness' sake let us help you. We're not here just to sell you something. We're here to help you grow things right. We enjoy helping you.

And our advice is free. You don't have to follow it if you don't want to, and we'll still be friends. But don't deny us the pleasure of hearing from you and an opportunity of helping you. Write us a letter.

It was Edgar Guest who said that "it takes a heap of living to make a house a home." And he was right. We would like to add something to that. It takes growing plants to make a house look like a home.

A house on a bare piece of ground sure looks

colorless and forlorn, doesn't it? It needs bushes and trees and evergreens and flowers and vines and a good lawn and plants in the windows. Even the most modest home becomes beautiful and cheerful when it is in the right setting of green and flowering things.

And one of the best things about it is that it costs less than any other "home improvement" you can do. So take a good look at your house and yard and see if you have been overlooking something.

Have you noticed that our catalog this spring is brand, spanking new, and bigger than ever?

We put a lot of work into it, and we're mighty proud of it. It has more pictures in full color, and more pages, than any catalog we have ever put out before.

We had to do it because we kept getting so many new things for you and the old catalog was getting too crowded.

So look this catalog over very carefully. You'll find a world of new and better things, and we wouldn't want you to miss any of them. Of course, all the old favorites are still here. When things are good, we keep them in our catalog even though they have been around a long time. They're like reliable old friends and we couldn't get along without them.

I just wish you could see the seeds and plants and bulbs and things we have here at the Seed-house for you this year. I think it is the best lot of stuff we have ever had.

For instance, just the other day I was looking over our rose bushes. Now roses are scarce again this year, unfortunately. But I'm glad to report that we have some of the healthiest, huskiest, cleanest, most beautiful rose bushes I have ever seen.

Same with all the rest of the items we're listing in the catalog this year, but of course there just isn't room to tell you about all of them here. Just send us an order and find out for yourself.

Mrs. Henry (Bertha) Field

Wins \$25.00 for Sending in Best Snapshot of New Field's Giant Muskmelon

Last year we sent sample packets of our new Field's Giant Muskmelon to many of our customers and offered to pay \$25.00 to the person sending in the best snapshot of the melon.

Mrs. A. Boerner, of Mays Landing, N. J., sent in the above snapshot, which was best of all, and won the \$25.00.

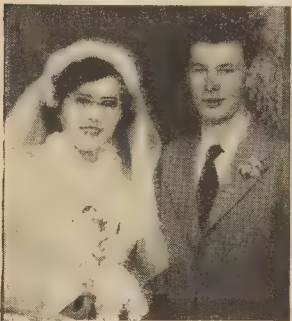

Pictured here, thoroughly enjoying one of the Field's Giant Muskmelons, are Mrs. Boerner and her daughters, Marion, on the left, and Adeline, on the right.

We suggest you turn to page 12 of this catalog and read more about this outstanding new melon.

Great Lakes Lettuce

Mrs. C. A. Burkhardt, of Lincoln, Mo., sent us this picture of one of her Great Lakes Lettuce plants. Holding the lettuce is Linda Lee Evans and beside her is Jerry Evans. Great Lakes truly is an outstanding lettuce. Grows big, tastes fine and always heads.

Bride and Groom

"Dear Field's: Am sending a picture of my daughter and her husband, Mr. and Mrs. Ernest Frieders, who were married March 31, 1951. Will you please send them a wedding rose? We all enjoy Seed Sense a lot."—Mr. M. Schweisthal, 366 N. Union St., Aurora, Ill.

Our congratulations, Mr. and Mrs. Frieders. The lovely rose bush was sent to you, in care of your mother's address, as we know Mr. Frieders is now in service. Hope you enjoy the rose for many, many years.—Mrs. J. L. F.

The Largest Radish Grown

For Poultry and Cattle

Ever see a radish that weighed 15 to 25 lbs.? The Sakurajima, or Poultry and Cattle Radish, does; in fact, it often weighs more. Its flesh is firm, solid and brittle, and has a good, pleasing flavor. Grows almost round in shape. Although it can be eaten by humans, it is too big and heavy to be practical for table use. Its real use is as a fine late fall and winter feed for cattle and poultry. Makes a lot of nutritious, inexpensive feed that cattle and chickens really go for. Easy to grow and grows anywhere. 438—Pkt, 10c; oz. 22c; ¼ lb. 59c; 1 lb. 1.45, postpaid.

Regal Lilies Do Well

"Dear Field's: Enclosed is a snapshot of my daughter Cecilia, with the Regal Lilies we purchased from you five years ago. You can see how well they bloomed."—Mrs. Peter Dirs, 79 Maple Ave., Hogaman, N. Y.

H. F. Seeds a Must

"Dear Mrs. Field: I am enclosing my seed and nursery order as usual. We have used your seeds for some time and feel we just couldn't make a garden without using Henry Field seeds."—Mrs. John Bootman, Rt. 4, Bentonville, Ark.

Our Nursery Guarantee

All our stock is guaranteed. If you are not pleased with it in every way when you receive it, return it promptly, at our expense, and it will be replaced or your money refunded, whichever you prefer. After you have planted it, if it fails to grow, we think we should both take part of the blame. We will take one-half and you and the weather take the other, and we'll replace at half-price anything unsatisfactory through any fault of the stock. Fair enough?

If you wonder how we can make such a guarantee, here are some of the reasons:

1. Our nursery stock is all state inspected.
2. Our nursery stock is free from disease.
3. Our nursery stock is of the highest quality.
4. Our nursery stock is true to name.
5. Our nursery stock is mature, live, ready-to-grow stock, first-class in every way.

Glad Bulblets

BG360 — Same size as we plant for growing our own bulbs here. If you are willing to wait a year for a part of your flowers (most will bloom the first year) plant these bulblets. Bulblets are simply small bulbs not yet grown to the largest blooming size. 1000 for 2.50; 500 for 1.50; 300 for 90c; 100 for 35c, all postpaid.

\$1.00 for Your Snapshots

Yes, we still want and need your snapshots, just as always. We have to have them or we just can't put out a Seed Sense or a catalog. We here at the seedhouse enjoy looking at them, too, as they give us an idea of how well our seeds and nursery stock are doing. Of course, we can't use all we receive, but we'll pay \$1.00 for the ones we do use. So get busy today and send in your snapshots of your flowers, vegetables, gardens, children, chicks, etc. The more you send, the better we like it.

Glowing Gold

Thermopsis Caroliniana

We missed getting this in the catalog and since it's such a good perennial we want to mention it here in the Seed Sense section. This plant will grow 4 to 5 ft. high with long spikes, often 3 ft. long, of soft yellow blooms that look for all the world like great spikes of beautiful Lupines. A planting of Glowing Gold together with hardy Blue Delphinium is a sight to behold. Glowing Gold is hardy, will grow anywhere, lives for years and years. It's a mighty satisfactory plant and as good a hardy perennial as you would ever want to buy. B2080—39c each; 3 for 98c, postpaid.

Golden Wedding

"Dear Mrs. Field: 'I see you are still offering a free rose bush for Golden Wedding pictures. We celebrated our anniversary on Aug. 5, with a family dinner and an open house. We have used your seeds and nursery stock since 1912 and always have good luck.'—Mrs. John Ball, Sawyer, Kans.

It's always nice to receive pictures and letters like this from our old friends and customers. We are very happy to send you a nice rose in honor of your anniversary.—Mrs. H. F.

Balmer Peach

This is one of the hardest peaches we have ever heard of. We want to offer it to you folks who can't grow the ordinary run of Elberta and other common peaches because of your cold climate.

Balmer was found as a chance seedling by a farmer near Waterloo, Wisconsin, and was named for him. It attracted the attention of a northern nurseryman, as it seemed to be extraordinarily hardy and had been bearing annually for several years. He tested it thoroughly, found the peaches to be of good size, yellow, freestone, and of excellent flavor and quality. It was also found to be harder than Marquette and Polly, which are among the hardest of all peaches.

We would particularly like you folks in the northern regions to try Balmer, as we know you will like it and that it will do exceptionally well for you. You folks who live in warmer regions can plant Balmer, too, as it has plenty of fine quality, even for southern planting. A3401—2 to 3 ft. size, 65c each; 3 for 1.79, postpaid. 3 to 4 ft. size, 69c each; 3 for 2.49, postpaid. 4 to 6 ft. size, 1.19 each; 3 for 3.29, express not prepaid.

20-Ft. Tomato Vine!

"Dear Mrs. Field: Last spring I found a packet of tomato seed in an empty house. I noticed they were Field's seeds, so out of curiosity I planted a few seeds next to our house. Didn't believe they would grow, but look at the snapshot! The vine at the time the picture was taken was over 12 feet high, and was still growing. People thought it was a beautiful vine of some sort and wanted to know its name. When they found out it was a tomato, they were dumbfounded.

"It became the talk of the town, reaching a full 20 feet in length. Was still growing when a windstorm blew it down. And did it produce? I never saw so many nice tomatoes from one vine!

"If you want seed that yields, buy from Field's, but purchase telephone poles for the tomatoes to grow on."

—Mr. Robert Curty, La Grange, Mo.
That's Mr. Curty's brother, Dan, gathering tomatoes on the roof.—Mrs. H. F.

How We Ship to You

If some of you folks who have sent in large orders don't get everything at the same time, it probably is because we have split up your order according to when different items should be planted. Orders are filled when stock is in best condition and during proper planting time. Garden seeds and non-perishable goods are sent immediately. But perennials, plants, evergreens, bulbs, etc., are sent in separate packages, even when sent the same day as the rest of your order. So you needn't worry if you don't get everything at once. Just read the papers that come inside the package. They will give you full details.

Gladiolus Seed

Grow your gladiolus from seed. It's the inexpensive way to get some fine glads. Takes a little longer for them to flower, but it's fun to do, and it's easy, and who knows, maybe you will originate some new sorts.

This seed was saved from our very finest varieties and with proper care will produce nice, big flowers the second year. Full, simple, "How to Grow" directions on the packet. 1096—Big generous packet 15c, postpaid.

Look at Our Big Cucumbers

"Dear Folks: Am enclosing an order and want to tell you of the wonderful success we have had with your seeds. The Top Crop Beans and the Surecrop Hybrid Cucumber did especially well. One of the cucumbers measured 14 inches long and weighed 2 ½ lbs. The picture shows our grandchildren holding some of the large cucumbers."—Mr. and Mrs. Chester Foliner, Rt. 6, Niles, Mich.

Free Wedding Roses

To persons sending in a picture of their recent wedding or Golden (50th) wedding anniversary we will send a free rose bush. Reason we do this is that we want our friends to have them as a sort of personal gift from us. Just send a photograph and tell us all about it. If you don't have a picture, send an announcement, though we'd prefer a picture. Can't tell you what kind of rose we'll send, but you can be sure it will be a good one. And we'll send it at the proper planting time.

Best Chickens Ever Raised

"Dear Field's: Here is just part of the 100 'Better Than Best' grade White Leghorn Pullets I got from Field's. Best chickens I ever raised. Started to lay at 4 1/2 months. No one could ever go wrong with Field's White Leghorns."—Mrs. Jess Eldridge, Rocky Ford, Colo.

Ornamental Corn

In our trial grounds we grow corn from all over the world—Africa, Italy, Spain, South America, etc. Some of it produces long ears, some produces short ears, some is thin, some squatty and fat. But all is very colorful. Because this corn is so unusual and pretty, we've made up a special color collection of over 40 different varieties. You'll get reds, blues, purples, yellows, golds, browns, blacks and even some ears of mixed colors.

Makes wonderful decorations for the home and table, especially in the fall of the year. Kids from 6 to 60 will like this colorful, ornamental corn. 170—Pkt. (3 oz.) 15c; 1/2 lb. 35c, postpaid.

Beautiful Hydrangea

"Dear Field's: I am enclosing a picture of my mother, Mrs. Mary F. Clark, who is 85 years old. She purchased the hydrangea in the background from your company several years ago. The flowers are a pure white. This giant hydrangea is certainly a beautiful fall bloomer. We enjoy Seed Sense and profit by your planting tips."—Mrs. Mabel C. Hastings, Kirkwood, Ill.

Please Help Us

If your family is getting two or more copies of our catalogs or Seed Sense, you could do us a real favor by passing your extra one on to a neighbor and then tell us about it when you send in an order. We want everybody to have one of our catalogs, but in order to make sure we have enough to go around, we can only give one to a family.

FREE FOR 1c FOR KIDS ONLY

This is for the kids and how they love it. They can't buy everything they'd like to ruin so we've rolled 100 packets into one and made a big mixture of every kind of garden seed. It's a giant packet. It costs 1c. But it must be by your own penny. Don't ask the folks for it. Write "Conglomeration Packet" on your folks' order, slide in your 1c, and you'll be buying your OWN garden. This must come with your folks' order.

ALL FIELD'S SEEDS ARE GUARANTEED Here's Our Famous Guarantee

We guarantee the safe arrival of all orders, the vitality and purity of all seeds to full amount of purchase price. We will replace them free if they don't please you in every way, or will refund the money you paid for them. Since even with the highest quality seeds and bulbs, gardening depends so much on soil, climate, and weather, we cannot and will not be liable for more than the purchase price of the seed.

Plant Nursery Stock Soon as Possible

We often get complaints from customers about nursery stock dying after it is planted. Although customers who report losses seldom realize it, we suspect that a lot of the loss is due to the fact that the plants are not planted immediately upon arrival.

The stock very often is allowed to lay around in the garage, or out on the back porch, or on the lawn in the sun for several days before being put into the ground. By the time the stock is planted, most of it no longer is in the good growing condition it was in when shipped out of here and is so dried out it doesn't even have a chance to live.

Of course, we have a replacement policy which is satisfactory to most all our customers. This policy is that if the customer notifies us that the stock was not in good condition when it arrived, but in order to try to save the stock, went ahead and planted it anyway, and advises us immediately, we offer him full replacement on anything that does not live. We prefer, however, that if anything is received dried out and dead-looking, you return it to us at once (without planting it) so that we can make you a new shipment of fresh, live stock.

On anything that you customers plant and then dies later on in the summer, we feel that we should take half the blame and you and the weather the other half, so that the cost can be split 50-50. This seems fair to us and has proved satisfactory to most everyone concerned. However, as you can imagine, this is sometimes pretty expensive for us.

Seems everybody is awfully busy these days and each year, in spite of the increasing use of modern appliances for saving work, people somehow don't seem to save much time. Instead, folks often don't have a minute to do the things they ought to do. We know how it is ourselves and we know how easy it is to let a bundle of plants lay around somewhere a week or two before time can possibly be spared to get the stock into the ground. But just remember, plants are living things, and like you and us, they must not be left too long without food and water and protection—otherwise the result will be certain death.

Now we'll do our part to try to get the plants to you in perfect shape, and if Uncle Sam's mailmen will keep them moving and if you will get them planted when they arrive at your door, then everybody will be happy.

No C.O.D.'s, Please

Unfortunately, we just can't ship C.O.D. There are so many delays in shipping this way that it isn't practical. Nursery stock should be planted just as soon as possible after leaving here, and if it has to wait around to be delivered it may not do too well. So, this is for your own protection. Then, too, C.O.D.'s always cause a lot of red tape, which in turn causes higher prices. We know you folks want to buy things at as low a price as possible, so by not having C.O.D.'s, we can keep our prices down.

Sensitive Plant

Here's an unusual plant we thought some of you would like to have. It's called the Sensitive Plant and it's one of the most mysterious of all plants. Touch the leaves and they drop limp. In a few minutes they are erect again. It has fern-like foliage, fuzzy pink flowers, and grows about a foot high.

What makes it tick? We don't know. Perhaps you can figure out the answer. It's an annual and easy to grow. Plant it out in the garden or pot it up as a house plant. But wherever you plant it, you may be sure it will mystify you and your friends. 1227—Pkt. 15c, postpaid.

Pretty Cushion Mums

"Dear Mrs. Field: Just a line to let you know how much I enjoyed your Cushion Mums. They were so pretty many people stopped to look at them. You couldn't see the foliage for the blooms! The little lady is Darlene Patton. I am her great aunt."—Mrs. John Purdy Stockton, Rt. 2, North Cedar, Kans.

Extra Payment in Nursery

In shipping orders to customers we sometimes send postage-free items along with others that go express-collect. When this happens, the customer has to pay express charges on the whole shipment. Naturally, this isn't fair, but to make it right and rather than put up two separate packages, we always put in a little extra nursery stock. This more than makes up for the additional postage charges. Seems like a good deal to us because you really get a bargain out of it.

Winner of Last Year's Jr. Seedsman Bike

We announced in our fall catalog that Robert Trickey, age 12, Box 38, Green Valley, Ill., was the winner of the Junior Seedsman Schwinn bicycle. Here's a picture of Robert (in the middle) with his new bike, with his brothers, David, 3, in front, and Roy, 9, in back. Needless to say, Robert was tickled pink to learn that he was the winner of the contest.

You youngsters who are interested in winning a fine Schwinn bike, turn to page 22 of this catalog and read how you can win one. It takes a little work, but it's fun and you earn other prizes and money at the same time.

Caught in the Act

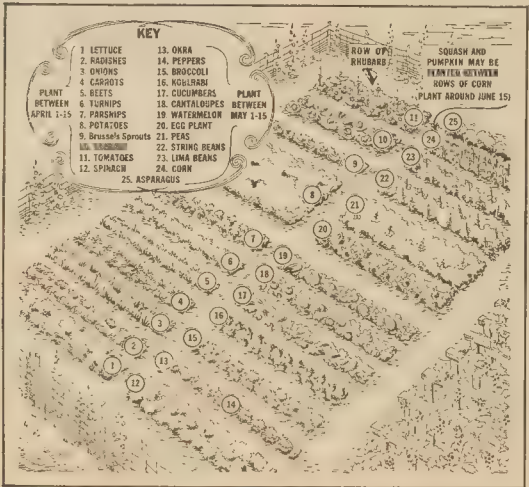

"Dear Sirs: Am sending a picture of my oldest son, Donald, 4 years old, pictured as a rabbit eating one of my carrots. Agood share of my carrots were eaten up by this little 'rabbit'—right out of my garden."—Mrs. Erwin Suther, Langford, So. Dak.

Sure had me fooled for a minute.—Mrs. H. F.

HENRY FIELD'S Garden Planting Tips BE SURE TO SAVE

These two pages may help you when you order your seed, and plant your garden, in the spring. They also may help answer some questions during the growing season. But if you have more questions, now or later, please write us. We always like to hear from you.

A SUGGESTED GARDEN PLAN

LOCATION OF GARDEN. The kitchen garden should be located close to the house. This gives protection against animals and thieves (makes it a lot handier too if you have a few odd moments to spend in it). The main or big garden should be so located and planned that it can be cultivated with regular farm tools. It saves a lot of weeding.

SOILS AND SHADE. Don't make your garden in the shade of big trees or in soils full of tree roots if you can avoid it. Most garden crops like sunshine and all of them appreciate and respond to good soil. Stony land and poorly drained soil are not the best.

FITTING THE SOIL. Plow or spade deeply in the fall, especially where there is sod to be turned under. Do a good job. Leave the land rough to hold snow and moisture. Harrow or rake thoroughly before planting. Good preparation will save a lot of cultivation.

SIZE OF GARDEN. There is only one rule we would give and that is to "Plant Plenty." What you do not need for the day to day table needs, can or freeze.

General Tips

Before plowing burn the rubbish and dead vegetable vines as they may carry disease or injurious insects.

Apply a good coating of manure if you can get it. Tree leaves are also fine. Some gardeners say cover the seed four times its greatest diameter. Seed can be planted deeper on loose mellow soil than it can on clay or gumbo.

The same seed should be planted deeper late in the season when the soil is warm and more likely to dry out.

After planting very small seed, especially among the flowers, cover with a mulch to hold the moisture near the surface until the seed sprouts.

Plant some for the worm; some for the crow; some to pull out and some to grow.

Plant abundantly. Enough for yourself and some to spare.

How and When to Plant Garden Seeds

Vegetables	How and Where to Plant		Depth (Inches)	Rows apart (Inches)	Inches apart in row after thinning	Amt. seed to 100 ft. row
	Hot Bed	In Open				
Asparagus		Mar-Apr	1 inch	40 in.	12 in.	1 lb.
Bush Beans		Mar-Apr	2 inch	20-46 in.	4 in.	1 lb.
Pole Beans		Apr-May	2 inch	40 in.	40 in.	1 lb.
Table Beets		Mar-Apr	1 inch	12 in.	4 in.	1 lb.
Mangel Beets		Mar-Apr	1 inch	16 in.	8 in.	2 oz.
Carrots		Mar-Apr	1 inch	12 in.	4 in.	1 oz.
Celery	March	Mar-Apr	1 inch	36-70 in.	6 in.	1 oz.
Cabbage, Early	March	Mar-Apr	1 inch	36 in.	18-36 in.	1 oz.
Cabbage, Late		May	1 inch	36 in.	24-36 in.	1 oz.
Cauliflower	March	May	1 inch	36 in.	20 in.	1 oz.
Cucumbers		May	1 inch	36 in.	3 ft.	1 oz.
Lettuce		Mar-Apr	1 inch	12 in.	6 in.	1/2 oz.
Egg Plant	Mar-Apr		1 inch	36 in.	30 in.	1 oz.
Peppers	Mar-Apr		1 inch	24-36 in.	24 in.	1 oz.
Onions		Mar-Apr	2 inch	12 in.	2 in.	1 oz.
Onion Sets		Mar-Apr	2 inch	12 in.	2 in.	2 qts.
Peas, Smooth		Mar-Apr	2 inch	24 in.	2 in.	1 lb.
Peas, Wrinkled		May	2 inch	24-36 in.	4 in.	1 lb.
Pumpkins		May	1 1/2 inch	8 ft.	8 ft.	1 lb.
Popcorn		May	1 1/2 inch	36 in.	1 ft.	1/2 oz.
Radish		Mar-Apr	1 inch	12 in.	2 in.	1 oz.
Salad		Mar-Apr	1 inch	12 in.	4 in.	1 oz.
Squash		May	1 1/2 inch	8 ft.	8 ft.	1 lb.
Sweet Corn		May	2 inch	36 in.	12 in.	1 lb.
Tomatoes	March	May	1 inch	36 in.	36 in.	1 lb.
Turnips		March	1 inch	12 in.	4 in.	1 oz.
Muskmelons		May	1 1/2 inch	6 ft.	4 ft.	1 oz.
Watermelons		May	1 1/2 inch	8 ft.	8 ft.	1 oz.

Save This Chart—It Will Prove Helpful

Bush Beans

Inoculate with "Nitragin" and then plant when the ground is warm in rows 24 to 36 inches apart, covering the seed 2 inches deep. Thin later to 4 to 5 inches in the row. One pound will plant about 100 feet of row. Rows three feet or more apart if tended with a horse.

Plants may stand as close as two inches apart or as far as six inches apart. Do not cultivate when plants are wet with dew or rain.

Above directions suitable for small Limas. Beans should be planted late, say June 20th, so they will be too late for the bean weevil. Late plantings will also cause practically the entire crop to mature at one time.

Use 20 to 30 pounds of seed to the acre. Space rows a convenient distance apart to cultivate.

For small crop pull and pile to dry then thresh with a flail.

Large Bush Limas

All Limas require rich soil. Do not plant until ground is thoroughly warm. Wait until after corn planting time.

If you have the time plant the seed on edge down. Cover two inches deep.

One pound of seed to 100 feet of row. Rows not closer than 18 inches or 2 feet apart. Thin to ten or twelve inches apart in row.

They do better if inoculated with "Nitragin" before planting.

Can a few for winter use while they are green.

Pole Beans

Inoculate with "Nitragin" and then plant when soil is warm in hills 3 to 4 feet apart, covering the seed 2 inches deep. One pound of seed to 75 hills.

Stick a slender pole six to eight feet long, beside each hill and draw the tops of four of them together wigwag fashion and tie them.

Can a few shelled, while green, to use in succotash.

Use above directions for Pole Limas except they should be planted later and on rich soil, and two plants to the hill is better than more.

Table Beets

See Chart. Beets have best flavor when about half grown.

Make several plantings for the season's supply. Last planting about July first.

Use the plants thinned out for greens or transplant some of them. Store after frost, in a pit, cellar or cave where they will keep cool and moist enough to prevent drying out.

Use the tender half grown beets for canning.

Mangel Beets—See Chart

The best crops are from early planting. After frost pull and pile in field until cold weather.

Cover temporarily so sun will not dry them out and so they will not freeze.

Store in cave or pit where there is enough moisture to prevent shriveling. Hold temperature near freezing as possible and provide ventilation.

Carrots—See Chart

Seed sometimes slow to sprout so be patient. Cover the seed shallow and plant thick.

Store in a pit, cave or cellar where they will keep cool and moist enough to prevent shriveling.

Some pack in dirt or sand and moisten occasionally.

Celery—See Chart

Start early either in the house or hot bed or in the field later on.

Celery seed sprouts slower. Cover shallow and keep surface soil moist until plants are up.

To allow plenty of room, thin out and transplant when quite small. When four or five inches transplant to field.

Space plants four to six inches in the row. Rows four to six feet apart if you use dirt for banking up. Three feet apart if you use boards.

When plants are ten or twelve inches tall, draw them in dirt to prevent them from drawing the leaves to ground.

As the plants grow taller pull up more dirt always leaving leaves exposed.

Some bleach with a section of a drain tile or by wrapping plants in heavy building paper.

Early Cabbage and Cauliflower

See Chart. Plant the seed in the house or hot bed six weeks or more before you set in the field, covering seed about one-half inch deep.

Cauliflower will not head during hot dry summer weather so must be started early. Real early or real late plantings will not be troubled with worms very much.

Late Cabbage—See Chart

Plant in cold frame figuring 2500 plants to one ounce of seed, or drop in hills 3 x 3 feet or drill where plants are to stand at the rate of 1 pound to the acre.

To mature late crop, figure 120 to 150 days from seed. Most folks plant their late cabbage too early.

It saves a lot of hard labor and you are sure of getting a stand if seed is planted in field where crop is to be grown.

Chinese or Celery Cabbage

Sow outdoors the very earliest possible in the spring, or for a fall crop, sow after midsummer. In many places in the middle west, the fall crop does better than the early one.

Make your rows 18 to 24 inches apart, and thin in the plants when they are 4 to 6 inches high, so they are 8 to 12 inches apart in the row.

These plants quickly run to seed in warm weather without making any heads so be sure to get them out early. Use raw for salad, or boil. Store in moist, cool quarters.

Cucumbers—See Chart

Plant when ground is warm in hills 3 x 6 feet covering seed 1 inch deep. Drop about a dozen seeds to the hill and thin later when bugs are gone to 2 plants in hill. Figure 100 hills to the ounce or 35 to the packet.

Help the plants resist the attacks of insects and disease by planting on rich soil. Use plenty of Bug Dust.

Egg Plant—See Chart

Figure 1500 plants from an ounce of seed and 150 from a packet. Seed slow to sprout.

Do not plant too early. Egg plants should be the last spring crop planted in the garden.

Lettuce—See Chart

Thin to 12 inches for the head varieties and 6 inches for others.

It can be planted in the fall just before freezing weather and it will come up very early in the spring or started in the hot bed and transplanted.

Loose leaf lettuce is easiest grown. All lettuce does better on rich soil especially head lettuce.

Lettuce is a cool weather plant and is crisp and tender early in the season.

Mushroom Growing

For best results, temperatures should range from 50 to 60 degrees Fahrenheit. A cave or cellar 5 to 6 feet deep with the roof above the ground, and vent holes for ventilation is ideal.

Plenty of moisture is needed. The bed should not be exposed to a dry atmosphere. After mature bed several feet deep reaches 75° temperature, mushroom spawners are broken into 1 1/2" square pieces, 16 to 20 and planted 2" below surface, 1 ft. apart.

Full information in regard to growing Mushrooms is included with each order for Mushroom spawners.

Muskmelons—See Chart

Plant when ground is warm in hills 3 x 6 feet covering seed one inch deep and thin later when the bugs are gone to one plant every three feet.

Or space hills 6 x 6 feet and thin later to two plants to the hill. Figure 85 hills to the ounce or 30 hills to the packet of seed.

Look on the underside of the leaves, about time they begin to vine, for lice. Dust or spray with Bug Dust.

Muskmelons are ready to pull when a crack appears around the stem.

The melons are best if gathered early in the morning while cool.

Onions—See Chart

Onions do most of their growing before hot weather so get them in early.

When onions are as large as a straw, thin and weed.

When tops fall down pull and throw in windrows and allow to cure two or three days.

Store temporarily in shallow piles or slatted crates under cover.

If not harvested until a wet spell of weather it causes second growth and they will not keep well.

Use sets to grow bunch onions from, as many will not make a large bulb but will grow.

ONION PLANTS—The plants should be transplanted as early as possible. A light freeze will not hurt them.

Space the rows in convenient distance.

BERMUDA ONIONS—Follow the same general directions as given for onion plants. Be sure to use sets and not seed. They will keep like the native varieties. However, they will keep until about the first of the year.

Parsnips—See Chart

Plant early in rows 15 inches apart, covering the seed from one-half to three-fourths of an inch deep.

Thin later to 4 or 5 inches in the row. This later to drill 200 feet, one packet, 50 feet.

Parsnip seed sprouts better earlier in the season when the soil is cool and moist. Sprouts slow.

To mature the row so that you can cultivate before the plants are up, scatter a few radish seeds along the parsnip seed.

The radish seeds will come up first and when they are large enough pull and use.

Store in a shallow pit where they will freeze in the ground and keep well.

Or you can leave them in the ground, where they grew, until spring.

Peanuts

Plant when the ground is warm in rows not closer than 2 to 3 feet. Drop two kernels every 12 inches in the row.

Shell before planting. It is best not to break the brown skin covering the nut.

Cultivate same as for beans. Do not cover the bloom. Keep soil loose and mellow. They will bury themselves. Harvest after frost and thoroughly dry before storing.

Harvesting Peanuts

Dig your peanuts after frost kills the tops. The spading fork is about as good a tool as anything.

Just dig the whole clump up, shake the soil out of the roots, pile them up around a pole or the garden, or in the corner, or some other well ventilated place and allow them to dry and cure. After two or three weeks you can dig them out.

These should be cleaned up and dried and cured still more. Two or three weeks more is usually enough and then they are ready for roasting.

Small quantities may be roasted in a baking pan in the oven. Dry for one hour and then you will soon recognize when they have been roasted just right to suit you.

Peas—See Chart

One pound of seed should drill 100 feet of row.

To get that delicious flavor use peas without the rind or three hours of the time they are picked.

You should plant both smooth seeded for early peas and wrinkled varieties for later heavier yields. Be sure to inoculate with "Nitragin" before planting.

One plan is to drill two rows side by side about one inch apart with 2 feet between each pair of rows. This saves space and the peas stand up better.

Even a bushy pea needs a little brush to at least climb up on. They are naturally a climber and you will find that you get better results this way. It is very important to plant them very early. The last of March is usually right.

BUG DUST

Peppers

Plant early in the house or hot-bed and transplant to field when ground is warm. Give each plant not less than 1 inch space in the bed. Rows should be as deep as danger of frost is over and late plantings should be made any time from the last of June to August 15th. Good cultivation is essential. After digging the potatoes do not allow them to remain in the open sun. Store in a dry, well ventilated, cool place.

Irish Potatoes

Seed stock should be cut, so that each piece will have two or three eyes. Seed pieces about 1 1/2 to 2 1/2 square are best. The pieces are planted 4 inches deep and 12 to 14 inches apart in rows 3 to 3 1/2 feet apart. Spring plantings are made as soon as danger of frost is over and late plantings should be made any time from the last of June to August 15th. Good cultivation is essential. After digging the potatoes do not allow them to remain in the open sun. Store in a dry, well ventilated, cool place.

Sweet Potatoes

Sweet potatoes can be started in hot beds about six weeks before time to set out. Good, sweet and early potatoes should be placed in a bed as close as possible without touching and covered with about two inches of clean sand. Plants are then set on low ridges about 14 to 16 inches apart in rows 3 feet apart. Set out in the garden after all danger of frost is past. Harvest the crop right after the first frost. Allow potatoes to dry out in the sun for four or five hours. Be careful not to bruise them. Store in a dry, warm, well ventilated storage place.

Radish—See Chart

Plant often so that you can always have them coming in for use.

Use them fresh from the garden before they become tough and woody.

Plant the long varieties for late spring and summer use.

Plant the winter varieties in late July when you plant late turnips and thin to at least six inches in the row.

An easy way to plant tiny seeds.

Salsify—See Chart

Dig just before hard freezing weather and store in a shallow pit where they will freeze, for freezing improves the flavor. It is especially fine in soups either alone or with other vegetables or with oysters.

Spinach

Plant early in rows 14 inches apart, covering the seed from three-fourths to one inch deep.

Thin later to about 3 or 4 inches in the row. One ounce will drill 100 feet; one quart, 25 feet.

Spinach can be planted as early as possible for the season. Spinach can be planted in late summer and several coverings of winter by mulching same for strawberries.

Squash—See Chart

For large seeded squash figure 25 hills to the ounce of seed and for small seed 50 hills to the ounce.

Summer Squashes are delicious if used before they are a third or half grown.

Combat squash bugs by dusting with Bug Dust.

Spaghetti Squash

Spaghetti squash is ready to use when the shell rattle so hard you can't dent it with your thumb nail. Some like to bake the squashes whole just as they come from the vines in 45 minutes in a good hot oven. It is usually about right to do this. After baking, break the squash open, remove the seeds, the flesh and comes out very easily, butter it liberally and season to taste. You have a real treat in store.

We have been told that the spaghetti squash may be the coldest of all words, just drop the squash in a kettle of water and give a good thorough boiling.

Get us hear how you like our spaghetti squash.

Sweet Corn—See Chart

Make an early planting and in a week or ten days another between the rows of that first planting.

For succession plant an early, an intermediate and a late variety at the same time. Or make several plantings of one variety, the late variety, or plant my special blend which ripens in succession.

Be sure not to plant sweet corn close, or you will have no fodder and no ears to eat.

Tomato—See Chart

Sow seed eight to ten weeks before setting in the field.

Any of the early bunch vegetables can be grown between the tomato rows.

Drive three stakes around a tomato plant and fasten a barrel hoop to them and allow the plant to grow up through. This will act as a support.

PRUNING: Tomato vines are trained to a single stem, or two stems. You can pinch out the terminal bud when the plants reach the height of about 5 ft. The vines should be gone over each week and any new shoots starting out from the main stem should be pinched off. Do not pinch off the blossom stems. If you are to allow this bud to remain until the next week.

Free Booklet on Freezing Fruits and Vegetables

Write the U. S. Department of Agriculture, Office of Information, Washington 25, D. C. for their new Farmer's Bulletin 1548, "Home Freezing of Fruits and Vegetables." It's free for the asking and a good one too.

Watermelons—See Chart

Drop 6 seeds to the hill and thin later when buds are extra to 2 plants to the hill. Figure 50 hills to the ounce.

If you want extra big melons keep all but two or three on the vine picked off as fast as they appear.

If you plant in hills make them not closer than 8 x 10 feet and as far apart as 12 x 12 feet or even farther, sometimes.

At this distance some growers allow only one plant to the hill.

A dull green color indicates a ripe melon and a bright green color a unripe melon.

About Canning

Space is too limited to give you all the information you would want about canning, but you can easily get full and very excellent directions by writing to the Bureau of Home Economics, Dept. of Agriculture, Washington, D. C. for the canning information they will be glad to give you, or sending to the Kerr Glass Mfg. Corp., 2913 Main St., Sand Springs, Okla. They put out excellent books on canning which cost you only 15c. By all means, everyone should can plenty of vegetables, and fruit this year. Be sure you have plenty to eat by GROWING YOUR OWN AND CANNING YOUR OWN.

About Inoculation

We get hundreds of letters each year asking whether inoculating garden seed with "Nitragin" pays. The answer is, YES, DECIDEDLY YES. It is only of value on garden peas, beans and Sweet Peas, but on these it makes a world of difference in the vigor of the plant and the amount of yield. We sell many thousands of packets each year. A 15c pkt. is enough for the average gardener's seed. Treats 1 lb. of seed. Easy to apply. Full directions on the package.

Another big aid to improving crops is the new Hormone-Vitamin concentrate "GROW-IT" which stimulates quick root growth and makes for quicker and heavier crops on all garden seeds, flower seeds and nursery seedlings. It is relatively new, but working wonders wherever used. Try it this year and make your garden EXTRA high-yielding.

Crop Features to Utilize

Crops Occupying the Ground All of the Growing Season: Beans (Pole, Snap), Beans (Lima), Chard (Swiss), Cucumbers, Eggplant, Mushroom, Onions, Parsley, Parsnip, Peppers, Sweet Potatoes, Irish Late Potatoes, Pumpkins, Salsify, Squash, (Winter), Spinach (New Zealand), Tomatoes, Watermelons.

Crops Occupying Ground Part of Season and May Be Followed by Others: Beans (Bush), Beets, Cabbage, Cabbage (Chinese), Carrots, Corn, Kale, Kohlrabi, Lettuce, Mustard, Onions (Green), Peas, Potatoes (Early), Spinach, Turnip (Spring), Rutabaga (Spring).

Crops Which May Follow Others: Beans (Bush), Beets, Cabbage, Carrots, Corn, Rutabaga (Fall), Spinach, Turnips (Fall).

Crops Which May Be Utilized in Interplanting: Beans (Early), Broccoli-maturing, Carrots (Early), Lettuce, Mustard, Onions (Slate), Peas (Early), Radish, Spinach, (Later, slower-growing, wide-spaced) Broccoli, Brussels Sprout, Corn, Cucumber, Mushrooms, Cabbage, Pumpkin, Spinach (New Zealand), Tomatoes, Squash, Watermelons.

Crops Which May Be Planted Together in the Same Row: (Quick-germinating and maturing) Lettuce (Leaf), Mustard, Radish, Spinach. (Slower-germinating and maturing) Beets, Chard, Carrots, Leek, Spinach (New Zealand), Parsley, Parsnips, Salsify, Onions (Seed).

Crop Succession

Plant radish seed very thin and follow at once with parsnip, carrot, parsley, asparagus, onion or leek right in the same row. Pull the radish and use when it is large enough.

Plant Beets, Kohlrabi, Lettuce, Mustard, Spinach, Onion Sets, Radish or early Beans or Peas between rows of late Cabbage, Melons, Squash or Tomatoes.

Plant radish seed very early followed by early Cabbage plants set every two feet in the row and after the cabbage is off sow late turnips or Chinese Cabbage.

Plant two rows of Potatoes between each two Watermelon rows and dig potatoes after the Melons are gone.

Follow early Peas and Beans with late Cabbage.

Celery may follow early Peas, Beans, Lettuce, Radish or Spinach.

Plant late turnips in vacant spaces about the garden.

Starting Plants in the House

A hot bed is the best place to start plants if you are willing to go to the trouble to make a good one. However, a box of good dirt placed in a south window of the house where it will get as much sunshine as possible and in a room where the temperature does not vary much is good.

If the soil you use does not already contain a large percent of humus, use about 50 percent well rotted manure. This amount is only suggestive, as there is a wide difference in different samples of dirt. What we mean by "well rotted manure" is manure that could almost be classed as dirt. Don't use fresh manure.

Cover all small seeds about one-half inch deep. Make the rows 3 to 4 inches apart. Keep the surface soil moist until the plants are up or you may have trouble in getting a stand.

Winter Storage of Vegetables

Surplus garden vegetables can be stored in an unheated garage, storeroom or shed for a month or so depending on how low the temperatures fall.

Store only those vegetables which are in good condition. Dig beets, potatoes, turnips, carrots and rutabagas as late as possible before the ground begins to freeze and cut the tops off. Do not clean the dirt from them, but place in boxes and pack in sand. Loam will stand in the refrigerator should be between 35 and 40 degrees.

The vegetables can also be stored in a basement, in which the temperatures can be kept down and ventilation provided, on racks, shelves, flat bins or boxes, raised off the floor. A concrete floor should be sprinkled every few days and a dirt floor kept somewhat damp.

Pumpkins, squash and sweet potatoes should be stored at temperatures between 55 and 65.

When storage is required for a longer period, an outdoor storage pit may be made by digging a pit the desired size and deep enough to stand in. The vegetables may be stored in boxes, bins or shelves. Lay heavy boards over the pit even with the surface

Bug Dust

Since gardening began, insects have waged war on gardens. Today's gardener has a powerful weapon against bugs in the form Bug Dust.

You really won't believe how good my BUG DUST works until you see it work yourself. Some folks call it a "Miracle Dust." BUG DUST works three ways. It is not only a STOMACH POISON but a CONTACT POISON and FUNGICIDE—ALL IN ONE DUST.

No need to buy three dusts—use our "BUG DUST."

Henry Field's BUG DUST is safe. Does not harm even the most delicate plants when used as directed. Absolutely leaves no poisonous residue.

Dust plants early before heavy infestation appears. Dust both top and bottom of leaves. Redust once a week until controlled and after any heavy rain. For cutworms mix Bug Dust with soil at base of plants. Bug Dust can be used as a spray by diluting 1 1/2 teaspoonful in gallon of water. Dust animals and poultry to rid them of fleas and lice.

USE BUG DUST ON

Beans	Alyssum
Cabbage	Carnations
Cauliflower	Dahlias
Cucumbers	Gladioli
Egg Plant	Gen. Follage
Lettuce	Iris
Muskmelons	Peonies
Peas	Roses
Peppers	Sweet Peas
Pumpkins	Snapdragons
Potatoes	Violets
Squash	Currants
Tomato	Grapes
Watermelon	Gooseberries
Asters	Strawberry
House Plants	All Flowers
Asparagus	

And all other small Plants.

and cover with a mound of earth. A ditch should be dug around the mound to lead surface water away. A door should be fitted to the entrance, preferably two doors with an air space between them to keep out the frost.

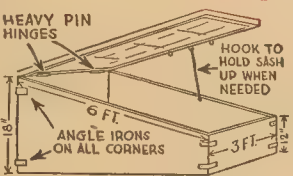

When the quantity to be stored does not require a very large pit, vegetables may be laid in a box, which is lined and covered with straw, set in a small pit covered with earth. Or a barrel may be used or a conical mound may be made to cover vegetables piled up like a pyramid.

Do not close outdoor root cellars tightly until the temperature inside has dropped close to freezing and do not cover earth pits until the soil has cooled off thoroughly.

Best Vegetables for Freezing

SNAP BEANS—Stringless Green Pod, Topcrop, SNAP BEANS, WAX POD—Pencil Pod black wax, Cherokes Wax.
LIMA BEANS—Green Seeded Baby Lima.
CORN—Giant Bantam, Hybrid Golden Cross Bantam, Country Gentleman, Golden Tassel, Evergreen.
GREENS—Swiss Chard, Kale, Spinach, PEAS—Little Marvel, Freezeland.

Building a Cold Frame

If you don't want to go to the trouble of making a hot bed of haven't enough good manure on hand to build one, you can do very well with a cold frame.

A cold frame is built same as you build

the frame for a hot bed. It should be about eighteen inches high at the back side and twelve inches at the front. Place it in a sheltered sunny situation and back around so that the wind will not get in. Cover with glass or Glass Cloth.

Plant seed in a cold frame a week or so later than you would in a hot bed. You can grow all hardy vegetables, such as cabbage, cauliflower, beets, lettuce, radish, onions, and kohlrabi.

Beets, lettuce and onions transplant as easily as cabbage. And you can advance radishes a couple of weeks by planting them in this cold frame. Of course, the soil should be rich and mellow.

How to Make Hot Beds

The dirt that is thrown out in excavating the hole can be used to bank up around the frame, practically to the top of it and extending back a foot or so on each side to protect the hotbed from the cold weather. The back side of the hotbed should be the highest, and we generally get this by using 12-inch board at the back side and an 8-inch board at the front, although it might be well to give it even more pitch than this.

The hotbed can be covered with either cloth or glass frames. Glass frames are little the best, but they are quite expensive.

The operating of the hotbed is best learned by actual experience. You have to make two or three of them and learn the way before you learn, but that is the only way to learn.

The main thing is to get started on them and get your cabbage and tomato seed planted.

Boys and Girls—Win Cash and Prizes!

Just Sell Special JUNIOR SEEDSMAN Collections of Vegetable and Flower Seeds IT'S EASY—YOU NEED NO MONEY

Every year thousands of boys and girls win cash and prizes by helping us sell seeds. For every 12 collections of seeds you sell, you can keep 2.5 in cash, the most we've ever paid, or, take a premium instead. The premiums are actually a bigger value for you than cash as they are all worth more than 2.25. Look them over... see who made them. All are first-class merchandise. And, you get them at a bargain, because we buy in large quantities and pass the savings along to you.

HERE'S ALL YOU DO

Fill out the coupon at the bottom of page and send it to us. We will send the collections of seed to you

at once. After you sell the seeds to friends and neighbors (it's easy to do), keep your share in cash and send us the balance, or send all of the money in and tell us which premium you want.

DON'T WAIT

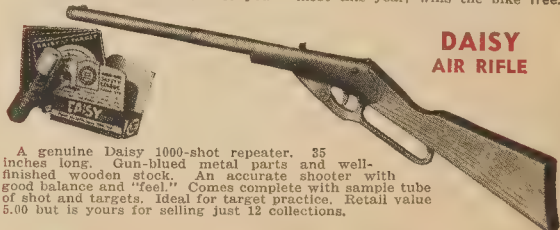

Get an early start. You'll sell more, easier. Lots of boys and girls sell out quickly and then order a second and third time, and so get more cash or more premiums. And don't forget, you can win the beautiful Schwinn Hornet bicycle. Just go out and sell as many collections as possible. The boy or girl who sells the most this year, wins the bike free.

Win This Schwinn Hornet Bicycle—FREE!

The boy or girl who sells the most collections of seeds by June 1, 1952, will receive this beautiful, full-size Schwinn Hornet bicycle... free! That's all you have to do to win it! If a boy wins, we'll send a boy's model. (Clubs, organizations, adults not eligible.)

This Schwinn Hornet is an outstanding bike. Comes fully equipped with Rocket-Ray light, horn, and luggage carrier. Has all the styling and sturdy construction Schwinn bicycles are so famous for. Winner will be notified after June 1, 1952, and bicycle shipped at once. There can only be one winner. In case of tie, person who settles up first, wins. (See page 19 for picture of last year's winner.)

DAISY AIR RIFLE

A genuine Daisy 1000-shot repeater. 35 inches long. Gun-blued metal parts and well-finished wooden stock. An accurate shooter with good balance and "feel." Comes complete with sample tube of shot and targets. Ideal for target practice. Retail value 5.00 but is yours for selling just 12 collections.

TIMEX WRIST WATCH

An attractive, sturdy, modern designed watch, made and guaranteed by U. S. Time Corp. Round, thin, shiny chrome case. Easy-to-read dial. Accurate movement. Black leather strap. Retail for 6.95 but yours for selling 24 collections or 12 collections plus 1.75 cash.

Lovable DRINKING- WETTING DOLL

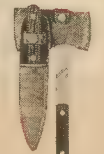

The adorable Sunbabe "Babe-Bee" doll, 13 in. jointed soft rubber body. Head hard rubber. Beautiful painted features, sleeping eyes. Drinks; wets; cries when squeezed. Dressed in diaper, with nursing bottle. Yours for selling 12 collections.

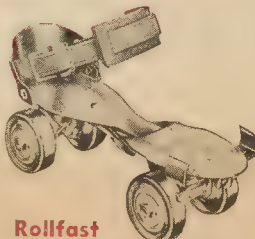

EXPANSION BRACELET

A full-size, 1/20 10K, yellow gold-filled Expansion Bracelet. Extremely attractive. Fine quality jewelry. Retail value 6.50, but yours for selling just 12 collections.

AXE 'n KNIFE KIT

All-purpose set by Kut-mas-ter. Detachable leather sheath. Knife 8 1/2" long, axe 10". Tough carbon, mirror polished steel. Stag handle. Ideal for camping, hunting. Retail value 4.50. Yours for selling 12 collections.

Rollfast ROLLER SKATES

The well-known Rollfast, as advertised in national magazines. For boys or girls. Full size, with adjustable extension. Bright nickel-plated finish. Dust-proof, heavy gauge, ball bearing wheels that will give years of service. Rubber cushions. Leather strap with ankle protectors. Yours for selling 12 collections.

Baby Brownie Special CAMERA

The famous Baby Brownie Special, made only by Eastman Kodak Co. Takes 8 pictures to a roll, size 1 1/4" x 2 1/2". Film is not furnished. Easy to load; simple to use. Anyone can take good, sharp pictures with it. Complete with carrying strap. Lasts a lifetime. Yours for selling 12 collections.

Ingersoll POCKET WATCH

Newly designed pocket watch with radiolite dial and sweep second hands. Just like Dad's. Well made and a good time keeper. Retail for 4.25 but yours for selling just 12 collections.

THIS IS WHAT WE SEND YOU TO SELL

We send you 12 collections of seeds, each collection containing the following:

8 Large Packages of Vegetable and Flower Seeds, each package containing 10 packets of seed as follows:

Extra Early Alaska Pea
Stringless Green Pod Bean
Early Pickling Cucumber

HENRY FIELD'S Baby

All Henry Field CHICKS are
U. S. APPROVED
U. S. PULLORUM CONTROLLED

Chick

CATALOG

I'm Mrs. Field, Folks.....
I MAKE IT MY RESPONSIBILITY

TO SEE THAT YOU GET ONLY THE BEST

Henry always said, "Chickens are a woman's business." That's why I've taken over running the hatchery to make certain that only the best, that I would want myself, is shipped to you.
I insist that high egg production be bred right into every Field chick. Our flocks have some of the outstanding blood lines of the country. I insist that every egg we set come from flocks under our supervision. All our flocks have been culled, blood-tested and banded by men with years of experience. These men are authorized by the Iowa Poultry Improvement Supervisory Board to do flock selecting and pullorum testing for the National Poultry Improvement Plan under the supervision of the Iowa Poultry Improvement Supervisory Board. I insist that our flocks get nutritious well-balanced feed and are raised under high standards of sanitation. This means

healthier, harder chicks for you.
I'm equally strict in the hatchery. I insist every egg be carefully selected as to size, shape and shell texture before going in the incubator. I insist they weigh 23 ounces per dozen—usually more. I insist they be sprayed and incubators fumigated regularly to protect eggs and chicks against contamination and that every scientific device to help hatch better chicks be used. These are only a few of the rules I insist on so that Field's chicks are THE BEST. Some of the other reasons are given below. Take time to read them. It will pay you to. And PLEASE, send your order for chicks in early this year. It saves disappointments sometime and makes it easier for us to plan our hatches.

Thanks,
Mrs. Henry Field.

All Henry Field Chicks Are U. S. APPROVED

The label Henry Field Chicks have earned, pictured at left, really means something. We are proud of it. It means we have met ALL the requirements of this status under the National Poultry Improvement Plan sponsored by the U. S. Department of Agriculture. It means our advertising, flock selecting, testing and hatchery management are under the direct supervision of the National Poultry Improvement Plan and HAVE to be EXACTLY what we say they are. All birds in our flocks must pass the high culling Standards of the Plan and be leg banded after inspection with Official bands. All Field's flocks have these bands. The requirements to be U. S. APPROVED are strict. We are proud that Henry Field chicks meet all of them.

All Henry Field Chicks Are U. S. App'd, Pullorum Controlled

We have met all requirements for the National Poultry Improvement Plan. Therefore, we operate a U. S. Approved, Pullorum Controlled hatchery, which entitles us to use the label pictured at the left. This means that all birds in our breeding flocks have been culled and blood tested by licensed men.

You can count on healthy chicks when you order from Henry Field's.

Egg Breeding Records From 207 to 335 EGGS Bred into Field's Chicks

High egg record males used in our breeding flocks are vital in boosting egg production FOR YOU!
That's why our use of HIGH RECORD males in our MASTER flocks is important to you. These males mean EXTRA EGGS NEXT FALL—when

profits are highest. These pedigreed males are sires for our Master Grade White Leghorn and White Rock chicks you buy from us this year. Here is just a sample of some of their records:

WHITE LEGHORNS

BAND No.	Egg Record	BAND No.	Egg Record	BAND No.	Egg Record

Chick Sense — It's Common Sense

Every year over HALF A MILLION PEOPLE from all over the world send to Henry Field's for the seeds they need.
They send to Field's for seed, some from thousands of miles away, because they know they can TRUST it. After preparing ground, planting, and cultivating, they want to KNOW their crop will be TRUE-TO-NAME, and of HIGH QUALITY. For over 50 years, they have found they can RELY on Henry Field's.
Baldy chicks are NO DIFFERENT. They are the "seed" of high-profit flocks. Like good seed, they MUST be bought from a reliable source you can TRUST—a source with the facilities to give you the best in breeding, the best in health.
That's why smart flock owners buy by the thousands refuse to take local "bargain" and "surplus" chicks and insist on getting chicks they can TRUST direct from Henry Field.

Field's High Producing Egg Blood Means More Profits for YOU

The high-producing egg blood bred into Field's chicks for generations means more profits for you. A 200 to 230 egg hen often makes FROM 10 to 15 TIMES THE PROFIT OF AN ORDINARY HEN. It costs as much to raise a scrub chick as it does a good producer. Buy the best and make more money.

Hen who laid these cost 14c as a chick
Hen who laid these cost 18c as a chick

Which Hen Is Most Profitable?

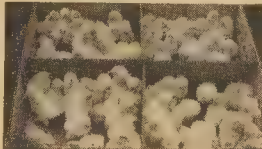

Our Strict Culling Means BETTER Chicks For You From Field's

We're rightfully proud of our extra-high culling standards which mean better chicks for you. Our cullers are carefully chosen, study at short courses at Iowa State College, and have passed examinations qualifying them for licenses. As they carefully cull every Henry Field flock to high standards of conformance of breed, health, etc., they work under the expert supervision of inspectors of the National Poultry Improvement Plan. All our flock culling MUST have official approval and all birds in the flocks leg-banded with official bands before used for hatching eggs in our hatchery.
When you start Henry Field chicks you don't have to hope you'll have a money-making flock—you KNOW YOU WILL. Our strict and careful culling standards insure your getting THE BEST at Field's.

100% LIVE ARRIVAL Guaranteed

You are as near to our large U. S. Approved hatchery as you are to your mailbox. No need to take a chance on chicks of small hatcheries. You can have the best breeding birds behind them when Henry Field's chicks are so easily obtained. But, PLEASE, get your order in early to avoid any possible disappointment in getting your chicks the week you want them.

See Field's Low Early Prices—Over

Field's FAMOUS BREEDS

WHITE LEGHORNS

"The LARGE TYPE"

High Egg Production
•
Need Less Feed—Less Room
•
VERY PROFITABLE

For many years the White Leghorns have been recognized as the heaviest producers of white eggs. They require less feed and less room per bird than almost any other breed. Field's Leghorns are noted for being the large type (not beefy) full of vigor and are great rustlers. They come from the finest breeding flocks in this part of the country and have been rigidly culled to insure you the kind of Leghorns that will make you the most money.

WHITE PLYMOUTH ROCKS

"The ALL-PURPOSE Breed"

High Egg Production
•
FAST MATURING
•
Famous for Meat Quality

Henry Field's Giant Type White Plymouth Rocks have a beautiful snow-white plumage and are very fast maturing and rapid feathering. They will dress out at almost any age, yellow-colored and free from pin feathers, which makes them exceptionally fine broilers. The White Rocks are one of the most popular all-purpose breeds because of their meat qualities, and egg-laying ability.

FIELD'S THREE FAMOUS CROSSES

High Egg Production—Also Good Meat Birds

AUSTRA-WHITE

The Austra-White cross is the most popular cross for people wanting the tops in meat and egg production. By breeding Australorps males to Leghorn hens we can give you a heavy cross which not only has plenty of vigor but also matures quickly. The laying flock can be kept on less feed than some other varieties, and your laying flock mortality will be much less in most cases.

HAMP-LEGHORN CROSS

By mating the New Hampshire cockerel (the best layer of heavy breeds) and the White Leghorn Hen (the best layer of the light breeds), this outstanding HAMP-LEG cross naturally gives outstanding egg production. IN ADDITION, they are top choice for broilers being yellow skin and maturing fast with less feed. One of the best.

LEG ROCK CROSS

By mating some of our outstanding White Leghorn males with some of our White Rock females we are producing the Leg Rock crosses. Combining all the good points of these two great breeds gives you a bird that has all the size of the White Rocks and the egg laying ability of the White Leghorns.

Ever Popular All Purpose Breeds

NEW HAMPSHIRE

"Lephorn of the Heavy Breeds"

Henry Field's New Hampshire can almost be called the Lephorn of the heavy breed for they are very heavy egg producers and, combined with their heavy weight, they are hard to beat. They are noted for fast maturing, rapid feathering and have the vigor and hardness of the White Leghorn and they have replaced the Leghorns on many farms, due to the size and rapid growth. Remember, large brown eggs bring top market prices.

WHITE WYANDOTTES

Early to Market

Henry Field's deep breasted White Wyandottes are the first to go to market. They make exceptionally good broilers and will reach from 2 to 3 lbs. quicker than almost any other variety. They are exceptionally good rustlers and many of your farm friends say that they almost make their living on any farm finding their waste feed around the farm. They are the all-purpose bird and you will find that they are very husky, hardy, and easy to raise and mature very rapidly.

GIANT BUFF ORPINGTONS

Good Winter Layers

Henry Field's Giant Buff Orpingtons are exceptionally good winter layers due to their massive bodies and heavy plumage. These winter eggs come when the market is usually the highest. Our Buff Orpingtons are one of our heaviest varieties of chickens and have a beautiful golden color. They make exceptionally good heavy capons or heavy roasters. If you are interested in winter eggs or heavy meat birds be sure to order Field's Giant Buff Orpingtons today.

BLACK AUSTRALORPS

Famous for Size

We crossed the rooster of this breed with Field's famous large type White Leghorn hens to produce our Austra-White crosses.

The Black Australorps is famous for its massive size, early body maturity and great egg laying ability. They're good rustlers and the black plumage means good insurance against loss from foxes and hawks.

If you try them once you are convinced for good.

Barred PLYMOUTH ROCKS

Dual-Purpose Chicken

Henry Field's Barred Plymouth Rocks have proven their money making ability on many farms. They are large in size, fast maturing, rapid feathering and make exceptionally fine broilers or heavy roasters and are also good producers of large brown eggs. They are one of the oldest of the All Purpose breeds and have proved very profitable on many farms.

WHERE WE SHIP TO:

If you live anywhere east of the Rocky Mountains, we will get Henry Field Baby Chicks to you in first class condition. Our hatchery is as close to you as your nearest mailbox. Get Henry Field's Baby Chicks—U. S. Approved, U. S. Poultry Controlled—100% Live Arrival Guaranteed.

FIELD'S CHICK GUARANTEE

We guarantee our prices to be as low or lower than others, quality considered. We guarantee 100% live arrival on the number of chicks ordered. Count the live ones on arrival and if you do not receive the full number of chicks, report to us within 24 hours and have your delivery agent make a notation to be sent along with your report. These chicks will be replaced FREE. We reserve right to ship Straight-Run on Cockerel orders if necessary—an "extra" Henry Field value.

PULLET GUARANTEE

We guarantee 95% true to sex on pullet chicks. Any sex complaints must be made within 60 days from the date the chicks are received. If there are too many cockerels among your pullets, we will make a prompt adjustment. In no case are we liable for more than the original purchase price of the baby chicks ordered.

ORDER EARLY—SAVE MONEY!

You help us and you help yourself if you get your order in early. It helps us plan our hatching, and we want to pass this savings on to you: If we receive your chick order by February 15, you can deduct 50¢ per 100 chicks . . . regardless of delivery date! If you will take February delivery you may deduct \$1.00 per 100 chicks!

OUR FIRST HATCH WILL BE WEEK OF FEBRUARY 13th

ABOUT THE SHIPPING DATE

After we've booked your chick order, we always send an acknowledgment card which serves as your receipt. This card also gives you complete information about your order, including an approximate shipping date. This date does not mean that you will necessarily receive your chicks at that exact time. It does mean that your chicks will be shipped to you sometime that week. Please remember that orders reaching us first are the first to be shipped.

Prices Guaranteed Against Decline

These prices are guaranteed. If prices go up, you get your chicks ordered before the price raise at this low price. If prices go down, you get the new lowest price. You can't lose by ordering now and you get your chicks when you want them.

Please Give 2nd Choice

Unless you breed just one kind of chickens and can't use any other variety, please give second or third choice so if we can ship second choice nearer the date you want chickens, we will do so and thus give you more prompt shipment. We will always ship 1st choice if possible to do so.

ONLY \$1.00 DEPOSIT

for each 100 chicks wanted, will hold your order for any delivery date you wish. Balance is due 10 days before shipment or we ship C.O.D. for balance.

C.O.D. PLAN

Send \$1.00 for each 100 chicks or any amount less than 100. Pay balance on delivery plus transportation charges. If you want chicks shipped C.O.D. for balance, be sure to specify this in your order.

C.O.D. Shipments of Chicks as suggested above subject to Post Office Rulings.

Like Henry Field's Seeds, Field's Chicks Pay and Pay and Pay!

Never Had Better Laying Hens

"Dear Mrs. Field: I am writing regarding the baby chicks I ordered from you, and wish to say that I have never had a nicer bunch of laying hens."—Mrs. Dave Swenson, Westington Springs, So. Dakota.

Ready to Eat at 6 Weeks!

"Dear Mrs. Field: We ordered fifty one-day-old chicks from you, which we received in May. These are the finest young chicks we have ever raised. They were ready to eat at 6 weeks of age!"—Mrs. Sam Rice, Foreman, Ark.

Chicks Arrive in Good Condition

"Dear Sirs: My chicks arrived in very good condition. Was very pleased. Thank you Everything I have ever bought from you has come through in good condition."—Mrs. Edward J. Bolick, Muncie, Ind.

Chickens Break Laying Record

"Gentlemen: The chickens I bought from you last year have really broken the record for laying. During all this cold weather—almost as good as they did in early fall."—Mrs. Rose Mohr, DeSoto, Mo.

Healthy, Husky Chicks

"Dear Mrs. Field: Received my chicks March 3. They are doing fine! never had such healthy, husky chicks. They arrived 100% alive! Thanks for your prompt delivery."—Mrs. Charley J. Russell, Muldrow, Okla.

Buy the best! Good chicks cost you no more to raise!

THREE GRADES—ALL PREPAID

Special GIFT

In each order of chicks you get from Field's, I'm putting a special gift for the women folks. Not that the whole family won't enjoy it, but it's for the ladies of the house primarily.

It's a special collection of my favorite gladiolus varieties—some blue, some red, some orange and some of those "smokies" I love so much. A full dozen and all big blooming size bulbs.

All I ask in return is that you order your chicks before March 15. Even if it's for later shipment in April or May. I'll include your gift—just so you send your order to me by March 15. That helps us so much in planning hatches. Hope to see your order soon.

Mrs. Henry Field

SPECIAL

X GRADE CHICKS

Specially bred for the poultry raiser who is looking for excellent chicks at a real price.

These chicks come from egg flocks that are carefully selected and rigidly culled for egg production qualities, typical for each breed. The cockerels heading these flocks are carefully chosen from breeders with high egg production and health standards back of them.

Many of these flocks should qualify for our own "Select" Grade egg flocks next season. Special Grade Chicks offer you a real value!

SELECT

XX GRADE CHICKS

More eggs per pound of feed always means bigger profits in the laying house.

Our Select Grade Chicks come from long established poultry raisers who like and keep good poultry always. High production blood lines from famous breeders, introduced for many years into our Select Grade flocks has broadened the average egg laying abilities of these birds.

We offer with confidence our Select Grade Chicks. They should give you the extra eggs that mean better than average profits.

MASTER

XXX GRADE CHICKS

Here is our supreme value and quality!

This is the extra-select grade for those who want the very finest. All Master Grade Chicks come from our finest flocks, carefully culled, rigidly selected. Males are fine, vigorous birds with high egg production breeding back of them.

All Leghorns and White Rocks in this Grade are actually the sons and daughters of High Egg Record Pedigreed Males. These Pedigreed Males were purchased from outstanding R.O.P. Breeding Farms, and their egg records range up to 335 in one year.

White Leghorn Master Grade matings, and 315 eggs in our White Rocks. These top quality chicks, with their High Egg Production breeding should prove to be the best money-makers you can buy!

NURSERY PLANTING TIPS

Trees

Fruit Trees

Should be set as indicated in the "5 Easy Steps in Planting." Also see Planting Chart on Page 67. Set Apples 30 to 40 feet apart and Peaches, Apricots, Cherries, Plums and Pears, 15 to 20 feet apart. Some folks prefer to plant Apples 40 feet apart and set smaller trees such as Peach, Plum and Cherry in as filler trees. Small fruits, asparagus, and rhubarb may be planted in the orchard to give you immediate revenue.

PRUNE FRUIT TREES before planting as illustrated in picture—both roots and tops. Cut just above 4 or 5 buds, but do not properly prune, they should not have more than 3 to 4 branches, and these should be cut to not more than 12 to 18 inches. If trees grow, prune in early spring, remove crossed and crooked limbs. Trim apples to a central leader with limbs on different sides at different heights, peaches so they grow low (cut back leader and all branches very short), and don't prune cherries at all. Remove broken wood or crossed branches.

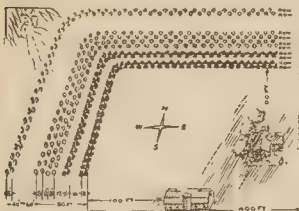

Shade Trees

Plant the same as fruit trees. Be sure the soil is tramped in firmly about the roots, and that there are no air pockets left. Give plenty of space between trees. Large growers—Elms, Soft Maples, etc. 30 to 50 feet. Medium growers—Chinese Elm, American Linden, etc. 25 to 40 feet. They may be set closer if you need to. At the time of planting, cut back all side branches at least one-half, but do not cut back the main stem. Remove entirely any branch that threatens to become a double leader or any branch that forms too sharp a crotch with the main stem and might be broken later by a snow load. Cut off bruised and broken roots. If any further pruning is necessary, prune in early spring to remove bad crotches and cross limbs. In all pruning be sure not to leave any stubs but cut the branch off flush with the trunk.

Any shade trees over 6 feet tall should be staked for at least a year. Drive a good strong stake deeply into the ground beside the tree, and tie the tree loosely to the stake with several ties. If rope or wire is used, run the same to an old inner tube or wrap in burlap or rags so not to cut into the trunk of the tree.

Windbreaks

Every farm home should have a good windbreak to stop the cold winds and snow in the winter making the home many degrees warmer, and protecting the livestock for quicker, heavier winter gains. In the summer, a good windbreak stops the hot, dry winds.

Here's a quick, easy way to plant windbreak trees. First take a walking pole, throw out a deep furrow along the row of trees to be planted. Blow fast enough so as to throw dirt well out of furrow. Second, put each individual tree against the straight edge of the furrow, then throw the loose dirt in over the roots. Pack firmly with the feet. **CUT ALL SEEDLINGS OR TREES BACK TO LESS THAN HALF THEIR HEIGHT AS SOON AS PLANTED** (except Evergreens, which require no pruning). Use the cultivator plenty the first two summers. Plant either fall or spring with good results.

Vines

Plant at least 2 or 2 1/2 ft. out from the house so you will have good drainage. Varieties that bloom during the spring months should not be pruned in the fall, except for the removal of dead wood. Varieties which produce bloom on new wood in summer and fall, should not be pruned until they have become well established. Then the vines may be cut back to the height of about 3 ft. to encourage vigorous growth.

Climbing vines should have good soil and plenty of water. Cut back when planted and tie or stake securely. Later train to solid trellis as motion is injurious to the plants.

Vines for North and East Side: Clematis, Ivy, and Wisteria.

Vines for South and West Side: Silver Lace, Scarlet Honeyuckle, Pink Flame, Ivy, Bittersweet, Trumpet.

CLEMATIS—Clematis thrives best in rich garden loam. Sand or peat moss may be added to loam soil to loosen it up. The soil should be well drained. It is best to mix some lime in with the soil when planting. Place the crown of the vine about 3 inches below the surface. Don't cultivate as they like to be left alone. In the fall, any dead wood can be removed which is the only pruning needed.

Shrubs

Plant as described in general instructions. Trim back within several inches of the ground after planting, to make room for bushy growth. (See Illustration.) 1 ft. of dirt should be mounded up over each Fall-planted shrub and left until Spring. Set small varieties 1 to 2 ft. apart, medium grower, 1 1/2 to 3 ft.; tall grower 3 to 6 ft. apart.

Shrubs require little pruning. In no case prune squares across the top as this spoils their natural habit of growth. Cut branches off at ground. This will force young growth. Prune early blooming shrubs like Spirea, Y. H. and Lilacs right after they bloom. Prune midseason and late blooming shrubs in late fall or early spring.

If planting in beds, remove all sod and spade up space between plants. In planting around foundation, stay at least 2 ft. and with large growing shrubs, as much as 3 ft. to 4 ft. away.

Miscellaneous Tips

Planting or Transplanting—Fall or early spring are the times best suited for transplanting. Practically anything can be transplanted in those periods providing proper care is taken that the plants do not dry out, and that the roots are not too long exposed to sun or wind. In transplanting from one location to another, or from one home to another in case you are moving, it is safest to move as much dirt as possible in a ball along with the root. This is particularly true of Evergreens and large trees with trunk more than 4 inches in diameter. Always replant at the same depth that the plant was originally growing. Always tramp the dirt in well around the roots so there are no air pockets. Always leave a cup-like depression around the plant so it may be well watered occasionally until it is well established and growing. Do a good safe rule is to prune back one-half of the top of most any plant that you move, with the exception of the Evergreens. If necessary to store plants awhile in the winter before planting in a new location, wrap the roots and the trunk with the roots and cover the ball of soil with burlap, and place in a dark cool corner of your basement. Water occasionally except the strawberries, as they are better allowed to be quite dry. Be sure the hole you make at the new place is plenty big.

Winter Mulch—A Winter Mulch is essential with all newly planted plants—no matter what kind they are. After the first winter except in extreme northern states it is not absolutely necessary that it be applied except to strawberry beds. Strawberries should always be mulched. On trees and shrubs, trees, roses, peonies, oriental poppies, the best possible mulch is a good mound of dirt pulled over the plants just before freezing time. On roses, shrubs and trees, the mound should be at least a foot high. It won't do any harm if it is 18 inches high. For Oriental Poppies and peonies it should be at least 6 to 9 inches. This is to keep the plants from heaving and rotting in the frost action. It is desirable to cover this mound with straw, hay or some sort of a litter 4 to 6 inches deep. The straw or litter is same to put on. It is not absolutely necessary that this be done, except that the litter keeps the soil mound from washing away in the spring after the ground has thawed. The mounds of soil away and the plants will suffer. On Perennials and strawberries and such plants with a crown, where a pile of dirt cannot be put over the plants without injury, cover after

When you water, soak the ground down to the roots. That is, water by sprinkling with a nozzle.

5 Easy Steps in Planting

(1) NURSERY STOCK IS ALIVE

Remember nursery stock is alive and must be handled with care. **DO NOT EXPOSE ROOTS TO SUN OR AIR.** Keep damp, cool, well covered and away from freezing temperatures until planted. If you can't plant at once, open package, moisten well and keep covered with damp packing. Or treat as per No. 3.

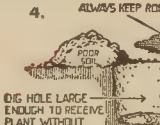

(2) PLANT AT ONCE

When stock arrives plant **AT ONCE** if you can. Soak roots (but not tops) in water before planting, especially if the stock has dried out some on route. **DO NOT** expose roots to air or sun. You can leave roots of all plants in water for 24 hours except strawberries and perennials. Plant all nursery stock at once if you possibly can.

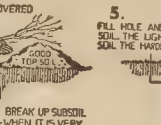

(3) HOW TO STORE

IF YOU CAN'T PLANT AT ONCE, and if weather is warm, "heel in" as shown. Cover stock at least 6" deep with moist soil. Strawberries and perennials should be planted at once or kept moist in their packing. If weather is cold, store in frost proof place (cave is good). Leave stock in packing and keep moist by sprinkling. Plant as soon as you can.

(4) ALWAYS KEEP ROOTS COVERED

Dig hole large to hold roots without crowding or bending. Break up subsoil when it is very hard.

(5) HOW TO SET

Then half fill hole with fine top soil, logging tree. Pack earth firmly by tramping to avoid air pockets about roots. Slowly pour water in to fill hole. Let settle, then fill with earth and tramp down firmly. Leave a depression around tree to collect and hold moisture.

SHRUB PLANTING CHART

	MATURE HEIGHT	LOCATIONS DO WELL IN	WHEN BLOOM	PRUNING TIPS—See notes at bottom of chart
Pink Almond	4 1/2 ft.	Sun	April	Light—after blooming
Alberia	5 ft.	Sun	Aug-Sept	Early Spring—Light
Barberry	2 1/2 ft.	Sun or Shade	Red berries & foliage	Light—any time
Benzoin Bush	2 1/2 ft.	Sun	May-June	After blooming—Light
Butterfly Bush	3 1/2 ft.	Sun	All summer	Cut to ground each winter
Deutzia Pride of R.	5 ft.	Part shade and sun	May-June	Light—after blooming
Flowering Crab	12-14 ft.	Sun	May	Light—after blooming
Golden Bell	6-8 ft.	Part shade or sun	April	Light—after blooming
Glossy Elder	4-6 ft.	Sun	Yellow foliage	Light—after blooming
Hydrangea	3-5 ft.	Full sun or Part shade east or No.	A. G. early summer	Fairly heavy—any time
Honeysuckle	6-10 ft.	Shade or sun	P. G. Late summer	Cut off flowers as they dry up
Lilacs	6-8 ft.	Part shade or sun	April	Light—after blooming
Mock Orange	6-8 ft.	Part shade or sun	April	Light—after blooming
Flowering Plum	12-15 ft.	Full sun	April	Light—after blooming
Rod. Bud	12-15 ft.	Part shade or sun	April	None
Snowball	6-8 ft.	Sun	May-June	Early spring—light
Snowberry	3-4 ft.	Shade or sun	Waxy white berries in mid summer	Light—early spring
Spirea A. W.	1 1/2-2 1/2 ft.	Sun	All summer	Can be cut to ground each spring
Spirea Van Houttei	4-6 ft.	Shade or sun	April-May	Light—cut from ground after spring
Spirea Thunbergii	3-5 ft.	Sun	April	Light—after blooming
Spirea Ellardii	3-5 ft.	Sun	June-July	Light—early spring
Spirea Prun.	4-6 ft.	Part shade or sun	April-May	After blooming
Sumac	6-8 ft.	Shade or sun	Attractive foliage red in fall	Any time needed
Tamarix	6-8 ft.	Sun or shade	May-June foliage	Early spring. Every few years cut to ground if plant is spindly
Weigela	4-6 ft.	Part shade	May	Light—after blooming

*Light pruning means removing only crooked or very old woody stems when needed.
*Heavy pruning means plants can be cut to ground each winter if low growth is desired. These plants bloom on new wood.

PLANTING CHART—BULBS & PERENNIALS

GROUND LINE	IN. OF THE VALLEY	PERENNIALS	NOTICE
1 IN.	1 IN.	MADONNA LILY	PERENNIALS, LILIES, BULBS, ROOTS AND TUBERS MUST BE PLANTED IN WELL-DRAINED SOIL.
2 IN.	2 IN.	MORNING STAR LILY	
3 IN.	3 IN.	OLD FASHIONED BELOVED HEART	
4 IN.	4 IN.	TURKISH LILY	
5 IN.	5 IN.	CANNA	
6 IN.	6 IN.	ESTATE LILY	
7 IN.	7 IN.	LILY	

the ground freezes with about 6 inches of straw or wheat straw or some other light mulch that will not pack and rot. Do not apply until after the ground freezes or the mice will get in and make their holes and eat your plants during the winter. Do not remove mulch until after the ground completely thaws in the spring and then remove top of the mulch first and then gradually remove the remainder.

Watering—Hoe or cultivate frequently, stirring the ground after rain or watering. In dry weather water thoroughly once a week. The best plan is to make a basin around the plant and fill it full of water several times until the ground is thoroughly soaked or more deep. After the water has soaked away, then fill up the basin with dry dirt.

It is much better to let the water run out of the hose without a nozzle than it is to stand and sprinkle with a nozzle.

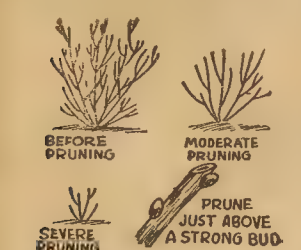

About Bulb Planting

Besides the fall bulbs, such as tulips, hyacinths, narcissus and the like which must be planted, almost all hardy nursery stock can be planted in the fall as well as in the spring. In fact, many plants do even BETTER fall planted than spring set. You see, by planting stock in the autumn and November when the stock is dormant, you give the plant a chance to become established in its new location before growing time starts. The roots below the ground line, **START GROWTH AT ONCE**, and for this reason, fall planted stock often in the ahead of spring planted stock the following summer. Do not expect most fall planted material to top growth before winter because it won't.

Fall planting is just the same as spring planting except pruning should be done early the next spring and a mound of dirt at least a foot high should be pulled up on top of the shrubs, trees, roses, peonies, oriental poppies, lilacs, and left there until spring.

This is to keep the frost from heaving the freshly set plants out of the ground during the winter thaws. If convenient, cover this mound of dirt with a mulch of oat or rye straw or some other litter to keep the mound of dirt from being washed away in the possible warm winter rains.

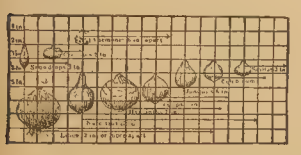

All strawberries or perennials with a leafy crown over which dirt cannot be piled, should have a mulch of 4 to 6 inches of rye or oat straw or some other litter that will not pack and rot, put over them after the ground freezes. This should be taken off gradually in the spring after the ground thaws.

Prune shrubs severely after planting. Follow Shrub Planting Chart for later pruning.

Planting Fall Bulbs

Fall and early winter is the only time you can plant tulips, crocuses, daffodils, narcissus, and the like. They spend the fall and winter making roots and then come up early in the spring.

Set at the depth and distance apart shown in the diagram. You can either dig out a complete bed or simply a small hole for each bulb. Some people put a little sand in each hole which is nice as it allows drainage. Don't allow air spaces about the bulb and be sure to **PACK THE EARTH DOWN FIRMLY** over each bulb for the roots to feed on. Do not let the bulb touch it.

It's a good idea to mulch with lawn rakers or straw or rotted manure. After blooming next spring, allow the tops to die down naturally and then either dig and store, or leave for another season of bloom.

Plants for Shady Locations

- SHRUBS**—Japanese Barberry, Snowball, Snowberry, Hydrangeas, Spiraea V. H., Forsythia.
- PERENNIALS**—Lily of the Valley, Hellebores, Bleeding Heart, all wild-flowers, Bluebells, and all the ferns.
- ANNUALS**—Nasturtiums, Snapdragon, Lupine, Sweet Williams, Pansies.

Tips on Planting

- (1) Just before planting, stick the roots of the shrubs in a mixture of water and soil about as thick as grease.
- (2) When pruning always choose a place just above a strong bud, **NEVER** BELOW.
- (3) Plant your shrubs in a curved line, and not in straight rows. Keep away from the foundation of the house or building, and use smaller shrubs in front of the taller ones.

Pruning Tips to Remember

- SHADE TREES**—If smaller around for your wrist, you can trim them any time. If larger, trim only in the winter when the sap is not flowing. Trim in early spring to prevent bad crotches. Crossed limbs.
- FRUIT TREES**—Prune early in spring, cutting out bad crotches and limbs that interfere with each other. Don't cut off short spurs from main limb as this bears first fruit.
- GRAPES**—Prune in the February before growth starts in the spring. Cut off all old wood which has borne fruit.
- HYBRID TEA ROSES**—Prune long shoots off before winter covering. Prune balance of wood to 8 inches from the ground just before growth starts in the spring.

SHRUBS—Prune early bloomers like Bridal Wreath, Lilacs, etc., right after they bloom. Later bloomers like Hydrangeas can be pruned in the spring.

HEDGES—Prune several times each season whenever it is necessary to keep the hedge in the shape desired. An evergreen hedge should be pruned in late May or June. If you have a straggly hedge, cut it back to within few inches of ground, fertilize and it will grow nicely. Always prune top narrower than bottom.

Asparagus

Set asparagus 15 in. apart in rows 3 ft. apart either spring or fall. A bed dug 18 in. deep with well rotted manure for the bottom six inches, and rich top soil for the next six inches is best. Set plants, spreading the roots well and with eye up. Cover with 3 inches of soil and tramp well. Or simply plant in deep furrow.

Gradually cultivate soil into trench as plants grow as ground is level. Soil is not injurious to Asparagus, and may be sprinkled to cover the ground to keep weeds down. Dress in fall with manure. Do not cut much the first year or two after planting.

You may cut until about the 1st of June. As soon as tops turn yellow in the fall, cut close to the ground, then fertilize and mulch for winter.

Blackberries

Set in good sized hole about 3 inches deeper than they were in the nursery row. Spread roots well and pack firmly. Trim back to within few inches of the ground when planting. Set 4 feet apart in rows 6 feet apart for field cultivation. (1815 per A.) Closer for gardens.

When new growth reaches 24 inches in height, tip to encourage branching. Next spring cut back to 10 in. Prune right after picking the fruit. Remove all old canes that have borne fruit and burn. Leave 3 to 5 branches on new canes. A permanent mulch may be kept on berry beds to conserve moisture and keep down weeds. Dig out any sickly bush that appears and burn.

Blueberries

Get a start of blueberries, can't beat them. They're easy to grow except they need acid soil. So with every blueberry order shipped, we send enough aluminum sulphate to acidify the soil around the plants and insure proper growing conditions. Dig your hole extra big, mix in 2 tablespoonful of the Al. Sulphate and plant as usual. Maintain acidity by adding 1 tablespoonful of Al. Sulphate each spring, summer and fall to soil. That's all that's different than with other nursery stock. Plant 6 feet apart. They like lots of moisture and good drainage. Cultivate frequently only 2 inches deep as roots are shallow. Our post holes help hold moisture and keep soil acid.

Additional quantities of Aluminum Sulphate can be secured at Henry Field's.

Boysenberry and Youngberry

After the soil has been thoroughly prepared, set the plants 3 ft. apart in rows 4 ft. apart. Don't crowd the roots. Pack the earth around solidly. After planting, mulch with a heavy application of well rotted barnyard manure. Plants can be left to trail on the ground the first season. In the fall, after the growth has stopped, prune back about one-half of all new growth, and just before the ground freezes, cover with several inches of straw.

Once the vines commence to bud, they should be fastened to a trellis, similar to a grape trellis. Build a three-wire trellis with the top wire about 5 ft. from the ground and the bottom wire not lower than 2 ft. from the ground. Weave the vines fan shape over these wires. Don't cultivate much, just enough to remove the weeds. It is best to remove very young canes that are found and shorten the longer ones at the time of putting the canes on the trellis wires in the fall. Old canes should be cut out and destroyed after the crop is harvested.

Cannas

Plant late in spring in rich bed. Cover with 2 inches of fine soil pressed firmly. Or dig a deep bed and place manure and fine top soil 6 in. deep below the bulbs. Water in dry weather. Cannas like sun. Plant 18 in. apart. Top buds are killed by frost. Dig and store in cave or cellar where dry and cool. You can cover with dry sand or sawdust.

Do not divide the roots until towards planting time. Cut them in pieces with two or three eyes or buds to each piece.

Currants and Gooseberries

Plant in any rich moist soil, or even where there is part shade. This doesn't seem to bother these plants. Cultivate to hold moisture and put them about 4 feet apart. Keep to edge of garden so they are not in way of plowing.

Dahlias

Plant in well-drained sunny location, after soil is warm. Dig holes 6 in. deep 2 feet apart. Plant tuber on side with eye up and cover with 3 in. dirt pressed firmly. Fill hole gradually as plant grows.

When the plant is above ground, remove all but one sprout and pinch that back when 12 to 15 in. high to force lower growth. Dig in fall after first frost. Cut tops to rear and store upside down in cool dry cellar or cave. Divide in spring and be sure to get one eye with each division.

Evergreens

Evergreens are not particular about the soil, but they like lots of water when first planted. Water daily if necessary until they are well established. Give them a fertilizer now and then, and give them a mulch over winter. It is not necessary to wrap or in any other way protect them, as it is with deciduous. Do not prune except Junipers and Arborvitae which can be pruned in any shape desired.

Gladiolus

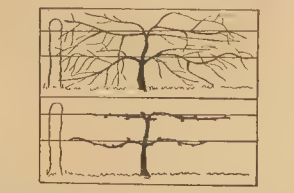

Plant 5 to 6 in. deep and 4 to 8 in. apart, in sunny location. Plant at intervals of two weeks for longer period of bloom. When tops die, dig bulbs, cut off tops and dirt and store in cool, dry place.

Gladiolus can be planted early in the spring, and as late as the first of July.

Grapes

Dig hole big as though planting an apple tree, and use the same method. Remove part of tops and roots as shown in picture on "Top pruning line," and "Bottom Pruning Line." Leave two buds above surface. Set 6 ft. in rows 8 ft. apart. First year only the main stem should be allowed to grow and one vine trained each way on 2 trellis wires about 24" and 36" above ground respectively.

PRUNING GRAPES: Prune only in the winter when vines are dormant and weather not too cold. Keep in mind that canes that have borne fruit one year will not bear again. So prune off all old canes (year old shoots) coming out from main stem EXCEPT 4 black canes (shoots that started to grow the spring before) (two of which you train in opposite directions on each wire. These should be cut back to 3 buds each in the fall. From these buds (found at the joints) come new shoots that bear leaves and grapes the following summer. If these new roots will be used the NEXT WINTER as above, etc.

Mature grapes before and after pruning.

Hedging

Dig trench 10 in. wide. Set plants along a straight side of trench as shown in illustration 7 and a trifle lower than they were in nursery row. Trim to within 4 inches of ground immediately after planting to give bushy growth. When new growth starts, nip off the end of each growth to stimulate branching. Set privet and other upright varieties 6 to 12 in. apart; Barberry and other bushy shrubs 1 foot apart; tall shrubs for high hedges 2 to 4 feet apart.

HEDGE PRUNING—Hedge pruning should be done several times each season—before growth starts in spring, in May and in July. An evergreen hedge should be clipped in late May or early June after the new growth has started. Thin bare hedges, straggly hedge, cut it back to within a few inches of the ground, fertilize it well and it will grow a new growth. Always prune top narrower than bottom so bottom will get sun.

Illustration "J" Setting a Hedge

Hydrangeas

They thrive best in a rich, moist soil, and flower freely either in a sunny or shady location. Severe pruning should be practiced. Old plants should be thinned to have good blooms. Blue Hydrangeas need some winter protection.

Iris

Plant shallow with rhizomes just barely covered with dirt. Spread roots like fingers. Be sure to place iris where they will get at least half day's sun and good drainage. Do not let them be crowded by other plants. It is necessary to dig, separate and replant your Iris clumps every three to five years. Transplant in August or September. If planted early enough will bloom next spring.

Lilacs

Plant several inches deeper than they were planted in the nursery row. Prune away an early planting and a fairly sweet soil. Trim by cutting out old blooms. Don't prune tops severely and prune only right after blooming. Try the new French Hybrids for all colors in Lilacs.

Lilies

Plant all Lilies on well drained soil. Do not use manure. Plant either fall or spring (except Madonna which is fall planted). If you plant in the fall, mulch lightly to prevent freezing and thawing. Good idea to put 2 in. of sand below bulbs. Plant bulbs at depths specified for each variety in the catalog.

The planting depth should be three times the diameter of the bulbs. Move them if they have been in one place for a few years as the bulbs become overworked. Plant where there is plenty of sunshine.

Narcissus

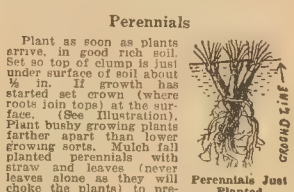

Narcissus, which are also called Daffodils and Jonquils, must be planted in the fall. Give them a fully sunny location. They like plenty of water. Give them a light mulch over the winter. Place the bulbs upright in soil.

After blooming, allow the tops to die down naturally and then either dig and store or leave for another season of bloom.

Ponies

Plant in rich soil, thoroughly spaded. It is extremely important that the pink eyes should be planted between 1 1/2 to 2 inches below the ground level. Never plant them deeper than this nor any shallower. This is the most important point in planting ponies. They are so easy to grow and so beautiful, plants lots of them.

You may dig and divide your clumps of ponies in the fall, though they probably will not need it for several years. Be sure to get several eyes on each pony. Cut off any bad or rotted places. Ponies must be planted in full sun.

Ponies Just Planted

Perennials

Plant as soon as plants arrive, in good rich soil. Set so top of clump is just under surface of soil about 1 in. If growth has started set crown (where roots join tops) at the surface. Plant bushy growing plants farther apart than lower growing sorts. If you have planted perennials with straw and leaves (never leaves alone) they will choke the plants) to prevent alternate freezing and thawing. See chart, bottom of page 26.

Raspberries

Same as blackberries. Cover roots about 3 to 5 in. depending on size plants you order. Plant 3 ft. apart in rows 6 ft. apart.

Rhubarb

Plant 3 feet apart in good garden soil or rows 1 to 2 ft. apart. Surface of soil. Plant either spring or fall.

Give plenty of moisture. Clean cultivation until the second year, and then only a little. After that they may be pulled as long as you can use Asparagus. You may dig, divide and move in the fall or spring.

Roses

Plant in rich soil, well-drained, sunny location, with bud (where top joins brown roots) 2 in. below the surface. As suggested in the general planting directions early in spring, except dirt is mounded up to 4 to 6 in. high above the plant and left about 2 weeks until buds start when it should be removed. Set 18 in. apart. Buds on the ground should be 6 ft. Most of our roses are pruned ready for planting. Mulch in winter with mound of dirt just above the mound of dirt you have mounded up.

LATER CARE: Prune back severely in early spring to within 5 or 6 inches of the ground to form a bushy plant. Climbers should be left 15 in. long. Climbers should have wood that bloomed out each summer. Cut back to 15 in. from the mound of dirt 1 ft. high and then a layer of leaves and straw. All roses need good cultivation. Plant which has many suckers. Daily Hybrid Teas are grafted onto vigorous roots and these sometimes throw up canes of their own. These have 7 leaves instead of 5 and must be cut out.

When setting your roses, cut the ends of all roots with a very sharp knife. No roots should be left more than 4 in. long. If you are planting roses with a joint, or bud, an inch above ground, then pile soil 10" high about the joint to prevent drying. Move any injured portion and make sure the soil is pressed firmly around the roots leaving no air pockets. Test your roses regularly every two weeks after the leaves first appear with Field's Bug Dust. You will have neither bugs nor disease. Read about Rose Dust and Rose-tone on page 57.

Strawberries

Pulverize ground thoroughly. Set plant with crown just at the surface of the earth. DO NOT GET CROWN COVERED. (See illustration below.) Be sure roots are spread out fan shaped and hang down full length without touching soil. Remove dry or bruised leaves. Plant early as you can work the soil in spring. For field work set 3 ft. apart in rows 3 ft. apart and in garden work about 24 in. apart each way. Mulch with 3 or 4 in. straw in fall. This mulch can be left on the following season to retain moisture and keep down weeds. Strawberry plants will not crowd fertilize, so you can plant the varieties you choose. If you have too crowded, thin out old plants. Some people let runners fill the rows and dig the old rows every year.

Grub worms sometimes bother strawberries planted in old or new soil so it is best to prepare the beds in the fall if you are planting them in new soil. Everbearing varieties

Too Deep Too Shallow Just Right

SAVE MONEY! You Can Buy These Valuable Premiums at Almost HALF PRICE

Well-Known, High Quality Merchandise

Hundreds and hundreds of our customers are saving money by buying Henry Field's Premiums with their regular merchandise.

All you have to do to take advantage of these low prices and save money, is to buy an equal amount of regular Henry Field seeds and plants. No coupons to bother with, no waiting.

The number of different articles, or the number of any one article, you can buy is limited only by the size of your regular seed or nursery stock order.

No merchandise sold for full cash only, or for an order only. For instance, you can buy the West Bend Aluminum Dutch Oven for 3.19 cash if it is accompanied with a regular order for 3.19 or more worth of Henry Field seeds and plants. We do not sell it for 5.95 cash alone. Its regular retail value. An order for any Henry Field item applies, garden seed, flower seed, bulbs, supplies, baby chicks, field seed, shrubs, anything we regularly sell.

Delivery of premiums subject to our stocks and this whole deal subject to cancellation at any time. If article you choose is permanently out of stock, we will refund your money for it at once. Then you can pick out some other article, or just keep your money, as you choose. Add premium wanted to your regular Henry Field order and add necessary cash, including sales tax where necessary. We pay the postage.

You don't have to buy a premium article if you don't want to, of course. We are still more than glad to have an order for our regular merchandise same as always. If you don't want the premium article, fine—still glad to have your regular order. These offers expire Jan. 1, 1953.

NOTICE

We are not trying to start a hardware store or a general merchandise store. Our business is strictly seed and nursery and related items. Just like always. And it still is our policy to give you the highest quality at the lowest possible price. These premiums don't affect that policy one bit. Here is why:

We buy these articles in quantity at a low price, right from the manufacturers. We add handling charges and postage. That is the amount of cash we charge you. We do not make anything; we don't expect to lose anything. We only hope to get some new customers, help hold our old loyal customers, maybe get larger orders. And you get a chance to save some money at the same time.

America's Finest Electric Lantern DELTA POWERlite

BLACK

RASPBERRIES

RED

PARK—A Brand New Black Raspberry

A2053—We take great pleasure in offering you this new and improved black raspberry. It was originated at Des Moines, Iowa, and is well adapted to midwest conditions. You can be sure that since it will stand our extreme changes of climate that it will do well anywhere. Rigid tests have proved it is superior to all other blackcaps. The enormous berries are meaty, juicy, of rich quality, and do not crumble. Almost smooth, they present a wonderful appearance. And they are the nearest to being disease-free of any raspberry we know of. Our plants were raised right here in Iowa. 3 for 98c; 6 for 1.89; 12 for 3.69; 25 for 6.98; 100 for 19.75, ppd.

CUMBERLAND Standard of all Black Raspberries

A2042—Here's the favorite of everybody. Has been for years. Strong, upright-growing, vigorous plants always loaded with berries. Fine for shipping, roadside market or home use. Berries large, firm and of fine flavor. Strong, well-rooted plants. Prices: 6 for 1.10; 12 for 1.92; 25 for 3.75; 50 for 6.34; 100 for 11.49, postpaid.

FREEZE BOX COLLECTION

Best for Freezing

Cross Between Red and Black

A2056—New cross between best red and black varieties. Missouri State Fruit Station says "Extremely vigorous, no spraying required to date; last year Sodus averaged 5½ pints per plant. Fruit larger and firmer than Latham." Prices: 3 for 79c; 6 for 1.39; 12 for 2.39; 25 for 4.45; 50 for 8.25; 100 for 15.69, postpaid.

Hybrid BLUEBERRIES

You Can Now Grow

Genuine Blueberries in Your Yard

Most people say Blueberries can't be grown over a large section of the country because they must have acid (sour) soil. We've found it's no trick at all to grow good Blueberries if you just make the soil acid, if necessary, with a little Aluminum Sulphate. We'll send enough Aluminum Sulphate with each Blueberry Collection to last for two years.

Blueberries like plenty of organic matter in the soil, too (except barnyard manure). Peat moss, such as we list on page 56, is just the thing, or well-rotted oak leaves or pine needles. Be sure to mix these materials up in the soil, not just dump them in a pile at the bottom of each hole before planting.

Hybrid BLUEBERRY COLLECTION

A2595X

1 Concord, 1 Rubel, 1 Stanley. Big 3-year-old plants 12 to 18 inches tall. Shipped with 1 lb. Aluminum Sulphate and complete directions. All for **2.98**, postpaid.

4059—Refill on Aluminum Sulphate—enough to last three Blueberry plants 2 years—**30c** postpaid.

varieties must be grown together to get a good set of berries. Plant 6 feet apart. We are offering the newest and finest sorts in 3-year-old 12 to 18 in. plants.

NAMED VARIETIES GIANT BLUEBERRIES
Truly as Big as Marbles
Big upright shrubby plants growing to the height of 5 ft. or more and as broad. A half dozen will supply the neighborhood. Rich blueberries ready for those famous blueberry pies, cakes, and canning with plenty to spare to eat with cream or right off the bushes. We will sell these in collections of three only as several

Henry Field's GIANT BOYSENBERRIES

New! Thornless BOYSENBERRY

A2031—Here's the popular Boysenberry, but a variety WITHOUT THORNS. Bear as well as the regular Boysenberry. Same high flavor and immense size berries but a whole lot easier to pick. Prices: 39c each; 3 for 89c; 6 for 1.19; 12 for 2.19; 25 for 3.98, postpaid.

Thornless Boysenberry

Large, Sweet, Mild DEWBERRY

A2035—We're offering only Lucretia because it is the best variety and the hardiest. Large, sweet and seedless. Milder than a blackberry. Be sure and mulch with straw in late fall and see what a wonderful crop you'll have. Prices: 3 for 78c; 6 for 1.10; 12 for 1.92; 25 for 3.75; 50 for 6.34; 100 for 11.44, postpaid.

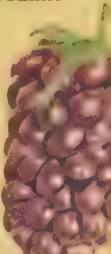

The Sensational BOYSENBERRY

A2030—Often called the "Wonderberry" because of its huge size and goodness. Largest berry we have ever seen. They often are 2½ inches long and rich dark purple in color. Flavor a little from the Loganberry, the Raspberry, and Blackberry. A real money-maker. Prices: 3 for 75c; 6 for 1.10; 12 for 1.92; 25 for 3.75; 50 for 6.34; 100 for 11.44, postpaid.

Sweet and Tasty

A2096—This is the same fine Youngberry with the sweet, tasty berries that have been grown for many years by people in the Midwest, and they always get a bumper crop from them. Folks tell us they are very good eating. Better try them. Price: 20c each, postpaid.

YOUNGBERRY

INDIAN SUMMER

"New" Everbearing

A2075—Six points of superiority: (1) Exceedingly high quality. (2) Earlier season. (3) Heavier fruiting. (4) Hardier (thrives even in Canada). (5) More disease-resistant. (6) Two big crops a year. Prices: 6 for 1.49; 12 for 2.79; 25 for 4.98; 50 for 9.25; 100 for 16.98, postpaid.

GIANT LATHAM

A2078—Giant in size, and extra hardy. A Minnesota development. Berries are large, dark red and firm, pick easily and ship well. Bears large crop and is a real money-maker. Returns on commercial plantings often run as high as \$400 to \$800 per acre in a single year.

For you home gardeners—just think—for the price of one crate of berries you can buy enough plants to give you fresh berries galore—and not just for one year, but for half a generation or more. Prices: 6 for 1.25; 12 for 2.39; 25 for 4.19; 50 for 7.75; 100 for 13.98, postpaid.

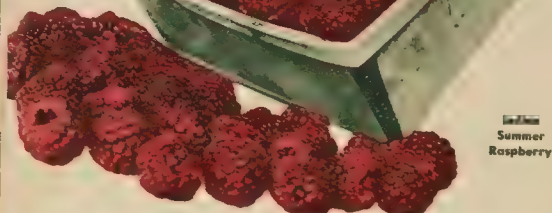

The New SEPTEMBER

A2083—This is a brand new autumn fruiting red Raspberry. It has a regular summer crop too, of course, as it is an everbearer. The summer crop is borne about the same time as Indian Summer, and it continues bearing on until peak of fall crop, which ripens early in September, well ahead of the early frost.

The berries are bright red, of medium size, firm, not crumbly. The quality is very good, best in the fall. The plants are healthy, hardy, and produce an abundance of berries. Better try some. Prices: 40c each; 3 for 98c; 6 for 1.89, postpaid. Can not sell larger quantities this year.

**These Large 2-Year Transplanted
BERRY PLANTS Make Fine Plants
FIRST YEAR—BEAR SOONER!**

Summer
Raspberry

We wish we could sell nothing but 2-year transplanted berry plants. They are so much more satisfactory in every way. They are larger, stronger, heavier rooted, and the danger of losing them in planting is greatly reduced. They'll even bear a few berries the first year. We urge you to try them. They are well worth the money, particularly for ordinary back yard planting because they require very little care to get them established.

Supply not too large so, if and when we run out, we'll ship twice the number in a smaller size.

PRICES

A2064—Sodus (Red and Black cross)—2-yr. transplants—3 for 1.29; 6 for 2.25; 12 for 4.49; 25 for 7.98, postpaid.

BLACKBERRIES

... ALFRED

The Early Long-Bearing Black

A2000 The early ripening, long-bearing blackberry Produces an enormous crop of first-quality fruit. Berries are large, jet black, deliciously flavored, and nearly coreless and seedless. Will grow in poor soil and take care of themselves year after year. Very hardy. Prices: 6 for 98c; 12 for 1.79; 25 for 3.19; 50 for 6.00; 100 for 10.49, postpaid.

HEDRICK...

Brand New Heavy Bearer

A2007—Lots of blackberries have been giving trouble in recent years because they haven't borne fruit. The reason for this is known as "blossom sterility," but no one knows why it occurs. This new "Hedrick" is almost entirely free from this trouble and is a vigorous, productive plant. Berries are large and of fine flavor. Tart until ripe, but flavor pleasant and core soft and unnoticeable. Prices: 3 for 98c; 6 for 1.79; 12 for 3.39; 25 for 6.50, postpaid.

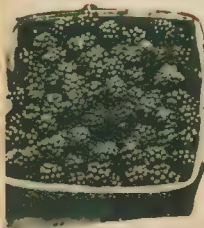

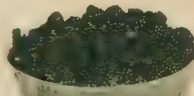

... ELDORADO

The World's Leading Blackberry

A2004—Most resistant to rust. Berries are large and firm and borne in abundance. Ripens over a long period. Fruit is juicy, sweet and very fine flavored and the vines are very hardy—one of the best of all blackberries. Prices: 6 for 98c; 12 for 1.79; 25 for 3.19; 50 for 6.00; 100 for 10.49, postpaid.

Henry Field's

Henry always said that if he could grow only one fruit, it would be strawberries. They taste so good, and will grow anywhere for anyone. And bear heavily. Ordinarily they bear about one quart of berries per plant each season. And you can get 50 plants in a space no bigger than a blanket!

As a cash crop, they are one of the best. You never have trouble selling them. People usually will come to your patch and pick their own and pay you.

You should plant some Everbearers and have fresh strawberries all season, and the first year. We list only the varieties we consider the best. Any one of them will give you satisfaction.

SUPERFECTION—A Very Fine Everbearer

B4125—We believe this is one of the best of the everbearers. The big, red berries are richly flavored and juicy. It is hardy everywhere and a good plant maker, which is unusual for an everbearer. It bears two heavy crops a year. Dr. Denison has just completed a test at Iowa State College of several everbearers, keeping the runners removed. Superfection outbore them all, yielding 11,814 quarts per acre with the last fall picking yet to be made. How's that? 25 for 2.10; 50 for 3.65; 100 for 5.98; 200 for 10.79; 500 for 24.98, postpaid. 1,000 for 44.98, express not prepaid.

Tried-and-True Everbearing Collection

B4206X—25 Giant Mastodon and 25 Streamliner—all 50 for 3.39, postpaid. Free Gift: 5 new White strawberry plants; see description at lower right.

The New Gem—Berries from Spring to Fall

B4113—The new Gem gives you fruit early in the spring, in the summer, and in the fall. It is a wonderful plant maker, being healthy and vigorous. The berries are quite round with very few seeds. And it will bear heavy the first summer. 25 for 1.30; 50 for 2.19; 100 for 3.98; 200 for 7.49; 500 for 17.25, postpaid. 1,000 for 32.75. Express not prepaid.

Henry Field's

... New ROBINSON

More Popular Every Year

B4123—One of the top new berries that is gaining popularity wherever grown. It has everything. It is very large, has a delicious flavor, and the berries are a bright red color. It ripens right after Dunlap. 25 for 98c; 50 for 1.49; 100 for 2.65; 200 for 4.98; 500 for 11.75, postpaid. 1,000 for 21.00, express not prepaid.

Drouth-Resistant BLAKEMORE

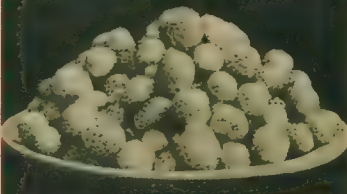

Commercial Freezers Buy This One

B4104—You'll like this for your own use, and it also is especially good to raise for selling to commercial freezers because of its high color and because it holds its shape so well. Will stand more dry, hot weather than any other variety. Really dependable. A heavy bearer, and early fruit. Especially good for Missouri and south. 25 for 79c; 50 for 1.35; 100 for 2.20; 200 for 3.98; 500 for 8.65, postpaid. 1,000 for 16.75, express not prepaid.

Henry Field's Famous WHITE STRAWBERRY

B4114—More than a novelty—a good strawberry. Medium-sized berries, very sweet. Profusion of berries grow on top of plant, so stay clean, ripen well, pick easy. Hulls stay on plant! Strong grower. Good plant maker. Very hardy. How about a shortcake with white berries and pink-colored whipped cream? 10 for 1.29; 25 for 2.69, postpaid. Only 25 to a customer. We paid 50c apiece for the plants a few years ago when we first got our stock.

Everbearing STRAWBERRIES

STREAMLINER

B4124—Sweet as honey, fresh as a June day. Good sized, well colored, and fragrant. Bears July until hard freeze. Extremely sweet so requires a minimum of sugar. Quart of berries per plant. Prices: 25 for 2.10; 50 for 3.65; 100 for 5.98; 200 for 10.79; 500 for 24.98, postpaid. 1,000 for 44.98, express not prepaid.

RED RICH

Henry
Field's
Bargain

Giant MASTODON

B4119—Bears lightly 90 days from planting, and soon is bearing heavily. Keeps on bearing until frost. The berries are giant in size, often 2 inches in diameter, but still very sweet and juicy. This is one of the first true everbearers introduced and it still holds its own against all comers. Many nurseries have dropped this fine variety for the newer ones, but not us. Our customers like it and we like it, because it performs. 25 for 1.39; 50 for 2.35; 100 for 4.25; 200 for 7.65; 500 for 17.98, postpaid. 1,000 for 33.98, express not prepaid.

... the first
Everbearer
and still one
of the best.

The Amazing New RED RICH

B4122—(Patent No. 993.) A cross of Wayata everbearing and Fairfax June-bearer, by Marion Hagerstrom of Enfield, Minn. A chance seedling, one in a million, that hit square, retaining all the good qualities of both parents. Very high quality and honeysweet because it carries lots of natural sugar. Extra large and deep red thru and thru. Unsurpassed for freezing; does not mush when thawed. Very high yield. Crown and root system very large. The above picture is from an actual photograph. (Did you know that every picture in this catalog is from an actual photograph?). 10 for 2.98; 25 for 5.00; 50 for 8.49; 100 for 14.98; 200 for 26.00; 500 for 55.50; 1,000 for 97.50. All postpaid.

JUNE BEARING STRAWBERRIES

The New ARMORE

B4101—A brand new June-bearer that ought to be just right for the midwest as it was developed by Dr Swartwout at the University of Missouri Dept. of Agriculture. A cross between Blakemore and Aroma. Reports are it out-yields both, and is very disease resistant. A heavy bearer of fine quality fruit. 25 for 1.59; 50 for 2.65; 100 for 5.19; 200 for 9.98; 500 for 20.65, postpaid. 1,000 for 37.98, express not prepaid.

Surecrop COLLECTION

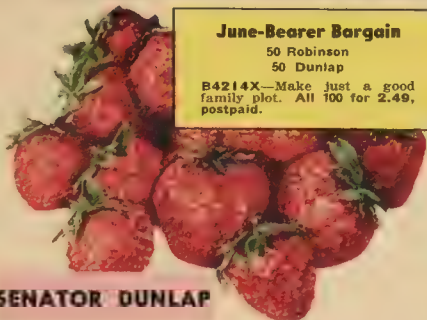

With this collection you can have plenty to eat, try to put up in the spring, and lots of berries all summer. Taken a space about 20 x 15 ft. Set plants 18" each way.

B4212X—50 Bellmar (June-bearing), 50 Giant Mastodon (Everbearing), 100 plants in all. 3.56, postpaid.

June-Bearer Bargain

50 Robinson
50 Dunlap

B4214X—Make just a good family plot. All 100 for 2.49, postpaid.

SENATOR DUNLAP

B4107—This is the old reliable favorite that everyone knows and plants. Has flavor, quality, drought resistance and good color. Midseason, bright red, smooth, large firm fruits. A popular strawberry for

many years past. We sell more Dunlaps than any other strawberry, and rightly so. 25 for 89c; 50 for 1.39; 100 for 2.49; 200 for 4.79; 500 for 10.89, postpaid. 1,000 for 19.75, express not prepaid.

Henry Field's GIANT

B4110—Bears profusely, and with its giant size, makes an enormous yield. Fruits are clear red right straight through. Berries hold off ground on strong stems; clean and easy to pick. Extra sweet. Neither extra early or extra late. Very hardy. 25 for 1.59; 50 for 2.88; 100 for 5.19; 200 for 9.98; 500 for 20.65, postpaid. 1,000 for 37.98, express not prepaid.

Heavy Bearing BELLMAR

B4103—The berries are delicious and large but have no hard cores or hollow spots. No green tips. Hold deep dark red color even when canned. And it's easy to grow. Henry was the first to grow this special strain, at his Ozark farm. Really choice. 25 for 89c; 50 for 1.39; 100 for 2.49; 200 for 4.79; 500 for 10.89, postpaid. 1,000 for 19.75, express not prepaid.

FREEZE BOX COLLECTION

B4215X—This is for those who want their berries to come all at the same time so that they can freeze 'em and get it over with in a hurry, but who still would like several different flavors:

All 75

FREE GIFT: 10 White Strawberries as described at left.

STRAWBERRIES All-Season Special

Each plant ready to yield 1 pint to 1 quart of fresh strawberries every year. 50 Senator Dunlap (Standard), 25 New Gem (Bears all Summer). **B4202X**—75 Plants, all for 2.29, postpaid. Or 2 collections (150 plants) for 4.19, postpaid.

SIoux—Vigorous and Heavy-Bearing

B4126—A new variety just fine for the midwest as it was originated at the Cheyenne Horticultural field station. It has proved a tremendously vigorous grower and a very heavy bearer. We notice that most of the plants produce 4 to 5 fruit clusters per plant with an unusual number of sweet, good quality berries on each cluster. Remember, this berry was bred particularly for our tough midwest conditions. 25 for 1.59; 50 for 2.88; 100 for 5.19; 200 for 9.98; 500 for 20.65, postpaid. 1,000 for 37.98, express not prepaid. Limit to one customer—1,000.

Henry Field's GRAPES

Grow them on a fence, on an arbor, or in your vineyard. Plant 6 to 8 feet apart in rows 6 feet apart. Study the different varieties. Each is superior for some reason. It usually is best to plant several varieties so you have grapes all season. One of the collections we have may be just what you want. All plants are big, heavy rooted vines.

ALL-PURPOSE GRAPE COLLECTION A2454X

- 1 Concord
- 1 Cata
- 1 Fredonia
- 1 Niagara
- 1 Moore's Early

All 5 for 1.89, postpaid

Bargain Grape Collection

- 1 Cata, the best red
- 1 Niagara, the leading white
- 5 Concord, the favorite blue
- A2450X—All 7 only 1.98, postpaid. FREE! 1 Sensational Boy-senberry

BUFFALO

You Ought to Try This One "New Blue-Black"

A1802—Originated at the New York State Fruit Experiment Station. They predict it will eventually replace Concord. Very early blue-black grape borne in solid clusters and great quantities. Has the flavor and sweetness of the flesh is juicy and melting. A fine dessert grape and excellent for grape juice and wine. 70¢ each; 2 for 1.48; 6 for 3.89, postpaid.

NIAGARA

The Popular White Grape

A1818—This is the most popular white grape; holds the rank among grapes of this color that Concord maintains among black varieties. Highest quality. Excellent eating grape. Clusters very compact with many grapes in each one. 50¢ each; 2 for 84¢; 6 for 2.28; 12 for 3.84; 25 for 6.25, postpaid.

FREDONIA

2 Weeks Ahead of Concord

A1808—The grape we have all been searching for. Experts say it will be one of the leading varieties in a few years due to its high quality and early ripening date. Big, compact clusters of black grapes. 2 weeks ahead of Concord. 50¢ each; 2 for 84¢; 6 for 2.28; 12 for 3.84; 25 for 6.25, postpaid.

MOORE'S EARLY

A1814—Very early, rich black variety always loaded and always enjoyed. The first mammoth clusters taste so good picked right from the vine. Very vigorous vines. Does well over the middle west. Fruit very large. 50¢ each; 2 for 84¢; 6 for 2.28; 12 for 3.84; 25 for 6.25, postpaid.

Golden MUSCAT

A1816—A miracle fruit. A big, golden California type grape that's hardy in the middle west. Big golden yellow, juicy grapes in immense long clusters. So sweet you have to taste them to believe it. 2-yr. plants. 98¢ each; 2 for 1.72; 6 for 4.68, postpaid.

"SEIBEL 1000"

A New French-American Hybrid A1828—Very good cross of a leading French vine grape and an American grape. Fruit jet black, with a high percentage of sugar; very good for juice, wine or jelly and also good eating. The skin is tender and good too. Vigorous grower and heavy yielder. Already very popular in New York State and eastern Canada. Should do well over most of our country. Why not try it? Consistent and the chances are you will produce the finest grapes you've ever grown. 75¢ each, postpaid.

NEW WHITE PORTLAND

A1825—We like to know that you will like this one. One of the first to ripen a few days before Fredonia, and larger and sweeter than any other white grape. Delicious, rich, spicy flavor. Fine for eating or wine. Plant is vigorous, hardy, productive and healthy. 79¢ each; 2 for 1.48; 6 for 3.89, postpaid.

RED CACO

A1803—A bigger, red grape with a better, sweeter flavor. Always loaded even in the hottest summer. Makes finest red jelly. Don't fail to plant Caco. Clusters about 6 inches long. Do not pick for eating until deep red. 50¢ each; 2 for 84¢; 6 for 2.28; 12 for 3.84; 25 for 6.25, p.p.d.

CONCORD

A1804—You should have Concord if you can't plant any other variety. Fruit sweet and juicy. Rich blackish-purple. Vines always loaded. Never fails. Extra hardy. 45¢ each; 2 for 70¢; 6 for 1.68; 12 for 2.64; 25 for 4.75; 100 for 16.50, postpaid.

BETA

A1801—The hardest grape we know. Grows in Minnesota without protection. Fine for arbor. Grows fast and bears heavy. Fruit not so large. Clusters very sound with a nice flavor—having the tang of a wild grape. Perfect for jams and jellies. 50¢ each; 2 for 84¢; 6 for 2.28; 12 for 3.84; 25 for 6.25, postpaid.

Henry Field's PLUMS

No fruit is quicker, heavier bearing, or surer bearing. Plant 18 ft. apart, 130 trees to the acre. It is well to plant two or more varieties so they can cross pollinate. Ideal for chicken yard shade; do well there. Spray with Henry Field's Combination Fruit Spray—see page 53.

COMPASS

Plum-Cherry Hybrid

A3602—Combines size of plum with flavor of cherry and plum. Developed by Hansen Bears loads of bright, shiny red cherry-like fruit. Perfect for jams, jellies or canning. Low, bushy growing, easy to pick. Set 10 to 12 ft. apart. Good pollinizer for other plums.

TECUMSEH

Extra Hardy

Long Lived

Earliest of All

A3633—One of Dr. Hansen's best, and probably as fine as eating plum as there is. Ordinarily ripens in August. Trees are of moderate size, the for home planting, and easy to pick for the orchardist. Earliest bearing of all plums. Clear up into Canada. The fruit is a bright red with bluish bloom. The flesh is yellow, firm, juicy and sweet, and has a delightful spicy fragrance.

BLUE DAMSON

Old Favorite

FreeStone

A3604—The old favorite blue plum. Excellent for preserves. A large freestone, and sure bearer. 2 to 3 ft., 1.34 each; 3 for 3.93; 5 for 6.40, postpaid; 3 to 4 ft., 1.69 each; 5 for 4.95; 8 for 7.98, postpaid.

GREEN GAGE

A3610—Here's what the Encyclopedia of Hardy Fruits says about it: "The qualities that gratify the sense of taste, richness of flavor, consistency and texture of flesh, abundance of juice, and pleasant aroma, the fruits of Green Gage are unsurpassed." These we can't add much to that except to say that the trees are healthy, and ripen early in Sept.

SUPERIOR

One of the Largest and Best

A3636—Bears young and heavily. The big yellowish fruit gradually turns pink and then produce a deep red bluish. They peel like peaches and make fine dessert, jellies, jam and preserves. Bears early and heavily. Ripens early August. Good pollinizer for other plums.

BIG 3 PLUM BARGAIN

1 Waneta, 1 Stanley Prune, 1 Superior. All sturdy 3-4 ft. trees. A2843X—All 3 p.p.d., only 3.25.

ALL-SEASON PLUM ORCHARD

1 Compass, 1 Opata, 1 Underwood, 1 Stanley Prune, 1 Waneta. A2844X—All 2 to 3 foot size. All 5 for 4.25, postpaid.

WANETA

Hansen's Most

A3636—The most famous of all Hansen's Hardy Hybrid plums. Fruit big, bright red outside and crisp, juicy, sweet yellow inside. Heavy bearing, sure bearing, super-hardy. You can't go wrong on this one.

ALLRED

A3601 Gets its name because the whole thing is red—the foliage, the flowers, the fruit—even the bark is purple-red. The plums are large, free stone, and of fine quality. The tree is beautiful enough to use as an ornamental on your lawn. Hardy to central Iowa. 2 to 3 ft. size, 1.34 each; 3 for 3.93; 5 for 6.40, p.p.d.; 3 to 4 ft. size, 1.69 each; 5 for 4.95; 8 for 7.98, p.p.d.

Stanley Prune

A3631—If you have shied away from the plum because of lack of hardiness and poor growth, try this one. Begins to bear in three years and bears regularly. Large, deep bluish-purple freestone plums of fine flavor and firm, delicious flesh. Trees from here are always loaded. Ripens in early Sept. Fine for canning as retains its shape after skin and processes. Deep wine-purple throughout.

OPATA

A3623—Bears often the year after planting. Reddish-purple skin, yellow inside. Limbs are almost entirely hidden by clusters of fruit—so heavy you must watch you don't break the limbs. Grows on any soil. Ripens July 10th.

UNDERWOOD

Giant Freestone

A3634—(American Type). Was Henry's favorite at his Oark farm. Bears regular and fruit is immense. Ripens in July. Red freestone, good to look at and delicious to eat. Hardy north or south, even into the Dakotas and Canada.

ELBERTA "YELLOW FREESTONE"

A3404—The most popular and no wonder. Big, rich, yellow, highly colored fruit. Heavy, sure bearer and fine flavored. The peach that everybody likes. A good shipper. Ripens August 30th to September 15th. Succeeds over wide range of territory.

Elberta Collection

A2785X—3 Elberta, large 4 to 6 ft. Shenandoah-grown trees. Express not prepaid, 3.19. FREE GIFT: 1 Anoka Apple 2-3 ft. Red and yellow striped early bearer.

GOLDRAY—A New and Better Freestone

Improved Golden Jubilee—Hardier, Ripens July 10th. A3405—Goldray is a brand new peach, an improved Golden Jubilee, introduced last year by the Bountiful Ridge Nurseries. They have kindly allowed us to offer it along with them, and we are glad to do so. It is identical with the fine Golden Jubilee in shape, quality and fine growth, but it is more hardy in bud and ripens about July 10, which makes it a very early peach. The Vineland Station in Canada reports a fine showing of this new peach in Canada. You'll like it. 2 to 3 ft., 80¢ each; 3 for 2.49; 3 to 4 ft., 1.19 each; 3 to 4 ft., 1.49 each; 5 for 4.19, all postpaid.

Hardy Freestone Peach Bargain

- 1 Elberta, favorite yellow.
- 1 Polly, best of all whites.
- 1 Hale Haven, hard to beat yellow.
- 1 Golden Jubilee, early yellow.
- A2771X—All four 3 to 4 ft. trees for 3.98 POSTPAID

PEACHES

Some varieties of peaches are shy bearers. We don't sell that kind. All these varieties are good bearers. Plant 15 feet apart, or 150 trees to the acre.

2 to 3 FT. PEACH BARGAIN

A2768X—This is the size the orchardists always plant. When you plant them be sure to cut all the branches off, trim them right up to a whip. 1 Elberta, 1 Golden Jubilee, 1 Polly and 1 Hale Haven. All four 2 to 3 ft. trees for 2.10, postpaid.

POLLY PEACH

J. H. HALE

HALE HAVEN

White Champion

Golden Jubilee

RED HAVEN

The White Peach That's Sure to Bear

A3420—Super hardy. Big freestone—white overlaid with rich red bluish. Keen flavor and juicy. Introduced by Iowa State College. Produces a big crop of peaches every year. Very firm. Sure to bear. Stood 20 degrees below zero and bore a big crop. Now same price as other varieties. Ripens August 15th.

"Money-Maker" Extra-Large Freestone

A3414—Extra large, rich yellow, blushed red. Ripens a few days ahead of Elberta and tastes as good as any peach known. A money-maker if you want to sell the fruit, as it brings a premium.

Ripens Early

A3410—New freestone rapidly taking the place of Elberta in commercial orchards. Deep orange all over with deep bluish of carmine. Ripens 15 days ahead of Elberta. Self-pollinating. Hardy. Extremely high color several days before the fruit ripens means early picking for distant shipment.

The Hardy Freestone

A3430—Very hardy in the central states. Has size and quality. A honey-sweet, rich, juicy white peach, you'll rave about. Ripens around August 10th. White peaches are always hardest.

Extra Early Red and Yellow Freestone

A3408—Beautiful golden red. Very large fruit. Hardier than most and growing more popular each year. Flesh is yellow, tender, juicy and sweet. Ripens July 20th. Along with Red Haven, among the finest of all early peaches.

A3423—(Freestone) Extra Early

flaming red Peach with golden red. Will color all over and ready to ship to distant markets while still firm. Trees bear young and heavily. Self-pollinating. Very good to eat fresh or canned. One of the best peaches for the freezer box as it does not discolor or turn brown when processed.

APRICOTS

Make excellent ornaments. Have dark green, glossy foliage, beautiful blossoms. All except Moorpark hardy clear into Canada. Good canned, dried or frozen and for pies, preserves and jams.

APRICOT BARGAIN COLLECTION

A2700X—1 each of Hardy Iowa, Superb and Chinese Golden. All 4-6 ft. trees for 4.89, exp. not prepaid. Free Gift: 1 Hardy Oark Persimmon.

Prices on DeLuxe Apricot Trees

See page 34 for description of DeLuxe fruit trees. Giant 5 to 7 ft. trees individually root wrapped, 2.69 each. Express not prepaid. Too big to mail.

HARDY IOWA

A3207—This is the super-hardy Apricot we found on a farm just south of Shenandoah. Bears heavy crop of medium sized apricots of excellent quality. Tree rapid, thrifty grower. 210° or more later than most apricots so not likely to be caught by frost.

SUPERB

A3214—Superb in HARDY in the middle west. Has a delicious flavor you get in no other fruit. Eat right off the tree. Plant 15 to 20 feet apart. Ripens between cherries and peaches. Remember Apricots will stand more hot weather than any fruit.

MOORPARK

A3211—Big, juicy, full-flavored apricot just right for canning and drying. Also one of the finest dessert varieties. Ripens to a beautiful orange, both skin and flesh. Perfectly freestone. Fuzzless skin. Mild sweet flesh, drier than peaches and easier to keep. Not as hardy as our other apricots but does well anywhere peaches will.

CHINESE GOLDEN

A3200—A very fine and very hardy apricot. Large size and a very sweet flavor. Smooth skinned and pale orange in color with a bright red cheek. This is one of the best of the apricots.

HARDY IOWA

SUPERB

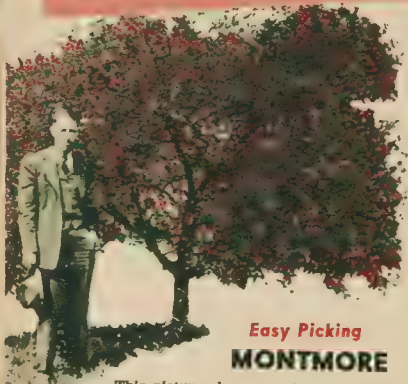

MOORPARK

CHINESE GOLDEN

Our cherries are extra heavy rooted, well branched, and always budded on a hardy understock to give long-lived, heavy-bearing trees.

Cherry trees grow shorter and thicker than most fruit trees; therefore, they are usually a little on the low side as far as height is concerned, but ours are always on the big side on caliper—guess that's fair enough.

Set 18 feet apart, each way, or 130 to the acre. Keep the ground around them cultivated if you can, but cherries are one fruit that will do very well even when surrounded by a heavy sod. Don't ever trim a cherry tree any more than you have to, except when you plant it. Then trim the branches back at least half way.

Easy Picking

MONTMORE

This picture shows you how Montmorency grows broad rather than tall. That makes it easy for you to pick, and also gives you a good shade tree in the yard or for poultry or animals. Two-thirds of the fruit of the average Montmore can be picked from the ground. By the way, don't pick Montmores until they turn a black red. They make up half of their size after they turn red.

Henry Field's Hardy CHERRIES

GOLDEN SWEET

Birds Don't Bother It!

A3318—Our new yellow sweet cherry. Always loaded down with a big crop of golden yellow cherries. Flavor is just as fine as any Bing cherry you've ever tasted, but, because the cherry is yellow the birds don't eat the fruit.

MONTMORE

The Dwarf Montmorency
That Often Bears First Year!

A3336—Grows much lower than Montmorency (gets 10 to 12 ft. high) and still produces a full-sized crop. Trees never get so tall but what most of the fruit can be picked from the ground.

BIG CROPS IN 3 YEARS

Ideal commercial cherry. Gets in full bearing in 3 or 4 years. Fruit is often larger than Montmorency and quality as good or better. Will bear anywhere from Georgia as far north as cherries will grow. Absolutely hardy. Fruit turns black-red before ripe.

DeLuxe Grade
CHERRY TREES
Described Here

MIDNIGHT SWEET

A3302—(Black Russian). This is a fine, new hardy sweet cherry originated in the orchards of Hiram Burkholder, Clyde, Ohio, who for many years has carefully tested new fruit trees in search of better varieties. In Ohio, this variety has shown no injury at temperatures of 15 to 20 degrees below zero, nor has late spring frost during the bloom period affected the crop materially. It is a vigorous grower and very productive. The very black fruit has a delightful, aromatic flavor. The flesh leaves the pit readily and the cherries do not crack nor brown rot before picking. We recommend it to you.

PRICES:	Each	Per 3

No 5 to 7 ft. or DeLuxe grade of this one this year.

Henry Field's DeLuxe GRADE of Fruit Trees

Give You * Faster Growing * Better Shaped

* Quicker Bearing Fruit Trees

When you buy a fruit tree, you make a long-time investment. The chances are that you will buy fruit trees only 3 or 4 times in your whole lifetime. So it makes sense to get the best when you do buy, and it really is cheaper in the long run. (They don't cost very much to begin with.)

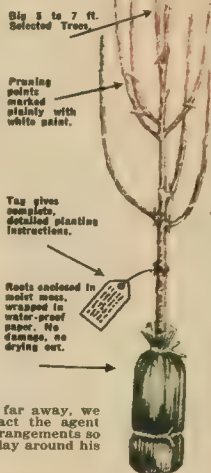

Here is what you get when you order Henry Field's DeLuxe Grade of fruit trees:

- 1 You not only get big 5- to 7-foot size trees, but the very finest of this big size—trees well branched, with heavy root systems and straight trunks. (On cherry trees, the size is 4- to 6-foot size.)
- 2 Roots of the trees are specially wrapped in moist sphagnum moss held around the roots by a heavy grade of waterproof paper that keeps the moisture in, the air out. This keeps the trees in a live, growing condition.
- 3 Proper, easy-to-follow pruning points are painted in white on the branches of the trees so you will know just where to trim it when you plant. This makes it easy for you to do an expert pruning job, which results not only in a better looking tree but one that will live longer and produce more fruit.
- 4 A white ring is painted around the trunk to indicate the proper planting depth.
- 5 Attached to the tree is a permanent, metal, non-choking label so you always know the names of the different trees you plant.
- 6 Complete, simple directions on the best way to handle the trees from the time they reach you until they are planted are given on a big bag tied to every tree.

Shipped by Express Only

These trees are shipped by Express (not prepaid) because they are much too big to ship parcel post. When ordering, please tell us your nearest express station.

If station is very far away, we suggest you contact the agent there and make arrangements so the trees will not lay around his office too long.

Bush Cherries make an ideal hedge or screen too, as shown in picture above.

Bush cherries make the best dual purpose shrubs we know of; they are highly ornamental and also bear lots of delicious fruit.

The pretty blooms, the dense growing, clean, green foliage, and the bright red fruit are beautifully ornamental. They make a good shrub for lawn or house foundation planting. And we know of nothing better for a screening hedge. Some bush cherries (the hybrids) never get over 4 to 5' tall. Others, like Nanking, will grow to 10', but can be kept lower by shearing, as was done with the hedge in the picture above.

The cherries are just as good to eat as tree cherries, and are a lot easier to pick. They make wonderful pies, jams, jellies, wine. They add a new flavor to your table. In addition, as they are borne along the trunk and branches shielded by the foliage the birds rarely bother them.

You should get acquainted with bush cherries.

PRICES FOR DeLuxe GRADE	APPLE	PEAR	PLUM	CHERRIES
Big 5 to 7 ft. for 1.49. 3 for 5.29 except Detroit which is 3.10 per tree. No Del. wine DeLuxe Grade.	Big 5 to 7 ft. for 2.39. 3 for 8.89. No Cope's Seedling DeLuxe Grade.	Big 5 to 7 ft. for 2.39. 3 for 8.89. No Allied or Sealing DeLuxe Grade.	Big 5 to 7 ft. for 2.39. 3 for 8.89. No Allied or Sealing DeLuxe Grade.	PIE Montmorency Cherry 4 to 5 ft. 5.49. Sweet 5 to 7 ft. 7.29. Early Richmond, 4 to 6 ft. 2.49. No Midnight Sweet.

YOU CAN SEE THE DIFFERENCE

At the left here is an ordinary grade of fruit tree, a good tree and a good buy for the money. But compare it to the DeLuxe Grade to its right. The DeLuxe Grade is an especially selected tree of a heavier caliber, better shape, with more branches. The roots are heavier, and enclosed in moist moss. Such a tree will grow faster, bear sooner, and is easier to plant properly.

UNCONDITIONALLY GUARANTEES

We are so confident you can not lose one of these trees that we unconditionally guarantee each one of the DeLuxe Grade fruit trees to be in vigorous growing condition one year from the date you receive it. If not, we will replace the tree absolutely free.

NEW! Splendid Plum

- *A3628—That is, Splendid is new to us.
- *It was originated in 1930, but we didn't wake up to its excellence until recently.
- *It is one of the finest eating plums available and is rated as the best adapted to midwest and western plains conditions of any of the really high quality sorts.
- *fruit is a bright red with numerous white spots changing to deep rich red all over when thoroughly ripe. The skin is thick, pit small, fruit large. Flesh firm, meaty and richly colored. Good strong plants. 1.69 each, postpaid.

MONT-MORE

MONTMORENCY

MIDNIGHT SWEET

BUSH CHERRIES

NANKING Hybrid Cherry

Useful and Ornamental

These new hybrids, originated under the direction of Dr. Alderman at the Minnesota Exp. Station, are great improvements of the fine Nanking Cherry because: (1) Bright red fruit—almost as large as a Montmorency Cherry but much milder and sweeter. (2) Bushes loaded with fruit most every year. (3) Cherries fine for eating right off the bush and make pies, jam, jelly of a distinctive, delicious flavor. (4) Bush makes one of nicest ornamental shrubs we know of. Grows about 8 ft. tall. (5) Planted in a row, the bushes make a wonderful screen or tall hedge. (6) Self-fertile and do not need cross pollinization. (7) Shrubs loaded with white blossoms in the spring. (8) We know of no insect pests that bother them.

Varieties Nanking Cherry Hybrids

There is some variation in flavor so we've listed several varieties. All are self-fertile.
A3350—Minn. No. 20 A3352—Minn. No. 42
A3351—Minn. No. 41 A3353—Minn. No. 64
2-4 ft. shrubs—1.45 each; 3 for 4.19, ppd.

Nanking Hybrid Cherry Collection—A2750X
1 each of all four varieties for 4.98, ppd. This is one of the best buys you will make from our catalog.

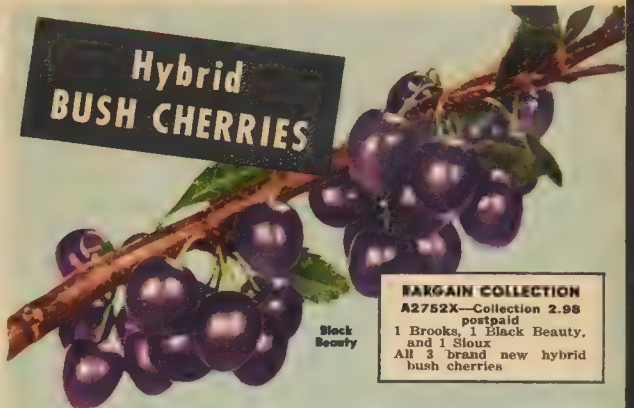

Field's GIANT

Red-Fleshed BUSH CHERRY

Purplish-Red Skin and Flesh

A3359—A Bush Cherry as loaded as the regular Bush Cherry, but giant (plum size) fruit. Dark purplish red skin and flesh. Is actually classified as a plum. Best looking fruit we've seen. Good eaten just like plums or cooked or canned same way. Grows 4 to 6 feet. Plant 6 feet apart. Will produce more fruit in small space than anything we know. Makes a lovely shrub. Plant it in the border, enjoy its delightful bloom, and have fruit, too, 98c each; 2 for 1.79, postpaid.

Hybrid BUSH CHERRIES

Black Beauty

BARGAIN COLLECTION

A2752X—Collection 2.98 postpaid
1 Brooks, 1 Black Beauty, and 1 Sioux
All 3 brand new hybrid bush cherries

Much larger and tastier fruit than the old Hansen Bush Cherries and better growers. Budded on American plums, and should be hardy anywhere. Should a wild plum stalk come shooting up through the shiny leaf Bush Cherry, be sure and trim it out. You folks who are out of the regular cherry country can grow these new hybrid bush cherries and enjoy the fruit just as much as you would regular cherries.

A3345—BROOKS. Dark red fruit, almost as large as regular cherries. Bear

heavily the second year from planting. Bush is compact and shapely. 1.10 each, postpaid.

A3344—BLACK BEAUTY. This is the newest selection of the bush cherry. The fruits are a very dark, glossy, black maroon-red. Almost as large as tree cherries. Fruit is dark red from the skin right to the pit. Fine eating and fine for canning and pies. 1.10 each, postpaid.

A3346—SIOUX. Extremely large cherries—¾" or better across. Purplish black, shiny with greenish flesh. Juicy and sweet. In the vicinity of Minnesota this cherry fruits about the second week in August—earlier south of there. 1.10 each, postpaid.

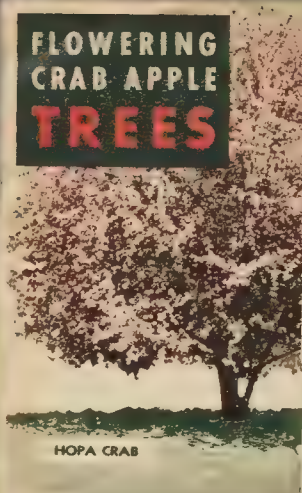

HANSEN'S FAMOUS BUSH CHERRIES

Loaded with Delicious Fruit The Improved Bush Cherry

A3360—A miracle plant. Grows like a bush (4 to 5 ft. high). Makes beautiful ornamental shrub. Bears almost as much fruit as a plum tree. No waiting for fruit. This new strain makes it better eating than ever—fresh, canned, or in preserves. Very hardy. Stands intense heat and cold. Plant 3 to 4 ft. apart. 39c each; 3 for 1.10; 10 for 3.59, postpaid.

FLOWERING CRAB APPLE TREES

HOPA CRAB

The bright, glistening red crab apple fruit is beautiful to look at, decorative enough to be in your front yard—yet delicious to eat.

These four crab apple trees are one of the most beautiful and useful groups of small trees we know of. Their blossoms vary from snowy white to almost crimson, followed by glistening fruit. Some varieties have foliage that is bronzy red and silver. Perfect for screens, lawn trees, small shade trees. Yet from some you get pails full of luscious, highly flavored fruit for cooking, jellies and jams.

HOPA CRAB APPLE

A3040—Most popular of all flowering crab apples. Completely covered in the spring with bright pink, fragrant blossoms. From late summer far into freezing time, the branches are covered with tiny apples that make tasty jelly.

Each Per 3
3 to 4', postpaid ... 1.19 3.39
4 to 5', exp. not ... 1.29 3.67
5 to 7', exp. not ... 1.49 4.29

CARDINAL CRAB APPLE

A3083—(Red Flecked Crab) A beautiful ornamental with deep pink flowers and wide-spreading branches. Bears delicious, large crab apples that are red to the core. Makes wine-jelly of delicious flavor. Early bearing.

4 to 5', exp. not ... 1.49 4.29
5 to 7', exp. not ... 1.69 4.79

DOLGO CRAB APPLE

A3019—Probably the finest for canning whole, or pickling, and for jelly and sauce. Also one of the most beautiful. A well-shaped tree having snow-white blossoms and gleaming red fruit. Bears young and regularly. A Prof. Hansen introduction. Extremely hardy, too.

Each Per 3
3 to 4', postpaid ... 1.19 3.39
4 to 5', exp. not ... 1.29 3.67
5 to 7', exp. not ... 1.49 4.29

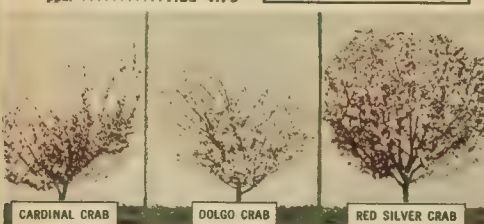

RED SILVER CRAB APPLE

A3082—A gorgeous tree that actually outshines the famous Japanese Cherries in beauty. Has cut-leaved red foliage beautifully suffused with silver. The flowers are a showy crimson. The fruit is rich maroon-red—highly ornamental—and unsurpassed for jellies and preserves. A tree so beautiful that passers-by stop and stare at it.

Each Per 3
3 to 4', postpaid ... 1.29 3.67
4 to 5', exp. not ... 1.49 4.29

Henry Field's HARDY PEARS

Prices of DeLuxe Grade Pear Trees

See description of DeLuxe Grade on page 34. 5- to 7-foot size DeLuxe Grade Pear Trees. 2.39 each; 3 for 6.99. Express not prepaid. Too big to mail.

Cross Pollination of Pears

2 different varieties are needed for proper pollination but if you live in town or a city suburb there probably will be enough other pear trees around so you won't have to worry.

All-Season Pear Collection

1 Bartlett 4-6 ft. (Sept.)
1 Douglas 4-6 ft. (Oct.)
1 Lincoln 4-6 ft. (Aug.)
A2809X—All 3 for 4.29, Exp. not pdd.

Early and Late Pear Collection

1 Bartlett 2-3 ft.
1 Douglas 2-3 ft.
A2807X—Both for 1.79, pdd.

BARTLETT

Most Popular Pear in America

A3502—Grows well in every section of the country. Produces full crop every year and is good grower. Handsome fruit are golden yellow with rich pink blush, wonderful flavor. Keeps and ships well. Best canning pear on the market. Ripens in September.

Henry Field's Hardy APPLE

All Henry Field apple trees are heavy caliper, strong, straight trees with heavy roots. We grow our own apple trees and know they are good, free from disease, and true to name.

Statement of Inspection for Truthness-to-Name

To Whom It May Concern:

All the salable apple varieties propagated and now growing at the Henry Field Seed and Nursery Company, Sheboygan, Iowa, have been examined by the Massachusetts Truthness-to-Name Inspection Service. To the best of our knowledge, these trees are true to name as they now stand in the nursery row.

(Signed) A. P. French,
Mass. Truthness-to-Name Inspection Service,
Sponsored by the Mass. Fruit Growers' Association.

Nothing is more discouraging than to discover, after 4 or 5 years, that an apple tree is not the variety you thought it was. Why take chances? Plant Henry Field's apple trees and be sure.

About Pollination

In most towns and city suburbs, there are enough apple trees to assure proper pollination. But out in the country, better plant two or more different varieties.

About Spraying

Now spraying is easy, thanks to Henry Field's Combination Fruit Spray. See page 53 for details of this easy-to-use spray.

HENRY FIELD'S LOW APPLE PRICES

(These prices apply to all except Delcon, Delawine, and the DeLuxe Grade.)

ALL-SEASON APPLE COLLECTION

A2670X—Three bear all season—some early, some mid-season, some late:
1 Yellow Transparent 1 Anoka (Fall)
1 Early 1 Jonathan (Mid. Winter)
1 Grimes Golden (Winter)
1 Red Delicious (Late Fall and Winter)
All 5 of these, 4 to 6' size, for only 4.29. Exp. not pdd.
FREE: One blight resistant, hardy, well known Nalle Pear, 3 to 4 ft. size.

DELCON A TRUE DWARF APPLE FOR ONLY 1.79

Delcon was originated by the Missouri State Experiment Station at Mountain Grove, Mo. Its parentage is Ben Davis, Jonathan and Delicious. It is a true dwarf with drooping branches. It was offered for sale for the first time in the United States in our March 1948 Seed Sense.

Some dwarf apple trees are made by multigrafting, a complicated process which is more expensive and when you end up you don't have much of a tree, and they have to sell for five or six dollars. But Delcon is a single-graft, a true dwarf,

a small tree (for easy picking) with full-sized apples, and we sell it for only 1.79, postpaid. Perfect for the back yard.

The fruit is fine grained, juicy, and has some of the flavor of both Delicious and Jonathan. It produces heavy at an early age, seldom needs thinning, ripens about ten days before Delicious, and keeps well in storage.

You ought to plant it. No. A3015, 24 ft. size only 1.79 ea., postpaid. 4-6 ft. size only 2.19 each, Exp. not prepaid.

5-in-1 APPLE TREE

A Very Practical Tree for the Small Yard

A3114—These 5 choice varieties on one tree:

Red Delicious Yellow Delicious
Stayman Winesap Anoka
Yellow Transparent

You get apples all season long from this one tree.

Here's how a 5N1 tree happens—we take a good standard tree like an Anoka and graft the other varieties onto its limbs.

When you receive your 5N1, note the branches that are grafted and then don't let the other limbs crowd them out.

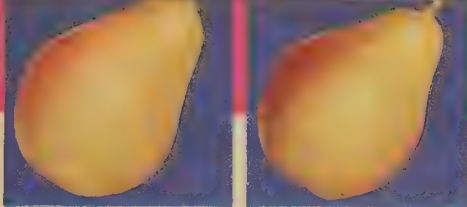

Fine heavy trees. Each 3.25; 2 for 5.98. Express not prepaid.

3 VARIETIES ON TREE—A3113 Prices: Each, 2.25; 2 for 3.98. Express not pdd.

BARTLETT

The Famous LINCOLN PEAR

DOUGLAS

SECKEL (Sugar Pear) Sweetest of All

COPE'S SEEDLESS PEAR
No Seeds—No Cores

A3504—Something new, different and better. Produces lots of large, sweet, tender juicy pears. Fine to eat and the best yet for canning because they have no seeds or cores. Starts bearing when 3 or 4 years old. Ripens about 2 weeks after Bartlett. Disease resistant and will grow almost anywhere.

A3518—Most dependable pear for midwest. Large fruit of good quality—like a Bartlett, but trees are more blight resistant and can withstand terrific heat and cold. Heavy yearly bearer. Becoming more popular each year both for home gardens and commercial orchards. Ripens in September.

A3506—This is a very good, blight resistant, hardy pear of good quality. Bears early and heavily—in fact, it usually starts to bear a year or two after planting. The fruit is a large golden yellow and may be allowed to stay on the tree until fully ripe. You don't have to bother wrapping them; they will keep well without it. You'll like this pear. Ripens in October.

3 FAMOUS PEARS BARGAIN

1 Bartlett 3-4 ft. 1 Lincoln 3-4 ft. 1 Seckel 3-4 ft.
A2801X—All 3 for 2.98, postpaid.

TREES

BARGAIN APPLE COLLECTION

1 Red Delicious 1 Yellow
1 Fireside Transparent
1 Jonathan 1 Anoka
A2672X—5 to 7-ft. Giant Size. All 5 for only 5.98, Exp. not prepaid: Free! 1 Concord Grape.

1st Choice of Winter Apples
RED DELICIOUS

A3016—The improved, early-coloring, big Red Delicious with crisp, fragrant flesh and fine flavor. Increases in size and color as tree grows older. Always brings a premium on the market. A must for both back yard garden and orchard.

Fall Apple
The Popular WEALTHY

A3100—A big, red striped, tender, juicy, high quality apple. Always bears heavily. Ripens in September but is good 2 weeks before ripe. A favorite for many years. Indispensable in cold regions and valuable everywhere. Good for back yard and home orchards as tree never gets very large. Stores well.

The Yellow Early Summer Apple
YELLOW TRANSPARENT

A3105—Excellent for both cooking and eating. Clear yellow, crisp and splendid flavor. Comes into bearing very early and is extremely hardy. One of the earliest ripening of all apples. Usually ready to pick by mid-July.

APPLE COLLECTION

All 2 to 3 Ft. Trees
The Inexpensive Size

1 Red Delicious
1 Yellow Transparent
1 Stayman Winesap
1 Jonathan

A2655X—All 4, 2.10, postpaid.
All Season Ripening—All Colors.

WHITNEY CRAB

A3101—Extra large fruit, for a crab apple, of excellent quality. This is the best of all crab apples for eating. Fine for preserves, pickling, jelly and apple butter. Good enough to eat right from the tree, too. Same prices as other apples.

Fall Apple ANOKA
Bears First Year

A3000—Often bears first year after planting—if not, the second for sure. Stands cold like an Eekimo. Thin-skinned; fine for home use. Tree never gets very big. Fine for yard planting.
Twin collection: **A2657X**—1 ea. of Anoka and Stayman Winesap, 1.29 (2 to 3 ft.), postpaid.

Fall Apple

RED DUCHESNE

Best for Cooking
Juicy Red Fruit

A3021—America's choice early fall apple. Fine cooking qualities. Makes delicious pies or sauce. Almost solid red in color, round in shape. A good hardy variety that seems to do well everywhere.

SNOW APPLE (Fameuse)

The Red and White-Fleshed
Early Winter Apple

A3088—Few apples more refreshing or beautiful than Snow. Flesh snowy-white, stained with crimson. One of the finest eating apples. Is of Canadian origin and hardy as a rock.

QUICK-BEARING APPLE
BARGAIN

1 Jonathan—(Red Winter)
1 Yellow Transparent—(Early Yellow)
1 Red Delicious—(Best eating Red)

A2656X—Big 4-6 ft. Trees, Exp. not ppa. 2.39
Free Gift—1 4-6 ft. Anoka Apple. Bears 1st year after planting.

Winter Apple
YELLOW DELICIOUS

A3017—The great big, golden, best-of-all winter apples. Wonderful flavor. Bears young; thrifty. Beautifully shaped and appearing; fine for commercial orchardists and just as good for the home garden. Good keeper. Late fall and winter.

Winter Apple
JONATHAN

A3047—Has a world-wide reputation for being among the very best of all apples for appearance and quality. Ours is the deep red variety, good for cooking or eating. Keeps well so you can have good apples all winter.

Winter Apple
FIRESIDE

A3027—This is a coming apple—the super Delicious from University of Minn. Delicious will not grow well in the north; Fireside will. It is: (1) Of better quality. (2) Hardy. (3) Tree large, vigorous and strongly branched. (4) Fruit large. (5) Keeps all winter. (6) Annual bearer.

Winter Apple
GRIMES GOLDEN
With the Spicy Flavor

A3032—The tasty, yellow winter apple. Beautiful even, rich golden color; crisp and tender. Large size. The finest yellow winter apple for keeping, flavor seems to improve the longer stored. Grows to perfection in Missouri, Indiana and Illinois.

Winter Apple
STAYMAN WINESAP

A3080—The largest Winesap, and the best. One of the best flavored and best keeping apples. With a little care keeps all winter and clear into April. Best from Iowa South as fruit should have long season for best maturing.

Winter Apple

Henry Field's NEW DELAWARE

Introduced and sold only by Henry Field's
A3018—Looks like Red Delicious, points and all, but has fine flavor of best Stayman's Winesap. Wonderful texture. Healthy, hardy grower. Large spreading tree.
2-3 ft., 1.00; 3 for 2.79; 5 for 4.49, ppa.
3-4 ft., 1.25; 3 for 3.49; 5 for 5.19, ppa.
4-6 ft., 1.50; 3 for 3.98; 5 for 5.98, Exp. not prepaid.

Beautiful, Useful TREES

Henry Field's offer you an unusually large variety of shade and ornamental trees. Here you can find exactly the tree or trees for your particular need—ornament or shade, for yard, feed lot or field, for windbreaks and soil erosion control.

IMPORTANT: Be sure to stake and tie any tree over 6 feet in height for the first year. Look at your ties occasionally to see that they are not cutting into the bark.

ABOUT SHIPPING TREES: Many trees are too tall to ship by Parcel Post so we have to ship them express. So please watch and, when necessary, be sure to tell us just where your nearest express station is.

Henry Field's Amazing HYBRID ELM

Has all the good points of both the American Elm and the Chinese Elm—none of the bad. Apparently immune to Dutch Elm disease. Combines the permanence and beauty of the American Elm, with the rapid growth of the Chinese Elm. If you want shade in a hurry, you'll get it with this Hybrid Elm.

And it is 100% hardy. Hot weather . . . cold weather—it's all the same to this new hybrid. And hot or dry, growth doesn't stop.

NOTICE: Hybrid Elms sometimes won't put out a leaf for a couple of months after planting. Treat them just like you would sulky children—take good care of them and be patient. All of a sudden they'll start growing like mad.

PLEASE NOTE: Your Hybrid Elm will come to you already trimmed for planting because it grows so fast the roots have trouble keeping up with the top. But when trimmed there is hardly a chance of losing it.

SUPPLY LIMITED. Our supply is very limited, and when ours are exhausted there are no trees available in the U.S. Last fall the demand was so great that this spring we have none of the big 8- to 10-foot and larger sizes. However, the smaller sizes are just as good. So order early. If we run out of the size you want, we'll try to send you another size, or book your order for fall.

FIELD'S HYBRID ELM PRICES—A4235

- 2 to 3-foot, 1.79 each, postpaid to your door
- 3 to 4-foot, 2.19 each, postpaid to your door.
- 4 to 5-foot, 2.79 each, express not prepaid.
- 5 to 6-foot, 3.29 each, express not prepaid.
- 6 to 8-foot, 3.89 each, express not prepaid.

Remarkable NEW MORaine LOCUST

This is a brand new, vigorous, fast-growing, seedless tree having much the same shape as the American Elm, but not susceptible to disease. It's so much better in so many ways we'll just list them for you:

1. Thornless.
2. Tolerant of smoke and soot. Thrives in city.
3. Hardy as common Honey Locust.
4. A very clean tree.
5. Hard wooded. No wind or snow damage.
6. Thanks to its vase shape and fine foliage, enough light comes through for good lawn growth, but shady enough to be cool and stop crab grass growth.
7. Grows well on practically any type of soil, heavy or light.
8. Will stand drought or flood.
9. Easily transplanted. Not a loss reported to us last year.
10. Long-lived. A common Honey Locust recently cut down at Dayton, Ohio, showed 327 annual rings.

Covered by Plant Patent No. 836: Price a standard No. A4235—5 to 6 ft. whip, 5.00 each; to 7 ft. branched, 8.00 each, express not prepaid.

NUT TREES For Beauty Shade and Food

When planting, cut back the branches heavily. Dig a very deep hole as the roots are generally long. Set just as deep as they stood in the nursery row. Firm the soil well and water thoroughly. Stake and tie for the first year. Water from time to time during the first summer unless you get soaking, heavy rains. Some nut trees are very slow in starting, so be patient with them.

HARDY ENGLISH WALNUT

A4125—Parent trees from cold northern New York state have borne fine English Walnuts for many years—large and paper shelled like the English Walnuts you buy. Trees large, round, and deep green. Ought to be exp. not ppd. (Extra hard away up into the Dakotas. 2-3 ft., 1.89 each; 3 for 5.49, postpaid.

REAL BARGAIN NUT TREE OFFER

- 1 Butternut, 2 to 3 ft.
- 1 Hardy Pecan, 2 to 3 ft.
- 1 Shagbark Hickory, 12 to 18 in.
- 1 Hazelnut, 12 to 24 in.

A2882X—All 4 for only 2.39, postpaid.

Grafted Thomas Black Walnut

A4124—The nuts are immense and thin shelled, cracking easily so that the meat comes out in halves. Flavor is delicious. Hardy anywhere that walnuts will grow. Bear young. Mature trees not only make fine shade, but produce 15 to 40 bu. worth \$1.00 or more per bu. Plant 40 to 50 ft. apart. 2 to 3', 1.99 each; 3 for 5.59, ppd. 3 to 4', 2.49 each; 3 for 7.19, ppd. (Extra hard away up into the Dakotas. long roots make bundle too big for parcel post.)

NUT TREE COLLECTION

A2880X 1 Grafted Thomas Black Walnut 2 to 3 ft.; 1 Butternut 3 to 4 ft.; 1 Shagbark Hickory 12 to 18 in.; 1 Hazelnut 12 to 24 in. All 4 for only 3.49, postpaid.

You don't have to wait 10 years for nuts when you plant Thomas Black Walnut. Here one is bearing in the nursery row; often bear first year after planting.

Shagbark Hickory

A4107—These are the grand old Shagbark nuts so beautifully flavored, so much a favorite with everybody. Plant some on your own place so you won't have to go hunting for them. Wood is very valuable. 59¢ each; 3 for 1.49; 25 for 11.25, ppd.

BUTTERNUT

A4100—Cousin of the Black Walnut, and one of the most popular and best eating nuts. Large, with rich buttery flavor. Makes a fine tree with wood esteemed for furniture and interior trim. 2 to 3', 59¢ each; 3 for 1.49, ppd. 3 to 4', 79¢ each; 3 for 2.25, exp. not ppd. 4 to 5', 98¢ each; 3 for 2.79, exp. not ppd.

CHINESE CHESTNUT

A4103—Imported from China to replace our American Chestnut trees which the blight took. A rapid grower, heavy producer, early bearer. Nuts large, sweet and richly flavored. Tree apt to be crooked when young but soon straightens out 18 to 24", 1.60 each; 3 for 4.19, ppd. 2 to 3', 1.75 each; 3 for 4.95, ppd.

HAZELNUT

A4106—Easy to crack. Bears heavily each year. Hardy in any climate. Really a shrub, making a fine ornamental about 6 feet high turning red and yellow in fall. 12 to 24", 59¢ each; 3 for 1.49, ppd.

beautiful ornamental and shade tree. Very vigorous grower. 2 to 3', 98¢ each; 3 for 2.79, postpaid.

HARDY PECAN

A4115—The native, mid-west, hardy type. Gives heavy yield of fine quality delicious nuts and also makes a beautiful ornamental and shade tree. Very vigorous grower. 2 to 3', 98¢ each; 3 for 2.79, postpaid.

GRAFTED PECANS

The secret of getting grafted Pecan trees to live is to dig them with a long root, which we do. Heavy bearers of valuable nuts—will pay your taxes. Plant 30 feet apart. Ordinarily will bear in about 5 years.

A4116—Giant Mahan. World's largest and most popular. True paper shell.

A4117—Stuart. Large, well-filled nuts. Bears regularly. Sited to all sections and soils. Some thriving here in Shoshonah.

A4118—Success. One of the best varieties for the midwest and the eastern half of the U. S. Beautifully shaped tree with large, oblong nuts, plump, sweet and medium thin shell. Trees bear

heavily and are self-fertile.

 8 to 10 ft. 3.19 5.98

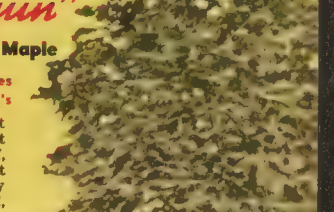

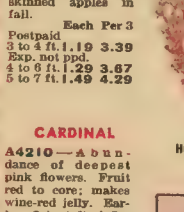

FLOWERING CRABS
 A4236—Beautiful ornamental tree. Brilliant rose-red flowers in May. Red fleshed and red skinned apples in fall.
Each Per 3
 3 to 4 ft. 1.19 3.39
 Exp. not ppd.
 4 to 6 ft. 1.29 3.67
 5 to 7 ft. 1.49 4.29

HOPA
 A4237—We have had so many calls for this that we thought we had better list it. It is just like the fall-blooming bush Hydrangea P.6, except that it has been grown into tree form. Makes a beautiful small tree for yard, lawn or parkway. It is just as hardy and tolerant of most all conditions as the bush form. 2.25 each; 2 for 4.29, express not prepaid.

NEW! "Harlequin"
Variegated Leaved Maple
 A4262—Harlequin, in our opinion, is the most beautiful shade tree in existence today. It is a Norway Maple with a variegated leaf, as shown in the picture of a young tree at the right. It will do well anywhere ordinary Norway maples will grow. It is round-headed, attaining the maximum height of about 30 feet. A wonderful street tree because it doesn't get too tall.

CARDINAL
 A4210—A abundance of deepest pink flowers. Fruit red to core; makes wine-red jelly. Early. 3 to 4 ft. 1.29 each; 3 for 3.67, ppd. 4 to 6 ft. 1.49 each; 3 for 4.29, exp. not ppd.

CRIMSON KING MAPLE
Reddest of All
 A4214—Here's a brand new maple originated in Europe. It's patented (Plant Pat. No. 735). Beautiful red all summer long. Much redder than Schwedler's. Has been under observation in America for ten years and has kept its brilliant coloring all through the season. A real novelty. If you want something for the neighbors to talk about, this is it. Not many to offer—order early. 3 to 5 foot size, 4.29 each, postpaid.

NORWAY MAPLE
The Perfect Street Tree
 A4265—Round headed tree that seldom grows more than 30 ft. tall. Hard wood that is not subject to wind and ice breakage. Dark green, thick foliage. Just the right sized shade tree for a small house. Prices all express not prepaid.
Each Per 2
 4 to 6 ft. 1.69 3.19
 6 to 8 ft. 2.19 4.19

DOLGO
 A4217—White blossoms; red crabs—fine eating, canning or jelly. 3 to 4 ft. 1.19 each; 3 for 3.39, ppd. 4 to 6 ft. 1.29 each; 3 for 3.67, express not ppd.

HOPA
 1 Hops, 1 Dolgo, 1 Cardinal
 A2902X—4 to 6 ft. trees, all 3 for 3.79, express not ppd.

CHINESE ELM

Genuine
Siberian Strain

Chinese Elms are planted by the millions throughout the midwest and western United States because of their rapid growth and beauty, and because they will withstand climatic and soil conditions few other trees will tolerate. They take extreme cold and extreme dryness equally well, and thrive on the poorest of soils, even alkali.

Many Uses

Chinese Elms make a good tree for quick shade, cannot be beat for shelterbelt and windbreak planting, and make as good a hedge, pruned low or high, as you've ever seen.

Field's Have Selected Strain

Henry Field's Chinese Elm seedlings and trees are well rooted and well branched—good enough so that over the years we have built up a demand that takes hundreds of thousands of them each year. Seed for our Chinese Elms is gathered in South Dakota, and originally came from Siberia, where only the hardiest of trees survive. They will stand temperatures of 30 degrees or more below zero, thrive on soil good and bad, weather wet or dry.

CHINESE ELM FOR SHADE

A4220—The 3 to 4-ft. size is shipped post paid. The other sizes are shipped express not prepaid:

	Each	Per 2	Per 4	Per 10
Heavy Rooted, 3 to 4 ft.59	.98	1.89	4.49
Heavy Rooted, 4 to 5 ft.89	1.69	2.98	6.60
Heavy Rooted, 5 to 6 ft.	1.25	2.29	4.39	9.98
Extra Heavy Rooted, 6 to 8 ft.	1.79	3.38	6.35	14.89

NOTE: These are all heavy, well rooted, transplanted trees, straight and full of life. The best size for planting for shade trees.

10 Big 4 to 5' Size for only 1.98

A2890X—Here is a real bargain in big sized Chinese Elms so you can get shade in a hurry. 10 big 4 to 5 size trees for only 1.98, express not prepaid.
FREE GIFT: 1 Bridal Wreath with each collection

50 18 to 24" Size for only 2.98

A2897X—A money-saving buy in medium-sized Chinese Elms—small enough to use for windbreaks and large enough to plant for shade trees. Planted in corner of feed lot or field, protect livestock from sun. All 50 for 2.98, postpaid.

WINDBREAK BARGAIN

200 9- to 12-in. Size for 3.98

A2891X—Just stick a spade in the ground, plant one at each side of the spade cut. Tramp them in well and, if both grow after they get 2 ft. high, either chop one out, which you can well afford to do at our price in this bargain, or transplant one to another location. 200 9- to 12 in. Chinese Elm seedlings for 3.98, postpaid.

RUSSIAN MULBERRY

Attracts Birds from Cherries

A4282—Rich purple fruits. A fast grower and a pretty shade tree. Plant one with cherries—the birds will leave cherries alone. Make a fine jam and jelly, and can well. Good eaten right off the tree too. Rugged and hardy. Makes fine stock shade. Plant 25 ft. apart. 3 to 5' size, 79c each; 2 for 1.39; 10 for 6.59. Exp. not ppd.

AMERICAN ELM

A4201—For majestic beauty you can't beat it. Hardy as a pioneer. Long-lived and drought-resistant. Plant 30 to 35 ft. apart. Best of all for shade. Perfect for windbreak or grove.

	Each	Per 2	Per 1

RUSSIAN OLIVE

The Silver Gray Tree

A4283—Silver-gray fine foliage, small olives. Can be used for a tall shrub. Likes sandy poor land, stands wind and drought. Ideal for dry prairies. The soil erosion and shelter belt people use them by the thousands. Plant 15 ft. apart.

	Per 3	Per 10	Per 25
2-3 ft. post-paid	.89	2.49	4.98
3-4 ft. post-paid	1.10	3.39	7.95

AMERICAN LINDEN

A4202—Most formal compact growing tree. Beautiful and hardy with round compact top, large heart-shaped leaves that give dense shade. Wonderfully fragrant flowers. Rapid grower. 4-5 ft., 1.49 each; 2 for 2.79. 5-6 ft., 1.79 each; 2 for 3.25. 6-8 ft., 2.35 each; 2 for 4.59. Express not prepaid.

CATALPA BUNGEI

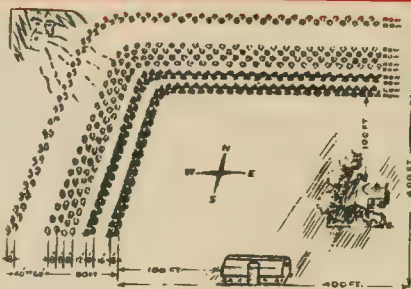

(Umbrella Tree)

A4212—Grows naturally into a compact, round headed ornamental tree. Fine in limited spaces, for parkings, and at each side of a garden seat. Plant 10 ft. apart. 5 to 6 ft. size, 2.49 each, 2 for 4.69. Express not prepaid.

Henry Field's WINDBREAKS

The drawing at right is typical protection from North-west winter winds. Trees for each row can be chosen according to taste or needs, but generally low trees on the outside growing tall to about 3/4 way back, and then low again, is most practical. Evergreens are best on the inside row. Here are suggestions:

Rows 1 and 2: Caragana, Russian Olive, Chinese Elm, Willow, or Mulberry. Plants 4 ft. apart in the row. These two rows are known as snowbreaks. Leave 40 to 60 ft. between them and the next.
Rows 3 and 4: Caragana, Green Ash, Chinese Elm, or American Elm. Plants 6 ft. apart in the row.
Rows 5 and 6: Cottonwood, American Elm, or Chinese Elm. Plants 6 ft. apart in the row.
Rows 7 and 8: Soft Maple, Mulberry, Cottonwood, or American Elm. Plants 6 ft. apart in the row.
Rows 9 and 10: Austrian Pine, Bull Pine, Spruce, Cedar, or Caragana and Russian Olive may be

used again. If evergreens, 8 to 10 ft. apart in the row. If tree, 6 ft. apart is the proper spacing.

EASY TO PLANT

First, with a walking plow, throw out a deep furrow along the row of trees to be planted. Second, put each tree against the straight edge of the furrow, then throw the loose dirt back in over the roots. Pack firmly with the feet. Then CUT ALL SEEDLINGS OR TREES BACK TO LESS THAN HALF THEIR HEIGHT (except Evergreens, which require no pruning). Cultivate plenty the first two summers.

Our Special CHINESE ELM WINDBREAK

A2892X—If you want quick, tight windbreak or hedge in a hurry, here's the bargain for you. Some 6 in. Chinese Elms grow to 1 ft. in 1 year, so these big 1 1/4 ft. trees will give you a windbreak quickly.

MAGNOLIA SOULANGEANA

A4259—This is the most popular hardy Magnolia; the one with the great, pink, cup-shaped flowers in the spring before the leaves come. Seldom gets over 12 feet tall—so makes a nice lawn tree. Plant in sheltered place. Folks south of Iowa should have no trouble but is doubtfully hardy from Iowa north. There are several beauties right here in Shenandoah. We don't believe you will find this tree priced so low in any other catalog. 18 to 24" root-wrapped plants, 2.49 each; 2 to 3' root-wrapped plants, 3.50 each, prepaid.

Cutleaf Weeping Birch

Remember, young white birches have dark brown bark. May not turn a good white for several years.

CUTLEAF WEEPING

A4211—White bark with graceful weeping branches. Leaves finely cut, beautiful shade of green. Beautiful in spot by itself. 4 to 5 ft. trees, 2.45 ea. Exp. not prepaid.

BIRCH TREES

ALASKAN PAPER BIRCH

A4200—Hardy everywhere. Grows near Arctic Circle. Trees flown to us from Alaska. Stands extremely cold winters and warm, rainless summers. 2 to 3 ft. size, 1.85 each; 2 for 3.49, postpaid.

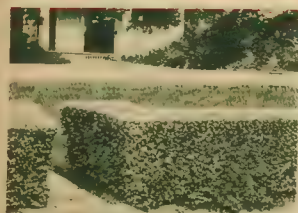

PAPER WHITE

A4302—An upright variety whose leaves turn a brilliant, golden yellow in the fall. 4 to 5 ft., 1.95 each; 2 for 3.69, express not prepaid.

PAPER WHITE

Henry Field's HARDY HEDGES

BARBERRY HEDGING

The perfect medium-growing super hardy, hedge, either untrimmed or trimmed, 2 1/2 ft. tall. Shiny red berries in winter.

The Beautiful Untrimmed Tall Hedge

RUSSIAN MULBERRY

Low-Priced Hedging

A1621—With this variety you can go a long way with hedging at a very low cost. Darker color than Privet. Makes a pretty, dark green, quick-growing hedge. Can also be trimmed any height desired. Set 2 ft. apart.

ROSA MULTIFLORA

Beauty That Protects

A1619—Rosa Multiflora, the hardy Japanese Rose, gained its popularity first as a living field fence and for shelter belts and erosion control. But now many people are discovering that it also makes a fine trimmed or untrimmed hedge, even on a small city lot as shown in picture at right.

It makes a dense, thorny barrier that stops traffic across your yard or garden. And just as it keeps livestock in a field, it keeps your pre-school youngsters from wandering out of the yard.

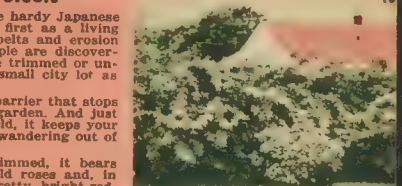

In the spring, even if trimmed, it bears clusters of small, white, wild roses and, in the fall, the berries turn a pretty, bright red. If you let it grow, it will get tall enough to make a good screen and you never have to paint it!

Ideal on terraces because it stops washing. Does not sucker or spread, so does not interfere with nearby plants or garden, and you'll find it easy to run a lawn mower under its arching branches.

Grows 2 ft. to 6 ft. high, depending upon how you trim it. We do not offer the small conservation grade as we believe the loss in planting is too great with that size plants. And our 18" to 24" Super Grade will make you a hedge in a hurry.

Rosa Multiflora Field Fencing

The picture at right tells its own story. The barbed wire fence was unnecessary when the Rosa Multiflora grew up, which takes only two years. It is tight enough to hold all livestock except an occasional breaching sow. Fine for birds and small game refuge, pasture divider, snow stop, fire break, erosion control. And you never have to repair it.

Rosa Multiflora Prices

9 to 15 in. size, 25 for 1.59; 50 for 2.75; 100 for 4.98 p.p.d. 1000 for 39.50, express not p.p.d.

12 to 18 in. size, 12 for 1.20; 25 for 1.98; 50 for 3.59; 100 for 5.85, postpaid, 1,000 for 63.50, express not p.p.d.

18 to 24 in. Super Grade, 12 for 1.59; 25 for 2.98; 50 for 5.25; 100 for 9.75, p.p.d. 1,000 for 93.80, express not p.p.d.

Henry Field's EVERGREENS

Here are beautiful Specimen Evergreens priced as cheap as shrubbery. Shipped at correct planting time in a special moss that keeps roots moist. Remember, these are not balled and burlapped Evergreens, nor do they need to be in these sizes.

Our illustrations are of mature plants. We ship young, vigorous plants that grow into fine specimens quickly. All our Evergreens have been transplanted 3 times in the field to make heavy, compact root system.

HOW TO PLANT. Keep in moss till hole is dug. **Do Not Expose Roots to Air.** If they look dry, soak in water a few minutes before planting. Keep 3 ft. from house foundation. Water well in dry spells, both summer and winter.

▲ PFITZER JUNIPER—The Dark Green Spreader

IN4—Low, spreading, dark green. Ideal in front of tall evergreens or shrubs, at corners of lot, cemetery planting or rock gardens. Spreads 3 to 4 ft., and sometimes more, across when full grown. Transplanted plants, 12-18", 1.90 each; 4.99 per 3, postpaid.

▲ PYRAMIDAL SILVER JUNIPER

IN3—Scopulorum. Tall, pyramidal growing tree. Set at each side of doorway for accent. Color: soft silvery green. Grows 10 to 12 ft. tall. Can be trimmed any height. Very hardy. 3 times transplanted trees. 12 to 18 in., 1.63 each; 3 for 4.18, postpaid.

▲ AMERICAN ARBORVITAE (not illustrated)

IN14—A hardy, adaptable upright Evergreen of rich, dark green color. Grows to a 15-foot pyramidal or can be kept to 4 to 5 feet by shearing. Occasionally foliage browns in early spring but greens up immediately after. 12 to 18", 1.36 each; 3 for 3.35, postpaid.

ENTRANCE EVERGREENS

2 PFITZER JUNIPERS, 10" to 12"

2 PYRAMIDAL SILVER JUNIPERS, 12" to 18"

IN61X—Add beauty, value, dignity to the entrance of your home by planting a Pfitzer and Silver Pyramidal on each side of your doorway. And you don't have to spend a lot of money to do it—buy this special collection.

ONLY

\$528

Postpaid

FREE! 1 Colorado Blue Spruce. Will grow into a perfect little Christmas tree. Packed in special moss packing.

COLORADO BLUE SPRUCE

The Beautiful Evergreen

IN1—The most beautiful of all evergreens. Silvery blue-green, tall growing, compact, and perfectly shaped. Slower growing but worth waiting for. Transplanted trees, 10 to 12 in., 1.73 each; 3 for 4.46, postpaid.

RED CEDAR

or Virginia Juniper

IN19—Beautiful silvery green pyramidal tree. Perfectly hardy and resistant to drought. As they are native to the midwest, they are adapted to our soils and temperatures. Bright blue berries. 12 to 18 in., 1.27 each; 3 for 3.10, postpaid.

Combat the invisible red spiders that turn your evergreens brown. Use H.F. Combination Fruit Spray or Red Spider Dust. See pages 53 and 56.

▲ SAVINS JUNIPER

IN12—A low growing, many branched evergreen, rather vase shaped, and eventually reaching a height of perhaps 4 feet. Hardy, and drought resistant. Excellent for mass planting in beds or along foundations. 12-18", 1.90 each; 3 for 4.49, postpaid.

BOLE ARBORVITAE

IN13—A grand low growing naturally globe shaped Arborvitae. Fine on each side of steps or a front entrance. With a very little shearing will remain perfectly round. 10-12", 1.51 each; 3 for 4.70, postpaid.

ANDORRA JUNIPER

IN15—A comparatively new variety originating from Maine. Very low and spreading. Beautiful silvery green in the summer, turning an unusual pinkish red throughout the winter. Drought resistant and hardy. 10-12", 1.54 each; 3 for 3.92, postpaid.

MUGHO PINE

Best Ball Evergreen

IN7—Perfect dwarf round ball. The new growth looks like tiny candles at the end of each branch. Never over 2 ft. high, and keeps a well-rounded shape without trimming. 10 to 12", 1.90 each; 3 for 4.99, postpaid.

NORWAY SPRUCE

Beautiful Lawn Tree

IN2—Tall growing, tapering quickly to a point. Has dark green needles. Very hardy. Grows 20 to 30 feet tall. A beautiful ornament in any yard and fine for a living Christmas tree. 12-18", 1.45 each; 3 for 3.63, postpaid.

BLACK HILLS SPRUCE

Hardest of the Hardy

IN6—Beautiful grey-green cone-shaped spruce. Native to the Black Hills and able to stand lots of dryness and cold. Grand plant for the lawn and good for cemetery planting where a big tree can be used. Makes a good living Christmas tree. 12-18", 1.73 each; 3 for 4.46, postpaid.

GROUND COVER and Bank Binder Offer

IN50X—5 Creeping Junipers which grow right on the ground. Make a permanent grave blanket. Ideal for holding terraces. 5 Spreaders, 10 to 12", 5.45, postpaid.

HEMLOCK—The Most Graceful

Likes Partial Shade

IN17—Will do well in partial shade and even make a good showing where it gets very little sun. You want nice evergreens in front of your house, but many won't do well there because so many houses have shady fronts. If you have that problem, plant Hemlocks. Foliage is a fine, feathery green, the most graceful of all evergreens, and can be let grow naturally or sheared. Will grow in full sun too. Likes plenty of moisture. 12-18", 1.73 each; 3 for 4.46, postpaid.

SHADY PLANTING COLLECTION

IN58X—Just the thing for that shady place where the sun only comes in about a half a day.
2 Upright-growing Hemlocks (12 to 18" high)
2 Spreading Yew (10 to 12" across)

5.45, postpaid

SPREADING YEW (Taxus Canadensis)

The Evergreen Aristocrat

IN10—One of the most beautiful of all evergreens. Grows like a Pfitzer Juniper, but has shiny, waxy, dark green foliage and in the fall bright red berries the size of small marbles. Does well in partial shade—even quite heavy shade. 10-12", 1.73 each; 3 for 4.46, postpaid.

FOUNDATION COLLECTION

2 Pfitzer Junipers, 12" to 18"
2 American Arborvitae, 12" to 18"

All 4 only
\$5.10
Postpaid

IN55X—A bargain collection of two spreaders and two upright growers that you can use around the front steps, the porch, in front of foundation—almost anywhere in the yard.

TRANSPLANTED

EVERGREEN SEEDLINGS

Just the thing for windbreaks, shelterbelts, erosion control and to grow to ornamental specimens.

You won't find bigger, stronger seedling windbreaks anywhere. Note our big, strong grade. We're proud of these this year. Ready to grow. Shipped direct from our grower in separate package.

How to Plant for Windbreak: Plant from three to five rows. Trees in row, ten to twelve feet apart—rows fifteen to sixteen feet apart. Water after planting if possible. Here are hardy varieties, in best sizes to plant.

ALL PRICES POSTPAID

IN34—Red Cedar (Juniper Virginiana). The perfect windbreak—native of mid-west. Absolutely hardy, grows any place. 10 to 12" size.

Per 10	Per 25	Per 100
2.37	5.28	18.60

IN25—Jack Pine. Fast growing. Very hardy and one of the easiest evergreens to transplant. Broad and bushy growing. 10 to 12" size.

Per 10	Per 25	Per 100
2.18	4.83	18.90

IN27—Ponderosa Pine (Very heavy). Excellent for windbreak ornamental or timber planting. 10 to 12" size.

Per 10	Per 25	Per 100
2.92	6.64	23.95

IN28—Scotch Pine (Very heavy). Shorter needles than other pines and of a light green color. One of the best windbreak evergreens. 10 to 12" size.

Per 10	Per 25	Per 100
2.85	5.76	20.40

IN22—Black Hills Spruce. Native of South Dakota so stands lots of cold and dry weather. Cone-shaped, dark green. 6 to 10" size.

Per 10	Per 25	Per 100
2.45	5.73	18.95

IN37—Norway Spruce. Tall growing, very hardy. One of the best for windbreak and shelterbelts. Dark green pointed needles. 10 to 12" size.

Per 10	Per 25	Per 100
2.92	6.64	23.95

IN24—Colorado Blue Spruce. Bright silvery blue. Very compact growing. Showiest of all evergreens. 10 to 12" size.

Per 10	Per 25	Per 100
3.45	7.98	29.60

IN31—American Arborvitae. Fast growing, hardy soft foliage evergreen. Hardier than the Chinese Arborvitae in the north, darker green. 10 to 12" size.

Per 10	Per 25	Per 100
2.37	5.28	18.60

IN25—Austrian Pine. Deep rich green color. Fast growing but makes a very compact, wind-resisting tree. Our favorite pine. 10 to 12" size.

3.45	7.98	29.60

MAY DAY PEONIES

These are the famous old varieties of the true officinals (May day) peonies with the sweet potato-like roots. They are extra early and have very brilliant colors. May Day Peonies seldom are offered in this country because they multiply so slowly, but we have managed to import them from Holland again. They are absolutely hardy; live for years.

B1541—RED MAY DAY PEONY
B1542—PINK MAY DAY PEONY (officials rosea fl. pl.)
B1543—WHITE MAY DAY PEONY (officials albo fl. pl.)

PRICES: 98c each, 3 for 2.79 postpaid.

May Day Peony Collection
B3162X—1 each of Red, Pink and White for 2.69, ppd.

CHOICE VARIETIES

All of the Peonies described below are choice varieties. All are big 3- to 5-eye Divisions, labeled. Huge blooms, fragrant, free-blooming. Peonies are short again this year so order early.

PRICES: 79c each; 3 for 2.19, postpaid, except where noted otherwise.

B1529—Karl Rosenfeld. Brilliant, velvety crimson. Com-

One Sarah Bernhardt blossom could hide several tea cups easily.

Double Red

compact grower, excellent bloomer. Late.

B1538—Mme. de Verneville. Bomb type purest white with carmine flecks. Very early; fragrant.

B1514—Frances Ortegat. Big, dark crimson. Mid-season.

B1534—Mary Brand. A fine peony from Faribault, Minn. Makes mass of vivid crimson. Striking size. Lasts as cut flower. 98c each; 3 for 2.79, postpaid.

Royal Peony Collection

1 Mary Brand
1 Rose Fragrans
1 Festiva Maxima
B3159X—Three of the very best Peonies—all for only 2.29, postpaid.

Sarah Bernhardt

Giant-sized and Gorgeous

B1549—This is one of the really large flowered peonies that should be in every garden. It is a mid-season variety, deep pink with petals edged a trifle lighter, giving it a delightful silvery appearance. Also has a fine fragrance. 1.00 each; 3 for 2.69, postpaid.

Big Beautiful PEONIES

PEONIES: 3 for 1.00

B3150X—A grand assortment. All big, double, choice varieties—every color. The extras from the choice varieties we grow too many of. Unlabeled.

B1546—Rose Fragrans. Immense bomb type, deep pink. Very fragrant, very large, and very late. Flowers after most of the others are gone.

B1513—Festiva Maxima. Early snow white with flecks of red on center petals. Immense size.

B1518—Grover Cleveland. Dark crimson. Fine flower, upright stems, medium height. Extra good for garden effects. 98c each; 3 for 2.79, ppd.

B1511—Eduile Superba. Crown type. Very heavy. Called Decoration Day peony by many. Bright clear pink with silvery reflects. Rose fragrance.

B1512—Felix Crousse. Rose type, late mid-season, a dazzling ruby red. Very bright.

B1548—Richard Carvel. Very large globular blossom of brilliant crimson. A tall grower, free bloomer and very fragrant. Very early.

B1504—Chester Gowdy. Shell pink with cream colored center. Perfectly formed, crown-shaped flower. Very fragrant.

B1547—Rachel. We like this midseason, bright, garnet-shaded ruby-red.

Popular Peony Collection

B3157X—1 each Karl Rosenfeld (red), Festiva Maxima (white), and Rose Fragrans (pink)—all 3 for 1.89, postpaid.

MEMORIAL DAY COLLECTION

B3151X—This is our most popular collection.

1 Festiva Maxima—white
1 Felix Crousse—red
1 Eduile Superba—pink
1 Grover Cleveland—crimson.

ALL 4 FOR ONLY 2.69, postpaid.

B1509—Enchanteresse. Creamy white with scarlet splashes. Very late. Long, strong stems and free bloomer. Flowers very large.

B1550—Solange. Rated one of the best whites. Huge globes of rich, creamy white suffused very lightly with buff and pink. 1.25 each; 3 for 3.49, ppd.

B1540—Miss Eckhard. Imported from Holland. Very large early to midseason clear pink. 1.25 each; 3 for 3.49, postpaid.

TUBEROUS ROOTED BEGONIAS "The Glamour Flower"

Easy to Grow Indoors or Out

(Camellia Type). Large flowering gorgeous colored camellia type. Easy to grow. Most beautiful for window boxes or bedding. Thrives in those deeply shaded problem spots where nothing else will grow. Many people consider these the most beautiful

of all flowers. Full "How to Grow" directions with each order.
BQ413—Pink. BQ414—Red. BQ415—Yellow. Price: 40c each.

COLLECTION—BQ591X—1 each of all three colors above for 1.00.

BQ416 (Hanging Basket Type). A tuberous begonia with "weeping" growing habits. Fine for rock garden or hanging baskets. Likes shade. Lovely shades of rose. 45c each; 3 for 1.16, postpaid.

Contrast

A1114—Well named; has a striking contrast of colors. One of the most beautiful of tea roses, as you can see from the picture.

FIELD'S GIANT

A Gorgeous Gigantic Rose
A1127—Perfect in its beauty despite the huge size. Very vigorous—and hardy. Our own introduction and offered only by Henry Field's. Price: 1.25; 2 for 2.39, postpaid.

K. A. VICTORIA

A1147—For years the most popular white. It is clear, glistening white. Beautifully shaped buds and flowers, and a profuse bloomer.

THE RADIANCE ROSES

Beautiful, Reliable Old Favorites

A1176—**RED RADIANCE**. The hardy, foolproof, brilliant, red radiance will give satisfaction everywhere. For many years Red Radiance has been the favorite of everyone who would rather have a fine, full blooming, always good rose than the latest new one.
A1175—**PINK RADIANCE**. Another Radiance equally resistant to heat, drought and disease. Blooms all summer long.
A1177—**WHITE RADIANCE**. This completes the Radiance trio. Beautiful long pointed buds. Flowers purest white. Hardy, strong growing. Foolproof. Price: Same as other hybrid teas. See list to right.

NIGHT

A1161—One of the blackest reds of all dark roses. Almost black buds open into a brilliant blackish crimson shaded crimson. Henry liked this one and you will too.

EDITH NELLIE PERKINS

A1123—A fragrant multicolored rose of well deserved popularity. Its coloring is hard to picture and describe. More beautiful than pictured here.

CYNTHIA

A1115—This is one of the really fine deep pink roses. Beautifully shaped, very fragrant, with color that is clear and bright.

KONIGIN LOUISE

A1149—One of the finest of the whites. Very large and double. Beautifully shaped with dark green, leathery foliage.

EDITOR McFARLAND

A1121—We believe this is the best of the pink roses. A glowing pink, with very large pointed buds, and a delightful fragrance.

TALISMAN

A1100—A gorgeous blend of gold, scarlet, yellow and orange. Has a beautiful and distinctive shape. Looks like a florist's rose.

ETOLE deHOLLAND

A1124—A popular, brilliant rose. You will find it in almost every rose garden of any size in the country because it always gives good results.

Henry Field's 1952 ROSE BARGAIN

Standard 2-Year Medium Grade

A2255X—A collection of 1 Editor McFarland, 1 Etoile de Holland, 1 Talisman, 1 K. A. Victoria, 1 Golden Charm—good roses in a good color assortment.

ALL 5 ROSES for only 3.89, postpaid

Field's Famous ROYAL ROSE COLLECTION

This is a collection of the world's most beautiful roses—all two-year old field-grown plants guaranteed to bloom the first year from June until frost:

1 Henrietta, yellow 1 K. A. Victoria, white
1 Poinsettia, scarlet 1 Editor McFarland, pink
1 Field's Giant, crimson 1 Talisman, multi-color

Available in two price ranges, both good plants and both good buys:

A2253X—All six in Select two-year, No. 1 plants for 5.49, postpaid.

A2245X—All six in Standard two-year, medium plants for 4.98, postpaid.

(See description of grades on next page)

COUNTESS RANDAL

A1113—A gorgeous rose that we consider an improved Hoover. Has long pointed buds on long stems, yet plant grows bushy. Was expensive until its patent expired.

POINSETTIA

A1170—This is probably the most brilliantly colored rose, with the possible exception of the "Henry Field." Long stems; beautiful for cutting.

HENRIETTA

A1138—A clear, golden yellow with long-pointed buds on stiff, upright stems. Our favorite yellow, and for years our largest selling yellow.

PRESIDENT HOOVER

A1171—One of the best. Beautifully shaped buds with flowers very large and very fragrant. Long stems and good foliage. And a strong grower.

RAINBOW ROSE COLLECTION

Two-Year No. 1 Grade

A2243X—Some of the brightest, showiest varieties: 1 Henrietta, 1 Poinsettia, 1 President Hoover, and 1 Contrast. All 4 for only 3.98, postpaid.

HINRICH GAEDE

A1137—Has large, nasturtium-red flowers with orange-red centers. Foliage is a glossy bronze. And it has a raspberry fragrance!

CRIMSON KING

A1116—A magnificent rose with flowers a rich, velvety crimson, fine texture, and delightfully fragrant. The canes are strong and sturdy.

Henry Field's Everblooming HYBRID TEA ROSES

All Two-Year-Old FIELD-GROWN Plants
All Bloom this Year from JUNE until Frost

Here's Why You Get Extra Value When You Buy Henry Field Roses

When our Roses come in from the field, we separate them into three grades:

- 1. Select Two-year No. 1
- 2. Standard Two-year Medium
- 3. Light (not for sale)

Now most nurseries make 4 grades, the other one being Jumbo XX, the largest ones, a premium grade, and they sell them

for a premium price—1.35 or more apiece. We put the Jumbo XX sizes right in with the "Select Two-year No. 1" grade. Our regular Select Two-year No. 1 grade compares absolutely with the Horticultural Standard of The American Association of Nurserymen, of which we are a member. But by throwing this premium grade in at no extra cost to you, you get a bargain, over and above standard grading requirements. That's the good old Henry Field policy of giving extra value.

POSTPAID PRICES OF HYBRID TEA ROSES

These are the postpaid prices of all Hybrid Tea Roses on these two pages (44 and 45) excepting Field's Giant, and "Garden-Fresh" Grade:

	Each	Per 3	Per 6	Per 12
Select 2-year No. 1.....	1.15	3.36	6.48	11.98
Standard 2-year Medium.....	.98	2.80	5.39	10.29

Please specify on your rose order whether you want "Select" or "Standard." An explanation of these grades is given at the left.

Our Standard Two-year Medium grade is a little smaller; otherwise just as good. Grown at the same time in the same field. It is a big value. Bloom first year from June to frost and soon get just as big as any grade.

The "Light" grade we don't sell. We put those back in the field to grow up.

Read About Henry Field's New, Exclusive, "Garden-Fresh" Potted Roses Below.

WHY ALL HENRY FIELD ROSES ARE CLEAN

There are no germs or fungus spores on any rose you get from Henry Field's! Here's why: we have special ultra-violet lights in our big modern storage rooms that kill instantly any germs or fungus spores that might be on the plants. And Henry Field's cleaner roses cost you nothing extra.

Now You Can Have a New Rose Garden in Full Leaf and Bloom the Day Your Plants Arrive!

Henry Field's "GARDEN-FRESH" Potted Roses Reach You Green, Growing, and Usually in Bud

Why waste a month waiting for dormant plants to start growing and coming into bloom? Now you can get Henry Field's pot-grown roses in full leaf and bud, even a bloom here and there, as shown in these actual pictures taken here at the Seedhouse last spring.

Henry Field's "Garden-Fresh" potted roses are two-year-old Select Grade rose plants grown in a pot filled with a pre-fertilized growing media, not dirt.

You can plant them any time after danger of frost is over, from late spring way through the summer. If you can't get them planted right away, they keep right on growing in their own pot. They are easier to plant and practically eliminate any loss in planting.

You get a longer blooming season because they start giving you blooms practically from the day you plant them right up to freezing time in the fall.

These plants will be shipped to you by parcel post (we pay the postage right to your door) after danger of late frost in your area is passed. Therefore, you probably will receive

1 Your Henry Field "Garden-Fresh" rose comes to you well packed in a heavy cardboard container that covers pot, stems, leaves and all. When you unwrap the package, you take out a live plant, heavy rooted, green leafed, and usually in bud or blooming, like the above.

2 This is the same "Garden-Fresh" rose with the tarred paper container, or pot, removed, and ready to plant. No pruning necessary. Don't be afraid the ball will break and fall away; it won't. Just dunk the ball in a pail of water and start digging a hole.

them as a separate package.

These potted roses are the result of several years of painstaking research on our part. We have grown them and planted them under all sorts of conditions and they give perfect satisfaction. Last year, thousands of our customers bought them and were happy with them.

Henry Field's "Garden-Fresh"

potted roses are available this year in these varieties:

- Poinsettia—A1215
- Countess Vandal—A1201
- Golden Charm—A1209
- Editor McFarland—A1206
- Crimson King—A1203
- Field's Giant—A1207
- K. A. Victoria—A1213
- Talisman—A1217
- Henrietta—A1211
- Cynthia—A1204
- Contrast—A1200

THE PRICE is 1.98 each, 3 for 5.59, postpaid. (Cheaper than dormant plants of many patented roses!) An origination of Henry Field's. Sold only by Henry Field's.

NOTICE: We introduced "Garden-Fresh" roses last spring and immediately were swamped with orders. We couldn't fill all the orders, and had to refund on the last ones. So order early. We have more this year than last, but still maybe not enough. Incidentally, we have received hundreds of letters from those who received them last year, saying how happy they were with this improved way of buying roses.

postpaid
No. A2258X

3 Here the same rose is ready to go in the ground. Dig the hole a little larger than the ball, preferably in good, rich ground. Set the ball in the hole so that the top of the ball is at ground level. Be sure the tarred paper pot has been removed before planting.

4 Pull the dirt in around it; tamp it down firmly to keep air out. Then water it good. Fertilizer already is in the ball. You then have a big, live growing rose bush. Chances are you can pick roses the same day!

Field's Bargain Dozen

One Each of These 12 Roses:

- Henrietta
- Field's Giant
- Poinsettia
- Red Radiance
- Hinrich Gade
- Golden Charm
- Crimson King
- Pink Radiance

A2241X—12 Standard Two-year Medium plants for 9.89 with a free gift of 3 Brilliant Flame Lilacs.

Brownell Bushes 5 Feet High

This picture of Brownell roses five feet high was taken last summer right here in Shenandoah in our garden. The bushes were left untrimmed and unprotected for four winters. They came through almost 100%, with hundreds of flowers, each one about as large as those on the lower trimmed bushes of common hybrid teas.

A1000—ANNE VANDERBILT. A showy orange and bronze suffused with yellow.

A1016—QUEEN OF THE LAKES. Deep crimson with beautifully shaped buds on long stems. Truly a queen; one of the new series of Brownell red roses.

A1013—LILY PONS. White with pure lemon yellow center. Profuse bloomer and one of the most beautiful of tea roses.

A1025—The HENRY FIELD. Also pictured on front cover. Henry Field always said, "My favorite color in roses? I'll take any color just so long as it is red." So this rose is red, and it's big, and it's double, and it's fragrant, and it's the very best of Brownell's new strain of red, super-hardy tea roses. What more could you possibly want? 2.00 each, postpaid.

A1018—SHADES OF AUTUMN. A brilliant rose combining shades of rich scarlet, golden yellow and deep rose.

A1021—V for VICTORY. One of the best yellows in existence; holds a color in hot summer as well as or better than any hybrid tea rose. Fragrant; heavy bloomer.

A1002—CURLY PINK. Matchless in size, form and vigor. Each petal rolls back slightly, creating a strikingly beautiful bloom.

A1020—TIP TOES. One of the newest and best. Long, pointed salmon buds and beautifully shaped fragrant flowers.

A1001—BREAK O'DAY. Large, double flowers are orange to apricot. Very vigorous grower and free blooming, as are all Brownell Roses.

POSTPAID PRICES for Brownell Hybrid Teas (excepting the Henry Field)

This year Brownell's are among the very few patented roses you can buy for less than 1.75 each. They are the only patented roses giving you a choice of grades to suit your pocket book and purpose. All are 2-year-old, field-grown plants:

Each Per 3	Per 12
2-year Jumbo Grade....	2.00 5.85 22.79
Large select 2-year No. 1	1.75 5.10 19.80
A mighty good 2-year commercial grade....	1.50 4.35 16.85

There are no cull plants or No. 2's in the above grades; you wouldn't want them.

The Ten Best PATENTED

SUTTER'S GOLD

A1246 (Plant Pat. #885). All-America Award Winner. Brilliant golden buds shaded in copper orange and vermillion. Very fragrant. 2.25 each; 3 for 5.95, ppd.

CHARLOTTE ARMSTRONG
A1228 (Plant Pat. #455). Another All-America Award Winner. Perfectly formed buds open to 4" flowers of deep, burning pink. Fragrant. Rugged grower. 2.00 each; 3 for 5.25, ppd.

Eternal Youth -
A1231 (Plant Pat. #332). Clearest of all pinks and we think it is one of the most beautifully shaped of all roses. Fragrant; long stemmed; vigorous. 4 to 5" flowers. 1.75 each; 3 for 4.65, ppd.

VALIANT

A1248 (Plant Pat. #914). A new scarlet-crimson we know you will like. Has 5" to 6" blooms held proud above plant. And fragrant. 1.75 each; 3 for 4.65, ppd.

ECLIPSE
A1230 (Plant Pat. #172). Has world's most beautiful bud—sleek and tapering with long, green stipules. 1.75 each; 3 for 4.65, postpaid.

MIRANDY

A1236 (Plant Pat. #632). All-America Award Winner. Does not fade in August sun. A hardy grower particularly well adapted to midwest conditions. 1.75 each; 3 for 4.65, ppd.

PEACE

A1242 (Plant Pat. #591). All-America Award Winner. First ever to win National Gold Medal of American Rose Society. Blooms often 6" across. 2.50 each; 3 for 6.50, ppd.

NEW YORKER

A1240 (Plant Pat. #833). One of the most intensely scarlet roses we have ever seen, and holds its color until the last petal has fallen. Its originators consider it one of the best roses they have ever introduced. 2.00 each; 3 for 5.25, ppd.

Lowell Thomas

A1237 — (Plant Pat. #596). All-America Award Winner, and one of the best of the yellow roses. Opens from beautiful buds to large 4" flower with high, cupped centers. 2.00 each; 3 for 5.25, ppd.

For Profuse Bloom All Season

5 NON-PATENTED FLORIBUNDAS

Prices: 1.15 each; 3 for 3.35; 6 for 6.49; 12 for 11.95, postpaid.
A1273 — PERE D'OR. Dainty, very double, intensely fragrant. Foliage rich, soft green. Low grower—15".
A1272 — THE "SWEET HEART ROSE." (Cecil Brunner). Small, exquisitely

formed buds and flowers.
A1270 — RED LAFAYETTE. Flaming red. Stands dryness better than any other rose.
A127 — DAGMAR SPATH. Clusters of very large white, semi-double blossoms.
A1244 — FLORADORA. Another new color in roses—a clear, brilliant orange.

3 FLORIBUNDAS for only \$5.29

A2336X—Here is a money-saving rose buy. 1 each of the 5 non-patented Floribundas described above for only 5.29, ppd.

6 PATENTED FLORIBUNDAS

A1275—WORLD'S FAIR. Plant Pat. #362. Clusters of large, velvety, double, black-red blooms. 1.50 each; 3 for 3.89, postpaid.
A1265—FASHION. Plant Pat. #789. Probably the finest of the Floribundas. 3 1/2" blooms. Large, bushy plant in constant bloom June until frost. 2.00 each; 3 for 5.25, postpaid.
A1271—RED PINOCCHIO. Plant Pat. #812. Clusters of deep velvety crimson on long stems. 1.50 each; 3 for 3.89, ppd.
A1269—LAVENDER PINOCCHIO. Plant Pat. #947. Actually lavender; allows many new arrangements. 2.00 each; 3 for 5.25, postpaid.
A1266—GOLDILOCKS. Plant Pat. #672. Buds like miniature tea roses open to large golden blooms. 1.50 each; 3 for 3.89, ppd.
A1268—GERANIUM RED. Plant Pat. #811. Clusters of intense Geranium Red from spring until frost. Rich, spicy fragrance. 1.50 each; 3 for 3.89, postpaid.

Beautiful BROWNELL Hybrid Tea Roses Are SUPER HARDY

Stand 25° Below Zero

Without Killing Out

We are happy to be able to offer you a full line of these magnificent Hybrid Tea Roses. They have been bred by the famous Brownell Rose Research Gardens especially for great hardiness, resistance to black spot, and at the same time they are unsurpassed for beauty. We recommend Brownell Roses as the ideal roses for the United States from boundary to boundary, but particularly for the rugged climatic conditions of the midwest.

And if you are one of those people who like beautiful roses with lots of bloom, without much care or work, Brownell is the rose for you!

Special Collection of Brownell Roses

1 Curly Pink
1 V for Victory
1 Queen of the Lakes
1 Tip Top
A2208X—All 2-year commercial grade field-grown roses. The 4 for \$6.44, postpaid.

Complete Brownell Garden for 13.98

One each of the 10 Brownell Roses pictured at left (does not include Nearly Wild at right)
A2209X—All 10 roses in good commercial grade for 13.98, ppd.
A2201X—Each of all 10 in Giant Jumbo Grade for 13.98, ppd.

"NEARLY WILD"

Brownell's Perfect Shrub Rose
A1015 (Patent Applied for). This is a Brownell Hybrid Floribunda Rose with large clusters of single flowers of apple-blossom pink and white, each the size of a silver dollar. Makes a dense, broad 3' shrub solid-full of bright blooms all summer. Ideal along the drive or walks, around foundation, or in cemetery. This is one of the few varieties our rose grower chose to plant around his own home. One of the best and most useful roses we offer. Same price as Brownell Hybrid Teas.

The Tiny Rose

Miniature "Fairy Roses"

Bushes only about 10" high, flowers no larger than a thimble, but perfectly formed double roses complete with long, pointed buds, beautifully shaped flowers, and a real and very noticeable tea rose fragrance. Not a house plant. Makes a neat edging for the taller, larger roses. Good in window boxes. And ideal to plant in pockets of soil in the rock garden. Dainty, tough, hardy and free blooming.

B2174—NEW RED ROSE ROULETTE. (Tom Thumb, Patent #169.) Ruby-red. 89c each; 3 for 2.55; 12 for 9.59, ppd.

B2175—WHITE ROSE ROULETTE. (Pixie, Patent #408.) Double white. 89c each; 3 for 2.55; 12 for 9.59, ppd.

B2173—PINK ROSE ROULETTE. The original Roulette rose. Soft pink. 79c each; 3 for 2.25; 12 for 8.39, ppd.

B2275X—ROULETTE TWIN COLLECTION

1 each of new Red Roulette and Pink Roulette for 1.69, postpaid.

BIG LITTLE COLLECTION

B3276X—1 each of Tom Thumb, Pixie and Pink Roulette Fairy Roses—for 2.39, postpaid.

SHRUB ROSES

These are ideal for hedges, borders, and around the foundation. They are tough, hardy, and bloom profusely even in poor soil.

POSTPAID PRICES (except "Nearly Wild") 1.15 each; 3 for 3.36; 6 for 6.48; 12 for 11.98.

A1285—HARRISON'S YELLOW. A grand old rose; best yellow shrub rose of all. Semi-double, sweet scented. Lives for years.

A1290—PINK GLORY. Huge, double, deep pink, fragrant flowers. Tall growing; hardy; a fine shrub with a mass of bloom in June. This is an old rose we don't know the name of, but we do know it is one of the famous Dr. Hansen's hybrids from South Dakota and we hope in time to trace down its name.

A1283—F. J. GROOTENDORST. Illustrated at right. Blooms from June until frost. Will grow to a large 6-ft. shrub or can be kept trimmed smaller. Flowers are bright red.

A1282—PINK GROOTENDORST. Just like above excepting that the double, carnation-like flowers are clear, bright pink.

RED GROOTENDORST

SHRUB ROSE AGAIN

A2341X—1 Pink Grootendorst, 1 F. J. Grootendorst (Red) and 1 Harrison's Yellow—all 3 for only 3.25, postpaid.

Everblooming POLYANTHUS

The hardy, bushy Baby Roses

The bushes of these roses are absolutely covered with hundreds of blooms all summer long 'til freezing weather. Even harder than the ordinary Hybrid Teas. Wonderful for masses of color, in beds, for borders and for hedges. The best plant for a cemetery. Set a group of 3 at each corner of the lot. Dwarf compact growing.

Prices: 1.15 each; 3 for 3.36; 6 for 6.48; 12 for 11.98, postpaid.

GOLDEN SALMON

A1255—A vivid salmon colored, heavy blooming variety. Has great masses of bloom all summer and continues until ground is almost frozen.

IDEAL

A1256—The deep black-red baby rambler. Blooms so profusely it hides the leaves. Fine for filling stations, beds and cemeteries.

CATHERINE ZIEMET

A1253—Always covered with clusters of dainty little double white roses and fine cut foliage.

POLYANTHUS ROSE TELO

2 Golden Salmon—Vivid salmon color.
1 Catherine Ziemet—Pure white.
1 Ideal—Black-red.
A2321X—All 3 postpaid, 3.25

Hardy Hybrid PERPETUAL ROSES

These are tall-growing hardy roses with large double blossoms, and an attractive wild rose fragrance. Their popularity is returning, because they require so little care and live for years and years. Prices: 1.15 each; 3 for 3.36; 6 for 6.48; 12 for 11.98, ppd.

F. K. DRUSCHKI

A1081—The perfect white rose, loaded in June and again in September. As beautiful as any tea rose.

AMERICAN BEAUTY

A1076—Rose of romance. Large fragrant deep pink. No other rose will ever be better known or liked.

GENERAL JACK

A1082—(JACQUEMINOT). Deep glowing red. An old favorite still popular. Each branch just weighted down with flowers.

PAUL NEYRON

A1091—Largest of all rose blossoms; sometimes as large as bread, and butter plates. Dark pink.

HYBRID TEA ROSES

When a hybridizer develops a new and different rose variety, he is allowed to patent it. This protects the hybridizer, who often has spent years developing one new rose. At the same time, it assures you of getting the genuine thing in newer roses.

While some of the patented roses are undoubtedly the world's best and most beautiful of all roses, yet, in our opinion, not all patented roses are better (sometimes not as good) than some of the older, non-patented varieties. But the ones we show here are, in our opinion, not only some of the best of the Patented Hybrid Teas, but some of the best of all roses, whether patented or non-patented, particularly for mid-west growing conditions.

Collection of Patented Roses

A2319X—1 Eclipse, 1 Eternal Youth, 1 Peace, 1 New Yorker, and 1 Valiant. Really a bargain. All 5 for only 8.49, postpaid.

4 All-America Award Winners

A2310X—Each one of these has won the All-America Award—the top honor for roses. 1 Peace, 1 Charlotte Armstrong, 1 Lowell Thomas, 1 Mirandy. All 4 for only 7.19, postpaid.

Bushy FLORIBUNDAS

You can get more bloom per plant from Floribundas than with any other rose. They are a bushy, many-flowered rose with clusters of brilliantly colored blooms from June until frost. They are the easiest and most satisfactory bedding roses, and are ideal for planting in groups or in solid beds where a continuous show of bloom is desired.

They bear regardless of summer heat, and are no more susceptible to insects and diseases than any other type of roses. Pruned lightly, they make strong bushes equal in size to the hybrid teas. In the south, some make shrubs of medium height.

Use them anywhere a show of color is needed, among shrubs, evergreens, along paths, hedges, walks, or any other place you want color all summer. Try them also as a base planting for climbing roses along a fence, lattice or wall.

Non-Patented FLORIBUNDAS COLLECTION

A2329X—1 each of Eulien, Sweetheart Rose and Red Lafayette—all 3 for only 3.25, postpaid.
FREE GIFT: 1 Polyanthus Rose "Ideal."

PATENTED FLORIBUNDAS COLLECTION

A2337X—1 each of Fashion, Geranium Red, Goldlocks and World's Fair—all 4 for only 5.49, ppd.

PROSPERITY

CLIMBING AMERICAN BEAUTY

PAUL'S SCARLET

NEW DAWN

PATENTED CLIMBER BLAZE

A1029—The flowers of this new climber are the same brilliant red as Paul's Scarlet. However, it is everblooming—blooms both in the spring and the fall. 1.25 each, postpaid.

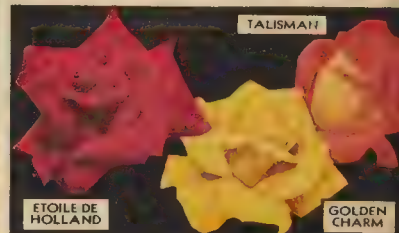

PRIMROSE

A1045—This is the best yellow climbing rose. Very hardy—grows almost anywhere there is sunlight. Has clean, shiny leaves, and immense double primrose yellow flowers.

Rainbow of Climbing Roses

1 Paul's Scarlet 1 Primrose
1 Prosperity 1 American Beauty
A2212X—All 4 for only \$3.98, ppd.

TALISMAN

ETOILE DE HOLLAND

GOLDEN CHARM

Purple Clematis JACEMANI

A1712—Immense, velvety purple flowers in late spring cover this vine entirely. The most sure blooming of all the vines and blooms are extremely large! Grows rapidly, and blooms right away. Hardy everywhere, and when once established, lives for years. Select vines, 89c each; 2 for 1.69, postpaid.

Finest Hybrid WHITE CLEMATIS (Lanuginosa Candida)

A1714—Great pure white blossoms like large water lilies. One of the finest of the large flowered Clematis. Plant with the purple or red varieties for a beautiful effect. If your soil is inclined to be at all acid, or sour, work in a little lime before planting any Clematis. 89c each; 2 for 1.69, postpaid.

CRIMSON KING

A1710—Rare, new, large flowering variety of Clematis—the same type as Jack-o'-lantern except rich red flowers. Flowers often 4 to 6 inches across. Blooms over a long period and extremely beautiful. Select vines, 89c each; 2 for 1.69, postpaid.

LADY BETTY BALFOUR

A1715—A wonderful new hybrid Clematis bearing bloom on the current season's growth. Velvety, purple-blue flowers up to 4" across. 98c each; 2 for 1.86, ppd.

COUNTESS de ROUCHAUD

A1716—Beautiful new hybrid Clematis in satiny rose to rich pink. Profuse bloomer from July to Sept. Reaches 8 to 10 feet height. Delightfully different and appealing. 98c each; 2 for 1.86, ppd.

NELLIE MOSER

A1717—Truly an unusual and striking variety of hybrid Clematis. Red bars accentuate the pale mauve petals. Profuse bloomer. Vigorous grower—gets 10 to 12 feet. 98c each; 2 for 1.86, ppd.

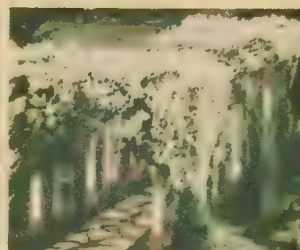

BITTERSWEET VINE

A1703—The true orange-coated red berry Bittersweet which is so beautiful in the fall. Foliage is a very attractive glossy green. Plant two of them together for pollination if possible. Select vines, 49c each; 2 for 89c, postpaid.

PURPLE WISTERIA

A1751—Sure to bloom because grown from blooming plants. Get more beautiful each year and last for generations. Fragrant flowers in May-June come in big purple clusters with long, narrow, attractive foliage. Far superior in color to washed-out lavender of common Wisteria. 69c each; 2 for 1.29, ppd.

SILVER LACE VINE

A1761—Grows very fast—25 to 30 ft. first summer. Will cover a building, wall or barn in 2 years. Foliage clean; flowers lacy white and cover the vine from ground to tips in early fall. Does best in warm, sunny exposure and soil that is well-drained, sandy, fairly rich. 69c each; 2 for 1.29; 5 for 2.98, postpaid.

"Pink Flame" HONEYSUCKLE

A1731—This new Honeysuckle is a mass of color from early summer to killing frost with its long flowers (tube-shaped), that simply cover the plant. Delightfully fragrant. Foliage almost evergreen. Extremely hardy—will grow anywhere. Extra Select vines, 89c each; 2 for 1.69, postpaid.

Henry's Hardy "Golden Sun"

A1729—Henry found this vine growing in the Ozarks. It's as hardy here as all the other Honeysuckles. Most fragrant of all. Foliage big, round, glossy green way into winter. Fast growing. A mass of golden trumpet flowers in June and July. 98c each; 2 for 1.86, ppd.

A2407X—1 Silver Lace, 1 Purple Wisteria and 2 Bittersweet Vines—all 4 only 1.88, ppd.

CLIMBING ROSES

Choose Varieties to Fit Your Color Scheme

When most houses were white, a red climber was standard. Red still is most popular, but with houses now in all colors of the rainbow, give consideration to the whites, yellows and pinks. Even for lawn or garden planting, the different colors may be helpful.

PROSPERITY

A1046—This one has great clusters of pure white blooms on a strong, free-growing plant. (Especially good against red brick wall.) Blooms the first year you plant it. That is unusual in a climbing rose.

Climbing

AMERICAN BEAUTY

A1026—The individual blooms are exactly like its hothouse namesake. The flowers are a big, double rose pink on long, strong stems. Fragrant and hardy.

We offer here the varieties of climbing roses that we think are among the very best available. All of our plants are two-year, field-grown stock. Plant 6 feet apart.

PRICES ON CLIMBING ROSES (except Blaze and New Dawn): 1.15 each; 3 for 3.35; 6 for 6.48; 12 for 11.98, postpaid.

PAUL'S SCARLET

A1043—This is the most brilliantly colored of all climbing roses, and one of the tallest growing. It has large, full, showy flowers so thick on the branches you can hardly see the foliage. It is the great climbing rose; more of them are planted than all other varieties combined.

Climbing Rose Bargain

1 Paul's Scarlet 1 American Beauty 1 Primrose

A2211X—All 3 heavy, 2-year old, field grown plants for only 2.98, postpaid.

NEW DAWN

A1039—The first everblooming Climbing Rose. No other climber produces flowers so constantly from spring until frost.

The blooms are a large, double, apple-blossom pink borne on long stems. Fine for cutting. Also very fragrant.

1.25 each; 3 for 3.49, postpaid.

RED and WHITE COMBINATION

A2210X—1 Paul's Scarlet and 1 pure white Prosperity, fine 2-year plants, both for only 1.98, postpaid. Beautiful combination on a trellis or arbor.

All Henry Field Roses are Hardy, Healthy, Beautiful

There is such a wide variation in the quality of roses, and in the sizes and grades, and in the prices different nurseries ask for their roses, that it is confusing.

So we want to tell you this: First, all Henry Field's roses are two-year-old, field-grown plants. No other kind is shipped. Second, they are true to name, healthy, heavy, and hardy. They are absolutely free of disease and fungus—we are one of the very few nurseries using germicidal lamps in our rose storage room.

There are no better roses than Henry Field's. You can pay more for roses, but they will not be any better. Also, we advise you to be careful about buying exceptionally cheap roses. They usually are low-grade cuttings, in very small sizes or frozen roses. When you get them you will be disappointed, and a lot of them probably will never live and grow for you.

ROSE DUST. An insecticide made especially for roses. Keeps them clean and blooming. See page 26 for price, details.

ROSETONE. A hormone and vitamin mixture that causes more luxuriant growth, earlier blooms. See page 57 for price, details.

Henry Field's Rose GUARANTEE

1. All roses big, husky, giant two-year-old plants.
2. Field-grown, clean, healthy, free of disease.
3. All hybrid teas will bloom the first year.
4. State and government inspected.
5. Carefully handled, packed and shipped to arrive in perfect planting condition.
6. 100% guarantee of satisfaction in every way.

Climbing Hybrid TEA ROSES

POSTPAID PRICES: 1.25 each; 3 for 3.49, postpaid.

Remember, Climbing Roses cannot support themselves and need to be tied up to the trellis, fence, or other support.

When planting around a house, keep the plants out 3 feet from the foundation. Usually takes 3 years to get a climber well established. They need more water than bush roses. Trim out some of the oldest canes each year just after blooming season. Climbing tea roses probably will not be hardy north of Missouri; the other climbers are.

A1055—Climbing Ettoile de Hollande. Brilliant, deep red.

A1057—Climbing Golden Charm. Blooms all summer long.

A1070—Climbing Talsman. Same beautiful tones as the bush Talsman.

Climbing Hybrid TEA ROSES

Now you can have the big double blooms of the hybrid teas covering your walls and fences. Blooms are the same as the bush form. Hardy in the south and on the Pacific coast; otherwise not hardy north of Missouri.

Climbing Hybrid Tea Rose Bargain

A2222X—1 each of Climbing Talsman, Climbing Ettoile de Hollande, and Climbing Golden Charm—all 3 for only 3.29, postpaid.

Henry Field's Hardy VINES

GOLDEN FLOWERED CLEMATIS

A1711—(Tangutica.) Did you ever see a Clematis vine with golden bells hanging all over it? Well, here it is. Hardy as a rock and will grow anywhere. Beautiful cutleaf, dark green foliage. Like the fragrant fall Clematis, it dies down each year, then grows 15 to 20 ft. next year. 89c each; 2 for 1.69; 5 for 3.98, ppd.

Beautiful Clematis Collection

A2406X—Will give you an abundance of useful plants and beautiful blooms.
1 Hybrid Crimson King
1 Hybrid Purple Jackman
1 Golden Flowered
1 Hybrid White Clematis
All four for 3.19, postpaid.

When planted around a house, large flowered Clematis all ways do best on the east or northeast side. In very cold climates, much well with straw or leaves in late fall. Will stand 40 below zero if roots are properly protected with mulch.

CLEMATIS PANICULATA

A1713—This is the fragrant, fall blooming Clematis vine. Has a mass of dainty white blooms all through the late summer and fall. Plant one by the kitchen door where it will scent up the entire house. Will grow well in considerable shade. 89c each; 2 for 1.69, postpaid.

Special CLEMATIS BARGAIN

1 Rich Purple—large flowering, 1 Mammoth Red large flowering.
A2402X—78 value for 1.59, postpaid.

TRUMPET VINE

A1767—Great big striking orange-scarlet flowers make this a prized vine. Super hardy and a rank heavy grower. One of the old favorites that will be popular forever because of its gorgeous honey filled blooms. Improved strain: Select vines, 59c each; 2 for 1.08; 5 for 2.49, ppd.

Honeysuckle Vine Collection

A2400X—The healthiest, hardiest vines that grow. 1 Hall's, 1 Scarlet Trumpet, and 1 of the scarce Golden Sun. All for 1.89, ppd.

SCARLET TRUMPET

A1732—Valued for both its foliage and flowers. The plant is covered practically all summer with showy orange-red trumpet shaped flowers. The semi-evergreen foliage is a glossy shiny green. Grows anywhere, even in a somewhat shaded location. Select vines, 59c each; 2 for 1.08; 5 for 2.49, ppd.

Evergreen Bittersweet

A1722—(Euonymus Vegetus.) The broad leaves stay green all winter. Has clusters of bright red berries in orange husks, much like common bittersweet. Not particular as to soil. Leaves may burn some in winter in a southern exposure. Rather slow growing but long-lived and hardy. Notice in picture how it makes a ground cover, a climber (on tree trunk), or a screen (on buildings). Two-year-old 9" to 12" plants, 1.29 each, ppd.

IVIES

Ivies are the most useful of vines because they are entirely hardy practically everywhere and do well in almost any soil. They grow higher, stronger and broader than any other vines—Boston Ivy will cover a 5-story building solid if you want them to.

ENGLEMANN'S IVY

A1742—Also clings to rough walls and is extra hardy. Never injured by coldest winter. Grows fast and soon covers an entire wall. Select vines, 59c each; 2 for 1.08; 5 for 2.49, ppd.

AMERICAN IVY

A1739—A fast grower, with dense green foliage that turns to vivid colors in the fall. If you want shade in a hurry plant this vine. Select vines, 49c each; 2 for 89c, postpaid.

BOSTON IVY

A1741—Clings tightly to brick or stone without support. Small leaves very close together, of dark green, makes this a real vine for your walls. Select vines, 69c each; 2 for 1.29, ppd.

A2401X—Special wall covering Boston Ivy Bargain. Plant 8 to 10 feet apart. 5 for 2.89; 10 for 5.49, postpaid.

BALTIC IVY

A1740—Looks like English Ivy but harder and has smaller, more cut leaf. Does best in shade. A good indoor pot plant. A wonderful, evergreen vine on north or west side. An ideal ground cover and bank binder (as illustrated) because it stays green the year around and grows in shaded areas where grasses won't. Spreads and covers rapidly, but does not become a pest. Plant 2 ft. apart each way for ground cover. We ship you pot-grown plants, which start growing for you as soon as you plant them. 59c each; 2 for 1.12; 10 for 5.29; 50 for 22.50; 100 for 38.95, postpaid.

A good example of Baltic Ivy used as a bank binder and ground cover on shaded terrace.

Hardy HONEYSUCKLE VINES

These climbing forms of the Honeysuckle make an ideal porch vine and are very useful to drape a fence or post. They are not only good space covers but have beautiful flowers.

SPECIAL: Hall's Honeysuckle makes a very good, almost evergreen ground cover—ideal on terraces where grass is difficult to mow or washes out.

HALL'S HONEYSUCKLE

A1730—Masses of fragrant white and yellow flowers from late spring throughout summer. Will bloom some on the north side of a house. Will grow anywhere and cover anything. Especially useful as a bank binder because will grow where grass won't. Select vines, 49c each; 2 for 89c; 10 for 3.79; 50 for 17.50, ppd.

ALTHEA—"Rose of Sharon"

DOUBLE ALTHEA

(Rose of Sharon)

This is the lovely Rose of Sharon. Grows 6 to 8 ft. tall and is upright and neat growing—ideal for lawn plantings. Loaded with blossoms in Aug. and Sept. when flowers are needed. Flowers look like big roses when open. Red—A1401. Pink—A1400. White—A1402. Extra Select plants, 49c each; 3 for 1.29; 5 for 1.98, postpaid.

4 ALTHEA for only

\$1.79

Post-paid

No. A2351X

1 Red, 1 White, 1 Pink and 1 Blue as described at right.

A1404—ALTHEA COELESTIS. A beautiful china blue single Althea. Hardier than most varieties. Outstandingly showy. 69c ea.; 3 for 1.89, postpaid.

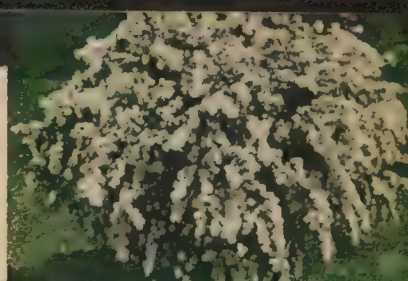

... LILAC SPIREA

A1491—SPIREA BIL-LARDI. Here's the spirea with big, pink lilac-shaped blossoms borne on the ends of each branch. Blooms all through the summer. A shrub that you should know and plant. Grows 3 to 4 ft. Extra Select: 49c each; 3 for 1.29; 5 for 1.98, postpaid.

ANTHONY WATERER Dwarf Red Spirea

A1490—Grows 2 ft. America's most popular low growing shrub. Covered all summer with big bright blossoms, compact growing with many branches. An ideal shrub to fill in front of the taller growers or in front of house foundation. Extra Select: 49c each; 3 for 1.29; 5 for 1.98, postpaid.

SPIREA VAN HOUTTEI

BLUE MIST SPIREA

DOUBLE ALTHEA

ALTHEA COELESTIS

A beautiful shrub that grows anywhere, in sun or shade.

GIANT WHITE SNOWBALL

A1489—One of the most popular and beautiful decorative shrubs. An old favorite. Will grow to 8 or 9 feet tall. Can be kept down by pruning. Blooms late in spring with large clusters of white flowers that look like giant snowballs. Foliage is a deep, rich green in color. It is a rapid grower and hardy everywhere, in sun or shade. Extra Select plants, 89c each; 3 for 2.49; 5 for 3.98, postpaid.

GOLDEN BELL FORSYTHIA

Blooms Before Leaves Appear

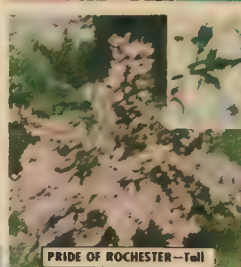

A1428—Bright golden bell-like flowers line the arching branches even before leaves appear. Spring is here when Golden Bells bloom. Foliage rich dark green all summer, turning to plum color and bronze in the fall. Very hardy. Grows 4 to 6 ft. Extra Select plants, 59c each; 3 for 1.59; 5 for 2.49, postpaid.

WEIGELA ROSEA

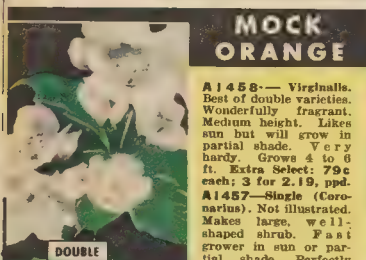

WEIGELA CARDINAL RED

PRIDE OF ROCHESTER—Tall

GRACILIS—Short

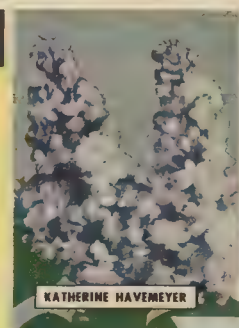

MOCK ORANGE

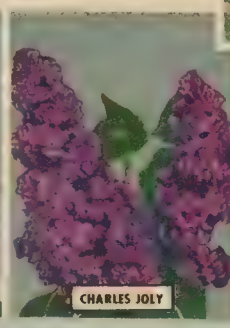

A1458—Virginals. Best of double varieties. Wonderfully fragrant. Medium height. Likes sun but will grow in partial shade. Very hardy. Grows 4 to 6 ft. Extra Select: 79c each; 3 for 2.19, ppd. A1457—Single (Coronatus). Not illustrated. Makes large, well-shaped shrub. Fast grower in sun or partial shade. Perfectly hardy. Grows 6 to 8 ft. Extra Select: 49c each; 3 for 1.29; 5 for 1.98, ppd.

A1461—ATLAS. The new French Mock Orange. Largest flowered Mock Orange we have ever seen. A magnificent variety imported from France a few years ago and will certainly replace the common Mock Orange as it becomes known. Easy to grow. Hardy, and covered in June with flowers. 1.25 each; 3 for 3.49, ppd.

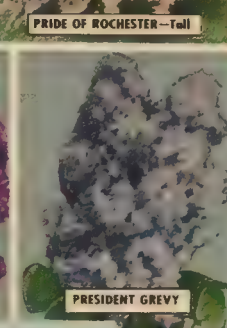

Picture at left shows how the nearly 3-inch flowers of Atlas compare with ordinary Mock Orange blossoms. Atlas flowers and flower clusters are no larger they look like handkerchiefs.

 - 1 Spirea Van Houttei
- All 5 only 2.39, postpaid.

... BLUE MIST SPIREA—New

A1492—Caryopteris. A new, striking, low-growing shrub from Minnesota that blooms all summer and fall. Never gets over 3 1/2 to 4 ft. tall. Silvery green foliage and spirea-like flowers. One of the very few low flowered shrubs. Hardy. Often dies to the ground in winter in Iowa and north but that won't do any harm. Price: 89c each; 3 for 1.89; 5 for 2.98, postpaid.

WEIGELA

WEIGELA PAIR

A2383X—2 Weigela Rosa and 1 Weigela Cardinal Red. ALL for 1.89, postpaid.

WEIGELA-ROSEA

A1516—The big, round, dense, dark green shrub with hundreds of pink blooms in June. Foliage rich and heavy. For breath-taking beauty this shrub can't be surpassed. 4 to 6 ft. Extra Select Plants: 59c each; 3 for 1.59; 5 for 2.49, postpaid.

Weigela Cardinal Red or Vanicek

A1515—This is the first really hardy Red Weigela—lives through 20 below zero where the older variety Eva Rathke will kill out entirely. Bright rosy-red bell-like flowers cover the plant from June till frost. The new plants you set out this spring will bloom this summer. Makes beautifully shaped shrub up to 6 ft. tall. 98c each 3 for 2.79; 5 for 4.29, postpaid.

Two Beautiful DEUTZIAs

PRIDE OF

ROCHESTER—Tall

A1423—Grows 6 to 8 ft. Pure white, bell-shaped flowers all up and down the upright stems in June. Extra hardy with attractive, pointed, light green leaves. Extra Select plants, 49c each; 3 for 1.29; 5 for 1.98, ppd.

GRACILIS—

SHORT

A1422—2 to 3 ft. Low growing type of this hardy shrub. You can hardly see the pretty foliage in June for the lovely white blooms. Plant with Spirea Anthony Waterer for low groups. Extra Select plants, 59c each; 3 for 1.59; 5 for 2.49, ppd.

SPIREA

DOUBLE BRIDAL WREATH

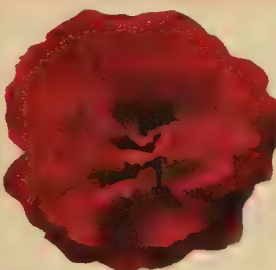

Flowers Like Tiny Double Roses

A1493—Prunifolia. Just like the popular Bridal Wreath only its blooms are DOUBLE. Blooms profusely; cover the bush. More delicate in appearance than regular Bridal Wreath. Extra Select: 69c each; 3 for 1.89; 5 for 2.98, postpaid.

DAINTY THUNBERGI—First to Bloom

A1494—Thunbergi. Grows 3 to 4 ft. First spirea to bloom. Covered with dainty white flowers long before the leaves appear. Graceful in shape. Foliage so fine, looks like a giant fern. Extra Select: 59c each; 3 for 1.59; 5 for 2.49, postpaid.

Carnation-Flowered Dwarf POMEGRANATE

One of the prettiest, cleanest shrubs we have ever seen. Never gets more than 3 to 4 ft. high. Has fresh, bronzy, green leaves and big, double flowers like brilliant scarlet carnations set here and there along the stems. Bears small, showy pomegranates in fall and winter. In colder sections, may lose its leaves briefly in mid-winter. Will stand frost down to 15 degrees above zero. Loves full sun and good soil but does well under dry desert conditions. A1476—89c each; 3 for 2.59, ppd.

Home Maker's BARGAIN

A mighty cheap way to get color and beauty around your home in a hurry. Some bloom the first year. All bloom the second year.

SHRUBS

TO BEAUTIFY YOUR HOME

(See Page 52 also)

How to Plant Shrubs

No need to say much. Every nursery owner we send out has complete instructions easy to follow. Mostly, low growers are set 2 ft. apart, medium growers 3 ft. apart, and tall growers 4 ft. apart. Set out 2 ft. from foundation. Spread roots out well, tamp earth back solidly, and prune to make bushy growth.

All Shrubs Inspected Twice

All our shrubs are carefully inspected, once when dug and again before they are shipped on your order. Absolute quality is assured. All bad shrubs are destroyed. The good ones are carefully wrapped and packed in special moss so you receive them in the best possible condition.

Leading Varieties Only

There are many shrubs but we have tried to offer only the finest, most popular of all. All are selected because they give color and beauty and fill a useful need around the homes of you folks who buy them. Easy to grow. No special care unless we tell you so in the description.

BARGAIN BEAUTIFUL SHRUB COLLECTION

- 1 Forsythia (Golden Bell)
- 1 Butterfly Bush, royal purple (Ile de France)
- 1 Blue Mist Spirea
- 1 Scarlet Flowering Quince

- 1 Spirea Van Houttei
- 1 Weigela Rosa

You can't pick out six better shrubs. A2350X—All six for 2.98, ppd.

HONEYSUCKLE BUSH

... in Red, Pink and White

Grows 6 to 8 ft. Our choice of the taller growing shrubs. First to leaf out in the spring. Early bell-shaped blossoms, then plants are covered with glossy red berries. Can be used for a hedge, screen, or ornamental shrub. Will grow in sun or partial shade. Red—A1444; Pink—A1443; White—A1445. Extra Select plants: Only 59c each; 3 for 1.59; 5 for 2.49, postpaid.

HYBRID FRENCH LILACS

Larger Blooms, No Suckers, Bloom 1st Year After Planting

These glorious Lilacs give you all colors—reds, wines, whites, blues and purples. And, best of all, they often start blooming in THE FIRST YEAR AFTER PLANTING. Extremely fragrant, larger blooms, early blooming habit, and NO SUCKERS. Extra Select plants (any variety except Katherine Havemeyer), 98c each; 3 for 2.79; 5 for 4.29, postpaid.

A1451—KATHERINE HAVEMEYER. Finest lilac in existence. Huge double lilac-pink flowers, beautifully fragrant. 1.10 each; 3 for 3.15, postpaid.

A1450—CHARLES JOLY. Rich, deep, double wine red.

SCARLET FLOWERING QUINCE

Earliest to Bloom

A1487—Earliest shrub to bloom. Blooms even before leaves appear and covers the branches with fiery crimson flowers. Foliage glossy green. Grows about 3 to 5 ft. tall. Extra Select: 69c each; 3 for 1.59; 5 for 2.49, postpaid.

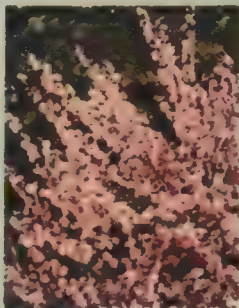

SNOWBERRY

Bloom in Spring,
Berries in Fall

A1496—Grows 2 to 4 ft. Has dainty rose colored blooms in the early spring followed in the late summer and fall by clusters of big white waxy berries. The berries are extremely showy, producing an effect like no other shrub. Fine in the sun but does well in partial shade. Extra Select plants, 49c each; 3 for 1.29; 5 for 1.98, postpaid.

HIGH BUSH CRANBERRY

A1442—Viburnum Opulus (European Cranberry). A big, beautiful but rugged shrub that will do well in sun or partial shade. Grows 6 to 8 ft. high. Has dark green leaves shaped like maple leaves, and the bright scarlet berries remain all winter as they are too sour for the birds. A very ornamental and satisfactory shrub. 69c each; 3 for 1.59, ppd.

ROSE TREE OF CHINA

Covered with Blooms Before Leaves

A1481—(Prunus Triloba). Grows 5 to 7 ft. Covered with double, rose-pink blooms in spring before leaves appear. Upright and hardy. One of the loveliest spring shrubs. 12 to 18", 79c each; 3 for 2.19, postpaid; 18 to 24", 98c each; 3 for 2.79, postpaid.

DOUBLE PINK ALMOND

The Early Spring Beauty

A1403—This lovely shrub grows 3 to 5 ft. tall. The upright branches are loaded in earliest spring with double rose-pink blooms. Rest of season forms lovely green bush ideal for foundation. Extra Select plants: 69c each; 3 for 1.59, ppd.

CHINESE BEAUTY BUSH

Loveliest of All the Flowering Shrubs

A1419—This graceful, vigorous, arching, branched plant was introduced from China. The leaves are small and pointed and branches are loaded with bell-shaped pink flowers in June. Grows 5 to 6 ft. Hardy everywhere. Extra Select Plants: 79c each; 3 for 2.19, postpaid.

BUTTERFLY BUSHES

RED GLORY

A1413—The brand new reddest of red. A strikingly brilliant plant that we hope every customer will try. Flowers all summer. 75c each; 3 for 2.10; 12 for 7.50, postpaid.

SNOWBANK

A1414—Pure, soft, snowy-white. Beautiful alone or in combination with the bright colored varieties. 75c each; 3 for 2.10; 12 for 7.50, postpaid.

ILE DE FRANCE

A1410—Loaded with blooms all summer long. Color is a deep reddish purple. Extra Select plants: 59c each; 3 for 1.59; 5 for 2.49, postpaid.

MIDNIGHT BLUE

A1409—Long spikes of deepest blue flowers with bright yellow eyes. Makes a striking contrast when planted with Red Glory and Snowbank. 69c each; 3 for 1.59, postpaid.

PINK CHARMING

A1412—Now a really charming true pink. Extra Select plants: 59c each; 3 for 1.59; 4 for 1.98, postpaid.

A2352X—Butterfly Bush Collection. One each of RED GLORY, ILE DE FRANCE, PINK CHARMING, MIDNIGHT BLUE for 2.39, postpaid.

FERN LEAF SUMAC

A1488—Tall and very spreading. The different shrub with beautiful fern-like foliage. Deep green color turns to gold and red in the fall. Red fruits follow. Grows best in sun or partial shade. 8 to 9 ft. tall. Extra Select plants: 69c each; 3 for 1.59, postpaid.

LOW GROWERS

GOLDEN ELDER

The Golden Foliaged Shrub

A1434—This is the shrub with bright golden foliage all summer. It makes a striking contrast with your other shrubs. Full and dense growing. Colors best in full sun. Grows fast, and makes a show early. Grows 4 to 6 ft. tall. Extra Select plants: 69c each; 3 for 1.59, postpaid.

FEATHERY TAMARIX

A1506—This is the shrub with fine, feathery foliage of light, silvery green with delicate pink and lavender flowers. Worth having for the foliage but also has worlds of blooms. Grows 6 to 9 ft. Extra Select plants: 69c each; 3 for 1.59, ppd.

A1506—New Tamarix "Summer Glow." A new and improved Tamarix with tiny, blue-green foliage that mantles it like a silvery veil. Spikes of flimy, glowing pink flowers continue to appear on tips of branches all summer. 1.49 each, ppd.

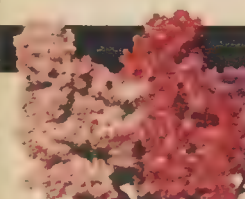

PURPLE LEAF BUSH

Ideal for Color Contrast

A1476—PURPLE LEAF FLOWERING PLUM (Prunus Newport). Grows 6 to 8 feet tall. Rich, purple foliage all summer besides showy white blossoms in the early spring. Upright growing. Makes a fine foliage contrast. Hardy in all sections.

CRAPE MYRTLE

Undoubtedly the most beautiful shrub in the world. Grows tall and covered with giant clusters of bloom all summer. Perfectly hardy to central Missouri. Farther north tops die down, but if well protected will live over and bloom on new wood. All Crape Myrtle are slow to leaf out the spring they

are planted. Be patient with them.

A1417—Red A1418—Pink

A1416—Purple

Extra Select plants: 59c each;

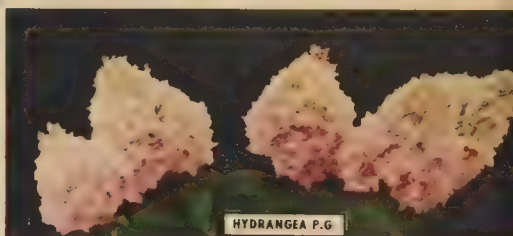

3 for 1.59; 5 for 2.49, postpaid.

A2354X—Crape Myrtle Collection—1 each Red, Pink and Purple. 1.45, postpaid.

William Toovey Crape Myrtle . . .

A1420—This new variety is the very finest of all Crape Myrtle. It always remains neat and compact in growth. The large flower clusters are solid masses of beautiful deep watermelon red blossoms.

Even the young, small plants are covered with bloom. This new variety still is very scarce so you won't find it in many catalogs. We're glad to have it for you. 89c each; 3 for 2.49, postpaid.

HYDRANGEA P.G.

3 Beautiful HYDRANGEAS

HYDRANGEA P. G.—The Fall Bloomer

A1440—(Panicleata Grandiflora)—Grows 3 to 5 ft. The shrub we all admire blooming in August and September. Blooms are huge cones often 10 in. long coming out pure white, then turning pink and then bronze. Fine for winter bouquets. Ideal for north side of house. Extra Select plants: 79c each; 3 for 2.19, postpaid.

HYDRANGEA A. G.

The Spring Blooming Hydrangea

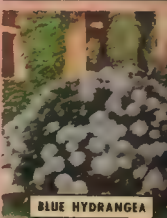

A1439—(Hills of Snow)—Grows 3 to 5 ft. Flowers are somewhat like snowballs only much larger. Blooms in June and July with loads of flowers. Leaves big, round and dark green. An ideal plant for north or east foundation planting. Extra Select plants: 79c each; 3 for 2.19, postpaid.

BLUE HYDRANGEA

A1441—Very hardy. Blooms on new wood as well as old. Flowers large and on acid soil a beautiful blue. In ordinary soil flowers are pink. To make flowers blue, acidify soil by adding aluminum sulphate (see page 56). To make pink (if soil is already acid), add agricultural lime. Prefers partial shade. Needs some protection in north. Vigorous pot-grown plants. 89c each; 3 for 2.49, ppd.

NOW ONE SPRAY that you can use MOST ALL SEASON ON YOUR FRUIT TREES

**No Need to Buy and Fuss with a Lot of Different Chemicals—
Just Use HENRY FIELD'S COMBINATION FRUIT SPRAY
for Fruits, Berries and Ornamentals.**

HENRY FIELD'S new Combination Fruit Spray is a combination Insecticide and Fungicide, already mixed, and made especially for Fruit Trees and Berries. All you do is mix it in water and spray. You can use this one spray most all season.

EASY TO USE

The trouble with spraying fruit trees in the past has been that you had to buy a lot of different chemicals, and get a spray chart, and then try to figure out what to mix for each different fruit and different time of spraying. If you were a horticulturist or a chemist you might be able to do a good job. But it was a nuisance at best, and you were apt to get confused and disgusted and figure it wasn't worth the effort. And we can't say we really blamed you.

But with Henry Field's Combination Fruit spray, you buy just the one package and use it for different fruits at various times during the season. No guessing, no fussing around.

Another trouble with mixing your own spray is that usually you had some Lead Arsenate in it, or Bordeaux Mixture, and if you got too

much in the mixture, or sprayed too much on your trees, or used an apple tree mix on a peach tree for instance, you burned the foliage and ended up doing more harm than good.

Now, with Henry Field's Combination Fruit Spray, when used as directed, you will not harm fruit trees and it imparts no undesirable flavor to the fruit.

For Spraying Ornamentals too

You can use Henry Field's Combination Fruit Spray with benefit on most of your ornamental shrubs. It helps check red spiders on Evergreens and certain other insects and fungi that attack ornamental shrubs.

NO NEED to buy a lot of different chemicals and try to figure how to mix them. Just use Henry Field's Combination Fruit Spray on fruits and berries.

Answer: No. When used according to the simple directions, it will not burn, injure or harm foliage in any way, except for a slight inconsequential burning on some varieties of grapes.

QUESTION: We had a blight on our raspberry bushes last year and wonder if your new Combination Fruit Spray will get rid of it?

Answer: Yes. Spray in late winter or early spring before buds start; again when green leaf buds first appear; again when first new shoots at base of plants are 2 to 4 in. high; again approximately 10 days before blooming begins. Discontinue spraying at least 60 days before harvest.

QUESTION: Can your Trombone Sprayer be used with a garden hose?

Answer: No. But it isn't necessary, because the Trombone Sprayer builds up its own pressure like a tire pump and shoots a fine mist or a 40-foot stream. It is well made of brass and copper and operates easily.

QUESTION: Can your Combination Fruit Spray be used on Evergreens for Red Spiders?

Answer: Yes. It also controls Bagworm, Thrips, Leaf Rollers, Saw Fly and Aphid on evergreens. Just spray at 3 to 4 week intervals.

QUESTION: Can your new Spray be used on roses?

Answer: Yes. Apply when plants are in full foliage; again in midseason or when insects appear. Repeat when necessary.

QUESTION: Will it control Peach Tree Borer?

Answer: Yes. Spray or paint trunks of apricot, peach, plum and nectarine trees from bottom of branches to ground. Use 1 oz. of powder to 1 quart of water. Apply July 1, August 1 and Sept. 1.

QUESTION: Has this new spray been thoroughly tested?

Answer: Yes, not only by us but by Dr. Swartwout of the University of Missouri, who developed it. All claims made for this spray, both in this catalog and on the label on the bag, were approved by the U.S. Department of Agriculture.

QUESTION: Will I need a ladder to spray into the tops of fruit trees?

Answer: No. With the Trombone Sprayer it is easy to spray from the ground to the top of fruit trees.

This

IS ALL YOU DO:

1. Mix Henry Field's Combination Fruit Spray with water.
2. Spray the tree or plant.

Developed, Tested and Approved by University of Missouri
The formula for Henry Field's Combination Fruit Spray was developed by Dr. Swartwout of the University of Missouri, and he and his staff have tested and approved it, and we are making the spray available to you.

HERE IS WHAT IT DOES!

Henry Field's Combination Spray helps control these diseases:

Blotch	Bitter Rot
Brown Rot	Cedar Rust
Leaf Spot	Leaf Curl

—and these insects:

Aphis	Coddling Moth
Bagworm	Leaf Hoppers
Curculio	Oriental Fruit
Leaf Rollers	Moth
Plant Lice	Red Spiders
Brown Mite	All Fruit Mites
European Red Mite	Spruce Mite
Rust Mite	Poultry Mite

HOW TO USE:

Just mix with water and apply with any good sprayer. Do not use as a dust. Directions with each package tell you when to spray.

HOW MUCH TO ORDER

You use one pound Henry Field's Combination Fruit Spray with 20 gallons of water—enough to spray 4 average-sized fruit trees, 5 times during the season. Figure about half

Use according to directions on all of these:

Peach	Grapes
Plum	Apricot
Apple	Evergreens
Nectarine	Raspberries and Blackberries
Cherry	Roses
Pear	Ornamental Shrubs
Quince	

Now you can spray your fruit trees (even the tallest ones) and ornamental shrubs easily by using Henry Field's Combination Fruit Spray and a Trombone Sprayer. Or use an ordinary portable pump sprayer in case you already have one.

that much for young fruit trees not yet bearing.

LOW COST

Henry Field's Combination Fruit Spray makes it easier for you to get more and better apples and peaches and pears and plums and cherries and all the other fruits, and the increased production, and better fruit, more than pay for the spray. We have kept the price low because, frankly, we are more interested in seeing you get more and better fruit than in trying to make a lot of money off this spray.

GUARANTEED

We guarantee it to give satisfaction or we will refund your money. It makes good or we do. No arguments.

NOTICE: Henry Field's Combination Spray is best for your fruit trees, berries, Evergreens, Roses and ornamental shrubs. But for your garden, Henry Field's Bug Dust is best.

BIRDS FOR YOUR GARDEN

5 for 1.25 Postpaid

6034—These are life-size wooden birds painted in bright colors like the real ones and fastened on a special long "twist-em" stem that you can wrap around shrubs or branches in your yard. They looked so life-like and real we put a bunch in our own trial grounds. We'll send one each of the 5—Ornate, Cardinal, Goldfinch, Bluebird, and Tanager to you for only 1.25 postpaid. 2 collections 2.25 postpaid. They really will catch your eye. Make dandy gifts, too.

MOON SIGN BOOK

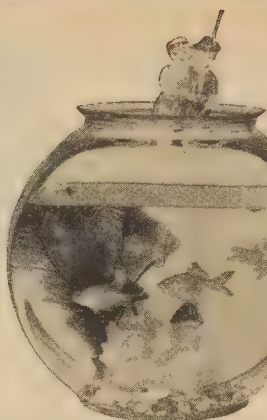

NOTE: Planting by moon signs has been argued pro and con for a long time. We are neither "for or against" planting by moon signs because we don't know. Lots of people believe in it and lots of yet if you do, here's the best book put out on the subject.

PLANT BY THE MOON

256 Pages

By Llewellyn George

Well known Author and Lecturer 501—The Moon Sign Book gives complete instructions in the use of planetary influence on planting and harvesting, also business and personal affairs, etc., the result of more than thirty-five years of research. Why do farmers plant potatoes in the dark of the moon? When should Corn, Beans, etc., be planted? Why florists plant seeds in the 2nd quarter and a certain Moon Sign? Why you should plant flowers in Libra on a certain date and Moon's phase? These and many other questions are answered and explained in a simplified yet scientific and practical manner. The Moon Sign Book has been published annually for over 37 years with sales increasing each year. A mine of useful information. Price 1.10 in the U.S.

1 Hi-ball

How To Plant The Aquarium

(Balanced—Unnecessary to Change the Water)

First make sure the size of your aquarium, then find a collection (below on this page) for your size. SAND... Place two inches of clean, common lumbar sand, medium coarse, not too fine, in the aquarium and mound it up so the back will be some higher than the front, then fill with water. PLANTING... Put the plants in the sand. Put in all the plants, snails, clams, hi-balls and one small fish. Let these grow for a week

and then put in the rest of the fish. FISH... A good rule is to use 1 inch of fish body to each gallon of water. LOCATION... Place the aquarium so it will have good bright daylight but very little sunning. CLEANING... Occasionally, use a small, clean cloth and wipe the glass on the inside. If a surplus of sediment accumulates on the bottom, dip it out with a dip tube or syphon it out with small rubber hose.

HOW TO MAKE AND PLANT A POOL

Barrels sawed in half and sunk into the ground are used as tub gardens. Metal stock tanks of various sizes make ideal pools. The most common and less expensive of all materials used is the common building cement. Mix 4 parts of the sand to 1 part of cement. Dig hole in the ground shape you wish and slope the sides in at the bottom. This enables you to plaster the cement on the sides without making a form to hold it. Let the first thickness harden a few hours then apply another and another until you have it the desired thickness. Then pour some cement into the bottom and smooth it making sure to have one point low for the drain.

After the pool is completed, cover it over with wet burlap sacks and let the cement garden for 3 days, then fill it with water and put in 10 lbs. of rock salt to each 100 gallons of water and let set for 10 days, then drain and refill with water, using 5 lbs. of rock salt to each 100 gallons of water, let stand for 5 more days and drain.

ORNAMENTAL POOL PLANTS

Sent after April 15

UMBRELLA PALM

6643—Raises many beautiful palm-like stems into the air and expands into an umbrella-shaped top. Very oriental in appearance. (Rich soil, shallow water.) Each 29c; 3 for 65c, postpaid.

WATER POPPY or FLOATING HEART

6645—Very long trailing vines, blooms resemble the old-fashioned Buttercup. Blooms freely all summer. (Rich soil, shallow water.) Each 29c; 3 for 65c, pdd.

WATER LETTUCE

6650—Grows into large rosette of fluted velvet green leaves. No bloom, but one of the most interesting of all plants because of its growing habits and unusual green color. Good for fish to spawn on and the roots make excellent fish food (floats). Each 29c; 3 for 65c, pdd.

CUBAN TRAILING HYACINTH

6652—Vines freely and blooms nearly every day all summer. Blooms are bluish tint and stand about 5 in. above the water. Price 75c, postpaid.

Outdoor Pools only

WATER HYACINTH

6646—Shiny green leaves, long stems expanding into bulbous and on into leaves. Orchid blooms, rapid growing by runners. Ideal for fish to lay their eggs on. Will float but blooms more freely if planted (rich soil, shallow water). Each 29c; 3 for 65c; 5 for 1.00, postpaid.

PARROT FEATHER

6648—Fern-like foliage, thick vine runners, giving a very pretty effect to surface of the water. Will grow without planting but should be planted in soil mixed with half sand near the surface of water. Bunch 29c; 3 Bunches 65c, postpaid.

PRIMROSE CREEPER

6649—Grows very rapidly, vines clear across and around the pool. Blooms are brilliant yellow and often has from 30 to 30 blossoms at once. Easy to keep over winter. (Rich soil, shallow water.) Each 29c; 3 for 65c, postpaid.

Red Ram Horn Snail

(Produce by Eggs)

661—Move about all over the aquarium glass, plants, etc., cleaning off the algae and other scum matter. Snails and clams are shipped by mail. Cannot be shipped during June, July and Aug.

Clams

(Produce by Eggs)

663—They add more to the water, will lay for months in same position. If shell remains closed, they are alive. They filter particles out of the water leaving it clear.

Trapdoor Snails

(Bear Young Alive)

662—They are about four times larger than the ram horns, good workers as scavengers and especially good in pools on account of their larger size.

PRICES ARE SAME ON SNAILS AND CLAMS. ALL POSTPAID

1 for... 25c 3 for... 60c 6 for... 1.00

HI-BALLS

Keep Water Pure

6046—The Hi-Ball is a combination of chemicals. Its purpose is to neutralize the water acids that develop in the pool causing the water to become foul. Keeps the water pure and clear. Remember acid water is a deadly enemy of fish, snails, clams and water plants. It must in any pool or aquarium.

Use 5 Hi-Balls in pool up to 25 gallons; from 25 to 75 gallons use 10 Hi-Balls; from 75 to 150 gallons use 15 Hi-Balls.

5 Hi-Balls... 0.60 postpaid
12 Hi-Balls... 1.00 postpaid
30 Hi-Balls... 2.00 postpaid

OXYGENATING PLANTS

Keep the water clear and pure for indoor and outdoor pools.

HOW MANY IN POOL. For small pool, use about 5 bunches—in medium size pool use around 8 bunches—in larger size pools around 12 bunches. Plant in small pots of sand. Scatter well over bottom of pool. Not sent when temperature is below 20°.

COMBOMBA

6620—Good for fish to eat. Grows long stems with fan-shaped leaves. Bunch 29c; 3 Bunches 65c, postpaid.

SAGITTARIA SINENSIS

6621—Thick rooted, good sand purifier, has long thick leaves, multiplies by runners. Single plants. Each 29c; 3 Plants 65c, postpaid.

MYRPHYLLUM

6622—Red, fine feathery foliage, good for fish to eat. Bunch 29c; 3 Bunches 65c, postpaid.

MONEY WORT

6623—Light green color, small round leaves grow thickly on stems, giving good bush effect. Bunch 29c; 3 Bunches 65c, postpaid.

VALLISNERIA

6624—Long grassy like, narrow stems. Ne plants formed by runners, many runners, an excellent sand purifier. Ideal for tall background plantings. Single plants. 29c; 12 for 65c, postpaid.

LUDWIGIA ROSEA

6626—Variegated red and green color, extra good for larger aquariums and pools. Plant in pot if used in small bowl. Bunch 29c; 3 Bunches 65c, postpaid.

ANACHARIS

6627—Good for fish to eat, dark green foliage. Bunch 29c; 3 Bunches 65c, postpaid.

6100X SPECIAL

COLLECTION OFFER

1 lb. Suny-Song canary seed

1 large jar conditioner food

1 large jar health food

1 new fresh cuttle bone

1 large jar song restorer

1 treat cup

1 large package grit

1 cuttle bone holder

2.35 Postpaid

CANARY FEEDING SCHEDULE

REGULAR FOODS are seed, water, grit and cuttle bone, these should be fed every day of the year and in addition the following:

Monday ¼ level teaspoonful of cod liver oil

health food in separate treat cup.

Tuesday Regular foods.

Wednesday ¼ level-teaspoonful of conditioner

food in treat cup.

Thursday Regular foods.

Friday ¼ teaspoonful song restorer in

treat cup.

Saturday Regular foods.

Sunday ¼ level teaspoonful of song restorer—Or—Small amount of fresh celery

leaves (leaves frost bitten are poison). Or—fresh, well washed dandelion leaves.

Maw Seed . . . can be fed twice a month on

Wednesday instead of conditioner. ¼ treat

cup maw seed.

All these special foods are deliciously

flavored and birds will often tease for more. At

this temptation don't weaken. Remember, birdie

has had enough if fed as directed.

NOTICE: Lettuce, medicated bird biscuits,

apple, etc., are not advised with this diet

BIRD SUPPLIES

WREN
HOUSE
59c
Postpaid

6020—Here is a wren house with real bird appeal. It is made of composition and stained wood and makes an ideal home for wrens. This house is nailed knocked down. All materials, hooks and nails are included and complete instructions for easy assembly are given. Only takes a few minutes to build. Price 59c; 2 for 1.00, postpaid.

Attracting desirable wild birds to your garden is just as important as proper planting and so much fun. Anyone who could be a more welcome "roomer" than Mrs. Jenny Wren?

CANARY NEST HAIR

FERTILIZERS—PLANT FOODS—MULCHING and Other Plant Growth Helps

Plants Get Hungry, Too—Feed GREEN THUMB Liquid PLANT FOODS

Easy to Use—Just Like Watering

Since we listed Green Thumb in our catalog four years ago, we have received hundreds of letters from our customers telling us how clean and easy it is to use, and how much good it did their lawn and shrubs and trees and flowers and vegetables and house plants.

Costs Less

One package of 16 ounces makes 32 gallons of liquid fertilizer. Directions on container tell how much to use for various plants, and your lawn, and you'll be surprised how little it costs to fertilize with Green Thumb.

Goes to Work Right NOW!

You just mix 1 tablespoonful with a gallon of water and you have liquid plant foods—a clear, green liquid—odorless and non-poisonous—and it contains the nutrition growing things need. And, being liquid, it goes directly to the roots so the plants perk up right away.

No Mess—No Mixing—No Digging

If your plants get hungry and sickly, with yellowish leaves, stunted growth, small fruit and colorless flowers, they need food and water and cultivation. Now you can spend hours fertilizing these hungry plants, or you can use Green Thumb and do a good job in a short time. And we don't know of anything better for starting newly planted things off right.

No. 4041
16 oz. pkg., only \$1.15 postpaid
MAKES 32 GALLONS
of
Green Thumb Liquid Plant Foods

GREEN THUMB is composed of important plant nutrients, plus Vitamin B-1, in a solution which is immediately available to the roots of hungry trees and plants. In a matter of days, you can see results.

"GROW-AID"

The Sensational Seed and Plant Stimulant Hormone-Vitamin Concentrate

Here is the miraculous seed and plant stimulant in concentrated form. A combination of the recently discovered, very beneficial root stimulating Hormones and the better known vitamins that have made plants and seeds GROW FASTER, YIELD MORE, AND PRODUCE LARGER FLOWERS AND FRUITS. Tests by state colleges everywhere approve it. In one test, Dr. J. C. Ireland of Oklahoma Experiment station showed increases of 37 to 47% in yield when used on corn. Often, number of roots on a plant are doubled when GROW-AID is used.

This miraculous dust multiplies roots, speeds up root growth and stimulates and makes larger plants when used on vegetables, plants, shrubs, seedlings, trees, or flowers.

USE AS DUST OR SOLUTION— Very Easy to Use

Can be used either as a dust on seedling roots or sprinkled on your vegetable seeds or may be used as a solution (about 1 teaspoonful to a gallon of water) to soak roots before planting or to water plants already established. FULL INSTRUCTIONS FOR USE on Seeds, Plants, etc. on each package.

Use It on All Your Plants and Seeds for Better Results

1. Dust it on flower or vegetable seeds before planting.
2. Soak nursery stock roots in solution before planting.
3. Dust seedling roots before transplanting.
4. Use as spray for fruit trees. KEEPS APPLES ON TREES UNTIL RIFE.
5. Use as solution to water growing SHRUBS AND TREES.
6. Use as solution to water HOUSE PLANTS.
7. Use as solution to water ROSES, SHRUBS, LAWN. A general—all around product every gardener should have.

A sample of how "GROW-AID" improves plants it is used on.

PRICES 4018

3 oz. (enough for large garden and plants) 1.00, postpaid.

1/2 oz. (enough for the average garden and plants) 25c, postpaid.

"SHEEP-O-LIZER"

Kiln Dried!! Pulverized Sheep Manure 4011—Clean and weed free. Packed in paper lined burlap bags. Very rich in Phosphorus, Nitrogen and Potash—the three foods your lawn and potted plants and flowers need.

Promotes quick growth. Can't burn foliage. Use 100 lbs. for every 1,000 square feet of lawn space.

100 lbs. only 2.85, F. O. B. Shenandoah. (Shipped by freight.)

PEAT MOSS

4013—Every soil needs a mulch. This is the world's best. 2 oz. absorbs 1 lb. of water. Holds moisture over long periods of drought. Rake into soil. 1 bushel enough for 500 square feet.

2 1/2 bu. size 2.69. Two 2 1/2 bu. bags, 4.98 (you can ship 2 bags as cheaply as one in many cases). Shipped Freight Collect direct from Peat Bogs in northern Iowa, or Shenandoah, Iowa.

HENRY FIELD'S COB MULCH

4083—Easy to use. Safe, economical. Ideal for lawns or gardens. Helps control weeds. Makes soil work better and conserves moisture. Fine for mulching roses, tomatoes, raspberries, perennials, etc. 35 lb. bag, 1.15, F.O.B. Shenandoah, Iowa; 3 bags for 2.95, F.O.B. Shenandoah, Iowa. Freight costs on 3 bags not much higher than on one.

TERRA-LITE FOR SEED AND CUTTING BEDS

4085—(Also known as Vermiculite). Used in place of soil or sand, produces amazing results in the germination of seed and the rooting of cuttings. Fine as mulching material, for storage of bulbs and root crops, and mixing with soil to improve its texture. It is completely free of all fungi, bacteria and insects. Holds water like a sponge and releases it as needed. 8 quart package, 1.00, postpaid.

ALUMINUM SULPHATE

4059—Makes soil acid so you can grow blueberries, hydrangeas, azaleas, etc., anywhere on any soil. Easy to use; directions on can. 1 lb. 39c; 3 lbs. 1.00, postpaid.

"STIM-U-PLANT" FERTILIZER TABLETS

4010—Feed your house plants, roses, shrubs, etc., with TABLETS of plant food. No muss, clean and odorless. Won't burn. 10 tablets 15c; 30 tablets 35c; 100 tablets 1.00, postpaid.

SUPER PHOSPHATE

4084—Most soils are short of Super Phosphate, which sometimes is why a plant doesn't bloom. Henry Field's Super Phosphate is made especially for African Violets and other blooming plants. Easy to use. Full directions on each package. 4 lb. package, 1.00, postpaid.

INOCULATE YOUR PEAS AND BEANS FOR BIGGER YIELDS

4015—All your garden peas, beans, and sweet peas should be inoculated. Inoculation helps the plant take nitrogen from the air and fertilize your soil—giving you bigger yields, faster growth and garden soil that's not worn out.

Just takes a minute to dust it on your seed—no trouble at all but it makes a world of difference in your yield. There's enough in this 15c packet to inoculate 5 lbs. of seed. That's enough for most of you. Full directions on each packet. Be sure to order it. Garden size 15c pkt., postpaid.

GIANT PKT. 3"x4" inoculates 5 lbs. seed. Pkt. 15c

"WATCH-EM-GROW" PLANT FOOD

4009—The miracle plant food. Ideal for house plants, window boxes. 7 oz. package, 50c, ppd.

VITAMIN B1

4017—STOCK SOLUTION FORM—Concentrated solution. Comes in bottle with eye-dropper. One drop of this solution in 1 or 2 gallons of water is enough. Bottle will make 500 to 1,000 gallons—enough for entire season. Bottle, only 1.00, postpaid.

"NO SEED" BLOSSOM SET for Tomatoes

4054—Just mix with water and spray whole plant. Stops blossom drop; makes blossoms set fruit chemically. Tomatoes ripe 2 to 4 weeks earlier, are larger, firmer, more delicious—many SEEDLESS. Also for strawberries, peppers, cucumbers. A hormone spray, USDA Tested. 4 oz. bottle (makes 1 gal. spray) 75c; 1 pt. (makes 4 gal.) 1.75 ppd.

BERRY SET

4067—Makes berries grow much larger, meatier, sweeter, most luscious tasting. Increases yields. Strawberries have few seeds. Sprayed berry plants bear ripe fruits over a longer period of time. This new scientific "Hormone" powder effective on ALL berries. 1 oz. package makes 4 gallons. 1 oz., 50c; 3 oz., 1.00, postpaid.

SEED DISINFECTANTS

Many times increased stands and yields can be obtained with some seeds and bulbs by treating them with disinfectants. Because so many of you have asked us about them, we are listing the best here for you in case you want them.

4066—ARASAN SEED TREATMENT

The famous DuPont chemical that increases stands and yields by reducing losses from seed decay, damping off and seedling blights caused by seed-borne and soil-borne disease. 3/4 oz. package, enough for average garden, 25c; 8 oz. can, 1.00, postpaid.

4019—CERESAN—For treating seed borne bunt or stinking smut of wheat, swart of oats, some smuts and stripe of barley, sorghums, and rye, etc. Easily applied. 1 can treats 25 bu. of grain. 14 oz. can, 1.15, postpaid.

4020—SEMESAN—For combating many diseases carried on seeds, bulbs, roots or flowers, vegetable and nursery crops. Reduces seed rotting and damping off of seedlings. Use dry or liquid, as liquid helps control brown patch of lawns; full directions included. 2 oz. pkg. 60c, postpaid.

4021—SEMESAN BEL—For treating potatoes to help reduce scab and Rhizoctonia, ring rot, bacterial wilt, stem rot, seed-piece decay, etc., thereby increasing yield. Quick and easy. 2 oz. treats 7 1/2 bu. seed at about 4 1/2 c bu. 2 oz. pkg. 50c, postpaid.

INSECTICIDES and FUNGICIDES

ROSE DUST

Controls Black Spot, Mildew, Rust, Mite and many chewing and sucking insects that afflict roses. Keeps them clean and blooming.

4023— $\frac{3}{4}$ lb. in dust gun, 75c. 3 lb. bag, 1.50.

4044—Or $\frac{3}{4}$ lb. in dust gun plus $\frac{1}{4}$ lb. bag (2 $\frac{1}{2}$ lbs. total), both for 1.50. All postpaid.

ROSETONE

4060—A hormone (not a fertilizer) that stimulates earlier rooting of cuttings, seeds and bulbs—but particularly roses. Gives you more luxuriant foliage, earlier, larger rose blooms. 3 oz. can 1.00, ppd.

HENRY FIELD'S GLADIOLUS DUST

4073—For control of thrip. Use it on bulbs in storage, also on plants in the garden. Full directions on each package. 12 oz. sifter can, 75c; 3 lb. bag, 1.50, postpaid.

ARSENATE OF LEAD

4007—General, popular spray for fruit trees against disease and insects. 1 lb. 79c; 4 lbs. 2.19, all postpaid.

BLACK LEAF "40"

4008—All-around spray for aphids, lice, delousing poultry, sheep dip, etc. Full directions with bottle. Oz. 36c; 5 oz. 1.05, postpaid.

BORDEAUX MIXTURE

4005—The famous compound for control of black rot, blight, etc. 1 lb. 48c; 4 lbs. 1.35, postpaid.

RED SPIDER DUST to Protect Your Evergreens

4038—The often invisible Red Spiders turn foliage brown, sometimes kill the tree. This special rotenone and sulphur dust keeps them off, or kills those already on. Can be dusted or made into spray. 1 lb. in gun, 58c; 3 lb. bag 1.10, both postpaid.

BORERKIL

4043—When injected into their burrows or under bark, it kills boring insects in trees, shrubs and flowers. Easy to use. 2 oz. tube complete with directions and 2 injector tips, 1.00 postpaid.

WEED KILLERS

CRAB GRASS KILLER

4068—Contains Potassium Cyanate, the almost magical new chemical that makes killing crab grass easy. Unlike any other crab grass killer you have ever used. No more digging, raking, hair tearing. Just mix Crab-Not with water and spray on. Is relatively non-poisonous, does no permanent damage to other grasses. Is equally effective on "seedling" or mature crab grass. 4 oz. can, enough for 700 to 1400 square feet of lawn, 1.00, postpaid. 16 oz. enough for 2800 to 5000 square feet, 2.99, postpaid.

WEED & WEED KILLER

4061—RID-O-WEDEL DUST—easy economical way to rid your lawn of broad leaved weeds, including dandelions. In 12 oz. dust gun ready to use, 75c, ppd.

4055—RID-O-WEDEL LIQUID—for spraying. Goes farther, costs less. Kills poison ivy, poison oak, stump sprouts, and other nuisance sprouts. Postpaid prices:
1 Pt. (makes 25 gals. spray)... 1.00
1 Qt. (makes 50 gals. spray)... 1.95
1 Gal. (makes 200 gals. spray)... 4.95

Henry Field Seed & Nursery Co., "MIDWEST'S LEADING SEEDHOUSE," Shenandoah, Iowa

Henry Field's BUG DUST

The Famous All-Purpose Insecticide and Fungicide for your Garden.

Dust Almost a "Miracle"

You really won't believe how good our Bug Dust works until you see it work yourself. Some folks call it a

"Miracle Dust."

3-Way Action

Bug Dust works three ways. It not only is a stomach poison but a contact poison and fungicide—all in one dust.

No need to buy three dusts—use our "Bug Dust."

Safe-To-Use

Henry Field's Bug Dust is safe. Does not harm even the most delicate plants when used as directed. Absolutely leaves no poisonous residue.

Absolutely Guaranteed

Our reputation as a Seed and

Nursery house for over 50 years is behind "Bug Dust." It does what we say or your money back. No arguments.

Sold Only by Henry Field's

Our "Bug Dust" is for sale only one place in United States and that's right here.

Beware of imitations. Our formula is good, as thousands know. Others may not be.

Secret Formula Makes Dust So Powerful

The formula of our famous Bug Dust is a carefully guarded secret known only by a few. Many people would like to know why our dust is so powerful as their imitations don't even come close to Bug Dust.

The powerful poisons in Bug Dust are mixed with other ingredients to make it the nearest all-purpose dust we have ever sold.

STANDARD DUSTER

4024—This is the gun we send with Special Offer 4100X above. Gun alone, without Bug Dust, 69c postpaid.

LARGE DUSTER

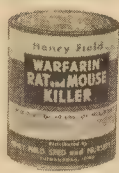

4025—Bigger gun. Holds about 1 lb. Bug Dust. Long extension nozzle for getting under plants. Now only 1.24 each, postpaid.

RODENTICIDES

Sensational New WARFARIN

4070—This powerful, safe rat and mouse poison was developed by the University of Wisconsin after work was begun 17 years ago by Dr. Karl Paul Link of their Biochemistry department. In 1950, the University of Wisconsin Alumni Research Foundation released Warfarin for general distribution. It since has been put on the market widely under several different brand names.

Warfarin is so effective because it is an anti-coagulant, causing the rodents to bleed to death internally. The rats die slowly and painlessly—but surely! It is a better rodenticide for these 4 reasons:
1. It is much less dangerous to humans, livestock, pets and poultry.
2. You don't have to bother with two different poisons. Warfarin gets both rats and mice.
3. Warfarin is odorless and tasteless. Rodents do not develop "bait shyness."
4. Warfarin kills slowly; no dead and dying rats warn the rest of the colony.

Warfarin has been thoroughly tested and the results are miraculous. It is recommended by state colleges, by the U.S. Public Health Service, by the Fish and Wildlife Service, by the National Pest Control Assn. by farm leaders, and many others. It is the best for homes, schools, churches, hospitals, warehouses, office buildings, restaurants, etc.

4 oz. can (makes 5 lbs. of bait), 1.75.
8 oz. can (makes 10 lbs. of bait), 3.00, postpaid.

RAT KILLER

4002—A GOOD HONEST RAT KILLER, that we stand back of 100%. Won't hurt anything but the rats, but gets THEM. Full directions included. Enough to kill 70 rats.

Large box, 50c; 2 for 95c, postpaid.

"RODENT RUIN" FOR KILLING MOLES & GOPHERS

4001—Drop a cake in the mole run or gopher hole and your troubles are over. Acts as stomach poison. Gets them quick. Can't harm poultry or animals.

Large box (90 pieces) 50c; 2 for 95c, postpaid.

NEW PYRAMIDAL STRAWBERRY BED

Eight times as many strawberries can be produced in a pyramidal circular area 6 ft. in diameter as in a similar ground area.

The bed is made of a series of aluminum bands filled with earth. The longest is bolted into a 6 ft. circle, placed on the ground and filled with soil. Then four more bands of decreasing size are added and filled, each allowing an 8-in. terrace for plants.

A core of sand fills the bed down to the bottom layer making watering and fertilization simple. (Use a little Green Thumb Plant Food for fertilizer.) Any good soil mixed with peat

moss is recommended to fill the pyramid. The bed accommodates 75 plants.

4056—Pyramid Garden: 5 bands complete with nuts, bolts, and directions, 9.98 postpaid.

B4220X—75 New Everbearing Superfection Strawberry plants to set in bed, 4.39, ppd.

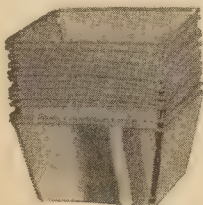

Yes, We Have BERRY BOXES

Need some berry boxes? We have plenty of them, and at a low price too. These are the regular, standard, wooden kind with metal reinforcement band at top. Order No. 4069.

Quart size: 100 for 2.90, postpaid to Zone 3, 250 for 5.00; 500 for 8.50; 1,000 for 16.50, not ppd.

Pint size: 100 for 2.50, postpaid to Zone 3, 250 for 4.50; 500 for 7.50; 1,000 for 14.00, not ppd.

Weight: 500 of qt. size, 38 lbs. 500 of pint size, 35 lbs. Crates not available.

MAGIC STUMP REMOVER (Not Illustrated)

4089—Now, for the first time, you can remove tree stumps yourself, any size, any age, any place, any time, without chopping, digging, blasting or pulling. Magic Stump Remover is safe to use. You just treat the stump with this chemical so that you then can burn it, roots and all. Full directions on package. Trial package, 4 oz. (enough to remove one stump 12" in diameter), 1.00. Economy size 8 oz. package, 1.50, postpaid.

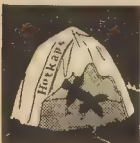

"TWIST-EMS"

Handy, Speedy Plant Tie

4072—Strong, dark green waterproof, invisible tapes with wire reinforcing. Protect stems, speedily and permanently support annuals, perennials, vines, shrubs, and vegetables. Grand for arrangements also. Box of 100, 8" length, 30c. Box of 100, 16" length, 60c. 250 feet in continuous roll (easily cut to desired length with scissors), 1.15. All postpaid.

HOTKAPS PROTECT PLANTS

4058—Heavy waxed paper cones to place over newly-set plants to protect them from frost, sun, wind and insects. Enables you to plant 3 weeks earlier, bring more plants through early tender stage. 25 for 95c; 100 for 3.25; 250 for 6.75, postpaid.

HIGH WHEEL CULTIVATOR

It's more fun to garden when you have a High Wheel Cultivator. Ten times easier and ten times faster than hoeing. Has 23" wheel and hardwood curved handles. Attachments are heat treated carbon steel for long life. Complete with Moldboard Plow, 9" Sweep, and Double Pointed Shovel, 6.95, not ppd. Zone 2, 63c; Zone 3, 84c; Zone 4, 1.10.

58

only \$6.95

complete with 3 attachments No. 4046

FLYING DISKS

Scare Birds and Animals Away

4071—Scare birds and animals away. Amazing protection for newly planted seeds, berries, tender seedlings, fruit trees, etc. Made of shining aluminum. Flying Disks spin and whirl madly in all directions—give blinding reflections and weird jingling, crackling sounds—to scare birds and animals away. Easily strung across area to be protected, or hung from branches of trees or vines. 10 Flying Disks with complete instructions, only 30c, postpaid.

PETER RABBIT REPELLENT

4057—Just paint or spray tree or shrub trunks and rabbits stay away. Directions on can. 1 qt. (enough to treat 30 to 40 trees one inch in diameter) 1.50, postpaid.

DOGS-ZA-WAY

4000—Dogs ruin shrubs and evergreens. Protect them with DOGS-ZA-WAY. Guaranteed not to harm plants but extremely offensive to animals. Put on ground around evergreens but not directly on them. Lasts several weeks. Season's supply 43c, postpaid.

Tests Indicate Arasan Seed Disinfectant Increases Yields Up to 178%

Better stands of alfalfa, clover, Kentucky blue grass and other small seeded legumes have been obtained by treating the seed with Arasan seed disinfectant before planting in tests at the DuPont Laboratory and at several state experiment stations.

Seed treated with Arasan produced stands as much as 178% better than untreated seed. Alfalfa showed 158% better stand. Timothy, 131%. Sudan Grass, 47%. Fescue, 24.4%. You can't afford to pass increased yields like that.

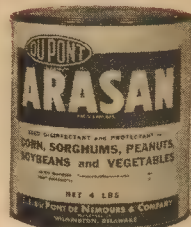

Frequently the cause of poor stands in pastures is an obscure and seldom recognized disease. It is really a phase of root rot, which causes pre-emergence blight. Seedlings that survive that disease often show only a little evidence of it. However, by digging into the soil or examining the old vegetation, it often will be found that, although the seed did germinate, the roots and the tops of the seedlings were killed before the plants came through the ground or became established.

Small Seeds Carry Little Food Reserve

The seeds of grass and small legumes, being very small in

We Recommend That You Treat the Following Legumes and Grasses with Arasan:

LEGUMES	GRASSES
Alfalfa	Timothy
Red Clover	Meadow Fescue
Sweet Clover	Red Top
Alsike	Bent Grass
Ladino Clover	Kentucky Blue
White Dutch	Sudan Grass
Birdsfoot Trefoil	
Korean Lespedeza	
Sericea Lespedeza	

size, carry little food reserve to see them through the period from germination until the seedlings become established. For this reason, they can be killed off easily by adverse weather conditions and disease. Anything that helps the seedling get past this stage, where seed mortality is so high, is important.

The purpose of treating the seed is to protect it from the growth of fungi on the seed and in the soil which cause seed decay, damping-off, seedling blight and root rots.

Arasan does not take the place of Nitragin Inoculant. Add Nitragin after treating with Arasan—not before or at the same time.

We recommend that you treat certain seeds, the ones listed in the box at left, with Arasan. It is very easy to treat your own seed yourself at time of planting. Just follow directions on the can. It takes 6 to 8 oz. to 100 lbs. of seed.

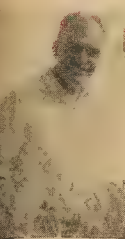

Catalog No. 4066, 8 oz. can, 1.00; 4 lb. can, 6.00, postpaid.

Henry Field Seed & Nursery Co., "MIDWEST'S LEADING SEEDHOUSE," Shenandoah, Iowa

Save MORE - - Make MORE - - buy Your FIELD SEED from Henry Field's

"Alfalfa John" says...

Many legumes are in a shorter supply than a year ago. The wet rainy weather during 1951 crop season was not good for the setting of legume seed. These Field Seed prices are right, the quality is excellent and we recommend that you get our order placed early.

Plant some of the Washington Alfalfa this year. It is hardy Northern-grown seed. Many times the winter temperatures get down to 25° below zero. Grown near the Idaho-Montana line. You will like this Dakota 12 type seed. The most beautiful color you ever saw.

Most Northern-grown Alfalfas are in short supply, coupled with many more acres that are going to be planted, means a complete sell-out on Northern Alfalfa seed before the Spring planting season is over.

Spring is the time to plant your Brome grass. Our quality of Brome seed was ever better and it is noxious weed-free. Watch out for Northern-grown Brome containing Quack Grass.

Timothy is fine quality, the supply is normal and prices cheap compared with other grasses.

Sweet Clover is one of the lowest price legumes on the list. Nothing will build soil as fast as a Sweet Clover planting. It puts lots of nitrogen into the soil. The same thing is true with Hubam, the annual flowering Sweet Clover.

Sudan is on the short side again this year. The opening prices will be the lowest of the year. Fine for summer pasture.

Sold more Ladino, Clover last season than we ever did before. Include Ladino in your planting along with Brome and Alfalfa or other pasture mixtures. Produces lots of milk from dairy herds.

Our Red Clover and Alsike are top quality. The supply is much shorter than last year and seed costs more, but still a fine buy at present price levels.

Don't forget to inoculate all legumes before planting with Nitragin.

Remember United Hybrid, with its exclusive Kernel Coating, will give you a better stand in the field. Kernel Coating, plus Seedling Starter and Root Booster enables you to cultivate corn earlier and the root system is developed much faster. Kernel Coating is exclusive with United.

Here's wishing you a good crop year with Henry Field seed.

ALSIKE TIMOTHY MIX
(20 to 25% Alsike)

Here is a dandy seedling of Alsike and Timothy that makes wonderful quality hay, high in feeding value and less dusty than Red Clover hay. Fine for pasture, too. Seedling will last for several years.

Both the Timothy and the Alsike are winter hardy and both like the same soils and climate. The Timothy helps support the Alsike during the growing season. Grows fine on a sour soils. A natural balanced mixture, bushel seeds 4 acres. 10.00 per 50 lbs.

Henry Field Seed & Nursery Co., "MIDWEST'S LEADING SEEDHOUSE," Shenandoah, Iowa

DWARF ESSEX RAPE

Nothing beats rape for hog pasture. The crop is short this year, and we have genuine Dwarf Essex Seed for early orders only.

Rape is rich in protein—just what young pigs need. It is far cheaper to grow this protein in the form of rape pasture than to buy it in the form of tankage or other feeds.

Plant 6 to 8 lbs. per acre any time from April 1, through the summer months. Ready to pasture in 6 to 8 weeks. 16.50 per 100 lbs.

10 lbs. postpaid 2.90
25 lbs. postpaid 6.25
100 lbs. (F.O.B. Shenandoah).....16.50

MIDLAND RED CLOVER

Certified Higher Yielding Disease-Resistant

Midland is a new variety of Medium Red Clover that we introduced to the Midwest. Much finer stemmed than regular Red Clover, yet stands up better in field. Disease-resistant, highly productive in hay and seed. Seed yields of 3 bushels per acre are reported this year. The parent stock of seed was developed through the cooperation of the U.S.D.A. and Agricultural Colleges of the Middle West.

Big, plump, purple berry seed. In sealed bushel bags. State Certified. 32.40 per bu.

Hulled and Scarified
KOREAN LESPEDEZA

Hulled and scarified Korean has really made friends with farmers. It germinates and grows thicker than seed with the hull on. It takes less seed per acre. Only 8 to 10 lbs. per acre is plenty. Hulled seed can be cleaned free of noxious weeds.

We always sell lots of this hulled Korean. 99% pure seed, new crop. The cheapest legume seed you can plant. Add to your pasture along with other legumes. Korean does best in midsummer and early fall when you really need it. 9.75 per 50 lbs.; 19.50 per 100 lbs.

Registered
LANCASTER BROME GRASS

Lancaster Brome Grass is the new strain developed over a ten-year period by the Nebraska Experiment Station. This new variety was produced by hybridization of several unrelated outstanding Brome plants. Lancaster is outstanding in forage yield and quality over Lincoln Brome Grass. Seed supply is very short, packed in 50 lb. bags, seals and Registered tags attached. You can use this as planting stock to produce Certified Lancaster Brome. While our small supply lasts. 27.50 per 50 lb. bag.

ORCHARD GRASS

Orchard grass is a tall growing, perennial bunch grass, fine for shade. Starts growing early in the spring. Starts earlier and gives results a month ahead of Timothy. You will find it well adapted to your needs as hay and pasture, grass silage and turf as well. Orchard grass does fine along with legumes like Ladino, Red Clover, Alsike and Alfalfa or Lespedeza. This fine grass had increased in popularity very rapidly the last few years. Plant it alone at rate of 15-20 lbs. per acre or along with other grasses and clovers. 33.00 per 100 lbs.

BIRDSFOOT TREFOIL
(Lotus Corniculatus)

A long-lived perennial legume with a much-branching tap-root and crown somewhat like alfalfa. The plants have many fine stems. Very palatable as hay. Birdsfoot trefoil will improve both yield and quality of hay and pasture on dairy and livestock farms. Plant in established pastures at rate of 2 to 3 lbs. per acre. Equal in protein to alfalfa—no danger of bloat. 85c per lb., postpaid.

CERTIFIED ELLIS SORGO

A brand new introduction, Ellis is a cross between Atlas Sorgo and Leoti. Ellis is earlier than Atlas, much sweeter stalk, doesn't grow as tall, easier to handle and has much softer rind. Excellent for silage or cured bundle feed. Ellis has bright, green leaves, resistant to rust and other diseases. This new sorgo has an open head, cures rapidly, white seeded and grows to a height of 5 to 6 feet requiring about 100 to 110 days to mature. Be sure to plant some Ellis for lots of fine feed. Figure on 5 lbs. per acre. All Certified Seed—supply limited. 25 lbs. 3.25; 50 lbs. 6.00; 100 lbs. 11.00; all F.O.B. Shenandoah.

Best Grimm Alfalfa 99 1/4% Pure

This is northern-grown Grimm Alfalfa of highest grade. We are proud of the quality of this particular seed. Not every lot of seed we buy every year can match this for quality. You won't find frost bitten seed, dark and discolored berries in this lot. Grimm can take a lot of punishment in the winter months, when many other Alfalfas fail to live through till spring. This seed was harvested from fields that have lived over year after year and no Alfalfa is harder. Plant the acreage you are seeding this Spring with Grimm.

Only
43⁹⁵
per bu.

NEW MADRID SWEET CLOVER

Madrid is the new yellow-flowered biennial (two-year) Sweet Clover. Good stands of Madrid Sweet Clover are easily made as the seedlings are very fast growing and vigorous. Matures very early. Madrid is outstanding in first year pasture and also hay production. Yields in many cases up to 50% more forage than regular Yellow Blossom first year. A good seed producer with good yields per acre. This new clover is scarce yet as only limited acreage was planted and harvested because of short seed supply. Price is higher than regular yellow, but we believe it is worth it. Very limited supply. 15.00 per bu.

BEST ANNUAL HUBAM CLOVER

The annual flowering White Sweet Clover that produces all its growth the first year. Always a favorite because it fits in so nicely with your rotation program to build-up your soils as a green manure crop. Fine for hay and pasture, too. We sell carloads of Hubam every year to our many customers, and it always gives a good account of itself. Hubam is high in protein content. Seed early in the Spring along with small grain or on Fall-seeded grains. Figure on 12 to 15 pounds per acre. Price is lower than regular Sweet Clover this year. One of the cheapest legumes on the list to plant.

10⁵⁰
per bu.

NORGHUM

New, Early Combine Grain Sorghum

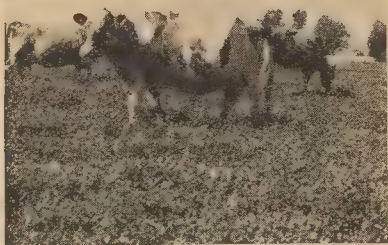

Norghum is a Kalo-type grain sorghum. It is early, stands up well, good yields of grain, ripens fast because of spreading-type heads. This combine grain sorghum has medium-slender stalks, grows to a height of 3 to 3 1/2 feet, ideal for combining. Heads dry out fast and ready for harvest by early September. Seeds are medium in size, reddish brown in color.

The seeds of Norghum germinate rapidly and at low temperatures. Does fine where an early maturing grain sorghum is wanted. Plant like any other grain sorghum. 10.75 per 100 lbs.

GUARANTEE

We guarantee to satisfy or no deal: We absolutely guarantee our Field Seed to arrive in good condition and to be satisfactory in every way. Send a sample for a State Test if you like. If not satisfactory in every way, you may return the seed anytime within 30 days after you receive it and we will refund your money or send you seed that will suit. That's plain and lived up to. However, we don't guarantee a crop as that depends upon conditions beyond our control, such as weather, soil, etc.

HENRY FIELD'S

New Ladino—The Wonder Clover

Ladino clover is the most popular clover ever offered for pastures. Only 1 to 2 lbs. per acre needed. A fine combination with Alfalfa and Brome or other grasses. Really a giant white dutch clover, grows 12 to 15 inches high. Recovers quickly after grazing, lives for years. Ladino has doubled milk production in many dairy herds. Fine, too, for poultry feed. High in protein and minerals. Adapted to most soils. Plant Ladino this year in your pasture.

Only
1.65
per
lb.
post-
paid

50-50A

PERMANENT HAY & PASTURE MIXTURE 50% Clovers—50% Grasses

For farmers who want to seed a good, sound balanced mixture of 50% Clovers and 50% Grasses. This mixture made up in just the right proportions for splendid results. To insure a good stand, we have included 6 Clovers (Red Clover, Alsike, Sweet Clover, Alfalfa, Hubam and Korean) and 6 Grasses (Kentucky Blue, Crested, Orchard Grass, Rye Grasses and Timothy). Plant this mixture for a new pasture at 1 bushel for 4 acres, or reseed an old pasture at half regular seeding rate. A money saving value for you.

Only
1.150
per 50 lbs.
22.95
per 100

If you do not want Sweet Clover in the mixture we can supply lot 50-50B (without Sweet Clover) at only 12.50 per 50 lbs. or 24.95 per 100 lbs. Sow a bushel to 3 1/4 or 4 acres.

EARLY LESPEDEZA (Hulled and Scarified)

EARLIER AND HEAVIER YIELDER

This is the new Early Lespedeza—averages 6" taller, much earlier, and heavier yielding than common strains, making it ideal for folks in Ia., Ill., Kansas, and Missouri, who need an early type and who have not had success with ordinary Lespedeza.

11.25
per 50 lbs.

Especially valued where other legumes will not grow. Will grow on the sourest soil and will build it up by adding nitrogen.

Hulled and scarified seed goes almost twice as far, germinates quicker. Plant as early as you can get on the land. Seed at rate of 8 to 10 pounds per acre. High purity, new crop. Early Lespedeza is limited in supply—order now!

22.50
per 100 lbs.

NEW INTERMEDIATE WHEATGRASS

This new Intermediate Wheatgrass is a sod-forming perennial grass. Recommended for pasture and forage under a wide range of soil and climate conditions. Much more drought-resistant than Brome.

Plants begin growth in early spring and reach a height of 3 to 4 feet. The very leafy foliage is relished by all classes of livestock. Young seedlings establish themselves very quickly. Ideal for planting alone or with other forage and pasture grasses. Intermediate Wheatgrass makes a good tough sod and is fine for waterways and other soil conservation uses. 1.50 per lb., postpaid.

BEST YELLOW SWEET CLOVER—99 1/4% PURE

Yellow Sweet Clover is the best kind to select, when you want an early maturing, extra-leafy strain. This is much finer stemmed than the White Type. It is ready to pasture from 10 days to two weeks earlier. Sweet Clover will improve your soil faster than any other crop you can plant. If you want your dollar's worth in Sweet Clover in a topnotch, high-quality lot, order our best Yellow. It will be money well spent. Every year we send our buyers to the best seed producing areas and pick the cream of the lots for our top grade. Noxious free, of course. Triple re-cleaned, hulled and scarified.

10.20
per
bu.

BARGAIN PASTURE MIX

This fine grass mixture is made up of some of the best, long-life grasses that are permanent such as Kentucky Blue, Fescue, Timothy and Perennial Rye Grass. Also some Annual Rye Grass for quick nurse crop. All mixed together in the right proportion to give best results for a quick and also lasting permanent pasture. Fine companion planting along with our 4-Way Clover Mix. Mix together fifty-fifty for a permanent clover and grass planting. Re-cleaned seed. Priced right.

Only
15.00
per
50 lbs.

BROME GRASS MIX FOR DRY LANDS (Permanent Hay and Pasture)

Here is the mixture for dry land that with very little rainfall keeps coming on all season long and for years to come. Contains over 60% Brome Grass with other hardy native dry land grasses such as Crested Wheat Grass, etc. All livestock like it. Sow 12 to 15 lbs. per acre early. Roll in well on a firm seed bed. Add 5 lbs. of alfalfa to the acre if you wish.

14.00
per 50 lbs.

BEST SWEET CLOVER

This is the tall growing variety of Sweet Clover formerly called White. Produces a heavier growth, matures later than Yellow. Ideal for soil improvement, hay and seed crop. This is strictly re-cleaned seed of finest quality. Roll in well on a firm seed bed.

10.50
per
bu.

TIMOTHY-RED CLOVER MIXTURE

Timothy and Red Clover work well together in double harvest. The Timothy helps hold the Red Clover erect, and the Clover helps make the soil more fertile for better Timothy growth. The right mixture is 20% Red Clover and the balance Timothy. We always sell a lot of this fine mixture either for hay, or even pasture. Comes ready to sow. A heavy producer and a soil builder, too. A bushel (50 lbs.) will plant 4 acres nicely. Re-cleaned, of course, the same as any other lot of seed.

9.50
per
50 lbs.

CERTIFIED RANGER ALFALFA

This new, wilt-resistant Ranger Alfalfa is the one to plant where bacterial wilt is killing Alfalfa stands. Ranger Alfalfa produces heavy yields of fine quality hay and lasts many years after other Alfalfa has died out. Extremely winter hardy, fine stemmed plants.

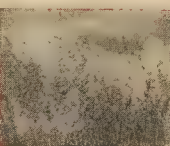

This Certified Ranger Blue Tag Alfalfa seed was grown from selected hardy foundation seed stocks. Sealed in bushel bags, none finer. High purity and germination, free of noxious weeds. Well worth the price over Common Alfalfas. 48.75 per bushel. Sealed bags.

LINCOLN BROME GRASS

Lincoln Brome Grass is a high yielding strain that forms a good sod. Excellent seedling vigor, stands lots of drouth and heat. Much easier to establish a stand than northern strains. Highly recommended as over the corn belt states as the present leading home-grown strain of Brome. Often referred to as a southern type brome. Our seed heavy weight, new crop, harvested in Iowa and Nebraska. No noxious weeds in this lot, high quality all the way through. Plant adapted brome this spring like Lincoln.

14.50
per 50 lbs.

HOME-GROWN BROME GRASS

Only
14.00
per 50 lbs.

Here is the finest in southern type, Home-Grown Brome. This Seed produced right here in Iowa and Nebraska, and will produce more pasture and hay tonage per acre than northern types. That is why we recommend it so highly.

Brome planted along with Alfalfa makes the finest combination for hay and pasture. Use 12-15 pounds of Brome and 3 to 4 pounds of Alfalfa per acre. An extra pound or two of Ladino per acre can be added for excellent results as pasture.

Nothing beats Brome for pasture and hay. One acre of good Brome Grass growing with Alfalfa will provide as much hay or pasture as one and one-fourth acres of Timothy with Alfalfa and as much good pasture as two and one-half acres of fair to good Bluegrass.

Smooth Brome Grass is highly productive, palatable, drought-resistant, winter hardy and long-lived. It reduces soil losses from erosion.

BEST ALSIKE CLOVER

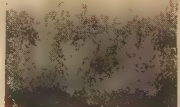

Only **34.20**
per bu.

Alsike is liked on many farms, especially where production has not been high on Red Clover and Alfalfa. Alsike stands wet feet better, and poorly drained, thin soils produce a good crop of Alsike where other legumes would fail. Alsike hay is high in protein and fully equal Red Clover in feeding value. A bushel will plant 7 to 8 acres. Does fine along with Timothy, Alfalfa, Fescue or other good grasses.

Our Alsike is hardy Idaho seed of excellent quality. Dark, green berry and good color. It pays to plant the best. This is it. Don't overlook this fine legume in your seedling program for soil improvement. More good farmers are planting Alsike every year. Plant some yourself.

White & Yellow Sweet Clover Mixture

Only **9.60**
per bu.

Always one of our most popular buys for pasture. You will save money on your Sweet Clover needs when you buy this mixed seed. The Yellow Sweet Clover hardens up earlier

and comes along quicker for extra early pasture. The White, later maturing Sweet Clover, follows to last longer into the Fall months. For soil building, Sweet Clover has no equal in the legumes. The mixed seed costs you less, and gives you good results every time for the money spent. We sell more of the mixed seed than any of the regular varieties. All hulled and scarified, full 60 lb. bushel. Inoculate your Sweet Clover when planting. All seed carefully cleaned and guaranteed to save you money at this price.

BEST MAMMOTH RED CLOVER

Mammoth Red Clover is one of the fastest legumes to build up the soil. A very heavy yielding, single cut type. Mammoth grows taller, producing a heavier cutting of hay than Medium Red Clover. The second growth is excellent for pasture. Plowing under for soil improvement. Hardy, Northern-grown seed, high purity and germination. Our Mammoth Red Clover is the best quality. 27.60 per bushel.

THE SENSATIONAL NEW GURNO

5.50
per 50 lbs.

10.50
per 100 lbs.
F.O.B.
Shenandoah

Gurno will give you a huge yield of grain IN A HURRY. GURNO IS WHITE SEED, COMBINE TYPE AND EARLY, maturing in 70 to 80 days. Makes a heavy yield even if planted late.

Stands drouth, resists chinch bug injury. Stands well after maturing. An EARLY white seeded Combine type grain sorghum. Plant 5 lbs. per acre.

BEST TIMOTHY

7.50
per 50 lbs.

Our finest quality Timothy, grown and harvested right here in Iowa. None finer in clean, bright Timothy, new crop seed that will make you a low cost grass seedling. Grows on a wide range of soils and adapted over a wide area.

This lot 99 1/4% pure, high in germination and free of noxious weeds, makes this seed to be proud of. We handle carloads every year and this Timothy is priced low. Order plenty and get the best. It pays.

LOT CROP MIX RED CLOVER

This is a natural field mixture just the way it came from the combine at harvest time. Contains approximately 78% Red Clover, 5% Alfalfa, 5% Alsike, 5% Sweet Clover, balance other crops. Fine for adding to permanent pastures, for soil improvement, or for hay. Nothing wrong with this Red Clover seed except it is crop-mixed and sells for a lot less than regular Red Clover. Good purity and normal germination. Just 200 bushels in this lot. 24.00 per bushel of 60 lbs.

WASHINGTON ALFALFA

99 1/4% Pure

Our Washington Alfalfa is a beautiful lot of golden berry seed coming from the Yakima Valley in Washington. Winter temperatures where this seed is grown drop as low as 25 degrees below zero during winter months. Grown in fields only a short distance from the Montana-Idaho line. No need to worry about winter hardiness with Washington Alfalfa seed.

Washington is a Dakota 12 type Alfalfa, high yielding, and very popular. It's tops in purity, germination and color. Order plenty of it! Price below other Alfalfas but we bought early and the extra saving is yours.

3960
per bu.

"LOT IDAHO" RED CLOVER

A natural field mixture, over 99% crop pure (95% Idaho Red Clover), the balance other crops such as Alfalfa, Alsike, White Dutch, etc. Just as beautiful a lot as Best Idaho Red Clover except it has the other small per cent of crop mixture. Easily worth more money but bought right and the extra savings of 5 to 8 cents per pound is yours. Fine for soil building and hay.

This lot all new crop, bright and noxious weed-free. Germination 90% or more. Plant same rate as Red Clover. Just one carload of this seed for early orders. Be sure your order reaches us early on this special.

2520
per bu.

Best Dakota 12 Alfalfa 99 1/4% Pure

Our northern-grown Dakota 12 Alfalfa comes from hardy sources. Beautiful, perfect, pure seed, free of all noxious weeds. Dakota 12 grows taller than other alfalfas and does best on second bottom and upland soils. The favorite alfalfa of farmer after farmer. We sell carloads every year. Color was never better or seed a better value than our best 99 1/4% purity seed.

Only
4395

"GOOD but CHEAP"

PERMANENT HAY & PASTURE MIXTURE

Made up of good quality seeds that were bought early. A splendid mixture composed of 8 different grasses and clovers to give you a combination that grows on all soils and all season long. You can't fail with it. Includes Red Clover, Sweet Clover, Alfalfa, Kentucky Blue Grass, Korean Clover, Rye Grass and Timothy. This mixture grows on every type of soil, giving pasture all season long. Makes an excellent hay meadow, too. This is one of our best bargain buys.

A Real
Bargain!
925
per 50 lbs.

BEST SUDAN

Excellent quality, bright sudan grass, that is 98% to 99% pure sudan. Sow lots of sudan for midsummer feed. Nothing will yield as much pasture per acre and carry more livestock per acre during hot periods of weather. Sudan is the answer for cheap livestock pasture. Seed 25 to 30 lbs. per acre.

1500
per 100 lbs.

SWEET SUDAN

New crop Sweet Sudan doesn't cost a cent more per acre than other sudan. It is far superior to regular sudan. Greater disease resistance, less seed shattering, produces more growth per acre. Livestock prefer it. Our opening price will save you money.

1500
per 100 Lbs.

RED CLOVER MIXTURE

35% Red Clover, Plus Alsike and Timothy

This super-rich mixture makes an ideal seedling at a low cost per acre. 35% Red Clover, balance Alsike and Timothy. This natural mixture can't be beat for pasture with no danger of bloat. The Timothy provides the roughage in this mixture. Sow alone or with your regular oat seedling. Figure on 10 to 12 pounds per acre. Priced at only 12.40 per 50 lbs. A money-saving seedling if we ever saw one. Excellent for hay, too.

ARIZONA ALFALFA

The past few years, many farmers are planting more and more Alfalfa for soil building, where a short rotation is wanted. Arizona will fill the bill 100% for you. This Arizona Alfalfa grows very fast, lots of times you can take hay crop first year and then plow under for green manure crop to add humus to soil. Not as hardy as northern seed, but high quality seed, bright and less subject to disease than Red Clover. Often can be left for second year.

2250
per bu.

OUR BEST

Pure, Extra Fancy RED CLOVER

Topnotch quality Home-Grown Red Clover. Bright, clean, home-grown seed that is triple re-cleaned, absolutely weed-free and the best seed to be had. Don't confuse this seed with run-of-the-mill quality. We selected these lots from local-grown fields and re-cleaned it to the highest possible purity. Vigorous plants from this seed will produce heavy yields of fine stemmed hay. Perfectly hardy, 99 1/4% pure. Well-colored, lump berries, new crop seed.

2825
per bu.

BEST COSSACK ALFALFA 99 1/4% PURE

Cossack Alfalfa is a very hardy strain. Fine stemmed hay and high yielding hay comes from the cossack strain. More farmers are switching to it every year and rightly too. This lot is bright, clean seed of good purity and germination. We bought early on this hardy northern-grown seed. Fine for Iowa, Nebraska, Illinois or any place top-quality alfalfa is wanted. Cossack doesn't winter kill easily.

4435
per bu.

BEST IDAHO CLOVER

Finest of All

Here is the world's finest new crop Idaho Red Clover grown for seed in the mountain valleys from specially selected vigorous fields. This big, purple berry Red Clover will produce the highest quality hay possible here in the Midwest, with no exceptions. None finer. If you want the best, and many of our customers do, here it is.

Idaho Red Clover is high in purity, germination and free of all noxious weeds. We are featuring this fine lot of Idaho Red this year. Much local Red Clover seed is dark and discolored this year and that is why we recommend this seed to you. Check it anyway you like and decide for yourself. If it isn't the finest seed you ever bought, for the money spent, send it back to us. That's how confident we are that you will like it. Get your order in early.

2925
per bu.

Lot Hardy Grimm Alfalfa 97% Pure

Grimm is the hardest of all Alfalfas. Its long branching roots go deep after moisture. And these roots help prevent winter heaving. Hard pan or hard clay soil territories are best for Grimm Alfalfa. Very leafy and high in feeding value. This lot of northern-grown seed is fully 97% pure, clean of bad weeds. It's nice seed, priced low and certainly worth the money. Far better than Southern or Argentine seed. This is hardy Grimm and grown in the North. The color is not as bright as our top quality, but the value and hardiness is here. This lot gives results at a low cost.

U20 Sold out.

U22 Sold out.

U26 Sold out.

U28 Sold out.

30 SERIES

Matures 95 to 110 days

U30 Sold out.

U32 Always gives fine, big crop of sound corn under practically every type of weather and soil condition. Unequaled in quality. Its deep green, broad leaves are heavy, very uniform and perfectly filled; it is the show corn of the "30" series. Often produces record-breaking yields, with exceptional yields reported in northern Iowa, south central Michigan, and Wyoming. On thin soils of Minnesota, northern part of "30" series zone, northern part of "40" zone, as well as all of "30" series zones. Also may be used for June planting or early feed in "40" zone. U32 is the "wheel horse" of the "30" series.

U36 One of the most "all-around" hybrids of the earliest. Very heavy yielder, good ear size, very deep kernel with small cob and noted for its exceptional "standability" despite high winds. Ears of beautiful light-type, cylindrical show ears. Dark green foliage. Besides the area it matures in, it is also used heavily in the 50 or 60 series sections (see map) for late planting or for early hoeing down, and the "20" series section for fodder.

U39 Gives dependable performance under wide range of soil and climate conditions when used in same territory as U36. Stands drouth, wind and corn borer extremely well. Is more favorably adapted to soil that is sandy and below average in fertility. Ears turn down while maturing to keep out water, and are a little longer than U36. Is a most dependable farm corn in Iowa, Minnesota, South Dakota, Nebraska and Illinois, where it has produced many record-breaking yields. May be used throughout "30" series zone and south into the "40" zone. Really an

United's Remarkable New "a" Varieties Are Heavier Yielders

These new varieties are the result of very skillful crossing of the best only from United's over 10,000 inbreds.

U37a Another of the new "a" varieties. Is a brilliant new addition to the "30" series as its striking, long ears, with small cob, are almost unbelievable in a corn of this maturity. Matures up with practically any corn in the "30" series. Has ability to give fine performance and big yields of large ears even under average field conditions. Grain golden yellow and with medium depth, produced on ears at medium height. Recommended for use on average to rich land across whole "30" series zone. If you want to get the longest and biggest ears of corn you have ever seen in this particular maturity class, plant U37a.

U32a A high yielding, fast drying variety for the "30" zone. Very corn borer-resistant. A consistent yield winner in official state tests and on farms in north central corn belt. Phenomenal on good soil; excellent on average to below average soils

outstanding variety because even when conditions are tough, it produces big yields of good corn.

40 SERIES

Matures 105 to 118 days

U40 Yields up to 110 to 115 bu. per acre on light soil and still yields well on average to heavy soil. Very drouth-resistant. Good picker, hand or machine.

U41 Sold out.

U42 Sold out.

U47 Sold out.

U49 Resistant to lodging, holds its ears well, has deep kernel and small cob. Feeds well. Often yields 120 bu. per acre on average or rich soil, irrigated or non-irrigated.

50 SERIES

Matures 116 to 125 days

U50 Stands early cold in the spring, resists insects, high winds, drouth, and still comes through with a heavy crop. Adapted to average soils.

U52 Sold out.

U57 Sold out.

U59 Available in Special Flats and Rounds Only. Adapted over wide area, doing best on almost all soil types, with yields up to 120 bu. or more. Has high lodging resistance, medium-large stalks and medium foliage. Ear height regular. Easy to pick by hand or machine.

60 SERIES

Best Earliest Hybrids

Matures 122 to 130 days

U65 This is one of United's heaviest yielders, capable of topping 130 bushels per acre. Ideal on average to rich soil. Extra 6 sp kernel.

U67 Built of inbreds from Kans., Mo., Okla., and the Ohio Valley. Ears are big, long and heavy; stalks heavy and strong below ears.

U68 Sold out.

FOR THE SOUTHWEST

U72 Sold out.

U42a Sold out.

U47a Sold out.

U50a Ears are as uniform as a single cross. Big golden ears, deep kernels. Last year, in 18 major yield tests in many different states, ranked in the top group every time, being first several times. Does well on average soil to the richest.

U62a Another new and better United number. Ears run 1 1/2" or more, grains are deep and of Reid Yellow Dent type, stalk is medium height. Shows excellent drouth, wind and insect resistance. Particularly well adapted to average rich soil. Part of parentage is Pride of Saline and Reid Yellow Dent. Good across northern half of Kansas and Missouri, southeast Nebraska, central Illinois. Look for large, showy ears if you plant this one.

U67a Available in Special Flats and Rounds only. Has the deepest kernel of any corn this side of Texas. Excellent picker. Very drouth and wind-resistant, good against insects—a rugged work horse. Good on average to practically any kind of soil.

UNITED HYBRID VARIETIES OF YELLOW CORN

Whether you are raising corn for feed or market . . . on soil sandy, clay or loam . . . on hillside or bottom land . . . there is a United Number that does the job right for you. Varieties pictured above are described at left.

THE growers of the United Hybrid Growers Association joined forces to bring together all of their inbreds, combine their research and breeding into one big organization, increase their production facilities, and thus bring to you a better hybrid seed corn.

Farmer after farmer has found that it pays him to plant a hybrid with that kind of a program behind it. You can profit too by planting United Hybrid Seed Corn.

About SPECIAL FLATS

Special Flats are graded perfectly, and so plant easily and uniformly. And a bushel of Special Flats contains more kernels of corn than Large Flats, plant 12% to 20% more acreage, save you over 50c an acre.

About ROUNDS

United's Rounds are graded to fit all standard round plates. With a round plate, they plant just as uniformly as flats. They have just the same breeding as flats, come right off the same ears, and will give you as good a crop. And they save you up to 2.50 per bu. on your seed corn.

About BLENDS

United's Blends are a scientific mixture of corns designed to lengthen the pollen season to 20 to 25 days, insuring a good set despite weather. You know what happens to a single variety corn crop when a hot, dry spell hits it during its 3- or 4-day pollinating period. Over a period of years, United's Blends will out-produce any single hybrid. They are especially recommended for marginal growing areas. And the seed costs you over 3.00 a bushel less!

Only UNITED is "Kernel-Koated"

Only United Hybrids have the famous, secret "Kernel-Koated" seed treatment that protects from seed and soilborne diseases and in addition stimulates growth of feeder roots, insures earlier germination and earlier emergence. You can cultivate 5 days earlier, often get up to 15 bu. per acre extra yield because of "Kernel-Koating" alone!

FREE CORN BOOK!

Send us a penny post card and tell us to send you your copy of United's brand new Corn Book, giving full descriptions, and full-color pictures of all United Numbers. Tells you exactly what numbers are best suited to your locality, soil type, and needs. Contains full descriptions of several important new numbers you should know about.

UNITED HYBRID PRICE LIST

AMAZING New BIN BUSTER FORMULAE

Available for 30, 40 and 50 Series Zones

As we develop new and better hybrids, we seldom have enough of the seed the first year for general sale as individual varieties. So we include the improved corns adapted to an individual area in a super blend for that area. There is enough spread of maturity to insure better pollination in hot winds or drouth conditions than a single variety would have. There is less competition among the roots for plant food or the tops for light because they feed heavy at different times. Bin Buster is made of numbers which have better survived insect and adverse weather conditions. Some of the numbers may be available as a straight number 5 years from now. You are in for pleasant surprises when you walk thru a field of Bin Buster at harvest time.

STATE NUMBERS IF YOU WANT THEM

We believe United Hybrids are years ahead and the best hybrid buy, but we have several of the state numbers if you want them. This is what we have, at prices shown in Price List above:
Iowa 306—Matures 110 to 115 days.
U. S. 13—Matures in about 120 days.
Ohio C92—Matures in about 120 days.

UNITED'S WHITE HYBRIDS

United is one of the very few producers that has developed good white hybrids. Whites often bring up to 1.00 per bushel premium over yellows.
U3—THE SILVER KING TYPE for (30 Zone). This is the early white hybrid with large ears and extremely high shelling percentage. One of the few good white hybrids for this maturity zone.
U4—Sold out
U6—For 60 zone. Very popular in Kansas

FIND YOUR UNITED NUMBER HERE. Determine in which Series Zone your farm is located. Then consider the United numbers in your Series Zone, as described above. If in doubt, please write us, telling us type of soil you have.

Henry Field Seed & Nursery Co., "MIDWEST'S LEADING SEEDHOUSE," Shenandoah, Iowa

A good lawn like this does just as much to improve the appearance of your place as trees or shrubs or a new coat of paint. It is much easier to establish a good new lawn, or keep

an old one in proper condition, if you use the proper lawn seed. Choose from this page the lawn grass seed that best fits your need—all of it is good clean seed of tested germination.

Field's Famous EVERGREEN LAWN MIX

Our most popular lawn mixture of heavy weight, weed-free seed with just the right amount of each grass in the mixture for a perfect, quick starting, permanent, green lawn. Well adapted for all soil types. Gives immediate results and contains lots of Kentucky Blue Grass seed. Now Hormone treated. 1 lb. 89c; 3 lbs. 2.60; 5 lbs. 4.15; 10 lbs. 7.95, postpaid.

BETTER
89c
POUND

Field's Famous EVERGREEN LAWN MIX

Extra heavy weight, weed-free, bright, top quality seed, cleaned and re-cleaned on special mills. A blend of best grasses with large percentage of Kentucky Blue Grass of our own harvest, for open and sunny or lightly shaded lawn. Makes a permanent turf or deep green, healthy lawn. Good on all soil types. Hormone treated. Worth the little difference in cost. 1 lb. 95c; 3 lbs. 2.75; 5 lbs. 4.45; 10 lbs. 8.75, postpaid.

BEST

NOW—All Henry Field LAWN GRASS SEED is HORMONE TREATED

Henry Field's Hormone-Treated Lawn Seed will give you a healthier, more drought-resistant, greener, more permanent lawn than untreated seed will. The hormone treatment causes more seeds to grow and makes them more resistant to "damping off" and other soilborne diseases. It promotes deeper root growth, which makes a heavier lawn more able to stand drought. And you get these advantages at no extra cost to you.

A home is only as beautiful as its lawn. The most expensive house doesn't look right with a poor lawn, and the most humble home is attractive with a good lawn. And compared with today's high building costs, the cost of a good lawn is very low. Just start with the right lawn grass seed.

BENT GRASS

For Velvety Lawns

Makes greenest, most velvety lawn of all grasses in full sun or part shade. Sow separately or mix with other seed. Spreads quickly by underground and overground root system. Used on golf greens. Only one pound needed per 500 square feet. Hormone treated. 1 lb. 1.40; 3 lbs. 4.00; 5 lbs. 6.35; 10 lbs. 12.50, postpaid.

Sun Cured Kentucky Bluegrass

Just what you need for patching up the old lawn or for starting out a new one. This is new crop Kentucky Bluegrass not a mixture of cheap grasses, but honest-to-goodness, pure Kentucky Bluegrass. It is cured right out in the sun and wind, which helps make it bright and clean. Free of noxious weeds, too. We harvest hundreds of thousands of pounds of Bluegrass each year and are able to make you a real price. Ask for lot Sun Cured Bluegrass on your order.

Special spring prices: 75c per lb.; 3 lbs. 2.00; 5 lbs. 3.15; 10 lbs. 5.90, postpaid.

Henry Field Seed & Nursery Co., "MIDWEST'S LEADING SEEDHOUSE," Shenandoah, Iowa

TIPS ON LAWN CARE

For the New Lawn

Fortunately, grass seed is not harmed by cold weather, even freezes. That means you can get the new lawn planted early, long before you can plant most flowers. And you should do so because the weeds are later and come up late. That gives the early planted lawn a chance to get going while the weeds are still sleeping. So don't hesitate to start even before all the frost has left the ground. A late thin snow even helps. Many prefer to sow on a late snow, excepting on steep terraces where the melting snow may carry the seed away.

So sow early if you can. Get the jump on the weeds, get the lawn well established before the hot, dry weather comes. Grass seed will not germinate during hot weather.

To do the job right, first work the soil. Spade it or if the area is large, have it plowed, disced or harrowed. If you are going to use fertilizer, do it now. Then rake it in as you smooth the surface.

Sow at least 1 lb. of seed per 200 square feet. Broadcast the seed by hand, or use a hand seeder. Divide the seed into two parts—sow one-half in one direction; the other half at right angles to the first. This gives more uniform coverage. Then thoroughly rake the seed into the top soil and roll to firm up the seed bed. Don't roll when the soil is too wet. Wait until the soil is free of frost, but not sticky.

Caring for Lawn

Don't mow a new lawn until the grass is 2 or 3 inches high. After that, mow only after the grass has grown at least an inch after last mowing. Don't ever mow too close. Don't mow too often in hot, dry weather. And let the grass go into the winter 2 or 3 inches high.

About watering, when you do water, do a soaking job and do it less often. If you just sprinkle a lawn, wetting only the top of the soil, the roots come up to get the moisture. That makes them susceptible to further drying out. Water deep, and the roots go down, as they should. Deep rooted grass stands more drought and more foot traffic.

Don't be afraid to water in the day time, even in full sun. Some people also think chlorine or other chemicals in water will harm a lawn. If the water is fit for human consumption, it won't hurt the lawn.

About weeds, the best insurance against them is a healthy stand of grass to crowd them out. Sowing early and mowing high also are good insurance. But if your lawn needs some help in combating weeds, try the weed killers listed on page 56 of this catalog.

Repairing Old Lawns

To thicken the grass of an old lawn, sow 1 lb. of seed for every 400 square feet. For bare spots, work the soil and sow just like for a new lawn.

There are several reasons for "bald spots" in lawns, but the most common cause is lack of moisture and fertility. The grass is starving. The cure usually is a good fertilizer, particularly one high in nitrogen. Bald spots under trees usually are caused because the grass can't compete with the tree roots for the food and water, not by the shade. Very few trees have shade so dense grass won't grow under them if the soil has proper fertility.

About Terraces and Shady Spots

If you have a terrace that is so steep that it is difficult to mow, or one where the grass washes out, consider these:

Hall's Honeysuckle. Listed on page 49 of this catalog. Will grow in full sun.

Baltic Ivy. Listed on page 49 of this catalog. This is the one to use on the shaded terrace, where it thrives. In fact, it requires shade for good growth.

Andorra Juniper Evergreen. Listed on page 42 of this catalog. It is a low, spreading evergreen that covers well and stops soil erosion. Grows well in sun or partial shade.

FIELD'S FAMOUS SPECIAL BLEND for Shady Spots

Our special purpose blend of best grasses selected to do best and give better results in dense shade. Absolutely winter hardy. Grass under trees often lacks

proper plant food so fertilize during growing season. Hormone treated. 1 lb. 95c; 3 lbs. 2.75; 5 lbs. 4.45; 10 lbs. 8.75, postpaid.

Henry Field's HARDY PERENNIALS

See Pages 66, 67 and 68 also

You ought to plant plenty of Perennials because they are low-priced and easy to plant and take little care. They come up year after year and give you blooms throughout the spring and summer and fall. And you can have a lot of fun planning color combinations because there is just no end of colors and heights available in perennials.

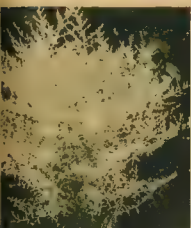

All our perennials are hardy, well grown plants, shipped to you entirely dormant and carefully packed so you receive them in perfect condition.

Lovely and Fragrant

Lily of the Valley

B2114—This long has been one of the most popular of all perennials, as well it should be. It does very well in the shade—on the north side of the house or under a large tree where it is too shady for grass and many other flowers. But it does well also in open, warmer locations. It is a comparatively small plant (about 9 or 10") with rosette of large leaves that remain glossy green all summer and form a background for the lily-like flowers. The dainty beauty and delightful fragrance of these flowers make them very popular for corsages. **2 for 65c; 3 for 89c; 5 for 1.29, postpaid.**

SILVER KING

B2205—Looks like sprinkled with silver dust. Use it for contrasts, background, hedge, etc. Hardy. Grows anywhere. 2 ft. high. Dry the foliage for winter bouquets! **39c each; 3 for 98c, postpaid.**

COHOSH

Tall Ozark Beauty
B2030—(CIMICIFUGA RACEMOSA.) Beautiful, hardy, tall growing pure white spikes of delicate lacy flowers. 4 to 5 ft. high. Likes a partly shaded location, and is particularly valuable in a damp spot where most perennials won't grow. **39c each; 3 for 98c, postpaid.**

GIANT HIBISCUS

Flowers as big as saucers. 4 to 5 ft. tall. Heavy foliage.
B2096—Red; **B2097**—White; **B2095**—Pink. **39c each; 3 for 98c, postpaid.**
B2255—1 each of above for **89c, ppd.**
B2098—New Giant Crimson Eye Hibiscus. Huge white flowers with a crimson eye. **49c each; 3 for 1.19, ppd.**

MEN and HER CHICKS

Loves Hot, Dry Place
B2093—Like tiny five-inch cactus. Likes a warm, dryish location but will grow most anywhere. Makes a colony several feet across in a few years. Does well in cracks or crevices of rockeries. Each hen rolls off several chicks each year. **39c each; 3 for 98c, ppd.**

MALTESE CROSS or SCARLET LIGHTNING

B2127—(Lychnis Chalcedonia.) Grows two to three feet high with large phlox-like heads of the most brilliant scarlet flowers imaginable. A good hardy perennial. **39c each; 3 for 98c, postpaid.**

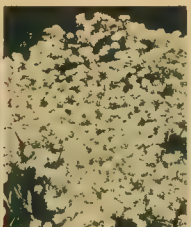

PINCUSHION CARNATION

B2154—(Tiny Rubies.) A grand new little carnation that makes a solid pincushion of blue-green, needle-like leaves and tiny, bright pink-colored double little carnation blossoms. Fragrant, too. **49c each; 2 for 89c; 3 for 1.19, postpaid.**

Chinese LANTERN PLANT

B2028—Huge scarlet pods like lanterns. Cut them when they are bright orange scarlet in the fall for brilliant, lasting winter bouquets. **39c each; 3 for 98c, postpaid.**

CANDYTUFT

B2026—So many people admired the beautiful Snowflake variety blooming last spring in the garden between the Seedhouse and Henry's home that we just had to have it—so here it is. **49c each; 2 for 89c; 3 for 1.19, postpaid.**

FORGET-ME-NOT

B2076—PINK BEAUTY. All of you have seen the ordinary blue Forget-Me-Not, but have any of you seen a real pink one? Clusters of large bright pink flowers borne all summer. Give it moisture and partial shade. **49c each; 3 for 1.19, postpaid.**

FRAGRANT PINKS

The Dainty Dazzlers
B2155—Grass Pinks or Clove Pinks. The old-fashioned beauty. Continuous pink bloom all summer long. Very fragrant. **39c each; 3 for 98c, postpaid.**

True Perennial FOX GLOVES

B2078—This is the true perennial type Ambigua. Lovely soft yellow blooms flecked with chocolate. Looks like a hothouse-grown plant. Blooms all summer. **39c each; 3 for 98c, postpaid.**

LOOSESTRIFE

(Lythrum, the Beacon)
B2116—Produces 12 or more upright spikes of clear rosy red all summer. Grows anywhere, wet or dry. Comes from England. Big heavy clumps. **49c each; 2 for 89c; 3 for 1.19, postpaid.**

GIANT FERNS

GIANT FERN COLLECTION

B3261X
1 Maiden Hair
1 Ostrich Plume
1 Sword Fern
All 3 for only **89c, postpaid.**

Especially good in those cool, shady "Problem" Spots

Ferns do well on the north side of the house or under trees—very useful for those cool, shady spots where grass and flowers won't do well. They make excellent background plantings and add a luxuriant, tropical-appearing atmosphere. **Prices: 39c each; 3 for 98c, ppd.**

B2070—**MAIDEN HAIR.** Lacy leaved.

B2071—**OSTRICH PLUME.** Heavy and luxuriant.

All 5 Ferns for 1.49

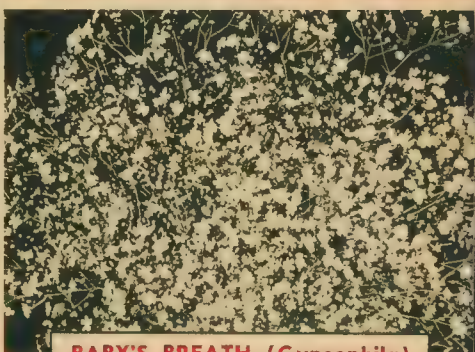

1 each of all the above 5 ferns. **1.49 ppd.** No. B3277X

B2072—**HARDY SWORD or CHRISTMAS FERN.** Prettiest of all. (Illustrated above.)

B2067—**CINNAMON FERN.** A handsome and easily grown fern doing well in ordinary garden soil. Fronds grow to 4' tall. Prefers peaty soil, much water, and good drainage.
B2068—**LADY FERN.** (Asplenium). Does well in moist, rich soil, sun or shade. One of the best finely cut ferns. 2 feet.

SWORD FERN

BABY'S BREATH (Gypsophila)

Wonderful for Trimming a bouquet

B2013—Bristol Fairy Double. Finest new improved double. Blooms all summer if you cut it. Pure white. **65c each; 2 for 1.19, postpaid.**

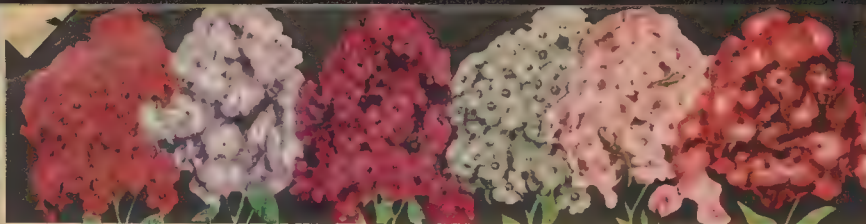

B2015—Single. Old favorite for bouquets and gardens. **39c**

each; 3 for 98c, postpaid.

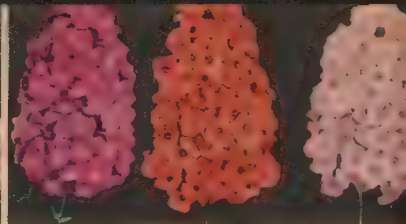

B2014—New Pink. A lovely late blooming pink. You'll love it. **39c each; 3 for 98c, postpaid.**

COREOPSIS

Henry Field's HARDY PHLOX

B1601—AFRICA. This one has clusters of the brightest scarlet flowers.

B1660—ROSY BLUE. New soft blue, tinted with rose. Has huge flowers.

B1607—B. COMPTE. One of the deepest colored of all Phlox.

Prices on each of the above 6 varieties is 39c each; 3 for 98c, postpaid.

B1641—MARY LOUISE. Pure shiny white. A very free bloomer.

B1610—DAILY SKETCH. One of the largest and best of the pinkas.

B1613—EVA FORESTER. One of the largest flowered of all. Better salmon color than the picture shows.

Prices on each of the above 6 varieties is 39c each; 3 for 98c, postpaid.

B1600—AMERICAN BEAUTY. This is a beautiful, deep rose-pink—all that the name implies.

B1665—SPITFIRE. A brilliant orange-scarlet that stands out like a beacon light.

B1640—MIES COPYJN. A Dutch Phlox of gorgeous silvery pink.

Prices on each of the above 3 varieties is 49c each; 3 for 1.19, ppd.

Big 12 Phlox Bargain

B3210X—1 each of all the Phlox included in collections B3201X and B3202X on page 66—12 Phlox for 3.69, postpaid.

Phlox grow about 18 to 36" high, depending upon the soil. They like full sun, but will do well in partial shade. The pastel pinks and blues really look better in partial shade where the sun won't fade them. Phlox bloom in Aug. and Sept. They

are perfectly hardy. Do well in any ordinary garden soil. It is well to cut the flowers and not let the plants go to seed as Phlox seedlings almost always are of a muddy magenta color, and being very vigorous, crowd out your good varieties.

B1655—PURPLE SWEETHEART. A brand new deep purple.

B1637—LILLIAN. Soft cameo pink. The very best of the pinkas.

B1636—LEO SCHLAE. The largest one of the brilliant crimson.

Prices on each of the above 6 varieties is 45c each; 3 for 1.15, postpaid.

B1656—PRIME MINISTERS. Pure white with a bright red eye.

B1663—SALMON GLOW. The very best of all the salmon Phlox.

B1605—BLUETTE. Has huge flowers. New. Never turns objectionable purple as some blues do.

B1606—BORDER QUEEN. Has solid, compact flower heads of rich, deep pink.

B1669—WORLD PEACE. A new and beautiful white. Flowers large, and masses of them. Probably the best of all whites.

B1666—STARLIGHT. Not new but there is no other Phlox like it. One of the most beautiful of all Phlox varieties.

Prices on each of the above 3 varieties is 49c each; 3 for 1.19, ppd.

BLUE AGERATUM

2001—Masses of blue from August to October. Will bloom in partial shade or full sun. A favorite, easy-to-grow flower. We like in bouquets. 49c each; 3 for 1.19, postpaid.

PURPLE BELLFLOWER

B2016—Mrs. Helen Field Fischer. Henry's sister, has grown this for years and our first plants came from her. It is called Campanula Glomerata Superba for such a pretty plant. Makes clump about 18" across and high. Clusters of bell-shaped flowers in May. Lives for years. Hardy. 45c each; 3 for 1.19, postpaid.

CORNFLOWER ASTER

B2032—BLUE MOON. One of the newest and largest flowered perennials. 5 to 6" flowers on stiff stems 12-18" long. Perfectly hardy; no insects bother. Blooms all summer. We don't know when we've ever put a better perennial in our catalog. 39c each; 3 for 98c, postpaid.

CREeping PHLOX

(Phlox subulata) Sometimes Called Moss Pink

Masses of tiny, green, moss-like foliage that stay green all winter. In the spring it is covered with a blanket of bright-colored flowers. Thrives in full sun or partial shade.

B1673—Brilliant Red. The new bright red. One of the best varieties.

B1674—Emerald Gem. The brand new improvement on the old pink variety. Foliage is a bright emerald green that is beautiful in itself

and the sheets of blooms are clear bright pink.

B1672—Blue Fairy. Reddish green foliage under great masses of light blue flowers.

B1675—Snow Maiden. Daintiest of all. Finer foliage than the rest and snowflake-like wheel-shaped flowers.

Prices on above: 39c each; 3 for 98c.

B3210X—Collection of Creeping Phlox. 1 each of above 4 for 1.10, ppd.

LIATRIS

B2113—"Septem-Blooming Star." All spikes 3 to 4 long (in good round ft.) set with solid tufts of brilliant purple flowers. 49c each; 3 for 1.19, postpaid.

B2112—New Holland Liatris. Just reported this one is more intense purple; blooms in June. Good companion to above. 49c each; 3 for 1.19, postpaid.

SEA LAVENDER

B2197—This is Statice latifolia, grown for its lovely lavender flowers. Lovely all summer and beautiful in dried bouquets throughout the winter. Entirely hardy. Do not confuse this with the low creeping kind that spreads all over the garden. Absolutely hardy. 39c each; 3 for 98c, postpaid.

MERTENSIA

Virginia Bluebell B2128—These are the lovely hardy bluebells that come so early in the spring. Will bloom anywhere, even on north side. Full sun, too. 2 for 49c; 5 for 1.00; 10 for 1.99, ppd.

Hardy Snopdragons

B2219—LINARIA. Beautiful hardy yellow snapdragons. Medium tall, easy to grow and so lovely. Buy at least three. We have grown and sold these plants for years and never had any let-up in the orders for them. 39c each; 3 for 98c, ppd.

BLUE FLAX

B2075—Plant Flax if you want grey foliage with blue flowers in your border. One of our most lovely, daintiest and easiest grown perennials. Fresh blooms every morning. 39c each; 3 for 98c, postpaid.

Tall, Stately RUSSELL LUPINES

B2119—Lupines have beautiful sweet pea-like flowers with very long stems, 3 feet. They bloom from June until August with flowers of any color of the rainbow. Flowers have two distinct colors, making gorgeous color combinations. 39c each; 3 for 98c, ppd.

CARMON DAISY

B2034—(RUD. BECKIA KING) Great, crimson stems 3 ft. or more tall. A grand cut flower. Exceedingly hardy. Long lived. Very scarce. 59c each; 3 for 1.49, postpaid.

PAINTED DAISIES

B327X—2 each Pink Beauty and Ad. Giant. 8 in. for 1.69, ppd.

OZARK COBEA

B2162 (Penstemon grandiflorus) Extremely hardy. Blooms are very large, purple with dots and splashes of darker color. 20 to 30 in. Very free-blooming. 40c each; 3 for 1.00; 12 for 3.50, ppd.

Hardy Bachelor's Button

These plants will grow in almost any soil. Are really hardy and have larger flowers.
B2018—BLUE. Giant clear blue 2 ft. flowers. 39c each; 3 for 98c, ppd.
B2019—Pink. 2 ft. high with 5" flowers. Either of 3 for 98c, ppd.
B3256X—2 each Blue and Pink for only 1.10 postpaid.

SWEET WILLIAM

B2250—Purple Beauty Brilliant Red
B2251—Newport Pink Brilliant Red
B2248—MIXED—All Colors
B2247—DWARF. All colors. Grows only 4" high with flowers big as ordinary Sweet William. 39c each; 3 for 98c, ppd.
B3274X—1 each of Purple Beauty, Brilliant Red, Newport Pink and Dwarf for only 1.10, postpaid.

BALLOON FLOWER

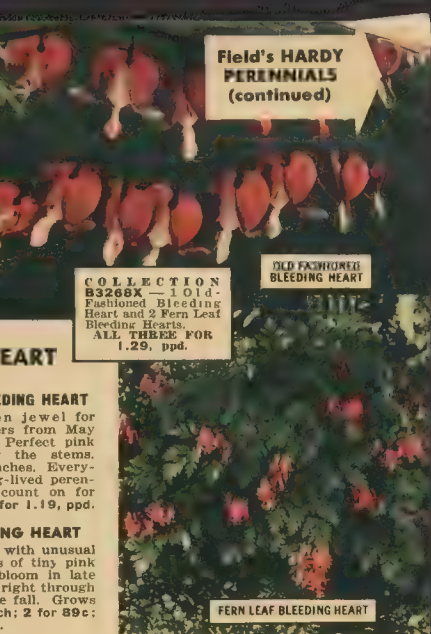

B2005—BRAND NEW SHELL PINK. New Balloon Flower or Platycodon that reproduces itself in a true shell pink. Blooms ALL SUMMER LONG. 39c each; 2 for 98c, ppd.
B2004—BLUE—"Old Favorite" Balloons of rich blue burst into single blooms and look like stars! 39c each; 3 for 98c, postpaid.

VERBENAS

All hardy Verbenas require a protection of mulch in the northern states.
B2265—A rose-magenta flowered trailer. A mass of blooms in May and June. 39c each; 3 for 98c, ppd.

HARDY COREOPSIS

B2031—GIANT DOUBLE. The new double golden Coreopsis has a mum center. Bloom freely all summer. Require no care. Field-grown plants. 39c ea.; 3 for 98c, postpaid.

Field's HARDY PERENNIALS (continued)

COLLECTION B3266X—1014—Fashioned Bleeding Heart and 2 Fern Leaf Bleeding Heart. ALL THREE FOR 1.29, ppd.

OLD FASHIONED BLEEDING HEART

BLEEDING HEART

Old-Fashioned BLEEDING HEART

B2010—The garden jewel for many years. Flowers from May until last of June. Perfect pink hearts hang along the stems. Grows to about 30 inches. Everyone loves it. A long-lived perennial that you can count on for years. 69c each; 2 for 1.19, ppd.

Fern Leaf BLEEDING HEART

B2009—This is one with unusual fern foliage and lots of tiny pink hearts. Begins to bloom in late spring and keeps on right through the summer into the fall. Grows 12-18" high. 49c each; 2 for 89c; 3 for 1.19, postpaid.

FERN LEAF BLEEDING HEART

Henry Field's Famous GREEN THUMB Collection of HARDY PERENNIALS

These are hardy, never-fail, sure growers; that's why we call this our "Green Thumb" Collection. Just be reasonably careful how you plant them, see that they get moisture once in a while, and you will have a beautiful flower garden, with plenty for cutting, too. These are big, ready-to-bloom plants, worth at least 35c each. And we're throwing in the "Hen and Chicks" free.

1 PINK IRIS Dogrose, an Iris just the color of the wild dogrose—beautiful, clear pink.

1 Fern Leaf Bleeding Heart Light green ferny leaves and with pink heart-shaped flowers that hang gracefully along the stems.

1 RED PHLOX Brilliant. One of the reddest of the red.

1 RED CUSHION MUM Makes a plant 2 ft. across and 2 ft. high just covered with brilliant red double mums.

1 Famous REGAL LILY One of the most beautiful of the lilies and good and hardy, too.

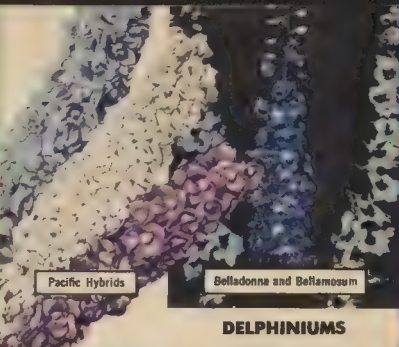

FREE GIFT Hen and Chicks One big hen plant that will soon hatch a batch of chicks.

HOLLYHOCK COLLECTION. B3263X—

1 each of the above 6 for only 1.69, ppd.

HARDY ZINNIA

"It Blooms Year After Year"

12295—(Helianthus Loddon Gold.) This is one of the finest new perennials we've seen in a long time. 4 to 6" golden-yellow double flowers exactly like big Zinnias scattered over a bushy plant that grows 4 to 5 ft. high. Golden blossoms show up beautifully against the rich green of the heart-shaped leaves. Everyone who sees it wants it. Blooms from August to freezing time. Price: 52c each; 2 for 1.00; 5 for 2.39, postpaid.

YUCCA

(Candles of the Lord)

B2285—Red. Tall waxy spikes growing above sword-like foliage. Grows under trees. Thrives in hot, dry locations. Blooms over long period. 89c each; 2 for 1.19, postpaid.

B2286—White. 39c ea.; 3 for 98c, postpaid.

B3264X—1 red and 2 whites for 1.29, ppd.

COLUMBINE

B2027—MRS. SCOTT ELLIOTT. (Long Spurred Aquilegia.) Blooms May and June. Early, dainty pastel colored. These are the giant type with extra long spurs. 39c each; 3 for 98c; 5 for 1.39, postpaid.

NOW COLUMBINE BY COLOR

The large-flowering, named varieties now give you a chance to buy just the Columbine color you want.

B2028—CHRYSANTHA, deep yellow.
B2029—MILK QUEEN, white.
B2033—CRIMSON STAR, brilliant red. 39c each; 3 for 98c; 5 for 1.29, postpaid.

COLUMBINE COLLECTION—B3264X— 3 Scott Elliott Mixed, 1 Chrysantha, 1 Milk Queen, 1 Crimson Star. All 6 for 1.55, ppd.

MISSOURI PRIMROSE

B2131—This is a low, semi-trailing plant that grows only about 6 or 8 inches high but has gorgeous lemon-yellow blossoms as large as teacups, and it blooms daily all summer. Does well anywhere. Actually prefers it hot and dry. Henry was delighted with this plant and always grew a lot of them at his place in the Ozarks. In fact, our stock comes from there. 39c each; 3 for 98c, postpaid.

CANTERBURY BELLS

GIANT BELLS—So lovely they should be in every garden! 2 to 3 ft. high with large cups and saucers all up and down the tall stalk.

B2023—BLUE; B2024—PINK; B2025—WHITE. 39c each; 3 for 98c, ppd.

B3263X—Canterbury Bells. Coll. 2 Blue, 2 Pink, 2 White. All for 1.69, ppd.

CUSHION ASTERS

These showy plants, illustrated at far left, are a lot like Cushion Mums in growth and habit. Need full sun for proper flowering and will give you a mass of late summer and early fall blooms in shades of best or along your walks and drives.

3 New Ones

B1013—LITTLE RED BOY. Makes a compact plant about 18 inches tall and 2 feet across. Covers itself completely with a mass of small, star-like flowers of brilliant red. Blooms from early September until early October. 58c each; 3 for 1.49, postpaid.

B1014—HORIZON. Blooms from early September until early October. 58c each; 3 for 1.49, postpaid.

B1015—PACIFIC AMARANTH. Has flowers of a beautiful delicate blue and grows from 12 to 15 inches tall. 49c each; 3 for 1.29, postpaid.

Broad New Cushion

Aster Collection

1 Pacific Amaranth

1 Pacific Horizon

1 Little Red Boy

B3003X—All three for only 1.39, postpaid.

Hardy ASTERS

B1003—BLUE PLUME.

The deepest blue Hardy Aster we know of. A mass of large double blossoms in Sept. and early Oct. Fine for cutting. Very showy. 49c each; 3 for 1.29, ppd.

B1036—VIOLETTA.

Deep, violet purple. Grows into a rounded bush about 2 ft. high and wide. During September completely covered with semi-double flowers. 49c each; 3 for 1.29, postpaid.

B1008—HARRINGTON'S PINK.

The first truly pink Aster, deep, clear pink 4 ft. tall with bold heads of bloom. This is an American Aster. Lives for years and increases in beauty each year. 49c each; 3 for 1.29, postpaid.

B1024—PROSPERITY. A fine new Aster whose large deep rosy pink flowers form great wavy masses on the plants about 3 ft. high in Sept. and October. 55c each; 3 for 1.49, postpaid.

B1002—BEECHWOOD CHALLENGER. One of the best of all Hardy Red Asters. Grows up to 3 ft. Brilliant and beautiful. An English variety.

B1015—MT. EVEREST. Finest and best white. Tall, well shaped, pointed pyramids 3 to 4 ft. high with flowers right down to the ground. Flowers are large and glistening like a bank of new snow in the sun. 39c each; 3 for 98c, ppd.

B1022—PEACE. The color of this one is bright lavender. 45c each; 3 for 1.69, ppd.

B1023—PLENTY. This one has blue flowers with petals spoon-shaped giving it a distinctive beauty. 66c each; 3 for 1.69, postpaid.

B3000X—A collection of Peace and Plenty—2 of each, 4 plants in all, for only 2.19, postpaid.

49c each; 3 for 1.29, postpaid.

B1015—MT. EVEREST. Finest and best white. Tall, well shaped, pointed pyramids 3 to 4 ft. high with flowers right down to the ground. Flowers are large and glistening like a bank of new snow in the sun. 39c each; 3 for 98c, ppd.

B1022—PEACE. The color of this one is bright lavender. 45c each; 3 for 1.69, ppd.

B1261—SOLDI. MAHOAGANY (J. Saxe). A very large, deep ruby-red. It is translucent and glowing. It is very popular. About the color of a piece of finely colored mahogany. 1.49 each; 3 for 3.98.

Gorgeous Beauties Collection

B3068X—1 each of Solid Mahogany, Blue Shimmer, Amitola, Jake and Ola Kala. All 5 for only 3.98

RED and PINK IRIS

Red is the scarcest iris color. Everybody likes them, so we grow as many Red and Pink varieties as we can find that are good. Illustrated at left:

B1386—RED ORCHID. The best red. 89c each. 50c each; 3 for 1.39.

B1380—HELEN FIELD FISHER. Named for sister of Helen Field. 75c each; 3 for 1.79.

B1345—GARDEN MAGIC. One of the better reds. 75c each; 3 for 1.79.

B1373—MILBERRY ROME. Considered by authorities one of the most unusual new colors of the iris. 98c each; 3 for 2.69.

B1389—NONATINE. Originated by Tompkins of Sioux City. 1.98 each.

B1372—MELANIE. Tall stems; large blooms of wonderful substance. No. 88 of "100 Most Popular." 49c each; 3 for 1.19.

B1380—PINK CAMRO. No. 20 of the "100 Most Popular." One of the famous flamingo pink line. A new conception of what a pink can be. We think this is the best pink we have ever seen. Supply limited. First come, first served. 2.98 each; 3 for 7.50.

The following are not pictured but because we did not have the room to picture them:

B1395—TEA ROME. Deep

Choice Red and Pink Iris

B3069X—1 each of Red Orchid, Helen Field Fisher, Garden Magic, Harriet Thoreau, Tea Rose, all 5 for 3.69.

shade of mallow-pink with copper shading. Perfect form. A beauty. 1.25 each; 3 for 3.19.

B1330—COURTIER. One of the famous flamingo pinks from the garden of David Hall. One of the deepest colored with a full, bright tangerine beard. 2.98 each.

B1388—PINK LACE. This is one of Saxe's newest pinks. A descendant of Flora Zennu with the "faded look" shade of pink and accompanying tangerine beard. 1.98 each.

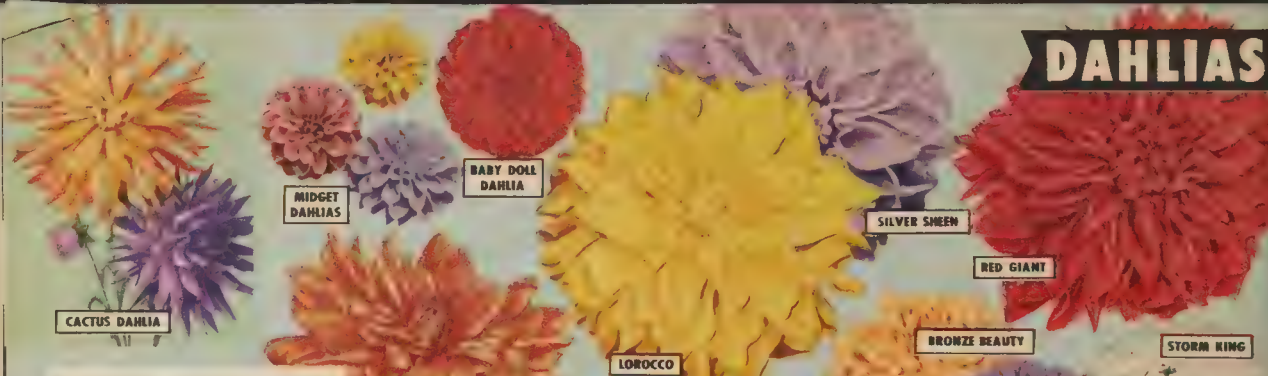

B1349—HARRIET THOREAU. A recent, very large flowered variety. One of the very finest iris of its color. Many blossoms. 89c each; 3 for 2.39.

B1338—EROS. Very fine flamingo pink. 49c each; 3 for 1.19.

B1250—INDIAN HILLS. Rich, deep purple. Very large flowers. 39c each; 3 for 98c.

HYBRID CENTIFOLIUM LILY

ESTATE LILY

CACTUS DAHLIAS

Get their names from their queerly shaped petals. Attractive and decorative.

BG115—ANDREAS ORANGE—Amber orange. A beauty.

BG99—COMMENTER—Tan. Something new in color.

BG114—REGALIA—Beautiful purple. Extra good.

BG111—PEACHES—Peach pink.

BG103—JERSEY'S DAINTY—Pure white. 45c each. Any 3 for 1.19, postpaid.

BG542X—1 each of all 5 Cactus Dahlias for 1.55, postpaid.

MIDGET DAHLIAS

Usually called miniature dahlias. Just like large decorative except small. Wonderful for bedding and bouquets. Loads of 2 to 3 in. blooms.

BG45—SYLVIA—Cherry red.

BG46—FAIRY—Beautiful pink.

BG47—CORINNA—Deep yellow.

BG48—PRINCESS ALBA—Fine white.

BG49—ORCHID LADY—Orchid lavender.

Your choice: 35c each or 3 for 1.00, postpaid.

BG531X—1 each of all 5 MIDGET DAHLIAS for 1.39, postpaid.

BABY DOLL DAHLIAS

Just like big "Show Type" dahlias, only small. Perfect in the garden and as cut flowers.

BG55—DARKSOME—Dark maroon.

BG56—MORNING MIST—White and lavender.

BG57—ROSA WILMOUTH—Pink.

BG58—SUNBEAM—Red with yellow base.

BG59—YELLOW GEM—Clear butter yellow.

40c each. Any 3 for 1.00, postpaid.

BG544X—1 each of Red Shaggy, Loroocco, and Victory—all 3 for only 1.29, postpaid.

ARISTOCRAT DAHLIAS

Finest of All

These are the very finest of the Dahlia world. Truly outstanding because of their huge breath-taking size, vivid coloring and abundant bloom. Are always the envy of the entire neighborhood.

BG167—RED GIANT. Deep red and big. Extra good. One blossom makes a bouquet.

BG172—SILVER SHEEN. White, lightly edged and flushed with lavender. Large flowers.

BG165—PINK RUF.

4 ARISTOCRAT DAHLIAS

BG554X—1 each of 4 above 4. **218** postpaid

FLES. Shell-pink. Ruffled petals. Large flowers on long stems.

BG137—THE COMMODORE. Light lemon-yellow. Very large. 75c ea. 2 for 1.29, postpaid.

Dahlias Are Easy to Grow

Plant Dahlia tubers after the soil warms up (corn planting time). Set them about five inches deep, space three feet apart. When the third set of leaves appears, pinch off the top. This encourages branching and will make a well-balanced, bushy plant. Dahlias like full sun, rich, well-drained soil, and just ordinary "potato" care.

RAINBOW DAHLIA COLLECTION

BG559X—Seems like bread and jam never come out even, and we never grow just the right number of a variety. Always seem to come out long on some. These "surplus" kinds go into the Rainbow Collection. You get mixed colors and kinds. All are large, first-quality roots and are guaranteed to please you. Here's where you get a lot for your money! Collection of 4 for 98c; 2 Collections for 1.75, postpaid.

BALL DAHLIAS

A favorite with all Dahlia fans. The flowers are as perfect as if made by most accurate machine.

BG75—YELLOW DUKES. Bright yellow. Free blooming and attractive.

BG81—BRONZE BEAUTY. Rich amber shaded with apricot.

BG76—LAVONI. Clear pink. The most delicate and finest of all.

BG82—CHIEF RED-N-WHITE. Bright red tipped with white.

BG83—PURPLE BALL. A rare color and a wonderful bloomer.

BG84—STORM KING. White. A very popular cut flower. 45c each. Any 3 for 1.10.

BG536X

1 each all 6 Ball Dahlias for 1.75, postpaid.

GIANT CANNAS

BG22—THE PRESIDENT—Cherry red flowers; rich green foliage. 4 ft.

BG26—RED KING HUBERT—Orange-scarlet flowers; coppery bronze foliage. 4 ft.

BG28—YELLOW KING HUBERT—Large yellow flowers, heavily flecked with red. Green foliage. ½ ft.

BG20—PINK GIANT—Bright salmon-rose flowers. Green foliage. 4 ft.

BG29—HUNGARIA—The very best pink. Green foliage. 3½ ft.

BG33—SHENANDOAH—Large flowered. Dark pink. Bronze foliage. 4 ft.

BG21—FLORENCE VAUGHAN—Finest of all yellows. Faint red dots. Green foliage. 4 ft.

BG19—KING MIDAS—Clear bright yellow. Blooms till frost. Green foliage 4 ft.

GIANT CANNA OFFER

BG504X—1 of each listed above 8 for 1.25
2 COLLECTIONS—16 CANNAS. 1.98
(For varieties separately labeled, add 10c per collection.)

Henry Field's RAINBOW CANNA BARGAIN

6 for 88c 24 for 2.85

12 GIANT CANNAS
POSTPAID—ONLY 1.55

Here's a grand and glorious rainbow of all colors known to cannas. Includes reds, pinks, whites, yellows, scarlets and in-between shades. Giant roots, guaranteed to please you. Yes, and it's postpaid, too.

5-Foot Bed

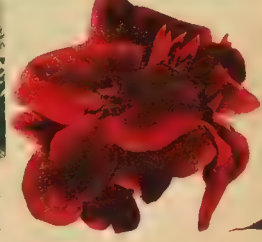

BG506X—A five-foot cannula bed including 3 tall ones for the center, 9 shorter ones for outside. Labeled so you can tell which is which.

12 CANNAS POSTPAID, FOR 1.29.

7-Foot Bed

BG507X—A seven-foot cannula bed, 8 medium tall ones for the center, 12 shorter ones for outside. Both varieties labeled, so you know how to set them.

20 CANNAS POSTPAID, FOR 2.19.

DAZZLER

BG18—A new one that you can see clear across the garden because of its vivid, blood red flowers. Dark green foliage. Truly a rare one. Grows 4½ ft. tall. 49c each; 2 for 79c, ppd.

Henry Field's LILIES Are the World's Finest

At the left picture, and below we describe, 3 new outstanding lilies. These are from a group of lilies dating from more than 15 years of patient crossing by Mr. Carleton Yerex in the Pacific Northwest.

We have visited Mr. Yerex's place on several occasions and the lilies he has there are astounding. We first planted some of the bulbs of these lilies here in Shenandoah in the fall of 1949, and have planted them regularly since. The blooms in our fields were gorgeous to behold. We find them perfectly hardy and easier to grow than any other plant. Some were on stems higher than our head. They are far superior in color andauty to any other lilies. We will have more varieties these for you in the future.

YELLOW TRUMPET AURELIAN

BG37—These lilies are from the same seedling strain the spike of blooms that won the Griffith Cup and a Sweepstakes Award at the 1950 National Lily Show. Seedlings from this same strain won "Awards of Merit" the 1951 national show. Grows much like Regal Lily, but stronger stems, larger flowers with beautiful shades of clear yellow and apricot. 2.25 each; 3 for 25, ppd. Our supply is limited.

New MEI LING

BG17—This is about the only hybrid Lily of Carleton Yerex that has been named as yet. As you can see by a picture, it is a beautiful thing. The flowers are 4 to 6" across, pure white with a bright golden center. Wonderful cut flowers and for making corsages beautiful as orchids. 1.98 each; 3 for 5.49, ppd.

AURELIAN HYBRIDS

BG00—Wide, flaring trumpet lilies in beautiful combinations of colors, including gorgeous sunburst effects. Flowers are all 6" or more across (make beautiful corsages) and, as the plants grow older, they form magnificent clumps of beautiful flowers. Plant 6" deep. 98c each; 3 for 5.49, postpaid.

FLAME LILY

BG01—(Red Russian). One of the earliest of all garden lilies to grow. Does well where cold or hot, in good soil or poor soil, as long as it has some sunshine. Large clusters of blooms. Plant 6 to 8 inches deep. 35c each; 3 for 90c; 9 for 1.29, postpaid.

PINK SHOW LILY

BG030—Lilium speciosum rubrum. One of the most beautiful of all lilies. Very hardy. Will grow just about anywhere. Plant 7 to 8 in. deep. 75c each; 3 for 1.98, ppd.

BG029—Improved Show Lily. We have only a few bulbs available from the West Coast of this variety. Flowers later than regular Show Lily with larger and deeper colored blooms. A wonderful Lily 1.50 each; 3 for 3.98.

CORAL LILY

BG005—(Tensulifolium). The most brilliant. Narrow-leaved, slender-growing Lily from Siberia. Many deep scarlet, wax-on recurved flowers on each plant. Grows in poorest soil. Plant 4 to 6 in. deep. 25c each; 3 for 79c; 5 for 1.19, ppd.

REGAL LILY

BG027—America's favorite hardy Lily. Large pure white flowers tinged lightly with lilac outside and yellow inside. 10 or more blooms per stem. Plant 7 to 8 in. deep. 35c each; 3 for 79c; 5 for 1.19, ppd.

SUNSET LILY

BG031—A magnificent Lily from California and Oregon. Has 12 to 20 large, recurved, brilliantly colored flowers on 4- to 6-ft. stems. Grows well in good loam. Will thrive in light shade or full sunshine. Likes moisture but not wet feet. Does not like lime. We highly recommend this splendid Lily. Plant 5" deep. 49c each; 2 for 89c; 5 for 1.98, postpaid.

New Rainbow Hybrid LILIES

These are big, brilliantly-colored, new hybrids from the west coast. Not only are they gorgeous but, since they have a lot of Red Russian parentage in them, they are one of the most fool-proof, absolutely hardy lilies we know of. Grow anywhere. Run from palest straw yellow to deepest gold with lots of maroons and deep reds—and sometimes, with all these colors in one blossom. Long, tall stems. The best part is we don't have to sell them for \$4 or \$5 apiece. These are our low prices: **BG028**—59c each; 3 for 1.49; 6 for 2.25, ppd.

BEAUTIFUL LILY Collection

1 Rainbow Hybrid
1 Gold Banded
1 Pink Show Lily
1 Henry
All 4 for only

239 ppd.

CENTIFOLIUM HYBRID LILY

B5004—Gets 6 to 8' high with 50 or more blossoms crowning top. Flowers pure white with reverse of petals pink, emerald green, or brown. Very hardy; deep rooted; stand severe drouth. Plant 6" deep. 59c each; 3 for 1.49, postpaid.

ESTATE LILY

The Outdoor Easter Lily

B5010—Now you can grow "Easter Lilies" in your own back yard. A true type, long trumpet Lily with flowers as delicate and wonderful and fragrant as \$3.00 to \$5.00 greenhouse grown ones. Plant this spring and have blooms this summer and year in and year out hereafter. Grows 2½ to 3 feet tall when established. 49c each; 2 for 89c; 5 for 2.10, postpaid.

ARISTOCRAT GLADS

HAROLD K., the Super Glad

BG206—It's new and it's huge! The largest and best deep scarlet Gladiolus we have ever seen. Six or seven blooms open at once with seven or eight showing color. Flowers have a heavy, velvety texture. Stands heat very well. 65c each; 3 for 1.50, postpaid.

NEW Imported JAPANESE MUMS

We couldn't pay them in dollars for these Mums so we traded nursery stock for nursery stock. These Mums are very unusual.

B1455—SAMIDARE. Rose pink, with red center. Double flowers 1½ in. across; loads of blooms.

B1431—MAKEUP. Very double, clear shell-pink with a darker pink center. A beautiful cut flower. Blooms 1½ in. across.

B1456—SILVER BELL. Very early. 2 to 3 ft. tall, flowers 2 in. across, semi-double with golden center. Petals cream white. Just a mass of bloom.

Prices on the above 69c each; 3 for 1.89, postpaid.

B3105X—We doubt if these could be bought anywhere else in the United States. 1 each, Samidare, Makeup and Silver Bell for 1.75, postpaid.

1 Each of These 3 Cushion Mums

B3106X—A real money-saver. 1 each of the 6 pictured here for only 1.98, ppd.

FREE GIFT: 1 Cushion Mum "Brighter Days"—clear, pale sulphur-yellow.

\$198

RAINBOW GLADS

Henry Field's GLADIOLUS

ARISTOCRAT GLADS

The Queen of Flowers

POSTPAID PRICES on the Rainbow Glads described in the six columns of type immediately below:

5 for 59c 10 for 98c 25 for 2.10 50 for 3.57

Each of these comes labeled as to variety.

Reds

BG364—RED CHARM. Outstanding medium red. Profuse bloomer.

BG207—MRS. JOHN KONYENBURG. Large garnet red. A sturdy grower. Sure to please.

BG355—BLAZE. Bright fiery red. Striking and outstanding.

BG362—BURMA. Large, heavily ruffled rose red. This one stops the visitors every time.

Pinks

BG348—ETHEL C. COLE. Pure light pink. Big, strong, early bloomer.

BG313—PEGGY LOU. Large blossoms of clear pink. A sister to the famous Pearly.

BG351—CORONA. Creamy white with rose picotee edge. Almost too delicate to be pink.

BG300—BEAUTY'S BLUSH. Large, tall blush pink. A new one worth knowing.

Whites

BG231—MARGARET BEATON. Snow white with orange-red throat. The contrasting orange, red and white puts this one in a class by itself.

BG350—WHITE GOLD. Large, light cream shading to cream throat. We like this one very much.

BG239—SNOW PRINCESS. Large, pure white and cream. Grows tall. Florists say this is always in great demand.

BG233—JUNE BELLS. Fine pure white. Excellent quality. Standard for cut flower growers.

Blues and Lavenders

BG339—PURPLE SUPREME. A clear, uniform deep purple. Tall. Many florists open at once. It heads our list of purples.

BG342—LAVENDER RUFFLES. Early lavender-pink with white throat. Very ruffled. You'll not go wrong with this one.

BG345—ELIZABETH THE QUEEN. Large ruffled, light lavender. Truly a queen in every sense of the word.

BG333—POET'S DREAM. Ruffled lavender with creamy throat. Fine cut flower. Blends with all surroundings.

Oranges and Yellows

BG251—AUTUMN GOLD. Richly colored golden yellow. Blooms late.

BG265—GRATITUDE. Salmon-orange with yellow throat. Ruffled. An unusual shade.

BG266—OREGON GOLD. Ruffled yellow with deeper throat. Late. A big rugged grower.

BG267—YELLOW PERFECTION. Outstanding deep yellow. Another newcomer that is bigger and better.

Smokies

BG272—BAGDAD. Giant smoky old rose. Late. As interesting as a Persian carpet.

BG270—VAGABOND PRINCE. An unusual garnet brown; scarlet blotch on lower lip. Words can't do justice. You must see it.

BG277—HIGH FINANCE. Smoky light gray tinged orange. Slightly ruffled.

BG274—BUCKEYE BRONZE. Large rosy bronze. Very popular and very different.

After carefully judging dozens of the newer glads, we have picked these six as the finest we have seen. All are large, lovely varieties:

BG334—Ravel. Violet blue with reddish brown markings. Tall. Heavy texture.

BG234—Florence Nightingale. Fine new white. Very tall and straight. Ruffled.

BG306—Spic and Span. Huge flowers of ruffled salmon pink. A prize winner.

BG268—Yellow Herald. A rich yellow, slightly ruffled. Strong, healthy grower.

BG205—Harry Hopkins. Large deep red with slight purplish shading. Grows tall.

BG314—Tivoli. Beautiful soft rose. 8 to 10 blooms open at once.

POSTPAID PRICES: Your choice of the above, 25c each or 5 for 1.00, postpaid.

BG562X—1 each of all 6 above for only 98c, postpaid.

Gladioli are very aptly called the "Queen of Flowers." They are the most universally grown of all flowers. They grow anywhere, in all sorts of climates. No other flower offers such a wide variety of beautiful colors, including the scarce blues and lavenders. They give you a great deal for your money.

GLADS ARE EASY TO GROW: All gladioli ask is ordinary "potato" care, fairly rich well drained garden soil, and full sunshine. Set bulbs four inches deep—a little deeper in loose, sandy soil. Every 10 days make additional plantings up to July 1st and thus you will have blooms coming on all summer and fall.

Here at Field's we grow hundreds of varieties of Glads. The varieties listed here are the pick of all of them. All Henry Field Glads are State Inspected. All are vigorous.

Money Saving MIDDLE SIZE

Here is a real money saver! This mixture gives you a beautiful assortment of all most expensive varieties at some of the lowest prices. Included are some of the middle size and will bloom this year.

BG585X—20 bulbs for 57c, postpaid.
BG586X—40 bulbs for 1.09, postpaid.

Our "20 GRAND" GLAD Collection

BG570X—A blend of every imaginable color and shade, both plain and ruffled. The bulbs are big, clean, vigorous, and first-class quality. All bulbs will produce gorgeous flowers and are guaranteed to bloom. You really get a lot for your money! 20 bulbs for only 1.00; 2 collections (40 bulbs) 1.85, postpaid.

Henry Field's HARDY CHRYSANTHEMUMS

The pictures at the left show the sizes of the Chrysanthemums in true proportion, ranging from the smallest 1-inch Fuchsia Fairy to the largest 5-inch Tangerine. They are shown at less than one-half actual size.

B1427—HUNTSMAN (Bristol). One of the most brilliant mums we grow. Flowers about 2 1/2 to 3". Solid double. Fine long stems for cutting. 69c each; 3 for 1.89, postpaid.

B1406—ERMINE (Kraus). Rich looking, large, double pure white with center almost lemon yellow. The petals are wide and the flowers full. Frost-resistant. Long stems. 59c each; 3 for 1.59, postpaid.

B1404—DRIFTED SNOW (Kraus). Makes a spreading mound of large 2 1/2" fully double, pure white flowers shaded slightly yellow at center. 49c each; 3 for 1.29, postpaid.

B1419—FUCHSIA FAIRY. Mass of 1"

flat, fully double, fuchsia-colored flowers. This little mum, because of its attractive color and profusion of bloom, is one of the best we have. 59c each; 3 for 1.59, postpaid.

B1443—PINK OPAL (Kraus). A gorgeous 1951 introduction of pale Persian-rose overlaid with cream tints. Large, fully double flowers measuring as much as 4" across. This is a beautiful mum. 69c each; 3 for 1.89, postpaid.

B1460—TANGERINE (Kraus). Very large 4" shabby, bright tangerine colored blossoms on long stems. A fine mum of brilliant fall coloring. 49c each; 3 for 1.29, postpaid.

B1429—LEE POWELL (Kraus). Another brand new 1951 Mum. Huge 4 1/2" flowers like great masses of fluffy Chinese-yellow down. Stems long and fine for cutting. Good grower. Mum of the year for 1951. 69c each; 3 for 1.89, postpaid.

B1403—ALERT (Becker). A very large (3 to 4"), very dark purple mum that flowers early and long. One of the best of its color. 59c each; 3 for 1.59, postpaid.

B1407—CARMINE QUEEN (DePetris). Another very brilliantly colored mum with large 3" double flowers borne on long stems. Showy carmine-red. 69c each; 3 for 1.89, postpaid.

B1410—CHRIS COLUMBUS. A white pompon with pale lemon-yellow center petals. Entirely double. And one of the finest cut flower chrysanthemums. 59c each; 3 for 1.59, postpaid.

B1474—YELLOW AVAANCHE. One of the best yellows. Blossoms 3 to 4" across are brilliant sulphur-yellow. Big bushy plants produce hundreds of flowers. Long stems. 49c each; 3 for 1.29, postpaid.

Leading New Varieties Collection

1 Pink Opal, 1 Ermine, 1 Huntsman, 1 Lee Powell (1951 introduction).
B3124X—1 each of all 4 for 2.19, ppd.
FREE GIFT—1 new mum "Bonfire." Glowing deep crimson. Probably will list this next year at 50c or 60c.

B1422—GLOWING COALS. One of the best reds. Bright, deep, cherry red on long stems. 2 1/2 in. flowers. 45c each; 3 for 1.19, postpaid.

B1461—TAPESTRY (Bristol). A new combination of gorgeous shading. Opens screaming rich pink, slowly softening to ashes-of-roses with golden flush. Flowers fully double and 3" across. Blooms early in Sept. 69c each; 3 for 1.89, ppd.

B1409—CHARLES NVE (Kraus). Large, solid double 3" flowers of brilliant golden yellow. Petals broad and flowers full on long stems. Wonderful for cutting. 49c each; 3 for 1.29, postpaid.

Here's Why Henry Field Mums Are Better Two Ways

First, they are individually pot-grown. They are not just last year's field-grown plants stored over winter. Often such plants are not in good condition when spring comes. Our plants are pot-grown young Chrysanthemums all ready for you to plant and sure to grow.

Secondly, Henry Field's have a sensationally new and better way of growing pot-grown mums. They are not grown in

dirt because dirt dries out in shipment, falls away from the roots so that they dry out and get broken. We grow and ship Henry Field mums in a special, light-weight, fibrous material that soaks up the moisture and liquid fertilizer we add to it while it is growing and again immediately before shipping. This material holds this moisture and fertilizer in shipment. It clings closely around the roots, protecting them from damage and air—keeps the plant alive and growing even while it is on its way to you!

This material doesn't fall away from the roots and you don't remove it. Plant it right in the ground—it has enough fertilizer in it to carry the plant through half the summer on poor soil, and the entire season on good soil.

Any mum plant you get from Henry Field's is a healthy, husky, pot-grown plant that has never suffered damage or shock in shipping or transplanting. And you get Henry's Field's "two-way better" mums at no extra cost!

A healthy, husky, pot-grown mum the way you receive it from Henry Field's, still in the fertilized fibrous material it grew in—ready to plant.

Mum potted in dirt as is commonly done. Smaller, less vigorous when shipped. It arrives in your hands dried out, often broken. Chances are it won't grow into a good plant for you.

Large Flowered, Hardy "Football Mums"

B3125X. These varieties have flowers that measure 4 inches or more across.
1 Lee Powell, 2 Tangerine, 2 Pink Opal
All 6 for only 2.98, postpaid.

Autumn Colors Carnival

B3126X. Check colors on these varieties from pictures at left and you will see why we call it "Autumn Colors Carnival!"
1 Huntsman, 1 Lee Powell, 1 Alert, 1 Carmine Queen, 1 Glowing Coals, 1 Tapestry.
All 6 varieties for only 3.48, postpaid.

CUSHION MUMS

Plants of 1,000 Blooms

Grow in Huge Mounds of Thousands of Blooms: All Bloom 1st Year

B1412—Pink Cushion. The pale pink that blooms early in the fall. 39c each; 3 for 98c, postpaid.

B1414—Red Cushion. Bright red pompon. First red to bloom. 39c each; 3 for 98c, postpaid.

B1411—Bronze Cushion. The best double bronze. Early. 39c each; 3 for 98c, postpaid.

3 Colorful Cushion Mums for only 85c

B3107X. 1 Pink Cushion Mum, 1 Bronze Cushion Mum and 1 Yellow Cushion Mum—all 3 for only 85c, postpaid.

ion. Pure white. 39c each; 3 for 98c, postpaid.

B1416—Yellow Cushion. That very early large flowering golden-yellow one. 39c each; 3 for 98c, postpaid.

B1413—Purple Cushion. Brilliant royal purple. New and showy. 49c each; 3 for 1.29, postpaid.

SUPER GIANT ZINNIAS

1253—Luther Burbank Zinnias. Something new and better. Super giants in size—flowers often 5 inches across! Color mostly delicate pastel shades of pink, peach, lavender and orange. Often two-toned. Pkt. 25c; 3 for 89c, ppd.

FANTASY

1277—These are the new shaggy type Zinnias, almost the shape and size of Cactus Dahlias. They make delicate masses of colors. Mixed colors of orange, red and gold. Pkt. 15c; 2 for 25c, postpaid.

SCABIOSA FLOWERED

1276—Graceful blooms of a single row of bright petals surrounding a close-quilled contrasting center. Have long stems. Extra good for cuttings. Flowers are medium size. Pkt. 12c; 3 for 29c, postpaid.

GIANT DAHLIA FLOWERED

PERSIAN CARPET ZINNIA

1286—A stunning new Zinnia with all the coloring of Persian carpets. Rich tones of reds and golds, and in-between shades. Medium sized blooms. 15 to 18" stems. Make fine cut flowers and are unusually nice in borders. Pkt. 25c, ppd.

MEXICAN or MINIATURE

1279—The most brilliant of Zinnias and one of the most charming. Small flowers lend themselves to bedding and make a brilliant display, yet have stem enough to make fine bouquets. Pkt. 15c; 3 for 39c, postpaid.

PEPPERMINT STICK ZINNIA

1284—Something new in Zinnias! Flowers are striped like peppermint stick candy. Many glorious combinations of red and white, red and yellow, pink and white, orange and yellow, purple and white, etc. Will produce loads of cut flowers until frost if kept picked. Plants medium size. Pkt. 15c (50 seeds) 15c, postpaid.

2 NEW ONES

TINY CUPID

For borders
1281—Sometimes called Border Zinnias. Grow about a foot tall. Flowers small and very double. Blooms freely throughout summer and fall. Makes fine borders or can be used alone. All colors. Pkt. 25c, postpaid.

LILLIPUT

(Baby or Pompon)

264—CANARY GOLD. Shade of clear golden yellow. Pkt. 12c, ppd.

CALIFORNIA GIANTS—

The largest Zinnia grown! Huge double flowers, often as large as dinner plates. Flowers are very distinctive with their large, flat petals and their very attractive flattened shape. Plants are vigorous, and covered with gloriously colored blooms all summer long. California Giants make exceptionally fine cut flowers as they are very thick and last a long time after picked. In fact, one blossom alone is almost a

Zinnias are America's most popular annual flowers. Here is why: They do well anywhere with practically no care. They thrive in hot sun and drought and do well in partial shade. They grow in a variety of sizes, shapes and colors and have few equals for beauty and brilliance. They can be used in beds or borders or as cut flowers.

1265—POLAR BEAR. Whitest of all Zinnias. Pkt. 12c, ppd.

1267—DAHLIA FLOWERED MIXTURE. All of the above shades and many others. Pkt. 12c, ppd.

DAHLIA FLOWERED ZINNIA COLLECTION

1404X—One pkt. each of the above, 7 pkts. in all, for only 59c, ppd.

As Lovely as They are Large

bouquet in itself!

FUCHSIA (Ladies' Ear Drops)

Fuchsias need only cool conditions, with plenty of light, but not hot sun. Thrive in the average home. 2N277—Giant Double Purple. Illustrated at right. It has large double flowers of deep plum purple. 2N278—Winston Churchill. The petals are lavender blue, the sepals are pink. 2N276—Fascination. Double flowers of rose pink with deeper pink sepals. 2N281—Greets. Masses of large, double, crimson colored blossoms. 2N275—Black Prince. Has blackish-purple petals with bright red sepals.

Valerife

2N280—Valerife. Illustrated above. This has gorgeous, double, white blossoms with crimson sepals. 49c each; 3 for 1.39. 2N515X—Collection of 1 each of all seven Fuchsias described here for only 2.80.

FUCHSIA BARGAIN

1 Winston Churchill
1 Black Prince
1 Giant Double Purple
1 Fascination
2N516X—All for 1.69, ppd.

Giant Double Purple

LANTANA

Lantana not only makes a good house plant but is ideal for window boxes or bedding plants. And many people use them outdoors for flower beds and for a border planting. They thrive in hot, sandy soil, but do well in almost any soil. It stays loaded with blooms until frost. If you put them outdoors in summer, pot them and bring them indoors in winter. 2N403—Red. 2N401—Orange. 2N400—Lavender. 2N402—Pink. 2N404—Yellow. 39c each; 3 for 98c.

Lantana Collection

2N532X—1 each of all 5 colors of Lantanas for only 1.59.

Martha Washington Geranium

(Pelargonium) Marie Robet

GIANT VENUS

These plants are commonly called "Martha Washington Geraniums" but they really are Pelargoniums. Be careful not to overwater the plants in fall and winter. They usually bloom for October, and thru Memorial Day. Bloom early spring 'til late fall. 2N532—Marie Robet. Deep black red. 2N534—Azalea. One of the brightest of all Pelargoniums. Huge ruffled flowers of carmine-red with dark blotches.

2N531—Giant Venus. Salmon. 2N533—Springtime. Pink. 49c each; 3 for 1.39, ppd. 2N527X—1 each of above 4—2.49, ppd. 2N535—Flamingo. Gorgeous flame color with golden ed. 79c each; 3 for 2.19, ppd. 2N536—Starburst. Huge ruffled blossoms of pale lilac. 79c each; 3 for 2.19, ppd.

LADY GENEVA

2N295—The flowers of deep blue are edged with a sparkling, frosty white. Good grower. White edge gets more pronounced as plant becomes older. Painted, so grown and sold only under license. 1.50 each; 3 for 4.15.

RED HEAD

2N294—Very beautiful. Not a true Christmas red, like some folks might expect, but it is probably the most popular of all the so called reds. Quick grower and good bloomer. 85c each; 3 for 2.39.

STAR SAPPHIRE

2N194—(Pat. Applied for). A brand new violet from the Robert Craig Co. Abundant large blooms of deepest purple formed in the shape of perfect stars brilliantly set off by triple gold in pollen center. 1.50 each; 3 for 4.15.

DuPont Elbow Pink

2N194—All the DuPont varieties have extra large flowers, but this Silver Pink is among the largest and showiest of the DuPonts. The color is a clear, shining pink with a silvery sheen impossible to picture here. 1.25 each; 3 for 3.45.

This picture shows how DuPont African Violet bloom, on right, averages twice as large as ordinary one on left.

←These 4 African Violets

for only 4.89
2N567X—1 each of the 4 African Violets pictured at the left for only 4.89, post-paid.

DOUBLE ROSE BUD BEGONIA RED

2N229—Loaded with tiny, dainty flowers like little dots of red. Brilliant red tints throughout.

DOUBLE ROSE BUD BEGONIA WHITE

2N222—A multitude of tiny, double, white "roses" against an abundance of bright green foliage.

DOUBLE ROSE BUD BEGONIA PINK

2N221—Has the double, pink flowers like rose buds just about all year around. Begonias should have light, but little direct sun.

2N512X—1 EACH OF ABOVE 3 ROSE BUD BEGONIAS FOR 1.99

RED FLAT

2N340—This is a fine, everblooming Geranium of bright red flowers.

HYVINGTON BEAUTY

2N320—The flowers of this one are a bright shrimp pink. One of the best. Prices on the above 4 Geraniums: 49c each; 3 for 1.39.

SNOWBALL

2N342—An ever-blooming pure white flower, good against the green foliage.

SALMON IMPERIAL

2N343—A real beauty. The clusters of flowers are a clear salmon color.

2N525X—1 EACH OF THE ABOVE 4 GERANIUMS FOR ONLY 1.49

STORKBILL Geranium

DISTINCTION Geranium

VARIEGATED LEAF Geranium

Everblooming SULTANAS

Sultanas make mighty good plants for the average home because they will grow and bloom in sunny window all winter and are ready to put on another show as soon as they are transferred to the garden. Fine window or porch box plants too.

2N453—White

2N450—Red

2N451—Salmon

2N452—Variegated leaf with red flowers. 39c each; 3 for 98c.

SULTANA COLLECTION

2N535X—1 each of the 4 Sultanas described here—all 4 for only 1.29.

BRILLIANT FOLIAGE PLANTS

Begonia Rex

2N244—All the colors of a gorgeous Persian rug make up the brilliant foliage of these plants. 79c each, or 3 (all different) for 2.29.

Coleus

2N414—All colors of the rainbow in beautiful patterns in one plant. Ours are all different. 3 for 99c; 6 for 1.49.

Joseph's Coat

2N415—A very showy variety in several shades of red and green. 69c each; 3 for 1.89.

Brilliant Foliage Collection 2N538X—And they're bright colors too. Our best Coleus and Joseph's Coats. 7 varieties—all different, for 98c. 2 collections for 1.89.

COLEUS

JOSEPH'S COAT

EPHEMIA

Just the thing for the coffee table, end table, or shaded window. 2N416—Deep green (P. Maculosa). 2N417—Leaves green and yellow striped (P. Arizoides). 39c each; 3 for 98c. 2N554X—2 of each of the above—all 4 for only 1.29.

Henry Field's HOUSE PLANTS

For Bedding, Window and Porch Boxes and All Indoor Planting

Nothing takes the place of House plants. Even in full summer, they are indoors joy. And when cold weather comes, and all the outdoor flowers and plants are gone, you have summer right indoors. And even though they are low priced, they are ideal "interior decorations."

How We Ship

We grow our own House Plants, and ship them directly from our own greenhouses to you as soon as weather permits. They are not included in our garden seed or nursery orders shipments. All sent postpaid.

ALL HOUSE PLANTS ARE SHIPPED POSTPAID

AFRICAN VIOLETS

where they get light of the day but not sun except in early morning. Keep in cool, temperature. Average temperature is 60°.

—Improved Blue Deep, intense blue. 1.25 each; 3 for 2.79.

—White Queen, 3 for 2.79.

—White Beauty, 3 for 2.79.

—G. Thomas, new, bright, light waxy and shiny leaves, well above the green foliage, which

ABOUT AIR PARCEL POST: We will ship House Plants by Air Parcel Post if requested to do so. The average Air Parcel Post charge for a House Plant order is about \$1.50. So if you wish air shipment, include that extra amount with your remittance. Any excess payment will be refunded to you.

Potting Soil

4062—Contains Iowa loam soil with added humus, nitrogen, phosphorus and potash, plus Vitamins B1 and B2, plus Rootone for stimulating root growth. 1 gallon enough for 10 to 12 4-inch flower pots. 1/2 gal., 1.10; 1 gal., 1.60, postpaid.

Collection of Giant African Violets

2N568X—1 each of Orchid Giant, Midnight Blue Giant, and Giant DuPont Silver Pink. All 3 for only 3.49.

Quite unusual. 1.25 each; 3 for 3.49.

2N193—Red King. Problem child, deep, "red" of any violet so far. Robust, compact plant with jewel-like, gem-clear blossoms free of any markings. 1.50 each; 3 for 4.49.

2N189—Orchid Giant. Another giant with immense orchid colored blossoms. 1.25 each; 3 for 3.49.

2N196—Tinted Lady. We like this, clear, gray-blue

"Our Finest" Group
2N569X—1 Lady Geneva, 1 Red King, 1 Double Orchid, 1 G. Thomas—all 4 for 5.49.

price on this is \$2.00 (or more.)

2N247—Watermelon Begonia. Not a true begonia, but so-called because the leaves grow in a cluster close to the soil. 1.00 each; 3 for 2.69.

Giant Petunias

Collection
2N571X—1 each of all 6 varieties pictured at the left for only 2.29 postpaid

2N433—Rhapsody

2N429—Allegra

2N434—Sonata

2N431—Minuet

49c each; 3 for 1.19.

2N328—Lemon Scented Crispum Minor (Finger Bowl Geranium). Very tiny leaves; citronella scented.

2N339—Pungent Peppermint. Deeply cut, hairy leaves.

2N338—Nutmeg Scented. Small, round, light green leaves; clusters of tiny white flowers.

2N307—Crownfoot. Illustrated at left. Has delightful pungent scent.

2N572X—Scented Geranium Collection. 1 each of Old-Fashioned Rose, Finger Bowl Lemon, Pungent Peppermint and Lime—all 4 for only 2.89.

Unusual, Beautiful BEGONIAS

Begonias bloom grandly indoors, and are ideal for window boxes, and very showy in the garden. Wherever you plant them, they give a lot of beauty.

12-3—Angel Wing, 1.00 each; 3 for 2.69.

11-3—Angel Wing, 1.00 each; 3 for 2.69.

Wing Jeanne. Brand new and one of the finest. Wing-shaped leaves are waxy and deep green on top, deep red underneath. Flowers pink. 79c each; 3 for 2.19.

2N241—M. Lettuce Leaf. Ruffled leaves of several shades of green tinted red. Dainty pink flowers on long red stems. 1.00 each. (Usual

price on this is \$2.00 (or more.)

2N246—Lettuce Leaf. Ruffled leaves of several shades of green tinted red. Dainty pink flowers on long red stems. 1.00 each. (Usual

price on this is \$2.00 (or more.)

2N518X—1 each of Maple Leaf,

new, Gorgeous, Giant PETUNIAS

Our friends marvel at the variety and size of these new varieties. Double Petunias illustrated at left. The flower in all of them is good 3 to 4 inches across and fully ruffled. A flower is a lot of different colors of a color

accented by brighter veinings. Our pictures fall far short of showing their beauty. They are plants of a dozen uses. Use them as house plants, in window boxes, porch boxes, edgings along the walk and in the flower garden. We planted whole beds of them in

our trial grounds and they looked beautiful. Needless to say, we picked many bouquets from them. They do best in sunshine but practically take care of themselves.

2N432—Nocturne

2N430—Caprice

GERANIUMS

7—Variegated Leafy. Illustrated at left. 1.00 each; 3 for 2.69.

10—Double Apple Blossom. Clusters of large, pink and white flowers. 79c each; 3 for 2.19.

8—Variegated Leaved. Green with yellow edge. Zone splashed red, scarlet flowers. 98c each; 3 for 2.79.

10—Knotted Stockbill. Illustrated at left. 89c each; 3 for 2.39.

Ivy Leaf Geranium. Fine, bushy, fern-like leaves, flower beds. 2N323—red, 2N322—pink, 2N324—white—all 3 for 1.19.

2N349—Variegated Leaved "Distinction." As pictured. 98c each; 3 for 2.79.

Scented Geraniums

2N337—Old-Fashioned Rose. Deeply cut, heart-shaped leaves. Small orchid flowers veined deep purple. Rose fragrance.

2N325—Lemon Scented Prince Rupert. Large leaves. Rose fragrance.

2N326—Lime Scented. Deep green leaves.

GARDENIA

"Mystery"

2N295—Gardenia is the flower of romance. Our southern friends grow them outdoors regularly and easily. But everyone likes to try growing them indoors. Some succeed, some don't. It depends on conditions. You're convinced it is worth the effort when you see the huge, white, double, fragrant blooms. Grow them at room temperature. Plant outside in the summer right in the sun. Water well. 75c each; 3 for 2.10.

HOUSE FERNS

2N260—Boston Fern—Rich dark green. Likes light, no sun. 39c each; 3 for 1.10, ppp.

2N264—Fluffy Ruffles—Decorative; beautiful. 45c each; 3 for 1.19, ppp.

2N263—Emerald Feather (Asparagus Sprengeri). Heavy feeder. 39c each; 3 for 1.10, ppp.

2N270—Lace Fern (Asparagus Plumosus). 39c each; 3 for 1.10, ppp.

2N273—New Artillery Fern. Much branched fleshy stems, twisted and cut. 35c each; 3 for 98c, ppp.

2N520X—Fern Collection—1 each of the above 5 Ferns for 1.69, ppp.

DISH GARDEN and CACTUS Collection

2N539X—An assortment of interesting plants, all different, for your dish garden. 10 Plants for only 1.19. For 39c additional we will also send the famous 2N250 Old Man Cactus.

ANYBODY CAN GROW CACTUS

No. 1—Pileolites Neill No. 2—Angora Bunny No. 3—Mamillaria Elongata No. 4—Notoctenus Mammulosus

Death Valley Survivors 2N548X—1 each of above 4 only 69c.

TABLE FERNS

Delightful little ferns. Make wonderful table plants.

2N272—WIMSETT FERN. Fronds cut into long streamers.

2N266—HOLLY FERN (Pteris Adiantoides). Leaves dark green. Shiny, varnished appearance.

2N261—CACTUS FERN (Pteris Wilsoni). Odd little fern. One of the finest.

2N262—CUT LEAF FERN (Pteris tremula). Bright green, beautifully cut fronds on chestnut-brown stems. Prices: 49c each; 3 for 1.29, ppp.

TABLE FERNS COLLECTION

2N522X—One each of the above 4 TABLE FERNS for 1.59, ppp.

BABY TEARS VINE

2N418—A trailing vine that makes a bright green cascade of tiny, round leaves. Grows anywhere and everyone likes it. 39c each; 3 for 98c.

Pick-A-Back Plant

2N422—Looks like a large leaved strawberry plant. Small plants develop right on the leaves at the base where the leaf joins the stem. These little plants root while on the mother plant by allowing leaf to rest on moist ground. Very attractive foliage. 69c each; 3 for 1.89.

PORCH BOX SPECIAL

Enough plants to give the porch box color and beauty all summer.

2 Geranium Red Flat.

2 Trailing Ivy Leaf Geranium, white.

2 Fuchsia, Fascination—Double pink.

3 Coleus of many colors.

1 Henry's Branching Ivy.

2N506X—All 9 plants for 2.98, ppp.

"NO SUNSHINE" House Plants

2N507X—1 each of Variegated Peperomia, Philodendron, Sansevieria, and Chinese Evergreen—all 4 for only 1.79.

These five house plants thrive in those dark corners that get little or no sunshine, and where many other plants won't grow. They are extra hardy and need little care.

2N412—PHILODENDRON. Everyone knows this one. 39c each; 3 for 98c.

2N411—SANSEVIERIA (Snake Plant). Extra hardy, very useful plant. 39c each; 3 for 98c.

2N413—CHINESE EVERGREEN. Leaves thick dark green. Occasional flowers like little calla lilies. 75c each.

HENRY'S BRANCHING IVY

SPEARHEAD IVY

LOVELY IVIES

2N353—HENRY'S BRANCHING. Very fine and popular. 39c each; 3 for 98c.

2N352—SPEARHEAD. Leaves like spear heads; very branching. 59c each; 3 for 1.59.

2N351—STAR IVY. Small, dark green leaves shaped like tiny, 5-pointed stars. 69c each; 3 for 1.89.

2N356—Gold Dust. Fine new ivy of green dusted with gold. Unusual and beautiful. 98c each; 3 for 2.79.

2N356—Fan Ivy. Leaves like miniature Japanese fans. One of the better ivies. 79c each; 3 for 2.19.

2N354—Grape Ivy. Leaves are shaped like grape leaves. 39c each; 3 for 98c, ppp.

2N350—Glacier Ivy. One of our best, most beautiful, and most useful ivies. Small-leaved, branching, and variegated. 98c each, ppp.

Collection

2N530X—1 Glacier, 1 Star, 1 Spearhead, 1 Henry's Branching, 1 Grape Ivy, and 1 Spearhead Ivy. All 5 for 2.89, ppp.

1.00 Ivy Collection

2N534X—1 Henry's Branching, 1 Grape Ivy, and 1 Spearhead Ivy. All 3 for only 1.00.

GRAPE IVY

GLACIER IVY

FUCHSIA

Trul, Popular KEEPING WILLOW

is a beautiful tree with golden bark, narrow green leaves, and big, drooping branches. Very hardy and vigorous; likes it best where there is some moisture but will grow almost any place. Good lawn tree. We have a good crop of these this year so are making you a bargain on them. For the first year, wrap the trunk with 3" wide strips of paper wound around and overlapped, as the bark is tender. No. A2914X—Three 2 to 4-foot size trees for only 2.49, postpaid.

BEGONIA—variance 2N229—Loaded with all add dainty flowers like little red, pink, white, etc. throughout

4 ENTRANCE EVERGREENS for only \$5.29
2 Pfitzer Junipers, 2' tall, 18" wide, Silver
2 Black, 3' tall, 18" wide, Silver
2 Black, 3' tall, 18" wide, Silver
Postpaid

ROSA MULTIFLORA "The Living Farm Fence"

Trim it hedge-shape or let it grow as a broad fence. Dense, thorny barrier that stops traffic across your yard or garden, or in the field holds all livestock except occasional breachy sow. Still a thing of beauty—clusters of small white flowers followed by masses of red berries. Fine as bird and small game refuge, pasture divider, snow stop, fire break, erosion control. Doesn't sucker and spread. We don't ship the darnin' needle size, but 3 top grades only.

ADD 10% TO YOUR ORDER FOR NURSERY STOCK TO COVER POSTAGE IF YOU LIVE OUTSIDE THIS CIRCLE

In order not to have to raise our low prices on nursery stock, we are making a flat 10% charge on all nursery orders beyond postal zone 4 or roughly 600 miles from Shenandoah. This charge is for NURSERY STOCK ONLY. Garden seed and merchandise, unless otherwise indicated in the catalog, goes out postpaid. In order to figure your postage charge, look at map at right. If you are inside the circle, postage is free. If you live outside the circle, add 10% to the cost of nursery stock. If your order is \$1.00, add 10c. If your order is \$6.30, add 63c, etc. Remember, everything else comes Postage FREE, unless otherwise indicated in the catalog.
